Dear Mr Cannon,

Re - Tree Preservation Order

Thank you for your letter dated 23rd October 2017 together with the various enclosures.

You have referred to "8Nr Acer pseudoplatanus" on your drawing number -. A4/UED/808/416.

We understand, and have noted, the 2 x trees at the top of the drawing, however, we are confused regarding the other 6 trees marked on the drawing. There are in fact more than 6 trees in that location, so we require clarification of which 6 trees actually have a preservation order. **Could you please advise us which trees you are referring to.**

We would also appreciate if you could advise us whether there are any other trees on our property which are subject to tree preservation orders.

Please advise us at your earliest opportunity regarding this matter.

Yours sincerely

M J Wheeldon
