10 June 2010

Your Ref: TR/36/0

Dear Mr Wilson

A625 Baslow Road. Proposed Revision to Speed Limit.

We **OBJECT** to the above proposal because the increased speed limit will cause additional danger to the many cyclists who use this road both for commuting and for leisure, as a means to access the Peak District, and deter new cyclists from using the road.

Derbyshire has implemented a 50mph speed limit on many of its trunk roads and this is the maximum speed limit that should apply on this road. If the speed limit is kept low on the approach to the bus turning circle there will be no need for an expensive electronic warning system.

Yours sincerely

Simon Geller
