ADVICE TO MEMBERS ON DECLARING INTERESTS AT MEETINGS

If you are present at a meeting of the Council, of its executive or any committee of the executive, or of any committee, sub-committee, joint committee, or joint sub-committee of the authority, and you have a Disclosable Pecuniary Interest (DPI) relating to any business that will be considered at the meeting, you must not:

- participate in any discussion of the business at the meeting, or if you become aware of your Disclosable Pecuniary Interest during the meeting, participate further in any discussion of the business, or
- participate in any vote or further vote taken on the matter at the meeting.

These prohibitions apply to any form of participation, including speaking as a member of the public.

You must:

- leave the room (in accordance with the Members' Code of Conduct)
- make a verbal declaration of the existence and nature of any DPI at any meeting at which you are present at which an item of business which affects or relates to the subject matter of that interest is under consideration, at or before the consideration of the item of business or as soon as the interest becomes apparent.
- declare it to the meeting and notify the Council's Monitoring Officer within 28 days, if the DPI is not already registered.

If you have any of the following pecuniary interests, they are your disclosable pecuniary interests under the new national rules. You have a pecuniary interest if you, or your spouse or civil partner, have a pecuniary interest.

- Any employment, office, trade, profession or vocation carried on for profit or gain, which you, or your spouse or civil partner undertakes.

- Any payment or provision of any other financial benefit (other than from your council or authority) made or provided within the relevant period* in respect of any expenses incurred by you in carrying out duties as a member, or towards your election expenses. This includes any payment or financial benefit from a trade union within the meaning of the Trade Union and Labour Relations (Consolidation) Act 1992.

  *The relevant period is the 12 months ending on the day when you tell the Monitoring Officer about your disclosable pecuniary interests.

- Any contract which is made between you, or your spouse or your civil partner (or a body in which you, or your spouse or your civil partner, has a beneficial interest) and your council or authority –
  - under which goods or services are to be provided or works are to be executed; and
  - which has not been fully discharged.
• Any beneficial interest in land which you, or your spouse or your civil partner, have and which is within the area of your council or authority.

• Any licence (alone or jointly with others) which you, or your spouse or your civil partner, holds to occupy land in the area of your council or authority for a month or longer.

• Any tenancy where (to your knowledge) –
  - the landlord is your council or authority; and
  - the tenant is a body in which you, or your spouse or your civil partner, has a beneficial interest.

• Any beneficial interest which you, or your spouse or your civil partner has in securities of a body where -

  (a) that body (to your knowledge) has a place of business or land in the area of your council or authority; and

  (b) either -
  - the total nominal value of the securities exceeds £25,000 or one hundredth of the total issued share capital of that body; or
  - if the share capital of that body is of more than one class, the total nominal value of the shares of any one class in which you, or your spouse or your civil partner, has a beneficial interest exceeds one hundredth of the total issued share capital of that class.

If you attend a meeting at which any item of business is to be considered and you are aware that you have a personal interest in the matter which does not amount to a DPI, you must make verbal declaration of the existence and nature of that interest at or before the consideration of the item of business or as soon as the interest becomes apparent. You should leave the room if your continued presence is incompatible with the 7 Principles of Public Life (selflessness; integrity; objectivity; accountability; openness; honesty; and leadership).

You have a personal interest where –

• a decision in relation to that business might reasonably be regarded as affecting the well-being or financial standing (including interests in land and easements over land) of you or a member of your family or a person or an organisation with whom you have a close association to a greater extent than it would affect the majority of the Council Tax payers, ratepayers or inhabitants of the ward or electoral area for which you have been elected or otherwise of the Authority’s administrative area, or

• it relates to or is likely to affect any of the interests that are defined as DPIs but are in respect of a member of your family (other than a partner) or a person with whom you have a close association.
Guidance on declarations of interest, incorporating regulations published by the Government in relation to Disclosable Pecuniary Interests, has been circulated to you previously.

You should identify any potential interest you may have relating to business to be considered at the meeting. This will help you and anyone that you ask for advice to fully consider all the circumstances before deciding what action you should take.

In certain circumstances the Council may grant a dispensation to permit a Member to take part in the business of the Authority even if the member has a Disclosable Pecuniary Interest relating to that business.

To obtain a dispensation, you must write to the Monitoring Officer at least 48 hours before the meeting in question, explaining why a dispensation is sought and desirable, and specifying the period of time for which it is sought. The Monitoring Officer may consult with the Independent Person or the Council’s Audit and Standards Committee in relation to a request for dispensation.

Further advice can be obtained from Gillian Duckworth, Director of Legal and Governance on 0114 2734018 or email gillian.duckworth@sheffield.gov.uk.

SHEFFIELD CITY COUNCIL

Overview and Scrutiny Management Committee

Meeting held 19 July 2018

PRESENT: Councillors Denise Fox (Chair), Ian Auckland, John Booker, Ben Curran, George Lindars-Hammond, Pat Midgley, Mick Rooney, Ian Saunders, Alison Teal (Substitute Member) and Cliff Woodcraft

1. APOLOGIES FOR ABSENCE

1.1 Apologies for absence were received from Councillor Penny Baker and Councillor Douglas Johnson (with Councillor Alison Teal attending as his substitute).

2. EXCLUSION OF PUBLIC AND PRESS

2.1 No items were identified where resolutions may be moved to exclude the public and press.

3. DECLARATIONS OF INTEREST

3.1 There were no declarations of interest.

4. MINUTES OF PREVIOUS MEETINGS

4.1 The minutes of the meetings of the Committee held on 19th April and 16th May 2018 were approved as a correct record.

4.2 Arising from the minutes, a Member enquired about the written response to a public question and the Policy and Improvement Officer reported that she had spoken to the questioner and confirmed that the Ethical Procurement Policy was on the work programme for October.

5. PUBLIC QUESTIONS AND PETITIONS

5.1 The Committee received the following questions from members of the public:

5.2 Alan Kewley

Is webcasting still planned and will we see it soon?

5.3 Councillor Olivia Blake, Cabinet Member for Finance and Deputy Leader of the Council, responded that a new system was being procured for the Chamber with quotes setting out options for just replacing the current kit (including e-voting) as well as for recording elements. Once these had been reviewed and the costs compared, a decision could be made.

5.4 In response to Members’ questions, Councillor Olivia Blake confirmed that there was no policy regarding webcasting, but it was hoped that all meetings would be able to be webcast, either through a procured system or an in-house solution.
6. SCC 2020

6.1 The Committee received a presentation from Eugene Walker, Executive Director, Resources, and James Henderson, Director, Policy, Performance and Communications (PPC) which gave an overview of the SCC2020 Programme and highlighted the Customer Experience Programme, Digital & Technology Strategy and the Children’s and Adults’ Improvement & Recovery Plans. Also present for this item was Councillor Olivia Blake, Cabinet Member for Finance and Deputy Leader of the Council.

6.2 Members made various comments and asked a number of questions, to which responses were provided as follows:

- Councillor Blake confirmed that an additional £15m had been spent last year to address the pressures in Children’s and Adults’ Services and, although there was still an overspend forecasted for this year, the investment would enable changes to get on top of the demand pressures rather than just addressing the overspend.

- She advised that the improvement plans were multi-year to ensure resilience and these were being supported by ongoing conversations with health colleagues to ensure changes were being made holistically across healthcare services and that cuts to one part would not cause pressures elsewhere. Eugene Walker added that the National Audit office had highlighted the unsustainability of the Government’s plans and advised that all Councils would fail if this current trajectory continued; it was just a matter of when.

- In response to a question about the website, James Henderson agreed that this was not a finished project and had not yet made the progress aspired to. Part of this was the complexity of moving from a 1990’s legacy system to a site that was fit for 2018 and the future. In addition, customer expectation had changed and significant work was underway to get the Council to a position where it could meet those expectations, with digital capabilities only a part of that. A forward plan was in place and from there the Council would be able to build and design customer-centric services.

- With regard to measuring impact, Eugene Walker confirmed this was being considered and suggested this was something that could come back to this Committee for comment.

- Councillor Blake advised that multiple discussions were ongoing with various NHS and health colleagues to enact service revisions that addressed healthcare across the City whilst still being mindful of each partner’s financial pressures. Eugene Walker added that investing into efficiencies was needed and that this was a problem being faced nationally.

- In response to a Member’s question regarding payment by results, Eugene Walker confirmed this was an issue being faced by all Local Authorities and advised that although Sheffield had made some headway in moving away from
With regards to the use of the word ‘customer’ to describe Sheffield citizens and users of Council services, James Henderson advised that it was an internally-focussed word to highlight the type of relationship officers should encourage with Sheffield residents. Councillor Blake clarified that, of the Customer Experience Programme, the focus was on the ‘Experience’, reflecting the move away from designing services based on the needs of officers and instead focussing on the needs of the user.

Councillor Blake thanked Members for raising issues regarding the telephony service, online blue badge applications and the issues with Council Tax payments, advising that it was difficult to stay on top of such a wide range of services. She asked that all issues like this be reported via James Henderson’s team to ensure they were fixed.

With regards to webcasting, Councillor Saunders shared the relatively low viewing figures for the webcasting recordings for South Yorkshire Fire & Rescue Authority, South Yorkshire Police & Crime Panel, Pensions Authority and SCR Combined Authority meetings, highlighting that it wasn’t necessarily a panacea for democracy and suggested web conferencing should be considered.

Eugene Walker advised that the digital and technology strategy had highlighted a need to have more direct control over the Council’s IT, which had led to moving away from the current Capita contract. He reported that some services would be provided in-house and others recommissioned, and although a shorter negotiation period would result in some disruption, this would be less than a longer protracted transitory period.

In response to a question regarding governance, Eugene Walker advised that he believed the arrangements as set out were suitable for the size and complexity of the Council. He added that trying to unite all aspects of the Council to pull in the same direction was a huge undertaking and would inevitably look complicated on paper, but that numerous discussions were already taking place ‘on the ground’ to enable more joined-up working.

The Chair thanked Councillor Olivia Blake and officers for their presentation.

RESOLVED: That the Committee notes the presentation, and agrees that a future report regarding measuring impact come to a future meeting.

The Committee received a report of the Head of Elections, Equalities and Involvement which provided an overview of the report published by the Communities and Local Government Committee in December 2017 and set out potential improvements to the way Sheffield City Council implements its scrutiny
Meeting of the Overview and Scrutiny Management Committee 19.07.2018

function. Present for the item was James Henderson, Director Policy, Performance and Communication.

7.2 Members made various comments and asked a number of questions, to which responses were provided as follows:

- In response to a question regarding the proposal for Scrutiny Committees to report to Council, James Henderson confirmed that Scrutiny Committees would still determine their own work programmes and would not be directed by Council. The Policy and Improvement Officer advised that the Select Committee would have been directing this recommendation at those Local Authorities which struggled to get scrutiny recognised by the Executive, which was not a problem faced in Sheffield.

- With regards to ‘following the pound’ (where scrutiny would have the power and responsibilities to oversee taxpayer funded services where the services are funded, wholly or in part, by local authorities), James Henderson advised that he was not aware of any instances of Sheffield not being able to get outside organisations to attend meetings and provide evidence, but that more could be done to raise awareness of the existence and role of scrutiny with partners. It was also suggested that transparency and the expectations of scrutiny could be included as part of contract negotiation.

- Officers undertook to take back Members’ comments regarding the Sheffield City Region’s scrutiny function, and it was noted that the SCR Mayor could be invited to attend Sheffield City Council scrutiny meetings where appropriate.

7.3 The Chair advised that she had been speaking with the Equalities Board about involving their members and using their expertise in scrutiny, and confirmed that a report would be brought to a future meeting of this Committee.

7.4 RESOLVED: That the Committee notes the summary of the Communities and Local Government Committee’s report and areas identified for potential improvement in Sheffield Scrutiny function.

8. COMBINED SCRUTINY WORK PROGRAMME 2018/19 (DRAFT) AND UPDATE FROM COMMITTEE CHAIRS

8.1 The Policy and Improvement Officer submitted the Draft Combined Scrutiny Work Programme for 2018-19.

8.2 Scrutiny Chairs provided updates from their first meetings and it was noted that the Children’s Social Care Task Group Report had been received at Cabinet yesterday, the first meeting of the Economic and Environmental Wellbeing Scrutiny and Policy Development Committee had been postponed, and the Safer and Stronger Communities Scrutiny and Policy Development Committee would be holding a summit on gun and knife crime to replace either the September or October meeting.

9. DRAFT WORK PROGRAMME 2018/19
9.1 The Policy and Improvement Officer submitted a report outlining the draft Overview and Scrutiny Management Committee Work programme for 2018/19.

9.2 Members discussed additional issues including the Bus Services Bill, the plans to grow Sheffield’s income base, improving citizen engagement, and analysing the performance of the Streets Ahead contract (though it was noted some of these fell under the remits of other Scrutiny Committees).

9.3 RESOLVED: That the Committee approves the work programme for 2018/19.

10. **DATE OF NEXT MEETING**

10.1 It was noted that the next meeting of the Committee would be held on 18 October 2018 at 1.30pm.
Report of: Executive Director Resources

Subject: How Sheffield City Council would like to do Business (Ethical Procurement)

Author of Report: Filip Leonard, Head of Procurement & Supply Chain

Summary:

Members requested a review of our commissioning cycle specifically with regard to the Council's ability to address the following topics:

- Tax Compliance
- Ethical Procurement
- Grave Misconduct
- Living Wage
- Blacklisting
- Local Economic Impact; and
- Social Value

The purpose is to enable the Council to ‘conduct business ethically, effectively and efficiently for the benefit of Sheffield’

This paper confirms that the Ethical Procurement Policy, a series of revisions to protocols, process and tools associated with those topics and running across Sheffield City Council (SCC) and its supply chain has been signed. In particular, the policy focusses on adopting three key tools, Social Value tests, Ethical Code of Conduct for suppliers and revised Tender processes.

Background Papers:

Ethical Procurement Implementation Update

Category of Report: OPEN
Ethical Procurement Implementation Update

1. Background

The Ethical Procurement Policy marks a radical ambition to use our spending power to drive ethical standards and social outcomes in our procurement. The cuts that Government have forced upon the City Council in the last seven years have reduced our budget by over £390m putting pressure on services, communities and giving us increasingly difficult choices about how we use the money we do have available. Despite, or indeed because of this, the City Council needs to use its remaining spending power to deliver maximum impact to achieve its social and policy priorities. We do provide many services directly, but a significant proportion of our services are delivered by suppliers, so this puts procurement at the forefront in enabling these objectives.

Our Ethical Procurement Framework is a clear commitment to:

- maximising the Council’s ability to use its discretion to apply ethical standards to behaviour throughout its supply chain
- use the money we spend to increase the social value and benefits for local people and businesses. This means that companies the Council contracts with must share our desire to create a city economy that works for all by paying their taxes, respecting workers’ rights and equal opportunities, and invest in the talents of their employees through good training and healthy, safe working conditions. We want to encourage companies to think about the wider social impact on Sheffield communities of their activity.

By embedding these principles in our procurement practice, we will support and encourage investment in the city’s economy, creating fairer opportunities for local businesses and suppliers to deliver local contracts which in turn, can create good local jobs.

Sheffield City Council have set our stall out by being a leading Real Living Wage employer but we are only responsible for a proportion of the money invested in services, contracts and products in Sheffield. We believe that the Ethical Procurement Framework represents an opportunity for all of Sheffield’s key institutions and partners – hospitals, businesses, universities – to use our collective financial power to get the best value and best opportunities for Sheffieldders and local businesses.

2. Policy Summary

Sheffield City Council is committed to ensuring a high standard of ethical practice across our trading landscape and is raising the expectations of ourselves and our supply chain.
The Council expects all internal staff, partners and suppliers to work to these augmented standards which assure we will:

- Trade with those who comply with an Ethical Code of Conduct
- Exclude suppliers committing acts of Grave Misconduct
- Improve Social Outcomes for the citizens of Sheffield
- Increase the power of procurement and its Local economic impact.

The policy document articulates a series of revisions to protocols, process and tools across Sheffield City Council (SCC) and its supply chain, to enable the Council to ‘conducted business ethically, effectively and efficiently for the benefit of Sheffield’ (the vision). In particular focuses on adopting three key tools, Social Value tests, Ethical Code of Conduct for suppliers and revised Tender processes.

Following a review of our commissioning cycle specifically with regard to the Council’s ability to address:

1. Tax compliance;
2. [Ethical Procurement];
3. Grave Misconduct;
4. Living Wage; and
5. Blacklisting;

within the supply chain, and the further topics of:

6. Local Economic Impact; and
7. Social Value

3. Policy Outcomes

The proposals should enable the following outcomes:

**Ethical**
- Drive (SCC’s view of) ethical behaviour as a standard throughout the supply chain
- Enable greater return in Social Value in Sheffield

**Effective**
- Increase SCC spend in the local economy / market
- Increase our understanding of the supplier markets
- Stimulate business growth
- Bring in innovative ideas and thinking from the market
- Accommodate short to mid term change / flexibility into contractual arrangements
- Drive an increase in cashable savings

**Efficient**
- Streamline processes
- Be (increasingly) cohesive in our messaging / engagement with suppliers / market
- Have processes that drive the right outcome (rather than focus solely on compliance)
4. Operational changes and progress

The Ethical Procurement Policy has meant a number of changes within the Procurement and Supply Chain team to structures, process and procedures to enable to creation of a number of products.

<table>

</thead>
</table>
| Drive (SCC’s view of) ethical behaviour as a standard throughout the supply chain | • Develop Ethical Charter  
• Inclusion of charter all new procurement as Condition of Contract  
• Enable existing supply base to sign up to contract variation  
• Develop toolkit for Suppliers  
• Amends to standard supplier questionnaire  
• Training & development for teams  
• Hold Ethical Supplier day event |
| Enable greater return in Social Value in Sheffield | • Changes to commissioning process  
• Inclusion of minimum weightings in tenders  
• Changes to documentation  
• Training and Development for teams |
| Increase SCC spend in the local economy / market | • Training and Development for suppliers  
• Implementation of a sourcing team to ensure at least one quote <£150k is sourced locally  
• Changes to Constitution  
• Use of Social Media to market to local suppliers |
| Increase our understanding of the supplier markets | • Use of third party reporting tools  
• Encouraging officers to network with suppliers more effectively through objectives setting |
| Stimulate business growth | • Use Local Economic Impact evaluation criteria within tender  
• Training and Development for suppliers  
• Identify gaps in the local market for the provision of goods and services and market the opportunity  
• Development of payment incentive schemes for supplier |
Bring in innovative ideas and thinking from the market

- Encouraging officers to network with suppliers more effectively through objectives setting
- Use of third party reporting tools
- Early engagement with suppliers in the commissioning process
- Increase in pre-market engagement

Accommodate short to mid-term change / flexibility into contractual arrangements

- Letting contracts designed to capture development and innovations, increased use of framework arrangements

Drive an increase in cashable savings

- Development of payment incentive schemes for supplier
- Minimum price evaluation
- Supplier Event

Be (increasingly) cohesive in our messaging / engagement with suppliers / market

- Changes to Constitution
- Implementation of a new acquisition model

Have processes that drive the right outcome (rather than focus solely on compliance)

These changes have now synthesised into some key products which include:

- A dedicated team of Procurement and Supply Chain "Ethical Champions" who are responsible for leading the implementation of changes to the Council and who will review progress against the policy outcomes.
- An amended supplier questionnaire for all procurement above £150k to allow suppliers to be deselected based on their ethical performance such as Grave Misconduct which renders a bidders integrity questionable
- Implementation of the new how to buy model and a sourcing team at Sheffield City Council
- An innovative approach to delivering Real Living Wage in the Councils’ Contracts.
- The Supply2Sheffield training and events for suppliers
- The Supply2Sheffield Pay Plus scheme
- A partnership with the University of Sheffield to produce an Ethical Diagnostic Toolkit aimed at achieving sustainable ethical supply chains.
- Training and information updates for managers across the Council.
- Changes to Councils standing orders
- Amended terms and conditions to include compliance against the ethical charter and commitments to Living Wage
- Amended tender documentation to include new Social Value evaluation model, Pay Plus scheme and Living Wage requirements

To ensure the success of the project it is important to ensure that we approach our supply chain in a very positive and collaborative manner. To that end the
Council is hosting an Ethical Procurement event on the 29th October 2018 for current suppliers. The day will enable the Council to set out its Ethical performance standards and approaches.

5. Reporting and measuring

As set out earlier in this report the impact of the policy has initially been within the Council, as it responds by developing strategies, process and procedures.

To measure the success of the project it is important we develop a set of measures that can practically be recorded, but are also a meaningful and direct consequence of the policy, rather than being influenced by other factors, beyond the control of the Council.

Below are a set of proposed measures that would be reported on an annual basis, to either this Scrutiny Committee, part of the Annual Governance Statement or perhaps some other reporting route.

**Proposed Measure 1: New Ethical Code of Conduct**

Proposed Measure 7: Local Economic Impact
**What’s new/changing?**  
Introduces two mandatory new tests to evaluate local economic impact of a contract being awarded.

**How can this be measured?**  
Number of Contracts / quotes awarded to local businesses increasing

*Using a version of the National TOMs, we can utilise a set of published ‘Proxy Values’ that will allow the Council to assess the financial impact that any measure will make. It is recognised that social value is not all about ‘money’ but nonetheless this is an important metric to help understand the scale and breadth of impact that a measure can make. Importantly, it allows the Council when procuring to compare tenders in a way that is proportional and relevant to the bid, and to better justify a procurement decision.

**Proposed Measure 9: Supplier Ethical Performance**

Sheffield City Council and University of Sheffield have been working together to produce a free diagnostic toolkit to help suppliers to achieve financially sustainable supply chains and excellent employment practices.

Benefits to the Council include:

- Visibility of suppliers practices across the supply chain
- Ability to highlight areas of risk
- Ability to develop and implement improvement strategies
- Measure improvement and performance
Benefits to suppliers of using the toolkit include:

- Impact on the bottom line
- Increased competitiveness
- Socially responsible, ethical business practices
- Easy-to-use design
- Reputational benefits

The toolkit can be used by managers in accounting, HR and supply chain management as a strategy planner, for team building within a company, or for bringing suppliers and customers ‘on board’ with our goals. The Council can utilise the self-diagnosis toolkit to assess progress against a range of statements, make plans for improvements, and then print ‘dashboard’ style reports and action plans. The toolkit was co-produced by academics and practitioners as part of an international research project funded by the UK Government’s Economic and Social Research Council. It is supported by professional bodies including CIMA, CIPD, FIEP, FIEPE and SABPP.

The Council will start to roll out the online toolkit to its supplier base starting on the 29th October 2018, with a view to recovering data from supplier by end of March 2019.

The Council will utilise this tool to monitor and measure ethical performance across the breadth of its supply chain, the reporting mechanism (on a red amber green basis) will enable strategic interventions to be made and implemented for specific sectors, where concerns are identified.

The aim of these interventions will be to influence provider and market to move reds categories to amber and amber to green through maturing practice, supplier and market development.

This list of measures represents a comprehensive suite that will provide assurance that the Ethical Policy is not only being implemented and enforced, but that it is making real world impact.

2019/20 Revenue Budget report for OSMC
18th October 2018
Purpose of session

• To brief OSMC on the budget planning approach for the 2019/20 budget and the financial targets set for the Council

• To brief OSMC on the timetable for the Budget overview and Budget Policy sessions, and subsequent Labour Exec and Group approval sessions

• To give OSMC the opportunity to ask questions on all of the above
Key messages

• Compiling a balanced 19/20 budget will be very challenging, due to continuing constraints on Central Government funding at a time when demand for Social Care in particular is rising strongly

• To inform our approach, we are re-affirming and/or re-shaping the Council’s priorities and reviewing finance options (such as for capital)

• We intend to propose a balanced budget for 2019/20, but may have to use reserves to achieve this position. Our service pressures remain very high (in common with other LAs), which means we need to deliver further savings in the medium term
• Compared to the 2010 to 2017 period, Government funding is no longer falling sharply, i.e. we are in a roughly cash standstill position. However our service pressures remain high

• Our 18/19 revenue budget is balanced on paper, but we have a large forecast in-year overspend (£15.3m as at end August 2018). This overspend is largely caused by the high demand and cost pressures in our social care services, for which we are not funded. Other services are largely meeting their pressures.
The 2018/19 overspend is mainly caused by continuing demand and cost pressures within social care.

In particular we have been successful in reducing delays in discharges from hospitals. Whilst speeding up discharge helps the NHS with its patient throughput, it also moves the costs to us. We are negotiating with the NHS for them to meet some of these additional costs, but to date no additional income has been forthcoming.

There have also been delays to a number of our plans to mitigate pressures.

We estimate that extra demand has caused around half of the forecast overspend, and delays the other half.
Our forecasts for our financial position for 2019/20 onwards are being updated monthly, as our predictions of future costs and demand become clearer.

In particular our forecasts for 2019/20 are still being refined. Officers are focussed on identifying, and bringing forward for approval, mitigations of pressures to balance the budget, whilst monitoring for any further increases in demand that would push pressures higher.
• We have already agreed key strategies including Social Care Improvement and Recovery Plans that cover 2019/20 – these strategies will positively impact SCC in the medium to long term.

• However increasing demand for social care services is outstripping the planned benefits within the plans and means the pace of delivery becomes more critical. We have a substantial short term pressures.

• Consequently the current Social Care Improvement and Recovery Plans do not fully mitigate the continuing pressures forecast in social care services, therefore we have a budget gap and increasing pressures in 2019/20 (and beyond).
We also have plans covering the other key areas of the Council

- Place Change Programme – transforming working practices within Place
- New Homes Delivery – focussing on delivering additional housing
- Corporate Function Review – ensuring all our “back-office” functions are as efficient as they can be
Capital. We have several large capital schemes underway to support our ambitions for the City. In particular:

- Heart of the City. The Cavendish development is nearing completion, and further developments (in stages) are planned.
- We are currently building two new secondary schools, in the NE and SW of the City.
- We are working up our Housing Growth Delivery Plan, to deliver new housing in the City.
• Portfolio officers have worked up potential ideas for generating savings
• These ideas are then discussed with the relevant Cabinet member, and advisers.
• If agreed they are then discussed and agreed by full Group, in budget seminars and then formal Group meetings
• Agreed schemes are then entered into the formal budget process
Approach – consultation

• Budget conversations are ongoing with partner organisations, for example the VCF. An overall session will be held to inform the budget
• The overall consultation will be underpinned by Service-led detailed consultation with the users impacted by proposals
• Consultation will inform our longer term thinking and our Equality Impact Assessments
• Results are discussed with Members as part of developing proposals, and in advance of any decision being taken at Cabinet or Full Council
• Full results of our consultation will be made available on the website
The budget will make assumptions in various areas, e.g.

- **Social care demand and cost pressures** will be as forecast taking into account the planned mitigations in the Improvement Plans. Accurate forecasting of these costs has proved challenging in the past.

- The level of **Central Government support** will be as already notified. This support is generally known for 2019/20 (but is very uncertain beyond then)

- **Pay strategy.** Pay increments and cost of living remain pressures in the budget. Full implications of a revised pay structure for 19/20 are as yet unknown and not wholly accounted for.
Key assumptions (2)

• **Non-pay inflation.** We have allowed for general increases in prices, and for changes in costs of the Council’s large contracts.

• **Council tax.** The actual rise will be approved by Budget Council in March 2019. Each 1% increase in CT will generate c£2.1m p.a. of additional income. We assume rises will be capped at 2.99% (without a referendum). There is (currently) no increase in the ASC precept possible for 2019/20.

• **Business Rates.** We have factored in increases in business rates from changes in the base and increases in the multiplier.

| **£33.7m**  | Total gap  
NB. Net position assuming £18m planned savings are achieved in 2019/20. Including £13.8m forecast pressures carried from 2018/19. 2% pay increase |
| **-£7.1m**  | Corporate contributions required  
Step 1) All corporate pressures are met through corporate savings / contributions |
| **-£26.6m** | Portfolio contribution required  
Step 2) Cash-flow People recovery plans by maintaining the 18/19 £15m one-off funding provided corporately for 2019/20 as well (so the ‘gap’ remains at £26.6m)  
Step 3) Savings ‘at risk’ from 18/19 are to met by the lead Portfolio. £6.8m at risk in People Portfolio.  
Step 4) £19.8m new pressures in 19/20, Portfolios generally absorb their own pressures, but Place and Resources/PPC make a contribution to SC pressures (see next slides). |

This option leaves People with a very large savings requirement.
Given the level of Social Care pressures being experienced both here and nationally, Labour Exec took the policy decision that Place and Resources/PPC would be asked to find at least 1% (and up to 2%) of their gross spend, as an additional contribution. This is illustrated below:

What is on the horizon (Risks)

Below are a number of potential financial cost pressures in 2019/20 onwards, which are not included in the analysis:

- Potential business rate reductions (appeals etc), and impact of 75% BR retention (inc. Meadowhall)
- CG Fair Funding Review – (see also opportunities)
- Other CG grant reductions
- Redevelopment of the City Centre – risks if occupation lower than forecast (but opportunities if it is higher)
- Schools’ funding pressures (eg PFI, Academisation). Schools’ deficits would remain with us upon academisation
- Impact of Universal Credit on Council House rents
We have four areas where we anticipate that SCC will have some reductions in forthcoming spend or growth in income:

- Pensions (2020/21)
- MSF (2024/25)
- Council Tax
- CG Fair Funding Review

At this stage, none are able to be factored into the budget as there is no certainty the potential values will be realised. Based on our knowledge today, nor will the total potential contribution of these items wholly mitigate future pressures.
In addition to our revenue spend, we are maintaining the ambitions in our capital programme, with the aim of growing the Sheffield economy. Some key initiatives included are:

- Cavendish and Heart of the City 2
- Strategic Housing programme
- New school provision where needed (e.g. SW and NE)
- Continuing backlog maintenance of the Corporate Estate

The attached report aims to assist the Committee to develop its work programme for 2018/19.

It covers the role and purpose of scrutiny, and a draft work programme for the Committee’s consideration and discussion.

The Scrutiny Committee is being asked to:

- Consider and comment on the draft work programme for 2018/19

Category of Report: OPEN
1 What is the role of Scrutiny?

1.1 Scrutiny Committees exist to hold decision makers to account, investigate issues of local concern, and make recommendations for improvement. The Centre for Public Scrutiny has identified that effective scrutiny:

- Provides ‘Critical Friend’ challenge to executive policy makers and decision makers
- Enables the voice and concern of the public and its communities
- Is carried out by independent minded governors who lead and own the scrutiny process
- Drives improvement in public services and finds efficiencies and new ways of delivering services

1.2 Scrutiny Committees can operate in a number of ways – through formal meetings with several agenda items, single item ‘select committee’ style meetings, task and finish groups, and informal visits and meetings to gather evidence to inform scrutiny work. Committees can hear from Council Officers, Cabinet Members, partner organisations, expert witnesses, members of the public. Scrutiny Committees are not decision making bodies, but can make recommendations to decision makers.

2 Developing the Scrutiny Work Programme

2.1 Attached to this report is a draft work programme for 2018/19.

2.2 It is important the work programme reflects the principles of effective scrutiny, outlined above at 1.1, and so the Committee has a vital role in ensuring that the work programme is looking at issues that concern local people, and looking at issues where scrutiny can influence decision makers. The work programme remains a live document, and there will be an opportunity for the Committee to discuss it at every Committee meeting, this might include:

- Prioritising issues for inclusion on a meeting agenda
- Identifying new issues for scrutiny
- Determining the appropriate approach for an issue – eg select committee style single item agenda vs task and finish group
- Identifying appropriate witnesses and sources of evidence to inform scrutiny discussions
- Identifying key lines of enquiry and specific issues that should be addressed through scrutiny of any given issue.

Members of the Committee can also raise any issues for the work programme via the Chair or Policy and Improvement Officer at any time.
3 The Draft Scrutiny Work Programme 2018/19

3.1 Attached is the draft work programme for 2018/19. Members are asked to consider it and reflect on questions such as:-

- Are there any gaps?
- Are there any issues on the list that don’t feel appropriate for scrutiny?
- What are the priority issues?
- What approach should the Committee take for each item, what are the key lines of enquiry, and who is it important to hear from?

4 Recommendations

The Committee is asked to:

- Consider and comment on the draft work programme for 2018/19
