06.09.18 Head of Parking services e-mail	Ok with us david
07.09.18 Cllr Johnson e-mail	<p data-bbox="392 488 592 519">Hello David,</p> <p data-bbox="392 562 1385 790">Thanks very much for this. I would very much support this move as it should help to allow the flow of buses past Castle Square. I have often witnessed thoughtless parking by delivery vehicles in the existing loading bay, with the effect of completely blocking traffic when there is a queue of buses waiting at the High St stops.</p> <p data-bbox="392 833 1378 1061">I think the bollards could be useful but I would just want to check that there will be enough room for buses to get round. This can be a problem when there are buses already waiting at the bus stops, further buses queuing behind waiting to get to the same stops but buses and other traffic behind that, unable to pass.</p> <p data-bbox="392 1104 539 1176">Regards, Douglas</p>
