### **3. Reasons For Decision**

Council officers have seen first hand that the voluntary sector has experienced an increase in demand for its 'services' during the Covid-19 pandemic and although some of the sector has been able to access short term funding to respond to emergency situations, there is a real threat that the city's VCS may not be sustainable in either the short term (to cope with another wave) or the long term. Investment is therefore needed for activity to support the citizen's of Sheffield and the groups and organisations that provide that support.

All existing grant recipients have stepped up to the challenge and contributed to the city's response to Covid-19. With the onset of lockdown, staff and volunteers worked hard to establish the immediate needs of their service users, identifying vulnerable clients and offering direct support where necessary. Organisations have worked in partnership with both statutory and VCS partners to help set-up and deliver key Covid-19 support services. All have played a critical role in helping to disseminate essential public health information and key messages to our diverse communities across the city. This in parallel with the huge efforts they have taken to ensure they can continue to provide their own services in different and innovative ways now and into the future.

Extending existing arrangements for a year into 2022/23 allows us to continue to support the valuable work of the VCS, tackle inequalities in Sheffield in the most cost effective way and undertake a thorough review of the Council's investment in Grant Aid.

We wish to continue to fund the Voluntary Sector through Grant Aid whilst understanding the financial constraints. We want to show the voluntary sector we value the excellent and wide-ranging support they provide to a diverse range of Sheffield residents.

Relaunching an open pot, part of the overall Grant Aid monies, allows us to invite new organisations in the city to bid for funding to allow for innovative support to the City's diverse communities sector.

### **4. Alternatives Considered And Rejected**

None

There has always been a danger that even for groups and organisations with a strong organisational infrastructure, rapid growth and demand for their work can leave them vulnerable as their staffing/volunteers; skills, IT, office space, reserves are not able to cope with demand (Esme Fairbairn Foundation). The pandemic has not necessarily created new problems, but it has put pressure on the VCS in areas it was already struggling with. To cut or change grant funding support to our existing grant beneficiaries would be detrimental at this time.
