**Decision Type**

**Committees:**

Policy Committees

- Transport, Regeneration & Climate

## Portfolio

**Primary Portfolio:**

City Futures

**EIA is cross portfolio:**

No

**EIA is joint with another organisation:**

No

## Overview of Impact

**Overview Summary:**

The initial assessment has determined that this proposal should have a positive impact on the city centre and Attercliffe area identified for the LUF funding and the wider Sheffield City Region, including currently under-served communities by:

- Creating a stronger sense of place and community
- Increasing wider investment opportunities
- Improving the specific areas which will hopefully result in greater job, retail and wider commercial opportunities to meet diverse community needs
- Ensure the land and property future use and potential accessibility for the benefit of the local area and visitors
- Provide positive benefits to a range of protected characteristics and identified equalities characteristics
- Encourage the increased participation of customers across the city and wider region who may be currently under-represented, ensuring access to and pride in community
- Reduce inequalities by improving Attercliffe, the city centre and wider region as a place to live, work and visit
- Increase quality of life, health, wellbeing and happiness for local communities

The equalities impacts will be considered and assessed appropriately through the Planning stages and in The Attercliffe Area Board.

**Impacted characteristics:**

- Age
- Page 2

Cohesion  
Disability  
Health  
Poverty & Financial Inclusion  
Race  
Religion/Belief  
Voluntary/Community & Faith Sectors
