

**NORTH
LOCAL AREA COMMITTEE
MEETING – 5 OCTOBER 2022
WRITTEN ANSWER PROVIDED TO
PUBLIC QUESTION**

1.	Public question from: L Cocker
	<p>Question:</p> <p>I am unable to attend this meeting but would like the following questions to be raised and answered.</p> <p>I noticed a speed detection device in Ecclesfield.</p> <ol style="list-style-type: none"> 1. On which dates will this device be active? 2. When and where will the results of the data be available to residents? 3. How will the North Local Area Committee make use of these results to ensure it is a viable operation?
	<p>Response:</p> <ol style="list-style-type: none"> 1. <u>On which dates will this device be active?</u> <p>The devices are now in active use. A series of locations per ward has been planned balancing Ward Councillors requests for areas to site the devices with locations where they are able to function effectively. Please see the attached Vehicle Activated Signs (VAS) rotation schedule.</p> 2. <u>When and where will the results of the data be available to residents?</u> <p>The data that is obtained by the VAS is downloaded by Amey before it is moved to the next location, this data is then sent to Sheffield City Council. Work is ongoing to consider the most practicable way to analyse and share the data</p> 3. <u>How will the North Local Area Committee make use of these results to ensure it is a viable operation?</u> <p>The Local Area Committee will use the data to assess the effectiveness of the VAS locations once a full rotation has been completed.</p>
