1. HARRY HARPHAM M.P.

1.1 Following the recent passing of former Councillor, Harry Harpham M.P., Members observed a minutes silence in his memory.

2. APOLOGIES FOR ABSENCE

2.1 Apologies for absence were received from Councillors Isobel Bowler, Sheila Constance, Gill Furniss, Alan Law and Vickie Priestley.

3. DECLARATIONS OF INTEREST OR INABILITY TO VOTE ON THE SETTING OF THE COUNCIL TAX

- 3.1. There were no declarations of interest by Members of the Council.
- 3.2 Prohibition from voting on the grounds of Council Tax arrears
- 3.2.1 No Members declared an inability to vote on the setting of the Council Tax on the grounds explained above.

4. PUBLIC QUESTIONS AND PETITIONS AND OTHER COMMUNICATIONS

Petitions

- 4.1 <u>Petition in respect of Homelessness</u>
- 4.1.1 The Council received a petition containing over 30,000 signatures requesting the Council to open up an unused building for the homeless.
- 4.1.2 It had been agreed with the organiser of the petition that it would be submitted as an "ordinary" petition in view of the fact that a petition on the same subject had been debated at the January meeting of the Council.
- 4.1.3 The wording of the petition was as follows:-

'After recent visits to Sheffield I have come across at least 4 of the people I help to be covered in cuts and bruises because they have been violently attached whilst trying to sleep.

We really need to help put a stop to the abuse and homelessness these guys suffer on a daily basis.

Please could we sign and share and together we could make a massive change to help the more vulnerable and less fortunate.'

- 4.1.4 Representations on behalf of the petitioners were made by Kelly Licence, who added that she helped around 25-30 of those out on the streets every week but there was an increasing need for support and something needed to be done.
- 4.1.5 Matthew Mckenney added that all funding for the support came from volunteers and the public. Any night shelter had to be paid for and, as this often came to around £25 a night, many of those who were homeless could not afford to fund this.
- 4.1.6 Councillor Jayne Dunn, Cabinet Member for Housing, thanked Ms. Licence for the petition and for the work carried out. Although the original petition had been submitted to an earlier meeting, she welcomed the petition also being submitted to this meeting as the homelessness problem was getting worse due to the Government's policies. The petition would be considered at a future meeting of the Safer and Stronger Communities Scrutiny and Policy Development Committee.
- 4.2 Petition in respect of Road Safety outside Brightside Nursery and Infant School

The Council received a petition, containing 114 signatures, requesting road safety measures in the vicinity of Brightside Nursery and Infant School. Representations were made by Rebecca Larkin. She commented that there were only two signs warning motorists that there was a school and these were next to the school which did not give motorists enough warning to slow down.

- 4.2.1 A parent who had been in contact with the Council since 2012 requesting road safety measures had recently been involved in an accident with their child near to the school which had left their child in a critical condition.
- 4.2.2 There were numerous incidents of motorists going through red lights near to the school. One of the biggest requirements was better school signage and this could also mean the introduction of a speed restriction zone, a warning light or cameras on the traffic lights.
- 4.2.3 The pavement on Jenkin Road needed an assessment as it was currently not wide enough for parents and children to walk side by side and as a result was extremely dangerous and required the caution of parents. There was also a need for railings on the corner of Jenkin Road and Holywell Road. Ms. Larkin would be willing to discuss any potential measure with the Council to improve safety around the school.
- 4.2.4 Councillor Terry Fox, Cabinet Member for Environment and Transport, thanked Ms. Larkin for the petition. He was aware of the situation as he had relatives who attended the school. There were a number of road safety issues and Councillor Fox had spoken to School Governors about the problems.
- 4.2.5 There were a number of areas across the City which needed road safety measures and unfortunately there were a number of motorists who ignored traffic calming measures. Councillor Fox would welcome a meeting with the petitioner to look at all the possible measures to address the situation.

Public Questions

4.3 <u>Public Question in respect of the Northern Powerhouse</u>

Dawn Sanders commented that there had been a number of recent stories in the press in respect of the so-called 'Northern Powerhouse'. There appeared to be mixed messages as despite the Government's comments about the Northern Powerhouse most of their spending still appeared to focus on the South of the country. Clarification was therefore needed. How was the Council seeking to jump start the Northern economy when at the same time they were accepting cuts from Central Government?

- 4.3.1 Councillor Julie Dore, Leader of the Council, commented that this was an issue raised constantly in the North. It was an issue that was pertinent to what would be discussed at today's meeting in respect of unfair and unnecessary cuts which seemed to affect those more in the North than in the South.
- 4.3.2 On the one had the Chancellor of the Exchequer and the Government were promoting the North around the world as the place to invest whilst at the same time disinvesting in the North by taking jobs and the money down South.
- 4.3.3 There were two potential forthcoming hopes for the City. The first of which was devolution where discussions had been held with the Government for a number of months to ensure the City Region got the best deal. The second was Transport For the North which was soon to become a statutory body with plans for infrastructure and investment in the City. Further funding and powers would be sought for this to improve interconnectivity across the region.
- 4.3.4 The City Region and the City were working hard to fight against the Government cuts whilst arguing for further devolution to create jobs which were badly needed across the City.
- 4.4 Public Question in respect of Budgets
- 4.4.1 Heather Parys asked, given that budgets are being cut across the City, should the Members of the Council not accept a cut in their allowances?
- 4.5 Public Question in respect of Budgets
- 4.5.1 Michael Barge commented that the Council had debts of £467m. He asked where had this debt come from and did it suggest competent financial management by this and previous administrations?
- 4.5.2 In response to the questions in paragraphs 3.4 and 3.5, Councillor Ben Curran, Cabinet Member for Finance and Resources, stated that this did not demonstrate incompetence. Any borrowing was used to invest such as for the Sheffield Retail Quarter and improvements to schools, homes and leisure centres in order to deliver a vibrant City.

- 4.5.3 Councillor Curran added that Members allowances had been frozen for the past 6 years. The number of Special Responsibility Allowances had been reduced and Councillors no longer had a pension. Spending on Members allowances had fallen by £267k over the last 5 years.
- 4.6 <u>Public Question in respect of the Housing and Planning Bill</u>
- 4.6.1 Shirley Frost asked would the Council acknowledge the national campaign being waged against the Housing and Planning Bill initiated by Defend Council Housing, a tenant led non-party political campaign and stand up and be counted at the national demonstration in London on 13 March?
- 4.6.2 Ms. Frost further requested that the Council tell all the tenants, housing workers and Councillors the truth that the Conservative Government's Housing and Planning Bill 2015 was designed and intended to destroy Council housing for purely ideological and self serving reasons by means of insecure short term tenancies instead of secure lifetime tenancies, means tested/market style rents for households with an income of £30,000 plus and forced sales of the Council's high value homes into the private sector with no compensation which tenants have fully paid for through their rents and that this will drain the Housing Revenue Account of monies and services needed to maintain and improve its 40,000 properties to a decent standard, put housing workers jobs at risk, create fear and insecurity now and for the existing 40,000 and future Council tenants, break up communities and social cohesion, be to the detriment of large areas of the City and make the waiting list longer.
- 4.6.3 Ms. Frost requested that the Council acknowledge that the politicians alone could not stop this Bill becoming law and that extra parliamentary action was needed to stop it devastating people's needs and that tenants had a right to know how they were going to be affected and a right to defend themselves.
- 4.6.4 Ms. Frost further asked the Council to give every possible support to this campaign by following the excellent example set by Camden Council and Nottingham City Homes by urging the City's tenants and residents associations to support the national campaign, making a statement that expresses this and canvass local newspapers and radio to relay this message, organising a high profile public meeting with supportive speakers as a call to action as a matter of urgency to Sheffield tenants that they had a right to defend themselves, their homes, their communities and their future, agreeing to cross-party support for the campaign until the Bill had been defeated, setting up a joint campaign task group composed of tenants, Councillors, housing workers and their trade unions to monitor the passage of the Bill, its aftermath if it is passed and take appropriate action to stop it devastating tenants, homes and communities and liaising with local Housing Associations and their tenants for an inclusive and City wide campaign.
- 4.6.5 Councillor Jayne Dunn, Cabinet Member for Housing commented that she supported every word of Ms. Frost's question. Councillor Paul Wood had brought a motion to the previous month's Council meeting in respect of this which had been passed. The issue had also been discussed at a recent meeting of the City

- Wide Forum. Councillor Mazher Iqbal, Cabinet Member for Public Health and Equality, would be meeting with Ms. Frost and a public meeting would be organised.
- 4.6.6 Councillor Dunn had spoken to John Healey M.P. (Shadow Housing and Planning Minister) about the issue and he had raised it in Parliament. Although it was an issue which was at the forefront of Members' discussions, it had largely been ignored in the media as it focused on social housing. Therefore, Councillor Dunn encouraged Ms. Frost and others to keep demonstrating against the Bill so that the media begin to recognise the strength of people's feeling. The Council would be mounting a campaign against the Bill.
- 4.7 <u>Public Question in respect of Dropped Kerbs</u>
- 4.7.1 Martin Brighton stated that the Disability Equality Hub had prioritised public transport, and similar representations had been made at the Age Equality Hub and the Housing Equality Group and especially from a community group in the South West of the City.
- 4.7.2 Mr Brighton added that the statutory principle within the Equalities Act was that installing drop kerbs to provide wheelchair users access to bus stops was a 'reasonable adjustment'. It was pleasing therefore for Mr Brighton to hear at the South Yorkshire Passenger Transport Executive (SYPTE) public meeting of last Monday that the Council would be installing drop kerbs appropriately near to bus stops so that wheelchair users would no longer be excluded from public transport, and that the work can be included within the Amey remit.
- 4.7.3 To help the Council identify where the drop kerbs were needed throughout the City, could this Council consider inviting all community groups, including TARA's, to visit the bus stops in their area to determine whether or not they were accessible to wheelchair users and would the Council please publish a timescale for completion of this work?
- 4.7.4 Councillor Terry Fox commented that the public meeting referred to by Mr Brighton had been a very productive meeting. Drop kerbs would be installed following the completion of Streets Ahead work but it was difficult to confirm exact timescales for this at this stage. These issues may be discussed with the Transport 4 All Group and if any TARA representative wished to write in to discuss equality issues this would be looked into.
- 4.8 Public Question in respect of an Elected Member
- 4.8.1 Martin Brighton commented that at the last Cabinet meeting he asked a series of questions that concerned an unnamed Elected Member who was present at the meeting today. Would the Council Leader, for the benefit of the press, public and all Elected Members, please identify that Elected Member here and now?
- 4.8.2 Councillor Julie Dore responded that as Mr Brighton had not named the Elected Member she did not know who the guestion referred to.

- 4.9 Public Question in respect of Council Officers
- 4.9.1 Martin Brighton asked if the Chamber thought it reasonable that when a senior officer made a statement or promise or undertaking, that that person should be trusted to keep their word? Did the Chamber also think it reasonable that when a senior officer did not keep their word, they could and should be named here and now? This question also applied to Elected Members.
- 4.9.2 Councillor Julie Dore stated that the Council had a complaints procedure and a Standards Committee and if Mr Brighton believed he had evidence of inappropriate behaviour it should be referred through those processes.
- 4.10 Public Question in respect of Honesty and Accountability
- 4.10.1 Martin Brighton asked if the Chamber agreed with published assertions that political pragmatism, damage limitation and reputation management had primacy over openness, honesty and accountability?
- 4.10.2 Councillor Julie Dore responded that she did not agree with this.
- 4.11 Petition in respect of 20mph Zone around Walkley Primary School
- 4.11.1 The Council received a petition containing 55 signatures, requesting a a 20mph zone be introduced around Walkley Primary School.
- 4.11.2 There was no speaker to the petition.
- 4.11.3 The Council referred the petition to Councillor Terry Fox, the Cabinet Member for Environment and Transport.
- 4.12 Petition in respect of Cuts in Funding for 'Walking for Health'
- 4.12.1 The Council received a petition containing 30 signatures, requesting the Council to reconsider its decision to cease funding the Walking for Health Co-ordinators post.
- 4.12.2 There was no speaker to the petition.
- 4.12.3 The Council referred the petition to Councillor Mazher Iqbal, the Cabinet Member for Public Health and Equality.

5.1 RESOLVED: That on the Motion of Councillor Pat Midgley, seconded by Councillor Peter Rippon, it be approved that Councillor Ian Saunders be appointed as the Council's Heritage Champion.

- (c) it approves the Corporate Resource Pool (CRP) policy, outlined in Appendix 4 of the report, such that the commitment from the CRP is limited to one year and no CRP supported schemes are approved beyond 2016-17 unless explicitly stated, and that further reports would be brought to Members as part of the monthly approval process should the receipts position improve."
- 9.2 Whereupon, it was moved by Councillor Ben Curran, seconded by Councillor Julie Dore, that the recommendations of the Cabinet held on 17th February, 2016, as relates to the City Council's Revenue Budget and Capital Programme 2016/17, be replaced by the following resolution:-

RESOLVED: That this Council:

- (1) regrets that since 2010, the previous coalition government and the current government have decimated central government funding to Sheffield City Council, and notes that the Council's funding from central government has been cut by around a half and the Council has had to make cuts of over £300 million;
- (2) recalls that in the original 2010 Comprehensive Spending Review, the Coalition Government committed to eliminating the deficit within four years, meaning that the Council's 2016/17 budget was estimated to be the second year that the cuts were over;
- (3) believes that the fact that the Council now faces further cuts over coming years is a damning indictment of the failure of the previous coalition government who failed to eliminate the deficit despite inflicting unprecedented cuts to public services;
- (4) regrets that the current government are continuing the previous coalition government's policy of cutting local government services to the bone at the same time as giving tax cuts benefiting millionaires;
- (5) recalls the comments of the former Liberal Democrat MP and Chief Secretary to the Treasury, Danny Alexander, that local government had "borne the brunt of deficit reduction" under the previous coalition government;
- (6) notes that last year's Comprehensive Spending Review outlined plans to virtually eradicate central government grant funding for local authorities and believes that leaving only Council Tax and business rates to fill the gap is completely inadequate to fund the services local people need, particularly given ever escalating costs of services such as social care;
- (7) regrets that like the previous coalition government, who gave some of the wealthiest areas of the country virtually no cuts at the same time as hitting northern towns and cities the hardest, the current government at the last minute introduced a fund to bail out the wealthy Conservative-controlled councils to appease backbench Conservative MPs;

- (8) notes that out of the £300 million relief fund, of which Sheffield will receive nothing, the largest beneficiary will be Surrey, which will get £24m, with £19m going to Hampshire, £16m to Hertfordshire, £14m to Essex, £12m to West Sussex, £11m to Kent and £9m to Buckinghamshire, and in total 83% of the funding has been given to Conservative-controlled councils, typically in the most affluent areas of the country, whilst councils in more deprived areas with the greatest level of need are not being supported despite receiving much greater cuts over the last five years;
- (9) believes this politically motivated fund to bail out wealthy Conservativecontrolled councils is a disgrace, especially given the fact that they were given relative protection from cuts under the previous coalition government;
- (10) fully opposes the reported Government plans to abolish attendance allowance as part of business rate localisation as a further cynical ploy to devolve cuts and supports the petition to Government on the 38 Degrees website "Don't abolish attendance allowance" which has received over 100,000 signatures and notes the legitimate concerns expressed in the petition "The government claims that local authorities will step in to fill the gap in provision created by scrapping attendance allowance. But in the face of sweeping cuts imposed on their budgets, local authorities may find that administering such an allowance is beyond their means. What guarantees will there be that local authorities will have sufficient funds to match the current rates?":
- (11) believes that given the dreadful financial settlement given to the Council and the terrible legacy of the Coalition Government on local government finance, the present Administration have protected front line services as far as possible and focused on protecting services for the most vulnerable;
- (12) believes that due to the magnitude of government cuts over the past six years and increased pressure on services, it is unavoidable to increase Council Tax by 1.99 percent, which equates to 33p a week for most households:
- (13) further believes it is unavoidable to implement the Chancellor's social care "precept" of two per cent; the new national policy announced in last year's spending review and believes this is just another example of a cynical ploy by the Government who promised not to increase taxes but are forcing the increases on local authorities:
- (14) notes that the precept fails to address the increased cost of providing social care alone and believes that the real issues that the Government must address is the funding of local authorities and tackling the social care crisis, however, believes it would be irresponsible not to use this funding to protect care services as far as possible;
- (15) welcomes the commitment of the present Administration to increase the Council Tax Hardship fund by an extra £200,000 this year to help those who

struggle to be able to pay their bills;

- (16) welcomes the action taken by the present Administration to ensure the introduction of the Living Wage for all Council staff and the progress that has been made over the past year which has seen more of the Council's contractors pay the Living Wage, and believes it should be a priority to work across the city with partners over the next year to ensure that substantive action is taken to encourage and support more employers throughout the city in the public, private and voluntary sector to pay the Living Wage;
- (17) therefore welcomes the innovative new scheme developed by the Administration to incentivise a number of local employers to pay the Living Wage through offering business rate discounts to employers who choose to do so as a means of supporting them with the extra costs as a transitional arrangement and welcomes that the Administration proposes to make £250,000 of the projected revenue underspend available to achieve this, meaning the fund becomes £500,000 with the other 50% being funded from the collection fund;
- (18) believes the Sheffield approach is in stark contrast to the Chancellor who, as reported, simply believes it is adequate to re-brand the National Minimum Wage as the National Living Wage, which does not meet the cost of living as calculated by the Living Wage Foundation;
- (19) recalls that the Council Tax Hardship Fund was a scheme developed and implemented by the present Administration as a means of protecting those hardest hit by the Coalition Government's cuts to Council Tax Support;
- (20) welcomes the action taken by the Administration to give greatest protection to frontline services by focusing savings to accommodation costs, IT and corporate services to ensure these functions are operating as efficiently as possible;
- (21) notes that over the past four years, the Council has made £6.8 million in management savings, which includes savings to the Housing Revenue Account, and asks the Chief Executive to undertake a further review to make further savings as the Council faces further cuts in the coming years;
- (22) recalls that in addition to decimating local government funding, the Government is also hitting small businesses hard through the abolition of the Retail Rate Relief;
- (23) believes that the proposal will have a damaging impact on Sheffield and could hinder attempts to bring empty shops back into use, and therefore proposes to use £185,000 of the projected revenue underspend to develop a local rate relief scheme targeted at bringing empty shops back into use and believes that this proposal will have a positive impact on neighbourhoods who suffer when local shops in their community are empty;
- (24) regrets the impact that the cuts to local government funding have had on

- communities across the city and welcomes the commitment of the present Administration to allocate £137,000 of the projected revenue underspend to fund community projects, responding to requests that have been made from local communities to improve their areas;
- (25) notes that as a result of budget cuts, there could be up to 400 Council posts affected during the financial year 2016/17, including job roles that could be lost through voluntary severance or voluntary early retirement, as well as any vacancies that have not been filled;
- (26) expresses sincere and heartfelt sympathy to those members of staff who are losing their jobs through compulsory redundancy and regrets that the Government's cuts agenda has made compulsory redundancies unavoidable:
- (27) places on record its thanks to the staff who continue to serve the Council in these incredibly difficult times, which year on year leads to uncertainty about their own futures and that of their colleagues, many of whom are left to pick up an increased workload as a result of the cuts to staff numbers;
- (28) requests the Interim Executive Director, Resources to implement the City Council's Revenue Budget and Capital Programme 2016/2017 in accordance with the details set out in the reports on the Revenue Budget and Capital Programme now submitted, but with the following amendments:-

Use of 2015/16 projected revenue underspend

Savings proposals	(£'000)	Spending proposals	(£'000)
Temporary reductions in spending:		Temporary additions to budget:	
Use of 2015/16 projected revenue underspend (The carry forward from the 2015/16 budget is subject to approval by Cabinet at its meeting on 9 March 2016. If this carry forward is not approved by Cabinet the amount will be met from Reserves)	523	Bringing Empty Shops Back Into use - business rate relief to bring empty properties into use	185
Remainder of 2014/15 underspend available (This was approved by Cabinet as part of the 2014/15 outturn report)		Living Wage Business Rate Relief - to encourage local businesses to pay Living Wage	250
		Community Investments - working with local communities to improve their area	137

Use of projected revenue	572	One-off spending proposals sub-	572
underspend sub-total		total	

- (29) notes those specific projects included in the years 2016/17 to 2021/22 Capital Programmes at Appendix 9 of the report on the Capital Programme, and that block allocations are included within the Programme for noting at this stage and detailed proposals will be brought back for separate Member approval as part of the monthly monitoring procedures;
- (30) notes the proposed Capital Programme for the 5 years to 2021/22 as per Appendix 9 of the report on the Capital Programme;
- (31) approves the Corporate Resource Pool (CRP) policy outlined in Appendix 4 of the report on the Capital Programme such that the commitment from the CRP is limited to one year and no CRP supported schemes are approved beyond 2016-17 unless explicitly stated, and that further reports will be brought to Members as part of the monthly approval process should the receipts position improve;
- after noting the joint report of the Chief Executive and the Interim Executive Director, Resources now submitted on the Revenue Budget 2016/17, approves and adopts a net Revenue Budget for 2016/17 amounting to £406.057m, as set out in Appendix 3 of that report, and subsequently amended in the light of paragraph (28) above, as follows:-

		Appendix 3

That the recommendations of the Cabinet held on 17th February, 2016, as relates to the City Council's Revenue Budget and Capital Programme 2016/17, be replaced by the following resolution:-

RESOLVED: That this Council:

(1) notes that the people of Sheffield deserve a City Council that provides good value for money, is open for business, is responsive and listens to its residents, and protects both our environment and our heritage which makes Sheffield such a special place to live;

- (2) believes that for too long the people of Sheffield have been taken for granted by this Administration who refuse to listen and continues to allow poor and unpopular decisions such as:-
 - (i) the recent disastrous cuts to Sheffield bus services by the Sheffield Bus Partnership which saw Sheffield take the bulk of the cuts to South Yorkshire's transport budget;
 - (ii) the continued felling of many of Sheffield's healthy highway trees; and
 - (iii) the sale of Cobnar Cottage, that was gifted to the people of Sheffield by J.G. Graves and falls within the bounds of Graves Park, despite a 12,000 strong petition to stop the sale;
- (3) notes that whilst blaming financial pressures for the bulk of these decisions, with no date yet set for this Council to sign the devolution deal, £30million of funding for the Sheffield City Region is at risk if the devolution deal is not signed by this Council by the end of March, and believes that this is largely due to the failure of the Leader of the Council to negotiate a good deal for Sheffield;
- (4) regrets that because the proposed devolution deal was signed to meet the timetable set by the Chancellor of the Exchequer and the timing of the Conservative Party Conference, important issues of governance remain unresolved, and failed to include contributions from many central government departments, and therefore, even if this deal is agreed, Sheffield and the wider City Region will remain highly dependent on Government spending decisions;
- (5) furthermore, condemns the missed opportunities overseen by the current Administration, leading to additional pressures on our budget, noting in particular:-
 - (i) that this city remains saddled with the debt run up by previous Labour administrations, including around £25 million every year until 2024 to pay off the disastrous World Student Games despite the fact that the Don Valley Stadium has now been demolished; and
 - (ii) that this Administration has splashed out millions on high paid consultants, Council offices and political pet projects, squandering funds which can never be regained for local taxpayers;
- (6) notes that whilst the Liberal Democrats were in government, Sheffield City Council was given a total of £15.704 million to help freeze Council Tax for a fifth consecutive year, saving families around £200 cumulatively by the fifth year;
- (7) notes under the new Conservative Government, this funding is no longer available and the Government is attempting to force local authorities to raise taxes;
- (8) condemns the current Government's intention within this Parliament to remove

- all Revenue Support Grant, and is concerned that the resulting mix of Council Tax, Business Rates, and fees and charges do not provide a sound basis for covering all current Sheffield City Council services;
- (9) notes that under the current Government's proposals, growth in business rates are even more important for a successful city and as income for the City Council, but believes that due to the mismanagement of the project by the Administration on the New Retail Quarter, Sheffield's business rate income is lower than it should be:
- (10) notes the considerable increased demand on adult social care both locally and nationally, and believes this would be best funded by central government, including through the Better Care Fund, however, accepts the 2% national arrangement for the social care precept to cope with this demand when no other funding is forthcoming;
- (11) notes that in addition to the 2% adult social care precept, the Administration have chosen to raise Council Tax by 1.99%, bringing the total rise to 3.99%;
- (12) notes that this comes on top of increases in both the Fire and Rescue and Police and Crime precepts which will lead to a squeeze which will be felt by Sheffield tax payers city wide;
- (13) notes that, despite this, the Liberal Democrat alternative budget proposes only to take the 2% 'Osborne Tax' rise for adult social care and freeze the rest, 1.99% less than the Administration's budget, by making simple savings such as:-
 - (i) reducing budgets for Trade Union officials, which have been consistently protected to the detriment of front-line services;
 - (ii) reducing posts in communications, policy and research, political support and performance;
 - (iii) the deletion of four senior management posts through a restructuring;
 - (iv) a reduction in pay for the very highest earners in the Council to produce a more equal structure; and
 - (v) giving staff an extra 3 days unpaid leave to protect Council jobs;
- (14) notes that these savings, along with the use of revenue underspend and New Homes Bonus, would enable the Council to continue to provide good value for money and work in a more business friendly, environmentally sustainable way by:-
 - (i) supporting hard-working Sheffield families suffering in the cost of living crisis by keeping their Council Tax down;
 - (ii) supporting city centre businesses by instigating free parking on Sundays, in line with other large cities;

- (iii) supporting Associate Libraries by employing professional librarian support;
- (iv) reversing cuts to the parks budget;
- (v) upping investment in brownfield sites to protect our green open spaces from development;
- (vi) researching into the possibility of a 'Sheffield Pound' a local currency which would help local independent businesses;
- (vii) giving local people a greater say in how money is spent in their area by giving more control and funding to Local Area Partnerships;
- (viii) supporting our local shopping centres by further investment in our local shopping centres in Woodseats and Hillsborough; and
- the creation of a new 'Community Environmental Fund' an additional pot of money for local communities to decide how best they would like to invest in their environment whether that be the retention of highway trees, cycle lanes or inventive recycling schemes;
- therefore requests the Interim Executive Director, Resources to implement the City Council's Revenue Budget and Capital Programme 2016/2017 in accordance with the details set out in the reports on the Revenue Budget and Capital Programme now submitted, but with the following amendments:-

* Advice of the Chief Executive & the Section 151 Officer

The Council has always applied the approach that NHB funding is to be used to fund oneoff schemes that support growth, housing and infrastructure. As NHB funding is a timelimited funding source, the Council's view has been that it is not prudent to use these funds to support on-going annual revenue expenditure. Using NHB to support revenue spend is not a sustainable strategy, as it simply defers identifying spending reductions for one year. It also displaces various growth, infrastructure etc schemes that would have been brought forward to be funded by NHB.

In addition there is already a significant degree of risk in our on-going revenue budgets. In particular the 2016/17 revenue budget includes £24.6m of pressures, and similar levels of pressures are anticipated for 2017/18, as there is a further RSG reduction of £22.8m in 17/18. The Council's 2016/17 budget also includes £9.3m of one-off funding for the Better Care Fund that has not been confirmed beyond 2016/17, so resources to fund some or all of this amount might have to be identified in 2017/18.

Consequently officers' advice is that it would not be prudent to add a requirement to identify a further £1.816m reduction in our 2017/18 budget, which would be necessitated if NHB and the 2015/16 non-recurrent underspend are used to reduce Council Tax income. For the avoidance of doubt, officers are not saying that the use of these monies in this way would be unlawful, however we would advise against it because it is likely to lead to an unsustainable future budget.

9.4 It was then moved by Councillor Robert Murphy, seconded by Councillor Aodan Marken, as an amendment that the recommendations of the Cabinet

- held on 11th February, 2015, as relates to the City Council's Revenue Budget and Capital Programme 2015/16, be replaced by the following resolution:-
- (1) deplores the cuts to local authority funding being imposed by central government and applauds the efforts of politicians and campaigners calling for an alternative to austerity;
- (2) thanks the officers of the Council and in other organisations directly affected by the austerity programme in the way they have responded to the cuts and made sacrifices:
- (3) notes that, this year, over £9 million of additional cuts are needed because of pressures and additional spending, which we believe arises from the lack of flexibility in long-term outsourced contracts with just two private companies, specifically the Waste Management and Streets Ahead contracts;
- (4) further notes the intention of Government to reduce the main source of local authority funding, the Revenue Support Grant, to nil and to switch funding to business rates in their own areas, a move which will favour more affluent areas of the country;
- therefore recognises that austerity is not going to go away and that Elected Members in Sheffield, however difficult the crisis we face, have a responsibility to do the best they can for the people of Sheffield, prioritising the available resources to protect communities and the most vulnerable and working towards a more equitable and resilient city;
- (6) believes that the people of this city want a Council that listens to them and takes their genuinely-expressed concerns into account;
- (7) therefore, will open up Council meetings to public scrutiny by online web broadcasting;
- (8) will cut political spin emanating from the Town Hall by cutting the posts of Group Policy Officers and requiring politicians to do their own research and press work;
- (9) will install a maximum 10:1 pay ratio between the highest and lowest paid Council officers, closing the gap by reducing the pay of those on the highest salaries over £50,000 a year;
- (10) will further reduce up to 2 posts in the HR Service to protect frontline services;
- (11) will reduce cuts to services for the older and disabled people and help ensure decent pay and conditions for care staff, putting an extra £253k into adult social care;
- regrets not having taken up the option of a significant investment in jobs in the renewable energy industry when proposed in 2014, to reduce fuel bills and create an income stream for other services, and also regrets abandoning the

subsequent scheme adopted in 2015 once the Government reduced support for renewable energy in favour of dirty sources such as nuclear, diesel and fracking;

- (13) believes, however, this Council can use the economies of scale available to it and will invest in a further scheme of solar panel installation on the Council's housing stock by re-prioritising capital funding within the Housing Revenue Account:
- will create or maintain further jobs by setting aside unallocated New Homes Bonus funding to identify and survey brownfield sites for re-use for new housing and business, so as to minimise the impact of new building on the green belt or those brownfield sites that provide particular benefits to wildlife or the local community:
- (15) will also create jobs by setting aside further unallocated New Homes Bonus funding to invest in a fund for energy efficiency schemes in maintained schools;
- will put further resources into turning empty properties into much needed homes by investing a small amount of New Homes Bonus funding in further enforcement work in this area, which will in turn generate increased NHB funding as homes are brought back into occupation;
- will also reverse the proposed cut in private sector housing, in order to ensure higher standards in this sector;
- (18) will use the £523,000 one-off sum from the Council's 2015/16 underspend to:
 - develop proposals to introduce a workplace parking scheme, to improve air quality and generate further revenue for public transport investment;
 - (ii) develop proposals to offer more policing and services related to the night-time economy by ensuring high-value businesses make an appropriate contribution to social costs through use of a night-time levy scheme;
 - (iii) double the sum available for discretionary spending by councillors on small-scale ward-level projects;
 - (iv) increase the hardship fund to £1m to alleviate the impact of increased Council Tax bills, in particular on the 30,000 lowest-income households affected by the loss of Council Tax Benefit and that have seen by far the biggest increase in Council Tax in recent years; and
 - (v) will invest £20k of the Local Growth Fund (New Homes Bonus) to install solar panels on the Park Centre as part of its roof renovations, thereby reducing fuel bills and increasing the sustainability of the building;

- (19) will reduce the price of permits in parking permit zones to 2010 levels by shifting the cost of parking in these residential PPZ to non-residents, meaning that people living in some of the most congested and polluted areas of the city are not subsidising other transport services;
- (20) further, will prioritise the installation of 20mph zones in areas with the worst road safety accident statistics and, therefore, will re-prioritise funding available in the Local Transport Plan programme to a default 20mph speed limit in the city centre;
- recognises the importance of children learning to use public transport safely and therefore will provide funds to mitigate the impact of the 10p rise in children's bus fares:
- (22) will forego any increase in Members' allowances;
- therefore requests the Interim Executive Director, Resources to implement the City Council's Revenue Budget and Capital Programme 2016/2017 in accordance with the details set out in the reports on the Revenue Budget and Capital Programme now submitted, but with the following amendments:-

Abstained on the amendment (0) - Nil

- 9.5 It was then moved by Councillor Jack Clarkson, seconded by Councillor John Booker, as an amendment that the recommendations of the Cabinet held on 17th February, 2016, as relates to the City Council's Revenue Budget and Capital Programme 2016/17, be replaced by the following resolution:-
- (1) regrets the high levels of cuts that the Government is imposing on local authorities, and notes that more prosperous southern shire counties are suffering far less than northern towns and cities;
- (2) believes that a cut in the Revenue Support Grant of over £25 million in one year is both unacceptable and irresponsible, and that future cuts of a similar level will have a disastrous effect on the provision of public services in this city;
- (3) welcomes the fact that by the end of this Parliament, councils will be able to retain all money raised through Business Rates, but urges that this process be speeded up in order to offset the loss of funding from the cuts in RSG;

- (4) believes that Britain's contribution of £13 billion to the European Union last year would have been better spent protecting frontline services from the Government's spending cuts, and that only by leaving the EU and restoring self-government can we ensure that our public services will be adequately funded in the future;
- (5) believes that the £52 billion the Conservative Government, supported by the Labour Party and the Liberal Democrats, intends to spend on the HS2 vanity project would be better spent on investment in inadequate existing transport infrastructure and high speed broadband;
- (6) welcomes the extra funding that will be available to the Sheffield City Region as part of its proposed devolution deal, but is concerned about the potential lack of oversight and accountability of a powerful directly elected mayor between elections;
- (7) is concerned by what it believes to be exorbitant prices charged for some work carried out under the strategic preferred partnership contracts, and believes that the taxpayers of Sheffield would be better served by bringing a number of these services back in-house:
- (8) is appalled that previous administrations have allowed the Council to accrue outstanding loans to the value of £467 million, which amounts to over £800 for each resident of this city, and which will require interest payments in the financial year 2016/17 alone of £20 million;
- (9) believes that Council Members and executives must not be immune from savings, and proposes that they should set an example by making the following changes to pay and allowances:
 - (i) a 5% cut in the Basic Allowance paid to Members;
 - (ii) a 10% cut in Special Responsibility Allowances paid to eligible Members, and the abolition of the Cabinet Advisor SRA; and
 - (iii) a 10% cut in the salary of any Council employee paid over £100,000 per annum;
- (10) proposes to make further savings by cutting 10% from the translation and interpretation budget, with a view to introducing charges for non-statutory translation services as soon as possible;
- (11) proposes to improve the appearance of parts of the city by:
 - (i) moving the pest control service to a fully self-financing model to discourage fly tipping and poor refuse management practices;
 - (ii) employing two full time enforcement officers to target areas prone to fly tipping, littering, and poor refuse management practices; and

- (iii) funding an awareness and education campaign, including signs and leaflets, to discourage fly-tipping and littering and encourage proper refuse management practices;
- (12) proposes to use part of the New Homes Bonus to fund two floodlit football pitches and a covered area on vacant land on Wensley Street in S4, with the aim of bringing communities together and providing a recreation facility for local children and young people;
- (13) proposes to use £473,000 of the Council's underspend from the financial year 2015/16 to reverse some cuts to the Activity Sheffield budget, by awarding grants to community groups and organisations to provide:
 - (i) pop-up gyms and boxing gyms in community centres and local venues;
 - (ii) fitness programmes, similar to the Bartendaz project in New York, promoting outdoor exercise and healthy living, and combating childhood obesity; tackling problems of crime, antisocial behaviour, and drug and solvent abuse; and working towards a more cohesive community; and
 - (iii) joint working with TARAs to realise these projects with the intention of having them in place for the start of the school summer holidays;
- (14) proposes to use the remainder of the savings identified in the 2016/17 Revenue Budget to provide mitigation for elderly and disabled residents of Sheffield to have free train travel in South Yorkshire:
- (15) therefore requests the Interim Executive Director, Resources to implement the City Council's Revenue Budget and Capital Programme 2016/2017 in accordance with the details set out in the reports on the Revenue Budget and Capital Programme now submitted, but with the following amendments:-

- Calculate that the Council Tax requirement for the Council's own purposes for 2016/17 (excluding Parish precepts) is: £ 179,927,895.
- 3. That the following amounts be calculated for the year 2016/17 in accordance with Sections 31 to 36 of the Act:

Section 31B of the Act).

- (d) £1,364.2816 being the amount at 3(c) above (Item R), all divided by item T (1(a) above), calculated by the Council, in accordance with Section 31B of the Act, as the basic amount of its Council Tax for the year (including Parish Precepts).
- (e) £503,423 being the aggregate amount of all special items (Parish precepts) referred to in Section 34(1) of the Act (as per the attached Appendix 6b).
- (f) £1,360.4751 being the amount at 3(d) above less the result given by dividing the amount at 3(e) above by Item T (1(a) above), calculated by the Council, in accordance with Section 34(2) of the Act, as the basic amount of its Council Tax for the year for dwellings in those parts of its area to which no Parish precept relates.
- 4. To note that the Police and Crime Commissioner and the Fire and Rescue Authority have issued precepts to the Council in accordance with Section 40 of the Local Government Finance Act 1992 for each category of dwellings in the Council's area as indicated in the table below.

9.6 The original Motion, as amended, was then put as a Substantive Motion in the following form and carried:-

RESOLVED: That this Council:

- (1) regrets that since 2010, the previous coalition government and the current government have decimated central government funding to Sheffield City Council, and notes that the Council's funding from central government has been cut by around a half and the Council has had to make cuts of over £300 million:
- (2) recalls that in the original 2010 Comprehensive Spending Review, the Coalition Government committed to eliminating the deficit within four years, meaning that the Council's 2016/17 budget was estimated to be the second year that the cuts were over;
- (3) believes that the fact that the Council now faces further cuts over coming years is a damning indictment of the failure of the previous coalition government who failed to eliminate the deficit despite inflicting unprecedented cuts to public services:
- (4) regrets that the current government are continuing the previous coalition government's policy of cutting local government services to the bone at the same time as giving tax cuts benefiting millionaires;

- (5) recalls the comments of the former Liberal Democrat MP and Chief Secretary to the Treasury, Danny Alexander, that local government had "borne the brunt of deficit reduction" under the previous coalition government;
- (6) notes that last year's Comprehensive Spending Review outlined plans to virtually eradicate central government grant funding for local authorities and believes that leaving only Council Tax and business rates to fill the gap is completely inadequate to fund the services local people need, particularly given ever escalating costs of services such as social care;
- (7) regrets that like the previous coalition government, who gave some of the wealthiest areas of the country virtually no cuts at the same time as hitting northern towns and cities the hardest, the current government at the last minute introduced a fund to bail out the wealthy Conservative-controlled councils to appease backbench Conservative MPs;
- (8) notes that out of the £300 million relief fund, of which Sheffield will receive nothing, the largest beneficiary will be Surrey, which will get £24m, with £19m going to Hampshire, £16m to Hertfordshire, £14m to Essex, £12m to West Sussex, £11m to Kent and £9m to Buckinghamshire, and in total 83% of the funding has been given to Conservative-controlled councils, typically in the most affluent areas of the country, whilst councils in more deprived areas with the greatest level of need are not being supported despite receiving much greater cuts over the last five years;
- (9) believes this politically motivated fund to bail out wealthy Conservative-controlled councils is a disgrace, especially given the fact that they were given relative protection from cuts under the previous coalition government;
- (10) fully opposes the reported Government plans to abolish attendance allowance as part of business rate localisation as a further cynical ploy to devolve cuts and supports the petition to Government on the 38 Degrees website "Don't abolish attendance allowance" which has received over 100,000 signatures and notes the legitimate concerns expressed in the petition "The government claims that local authorities will step in to fill the gap in provision created by scrapping attendance allowance. But in the face of sweeping cuts imposed on their budgets, local authorities may find that administering such an allowance is beyond their means. What guarantees will there be that local authorities will have sufficient funds to match the current rates?";
- (11) believes that given the dreadful financial settlement given to the Council and the terrible legacy of the Coalition Government on local government finance, the present Administration have protected front line services as far as possible and focused on protecting services for the most vulnerable;
- (12) believes that due to the magnitude of government cuts over the past six years and increased pressure on services, it is unavoidable to increase Council Tax by 1.99 percent, which equates to 33p a week for most households;
- (13) further believes it is unavoidable to implement the Chancellor's social care

- "precept" of two per cent; the new national policy announced in last year's spending review and believes this is just another example of a cynical ploy by the Government who promised not to increase taxes but are forcing the increases on local authorities:
- (14) notes that the precept fails to address the increased cost of providing social care alone and believes that the real issues that the Government must address is the funding of local authorities and tackling the social care crisis, however, believes it would be irresponsible not to use this funding to protect care services as far as possible:
- (15) welcomes the commitment of the present Administration to increase the Council Tax Hardship fund by an extra £200,000 this year to help those who struggle to be able to pay their bills;
- (16) welcomes the action taken by the present Administration to ensure the introduction of the Living Wage for all Council staff and the progress that has been made over the past year which has seen more of the Council's contractors pay the Living Wage, and believes it should be a priority to work across the city with partners over the next year to ensure that substantive action is taken to encourage and support more employers throughout the city in the public, private and voluntary sector to pay the Living Wage;
- (17) therefore welcomes the innovative new scheme developed by the Administration to incentivise a number of local employers to pay the Living Wage through offering business rate discounts to employers who choose to do so as a means of supporting them with the extra costs as a transitional arrangement and welcomes that the Administration proposes to make £250,000 of the projected revenue underspend available to achieve this, meaning the fund becomes £500,000 with the other 50% being funded from the collection fund;
- (18) believes the Sheffield approach is in stark contrast to the Chancellor who, as reported, simply believes it is adequate to re-brand the National Minimum Wage as the National Living Wage, which does not meet the cost of living as calculated by the Living Wage Foundation;
- (19) recalls that the Council Tax Hardship Fund was a scheme developed and implemented by the present Administration as a means of protecting those hardest hit by the Coalition Government's cuts to Council Tax Support;
- (20) welcomes the action taken by the Administration to give greatest protection to frontline services by focusing savings to accommodation costs, IT and corporate services to ensure these functions are operating as efficiently as possible;
- (21) notes that over the past four years, the Council has made £6.8 million in management savings, which includes savings to the Housing Revenue Account, and asks the Chief Executive to undertake a further review to make further savings as the Council faces further cuts in the coming years;
- (22) recalls that in addition to decimating local government funding, the Government is

- also hitting small businesses hard through the abolition of the Retail Rate Relief;
- (23) believes that the proposal will have a damaging impact on Sheffield and could hinder attempts to bring empty shops back into use, and therefore proposes to use £185,000 of the projected revenue underspend to develop a local rate relief scheme targeted at bringing empty shops back into use and believes that this proposal will have a positive impact on neighbourhoods who suffer when local shops in their community are empty;
- (24) regrets the impact that the cuts to local government funding have had on communities across the city and welcomes the commitment of the present Administration to allocate £137,000 of the projected revenue underspend to fund community projects, responding to requests that have been made from local communities to improve their areas;
- (25) notes that as a result of budget cuts, there could be up to 400 Council posts affected during the financial year 2016/17, including job roles that could be lost through voluntary severance or voluntary early retirement, as well as any vacancies that have not been filled;
- (26) expresses sincere and heartfelt sympathy to those members of staff who are losing their jobs through compulsory redundancy and regrets that the Government's cuts agenda has made compulsory redundancies unavoidable;
- (27) places on record its thanks to the staff who continue to serve the Council in these incredibly difficult times, which year on year leads to uncertainty about their own futures and that of their colleagues, many of whom are left to pick up an increased workload as a result of the cuts to staff numbers:
- (28) requests the Interim Executive Director, Resources to implement the City Council's Revenue Budget and Capital Programme 2016/2017 in accordance with the details set out in the reports on the Revenue Budget and Capital Programme now submitted, but with the following amendments:-

Use of 2015/16 projected revenue underspend Savings proposals	(£'000)	Spending proposals	(£'000)
Temporary reductions in spending:		Temporary additions to budget:

		Community Investments - working with local communities to improve their area	137
Use of projected revenue underspend sub-total	572	One-off spending proposals sub-total	572

- (29) notes those specific projects included in the years 2016/17 to 2021/22 Capital Programmes at Appendix 9 of the report on the Capital Programme, and that block allocations are included within the Programme for noting at this stage and detailed proposals will be brought back for separate Member approval as part of the monthly monitoring procedures;
- (30) notes the proposed Capital Programme for the 5 years to 2021/22 as per Appendix 9 of the report on the Capital Programme;
- (31) approves the Corporate Resource Pool (CRP) policy outlined in Appendix 4 of the report on the Capital Programme such that the commitment from the CRP is limited to one year and no CRP supported schemes are approved beyond 2016-17 unless explicitly stated, and that further reports will be brought to Members as part of the monthly approval process should the receipts position improve;
- (32) after noting the joint report of the Chief Executive and the Interim Executive Director, Resources now submitted on the Revenue Budget 2016/17, approves and adopts a net Revenue Budget for 2016/17 amounting to £406.057m, as set out in Appendix 3 of that report, and subsequently amended in the light of paragraph (28) above, as follows:-
