

Initial Assessment

Category	Impact	Description of Project Impact	Score
Buildings and Infrastructure	Construction	No direct impact	8
	Use	As the Executor Services team scales up, there may be increased use of office space, but no significant infrastructure developments	7
	Land use in development	No direct impact	8
Transport	Demand Reduction	As this project is about Appointeeships rather than infrastructure or transport, the impact on transport decarbonisation or public transport use is minimal or negligible.	8
	Decarbonisation of Transport	As this project is about Appointeeships rather than infrastructure or transport, the impact on transport decarbonisation or public transport use is minimal or negligible.	8
	Public Transport	As this project is about Appointeeships rather than infrastructure or transport, the impact on transport decarbonisation or public transport use is minimal or negligible.	8
	Increasing Active Travel	As this project is about Appointeeships rather than infrastructure or transport, the impact on transport decarbonisation or public transport use is minimal or negligible.	8
Energy	Decarbonisation of Fuel	Not applicable.	8
	Demand Reduction/Efficiency Improvements	There may be some minor improvements through streamlining services and reducing administrative overhead.	7
	Increasing infrastructure for renewables generation	No significant impact -this proposal does not involve direct energy use	8
Economy	Development of low carbon businesses	No direct relevance to low-carbon businesses.	8
	Increase in low carbon skills/training	N/A	8
	Improved business sustainability	By bringing appointeeships in-house, the council aims to reduce costs and improve service efficiency, leading to a more sustainable financial model.	7

10	The project will significantly increase the amount of CO2e released compared to before.
9	The project will increase the amount of CO2e released compared to before.
8	The project will maintain similar levels of CO2e emissions compared to before.
7	
6	
5	The project will achieve a moderate decrease in CO2e emissions compared to before.
4	
3	The project will achieve a significant decrease in CO2e emissions compared to before.
2	
1	The project can be considered to achieve net zero CO2e emissions.
0	
Carbon Negative	The project is actively removing CO2e from the atmosphere.
