

Part A

Initial Impact Assessment

Proposal name Adult Social Care Workforce Development Strategy

Brief aim(s) of the proposal and the outcome(s) you want to achieve

This EIA is to support the development of Sheffield City Councils Adult Social Care Workforce Development Strategy (ASC WDS) 2023 – 2026. In 2022, Sheffield City Council launched our Adult Social Care Strategy, ‘Living the life you want to live’ 2022 – 2030. Within the Adult Social Care Strategy, one of our key commitments was to ‘Recognise and value the adult social care workforce’.

As part of this we made a commitment in the strategy delivery plan to deliver a long-term workforce strategy which empowers and values the **Adult Social Care (ASC)** workforce, is representative of our diverse communities and sets out how we will improve recruitment, retention and improve conditions for all social care workers in Sheffield.

This ASC WDS sets out the current workforce challenges, the impact on the system and the actions required to overcome such challenges in ASC in Sheffield.

The ASC WDS also meets the obligation in **Our Sheffield One Year Plan 2021/22** to ‘Update our Workforce Development Plan’.

The ASC WDS centres around 5 key areas to support the Adult Social Care Workforce in Sheffield. These are to: Value and empower the ASC workforce, more representative workforce, improve recruitment in ASC, improve retention of workers in ASC and improving conditions for the ASC workforce.

We expect that this strategy will have positive impacts for the ASC workforce in Sheffield relating to a number of areas including equalities. There are specific interventions within the strategy which are focused upon improving equality, diversity and positive outcomes for the workforce.

These include, but are not limited to:

- Recognising the value of the ASC workforce - setting out how we will promote a positive image of social care as a rewarding, challenging, and fulfilling career, and increasing public understanding of social care.
- Better understanding our workforce – improving the information that we hold on the ASC workforce including understanding the reasons why people are leaving roles, how their development needs are being met and how we will meet future workforce needs.
- Supporting Equality, Diversity and Inclusion – aiming to increase the diversity and inclusiveness of the social care workforce in Sheffield, creating career opportunities that appeal to all parts of the community.

- Developing recruitment methods including supporting graduate and apprenticeship opportunities, working with partners to support recruitment into ASC.
- Improving the learning and development offer in ASC and supporting development of career pathways across health & social care.
- Supporting the Health and Wellbeing of the ASC Workforce – supporting best practice and approaches to wellbeing for ASC workforce in Sheffield.

Full Impact Assessment

Health

Does the Proposal have a significant impact on health and well-being (including effects on the wider determinants of health)?

Yes No *if Yes, complete section below*

Staff

Yes No

Customers

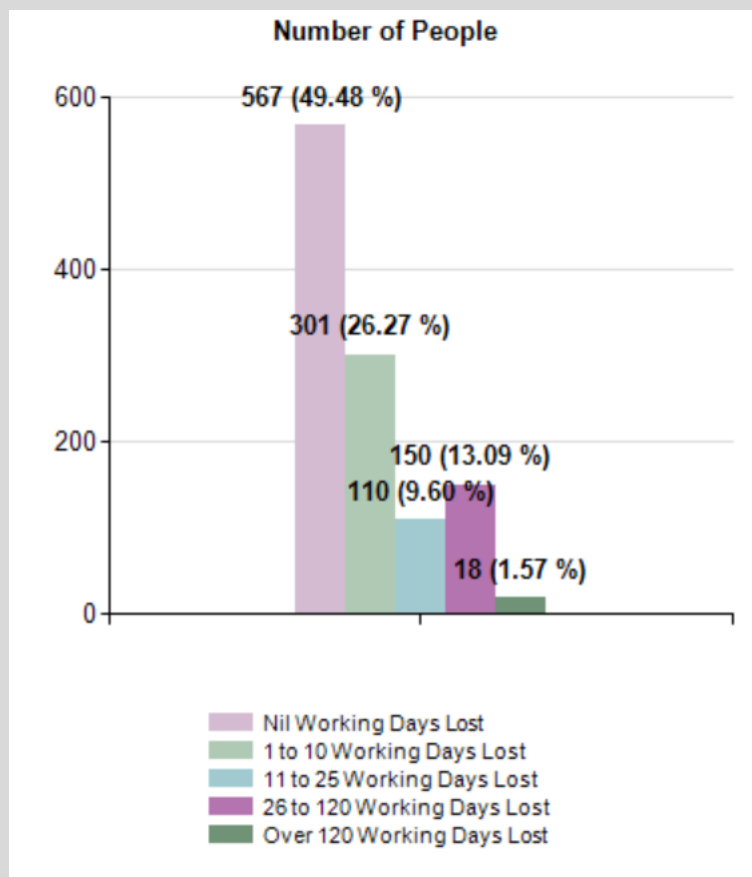

Yes No

Details of impact

This proposal should have a positive impact on staff health. There are specific plans to improve the health and wellbeing of the adult social care workforce in Sheffield, across the sector.

Currently in ASC in SCC there is approximately 14.5% of the workforce who have had between 26 – 120 or more days lost through absence. This strategy will aim to support workers to return to work where possible.

The strategy will also set out how it will aim to improve some of the underlying areas of sickness and absence. It will support initiatives to improve health and wellbeing and aim to measure and improve staff morale across ASC.

The average number of days taken as sickness in ASC services in Sheffield in 2022/23 was 8 days. The strategy will aim to work with partners to understand

the impact of health and wellbeing on the ASC workforce in Sheffield. We will work with partners to co-design initiatives to improve conditions across ASC.

The ASC WDS will aim to influence areas relating to workforce which will have a positive impact on customers. This includes, but is not limited to:

- Trying to improve equality and diversity amongst ASC workforce and creating a more representative workforce who understand the needs and experiences of the people that they work with.
- Improving the learning and development offer for ASC. This will improve the quality of care available for customers in Sheffield.
- Improving retention of the ASC workforce – this means that we will have a more stable workforce with customers working with people that they know and trust.
- Improving recruitment in ASC – this means that we will have sufficient staff to meet the demands of an aging and the increasingly acute needs of our customers.

Update:

The following actions within the Delivery Plan aimed to improve the health and wellbeing of the adult social care workforce:

- *Co-design and embed interventions which improve staff recognition, value, and reward of the workforce.*
 - To date, £100k from the Market Sustainability Improvement Fund grant for 23/24 has been allocated to support the implementation of wellbeing support for the wider care sector.
 - In February 2025, we will launch an Adult Care Sector recognition event to celebrate good practice and reward our workforce. This will have a positive impact for many in our diverse workforce as we recognise and celebrate the care workforce in Sheffield. This will also have a positive impact on those drawing on care and support as we aim to celebrate this profession and shine a positive light on those who support people who draw on care and support.
- *Co-Design and embed an approach that promotes attendance, wellbeing, and values the workforce.*
 - 'Sheffield City Council Adult Care & Wellbeing Being Healthy at Work Plan 2024 – 2025' has been refreshed following engagement with the workforce. The plan will be launched in 2024.
- *Co-design a Health and Social Care Academy for Sheffield.*
 - The commissioning approach for the Health and Social Care Academy has been approved. The Care Academy is a partnership between health and care organisations in the city. It will work in partnership to offer job advice, career guidance and development, apprenticeships, and opportunities to access training to those interested in pursuing health and social care careers. This will have positive impact to those drawing on care and support

Age

Impact on Staff

Yes No

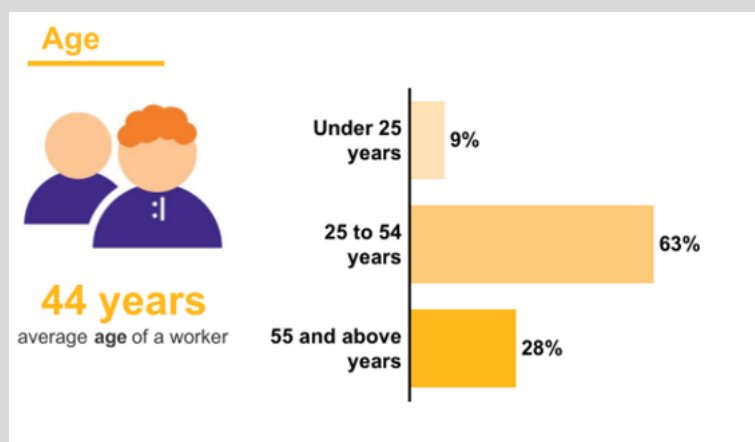

Impact on Customers

Yes No

Details of impact

This proposal aims to make the adult social care workforce more representative of our diverse communities in Sheffield. Skills for care data currently suggests that the average age of the ASC worker in Sheffield is 44 years old. In SCC the median age of our workforce is 49. Across ASC only 9% of the workforce is age 25 years or younger.

We know that our future workforce is going to require more people working in ASC. Therefore, we need to attract more younger people from a diverse range backgrounds to work and develop in ASC.

In Sheffield there are approximately 7,600 people in receipt of care. A large proportion of people in care are over 65. In Sheffield 95,000 people are over 65 and this figure is projected to increase by 13,000 by 2030. Therefore, the interventions outlined in this proposal should have a positive impact on the elderly population of Sheffield. The interventions within the proposal respond to an increased demand for ASC services in the future.

The ASC WDS aims to improve recruitment into ASC. We will look at ways to attract a diverse range of people into starting careers in ASC from a range of backgrounds. We will promote inclusive and accessible recruitment. This will include looking at ways to improve the volume of younger people joining and staying in careers within ASC.

We will also look at interventions to improve retention in ASC and look at ways which people can stay in Health and Social Care with rewarding career progression pathways.

The interventions relating to learning and development will also improve the quality of service offered to customers, across the ASC sector.

Update

The following action within the Delivery Plan has been completed:

- *Implement an annual Adult Care workforce census to inform annual workforce plan.*
 - Sheffield City Council supports an annual census as part of the Skills for Care ASCWDS yearly update. We will continue to support completion of the ASCWDS.

The following action within the Delivery Plan is in progress and on track:

- *Agree a SMART plan, evidenced by metrics, to increase the number of placements opportunities across Adult Care and improve quality of ASY placements.*
 - Placement expansion in Social Care was launched in collaboration with ICS colleagues. Guidance for care sector managers and proposed model have been developed. Placements in 2024 are to be launched with 14 pilot sites identified.

The following action within the Delivery Plan has been completed:

- *Commission research to improve the understanding of the practical activities which will improve the working conditions and environment for staff across the sector and use recommendations to inform a SMART action plan.*
 - Approximately £100k has been allocated from the Market Sustainability Improvement Fund grant for 23/24 to support recruitment activity for the wider care sector.

-

Disability

Impact on Staff

Yes No

Impact on Customers

Yes No

Details of impact

In 2021, **9.1% of Sheffield residents were identified as being disabled and limited a lot, a decreased from 10.6% in 2011.**

In 2021, just over one in nine people (**11.6%**) **were identified as being disabled and limited a little, compared with 11.0% in 2011.** The proportion of Sheffield residents who were not disabled increased from 78.3% to 79.4%.

Within Adults Care and Wellbeing Service 16.3% of the workforce has shared with us that they are disabled. In Sheffield, 20.6% of the City's population are disabled. The Care Sector workforce data suggests that only 2.6% of workers are disabled. We will promote accessible and inclusive recruitment

We expect that this proposal will have a positive impact on both staff and customers with a disability. This proposal aims to make the adult social care workforce more representative of our diverse communities in Sheffield include those with a disability. We will work with partners in H&SC to improve our understanding of the ASC workforce and look into ways that we can improve health and wellbeing offer for all workers.

SCC recently introduced its Workplace Adjustment Passport which records employee's reasonable adjustments and flexible working arrangements and had a positive impact on staff with disabilities. Person centred processes such as these are likely to have long term benefits on the accessibility of employment for disabled staff and their ability to develop within the organisation.

This proposal will also improve the learning and development offer for ASC workforce in Sheffield. We expect that this will have a positive impact on the people that they support as we will have a better trained, more stable and supported workforce.

Update:

The following action within the Delivery Plan to create a more representative Care workforce is on track and in progress:

- *Co-Design and implement a plan to improve workforce equality and diversity*
 - Sheffield City Council launched our Equality, Diversity, Inclusion and Social Justice Delivery Plan at Health and Social Care Policy Committee on 13th December. We will work with partners to ensure the Sheffield City Council Equality, Diversity, Inclusion and Social Justice Delivery Plan delivery plan during 2024.

Pregnancy/Maternity

Impact on Staff

Yes No

Impact on Customers

Yes No

Details of impact

The ASC workforce is significantly more female than male, with approximately 83% of the ASC workforce are female. Therefore, pregnancy and maternity issues are likely to have a overwhelming effect on this cohort of workers. We offer and will showcase best practice around support to enable people who are off to return to the workplace. We will ensure our offer is inclusive and consider the support for others who welcome children into their family.

Currently there are no targeted interventions aimed at staff/customers who are pregnant or on a period of maternity leave within this strategy. However, there may be interventions identified later as part of co-design work when we explore health and wellbeing for the ASC workforce. This may raise specific areas and interventions relating to pregnancy/maternity leave which we may need to develop as part of future work.

Where there are interventions and opportunities then we will need to ensure that these continue to be accessible to staff who are pregnant or on maternity leave and ensure that communication is consistent throughout.

Race

Impact on Staff

Yes No

Impact on Customers

Yes No

Details of impact

- In 2021, around **465,400 Sheffield residents said they were born in England** or 83.6% of the local population, a **decrease from around 479,400 in 2011**, (86.7%) of Sheffield's population.
- **Pakistan was the next most represented**, with just under 9,900 Sheffield residents reporting this country of birth (1.8%).
- The number of **Sheffield residents born in countries that joined the EU between April 2001 and March 2011** (other than Poland, Croatia, Lithuania and Romania) **rose from around 3,200 in 2011 to around 6,900 in 2021**

The ethnicity of the care sector workforce is more diverse than the population of Sheffield. There are higher proportions of workers from a Black/ African/ Caribbean/Black British background (13% of the total workforce) compared to the city's population at 4.6 %. There is less representation within the Asian group at 6 % compared to the City's population at 9.6%. In Sheffield City Council's (SCC) Adults Care and Wellbeing Service 78.2% of the workforce identifies as White British and 21.8% identifies as Black, Asian & Minority (BAME). We know that this has increased positively and is more than 1% greater of the City's population at 20.9%.

We expect that this proposal will have a positive impact on race for staff and customers in ASC in Sheffield. This proposal aims to make the adult social care workforce more representative of our diverse communities in Sheffield.

There are specific interventions contained within this proposal which will aim to support equality, diversity and inclusion throughout the ASC workforce. These include addressing some of the issues raised as part of the race equality commission & SACHMA reports, working with partners to co-design interventions relating to equality, diversity and inclusion and looking at ways to address and improve diversity in top-earners in ASC.

Update:

The following action within the Delivery Plan to create a more representative Adult Care workforce is on track and in progress:

- *Co-Design and implement a plan to improve workforce equality and diversity*
 - Sheffield City Council launched our Equality, Diversity, Inclusion and Social Justice Delivery Plan at Health and Social Care Policy Committee on 13th December. We will work with partners to embed the Sheffield City Council Equality, Diversity, Inclusion and Social Justice Delivery Plan delivery plan during 2024.

The following action within the Delivery Plan has been completed:

- *Implement an annual Adult Care workforce census to inform an annual workforce plan.*
 - Sheffield City Council supports an annual census as part of the Skills for Care ASCWDS yearly update. We will continue to support completion of the ASCWDS.

Religion/Belief

Impact on Staff

Yes No

Impact on Customers

Yes No

Details of impact

The current profiles for religion and belief for Sheffield and SCC employees in shown below:

Sheffield Profile - Religion and Belief Percentages		Sheffield City Council employees - Religion and Belief		
Christian	52.5%	Christian	43.7%	3090 Employees
No Religion	37.7%	No Religion	47.1%	3324 Employees
Muslim	7.5%	Muslim	5.6%	395 Employees
Other	0.5%	Other	2.6%	186 Employees
Buddhist	0.6%	Buddhist	0.3%	19 Employees
Hindu	0.9%	Hindu	0.2%	14 Employees
Sikh	0.2%	Sikh	0.2%	15 Employees
Jewish	0.1%	Jewish	0.1%	<10 Employees

The workforce data for the wider ASC workforce doesn't contain accurate information for the workforce on religion or belief.

From the data from our internal workforce, we can see that there is an underrepresentation for our workforce from Muslim and Hindu backgrounds. As part of this proposal, we aim to improve the equality and diversity of the ASC workforce. We will also aim to improve the data we hold on the wider ASC workforce to support our monitoring of the workforce.

This proposal should have a positive impact on customers of ASC services. With more representative workforce our customers will be supported by more people who understand their backgrounds, cultural and religious practices and beliefs.

Sex

Impact on Staff

Yes No

Impact on Customers

Yes No

Details of impact

In ASC we know that the workforce is significantly more female than male, with approximately 83% of the ASC workforce are female.

This proposal aims to make the adult social care workforce more representative of our diverse communities in Sheffield. This proposal is like to have a positive impact on sex and will try to improve gender equality in the ASC workforce.

There may be specific interventions which are picked up as part of this proposal which will specifically support the health and wellbeing of the female workforce. This includes menopause support schemes which have already been trialled within ASC workforce in Sheffield.

Update:

The following action within the Delivery Plan has been completed:

- *Implement an annual Adult Care workforce census to inform an annual workforce plan.*
 - Sheffield City Council supports an annual census as part of the Skills for Care ASCWDS yearly update. We will continue to support completion of the ASCWDS.

Sexual Orientation

Impact on Staff

Yes No

Impact on Customers

Yes No

Details of impact

Within Adults Care and Wellbeing Services 7.1 % of the workforce has shared with us that they are LGB+. In Sheffield, 4.13% of the City’s population are Lesbian, Gay, Bisexual or other.

SCC currently has dignity and respect policies in place for the wider workforce.

Whilst there are no targeted interventions aimed at staff/customers sexual orientation within the ASC WDS. There may be interventions identified later as part of co-design work when we explore health and wellbeing and representation of the ASC workforce. This may raise specific areas relating to sexual orientation.

Gender Reassignment (Transgender)

Impact on Staff

Yes No

Impact on Customers

Yes No

Details of impact

Data on Gender Reassignment of the ASC workforce in Sheffield is fairly limited and due to such small numbers cannot be analysed without risking identifying individuals. SCC already has policy and guidance in place to support trans people in workplace and to enable their managers and colleagues to support them.

The ASC WDS will look to improve data on the ASC workforce and improve equality and diversity across the ASC workforce.

SCC currently has dignity and respect policies in place for the wider workforce. Whilst there are currently no targeted interventions aimed at this cohort of workers or customers we will review this element as part of the ongoing EIA review for the proposal.

There may be interventions identified as part of co-design work when we explore health and wellbeing for the workforce. This may raise specific areas relating to gender reassignment.

Carers

Impact on Staff

Yes No

Impact on Customers

Yes No

Details of impact

In 2021, **4.7% of Sheffield residents (aged five years and over) reported providing up to 19 hours of unpaid care each week**, a decrease from 7.4% in 2011.

In 2023 – 24 in the SCC ASC workforce 27.4% of staff identified as being an unpaid carer. Across the SCC workforce, 22.1% of staff identified as being an unpaid carer. As SCC has a high number of carers within its workforce and the age and sex profile (high numbers of females, median age 48) in comparison to the local community and the nature of the roles within ASC means that there is likelihood of having a high number of carers in this sector. SCC has already introduced the Workplace Adjustment Passport to support and record flexible working arrangements. There has also been an increase in the amount of discretionary leave and unpaid leave staff can request to help with caring arrangements.

This proposal will seek to support activity to increase awareness of the support available to carers via a co-produced carers strategy.

We expect that this proposal will have positive outcomes for carers in ASC in Sheffield.

The number of new referrals to the Carers Centre in Q4 2024, was over 33% of the total number of new referrals in 2022.

Update

- The Carers Delivery Plan 2024 identified the following actions: Practice Development to engage with ASC teams to increase carer awareness and promote the Carers Centre.
 - Following the restructure in ASC ACW in 2023, low referring teams have been targeted with information/training as appropriate. There were 1046 new referrals

by ACW staff to the Carers Centre in 12 months up to June 2024, which was more than double the number of referrals from the service in 2022.

- Promote that the Council identifies carers within the Council via our annual workforce survey, ensure they are aware of the Carers Service and encourage employee carers to join the community of carers at Sheffield Carers Centre
 - In 2022/23, 18.6% of Council staff identified as unpaid carers. This number continues to trend upwards, in 2018/19, only 10.6% of workers, identified themselves as an unpaid carer. This is positive as more people are recognising and/or declaring that they are carers. In Carers Week there will be communications encouraging staff who are carers to look at our intranet resources which includes promotion of the Carers Centre.

Voluntary, Community & Faith sectors

Impact on Staff

Yes No

Impact on Customers

Yes No

Details of impact

The aim is to improve equality implications and conditions for all adult social care workers in Sheffield. The proposal aims to value and empower the workforce and make the adult social care workforce more representative of our communities.

We will include VCFS organisations in future work to co-design interventions relating to the ASC workforce. VCFS organisations are represented on the Sheffield ASC Workforce Board which oversees much of the work referenced in this proposal. This proposal aims to improve cohesion across ASC providers and wider partners.

Partners

Impact on Staff

Yes No

Impact on Customers

Yes No

Details of impact

The proposal will seek to work with partners across AHSC to improve conditions for workforce. The implementation of this proposal should see a positive effect upon partners across the ASC system. There is specific action suggested within the proposal which aim to improve cohesion between H&SC.

Update:

The following action within the Workforce Development Strategy has been progressed:

Sheffield Workforce Engagement Board meets bi-monthly to lead on activity relating to the Strategy and offer opportunities to discuss workforce issues The

Board is co-chaired by Skills for Care South Yorkshire Locality Manager and South Yorkshire ICS Integration Manager.

As part of the delivery of the Strategy we will host a series of Workforce Forums to continue to engage and promote best practice relating to workforce development.

Strengthen partnerships with regional employment and skills strategies to make sure that adult care is well represented and is considered as part of the development of future strategies and plans.

- Further links with SYMCA have been developed to promote Adults Care in regional employment and skills strategies. Programme to launch in 2024

Cohesion

Staff

Yes No

Customers

Yes No

Details of impact

This plan should have a positive impact on cohesion across H&SC. The plan will propose cohesive working and integration to address long standing issues surrounding workforce in ASC. There is specific action suggested within the proposal which aim to improve cohesion between H&SC.

Poverty & Financial Inclusion

Impact on Staff

Yes No

Impact on Customers

Yes No

Please explain the impact

This proposal should have a positive impact on poverty and financial inclusion for the ASC workforce in Sheffield. There are specific actions which will aim to improve the learning and development offer for the ASC workforce. We will aim to create specific career development pathways which should make it easier for the ASC workforce to develop and progress across H&SC. This proposal aims to make pay and benefits more equitable across the ASC system. The proposal will also aim to look at ways to recognise and reward the ASC workforce.

Impact on Staff Yes No**Impact on Customers** Yes No**Details of impact**

Currently there are no targeted interventions aimed at staff/customers from Armed Forces. There may be interventions identified at a later time as part of co-design work when we explore health and wellbeing for the workforce. This may raise specific areas relating to Armed Forces.
