POLLING DISTRICT AND POLLING PLACE REVIEW

1.0 SUMMARY

1.1 Following the recent ward boundary changes the Authority is required to allocate Polling Districts and Polling Places. The definitions of the two areas are:-

- Polling District – is a geographical sub-division of an electoral area. It is the authority's responsibility to divide its area into polling districts.
- Polling Place – is a geographical area in which a polling station is located. It is the authority's responsibility to designate a polling place for each polling district.

1.2 Although this review does not include Polling Stations the Returning Officer has and will continue to regularly review them.

2.0 WHAT DOES THIS MEAN FOR SHEFFIELD PEOPLE

2.1 The review will enable the electors of Sheffield to vote at appropriate places in all up coming elections.

3.0 OUTCOME AND SUSTAINABILITY

3.1 Legislation requires that the polling districts are reviewed on a regular basis. Enabling any future developments to be incorporated.

4.0 MAIN BODY OF THE REPORT

4.1 A Polling District must be wholly within all electoral areas it serves. Therefore as the Parliamentary Constituency boundaries will remain the same until 2020 some areas that have moved between wards have to be a separate polling district because the ward they have moved to is in a different constituency.

4.2 In addition the Electoral Commission guidance for polling stations is that no station should serve more than 2,500 electors voting at the station. Some polling districts have been redrawn to comply with the guidance.

4.3 The following is a summary of the changes proposed for each ward.
