

Cabinet

Wednesday 11 February 2015 at 2.00 pm

**To be held at the Town Hall,
Pinstone Street, Sheffield, S1 2HH**

The Press and Public are Welcome to Attend

Membership

Councillor Julie Dore	(Leader of the Council)
Councillor Leigh Bramall	(Business, Skills & Development)
Councillor Jackie Drayton	(Children, Young People & Families)
Councillor Jayne Dunn	(Environment, Recycling and Streetscene)
Councillor Isobel Bowler	(Culture, Sport & Leisure)
Councillor Ben Curran	(Finance and Resources)
Councillor Harry Harpham	(Deputy Leader/Homes & Neighbourhoods)
Councillor Mazher Iqbal	(Communities & Public Health)
Councillor Mary Lea	(Health, Care & Independent Living)

PUBLIC ACCESS TO THE MEETING

The Cabinet discusses and takes decisions on the most significant issues facing the City Council. These include issues about the direction of the Council, its policies and strategies, as well as city-wide decisions and those which affect more than one Council service. Meetings are chaired by the Leader of the Council, Councillor Julie Dore.

A copy of the agenda and reports is available on the Council's website at www.sheffield.gov.uk. You can also see the reports to be discussed at the meeting if you call at the First Point Reception, Town Hall, Pinstone Street entrance. The Reception is open between 9.00 am and 5.00 pm, Monday to Thursday and between 9.00 am and 4.45 pm. You may not be allowed to see some reports because they contain confidential information. These items are usually marked * on the agenda.

Members of the public have the right to ask questions or submit petitions to Cabinet meetings and recording is allowed under the direction of the Chair. Please see the website or contact Democratic Services for further information regarding public questions and petitions and details of the Council's protocol on audio/visual recording and photography at council meetings.

Cabinet meetings are normally open to the public but sometimes the Cabinet may have to discuss an item in private. If this happens, you will be asked to leave. Any private items are normally left until last. If you would like to attend the meeting please report to the First Point Reception desk where you will be directed to the meeting room.

Cabinet decisions are effective six working days after the meeting has taken place, unless called-in for scrutiny by the relevant Scrutiny Committee or referred to the City Council meeting, in which case the matter is normally resolved within the monthly cycle of meetings.

If you require any further information please contact Simon Hughes on 0114 273 4014 or email simon.hughes@sheffield.gov.uk.

FACILITIES

There are public toilets available, with wheelchair access, on the ground floor of the Town Hall. Induction loop facilities are available in meeting rooms.

Access for people with mobility difficulties can be obtained through the ramp on the side to the main Town Hall entrance.

**CABINET AGENDA
11 FEBRUARY 2015**

Order of Business

- 1. Welcome and Housekeeping Arrangements**
- 2. Apologies for Absence**
- 3. Exclusion of Public and Press**
To identify items where resolutions may be moved to exclude the press and public
- 4. Declarations of Interest** (Pages 1 - 4)
Members to declare any interests they have in the business to be considered at the meeting
- 5. Minutes of Previous Meeting** (Pages 5 - 16)
To approve the minutes of the meeting of the Cabinet held on 14 January 2015
- 6. Public Questions and Petitions**
To receive any questions or petitions from members of the public
- 7. Items Called-In For Scrutiny**
The Director of Legal and Governance will inform the Cabinet of any items called in for scrutiny since the last meeting of the Cabinet
- 8. Retirement of Staff** (Pages 17 - 20)
Report of the Executive Director, Resources
- 9. Revenue Budget and Capital Programme Monitoring 2014/15 Month 8 (as at 30/11/14)** (Pages 21 - 66)
Report of the Executive Director, Resources
- 10. Revenue Budget 2015/16** (Pages 67 - 396)
Report of the Executive Director, Resources
- 11. Capital Programme 2015/16** (Pages 397 - 504)
Report of the Executive Director, Resources
- 12. Voluntary Sector Grant Aid Investment 2015-16** (Pages 505 - 546)
Report of the Executive Director, Communities

**NOTE: The next meeting of Cabinet will be held on
Wednesday 18 March 2015 at 2.00 pm**

ADVICE TO MEMBERS ON DECLARING INTERESTS AT MEETINGS

If you are present at a meeting of the Council, of its executive or any committee of the executive, or of any committee, sub-committee, joint committee, or joint sub-committee of the authority, and you have a **Disclosable Pecuniary Interest (DPI)** relating to any business that will be considered at the meeting, you must not:

- participate in any discussion of the business at the meeting, or if you become aware of your Disclosable Pecuniary Interest during the meeting, participate further in any discussion of the business, or
- participate in any vote or further vote taken on the matter at the meeting.

These prohibitions apply to any form of participation, including speaking as a member of the public.

You **must**:

- leave the room (in accordance with the Members' Code of Conduct)
- make a verbal declaration of the existence and nature of any DPI at any meeting at which you are present at which an item of business which affects or relates to the subject matter of that interest is under consideration, at or before the consideration of the item of business or as soon as the interest becomes apparent.
- declare it to the meeting and notify the Council's Monitoring Officer within 28 days, if the DPI is not already registered.

If you have any of the following pecuniary interests, they are your **disclosable pecuniary interests** under the new national rules. You have a pecuniary interest if you, or your spouse or civil partner, have a pecuniary interest.

- Any employment, office, trade, profession or vocation carried on for profit or gain, which you, or your spouse or civil partner undertakes.
- Any payment or provision of any other financial benefit (other than from your council or authority) made or provided within the relevant period* in respect of any expenses incurred by you in carrying out duties as a member, or towards your election expenses. This includes any payment or financial benefit from a trade union within the meaning of the Trade Union and Labour Relations (Consolidation) Act 1992.

*The relevant period is the 12 months ending on the day when you tell the Monitoring Officer about your disclosable pecuniary interests.

- Any contract which is made between you, or your spouse or your civil partner (or a body in which you, or your spouse or your civil partner, has a beneficial interest) and your council or authority –
 - under which goods or services are to be provided or works are to be executed; and
 - which has not been fully discharged.

- Any beneficial interest in land which you, or your spouse or your civil partner, have and which is within the area of your council or authority.
- Any licence (alone or jointly with others) which you, or your spouse or your civil partner, holds to occupy land in the area of your council or authority for a month or longer.
- Any tenancy where (to your knowledge) –
 - the landlord is your council or authority; and
 - the tenant is a body in which you, or your spouse or your civil partner, has a beneficial interest.
- Any beneficial interest which you, or your spouse or your civil partner has in securities of a body where -
 - (a) that body (to your knowledge) has a place of business or land in the area of your council or authority; and
 - (b) either -
 - the total nominal value of the securities exceeds £25,000 or one hundredth of the total issued share capital of that body; or
 - if the share capital of that body is of more than one class, the total nominal value of the shares of any one class in which you, or your spouse or your civil partner, has a beneficial interest exceeds one hundredth of the total issued share capital of that class.

If you attend a meeting at which any item of business is to be considered and you are aware that you have a **personal interest** in the matter which does not amount to a DPI, you must make verbal declaration of the existence and nature of that interest at or before the consideration of the item of business or as soon as the interest becomes apparent. You should leave the room if your continued presence is incompatible with the 7 Principles of Public Life (selflessness; integrity; objectivity; accountability; openness; honesty; and leadership).

You have a personal interest where –

- a decision in relation to that business might reasonably be regarded as affecting the well-being or financial standing (including interests in land and easements over land) of you or a member of your family or a person or an organisation with whom you have a close association to a greater extent than it would affect the majority of the Council Tax payers, ratepayers or inhabitants of the ward or electoral area for which you have been elected or otherwise of the Authority's administrative area, or
- it relates to or is likely to affect any of the interests that are defined as DPIs but are in respect of a member of your family (other than a partner) or a person with whom you have a close association.

Guidance on declarations of interest, incorporating regulations published by the Government in relation to Disclosable Pecuniary Interests, has been circulated to you previously.

You should identify any potential interest you may have relating to business to be considered at the meeting. This will help you and anyone that you ask for advice to fully consider all the circumstances before deciding what action you should take.

In certain circumstances the Council may grant a **dispensation** to permit a Member to take part in the business of the Authority even if the member has a Disclosable Pecuniary Interest relating to that business.

To obtain a dispensation, you must write to the Monitoring Officer at least 48 hours before the meeting in question, explaining why a dispensation is sought and desirable, and specifying the period of time for which it is sought. The Monitoring Officer may consult with the Independent Person or the Council's Standards Committee in relation to a request for dispensation.

Further advice can be obtained from Gillian Duckworth, Interim Director of Legal and Governance on 0114 2734018 or email gillian.duckworth@sheffield.gov.uk.

Cabinet

Meeting held 14 January 2015

PRESENT: Councillors Julie Dore (Chair), Isobel Bowler, Ben Curran, Jackie Drayton, Jayne Dunn, Harry Harpham (Deputy Chair), Mazher Iqbal and Mary Lea

.....

1. APOLOGIES FOR ABSENCE

1.1 An apology for absence was received from Councillor Leigh Bramall.

2. EXCLUSION OF PUBLIC AND PRESS

2.1 No items were identified where it was proposed to exclude the public and press.

3. DECLARATIONS OF INTEREST

3.1 Councillor Jayne Dunn declared a personal interest in agenda item number 11 'BBEST (Broomhill, Broomfield, Endcliffe, Summerfield and Tapton) Neighbourhood Area and Forum Designation' as a local trader in the Broomhill area.

4. MINUTES OF PREVIOUS MEETING

4.1 The minutes of the meeting of the Cabinet held on 17 December 2014 were approved as a correct record.

5. PUBLIC QUESTIONS AND PETITIONS

5.1 Public Question in respect of Ochre Dike Playing Fields, Waterthorpe Fields in Trust Designation

David Bates asked, should the recommendations in respect of item 8 on the agenda 'Ochre Dike Playing Fields, Waterthorpe Fields in Trust Designation' be agreed, how long would it take approximately to complete the Fields in Trust process?

Councillor Isobel Bowler, Cabinet Member for Culture, Sport and Leisure, thanked Mr Bates and the local campaigners for their work to protect the fields. She was pleased that we had now reached this stage.

David Cooper, Head of Policy and Projects, Parks and Countryside, added that he had received the paperwork to apply for the Fields in Trust designation. It would take around three months for the process to be completed subject to the appropriate legal checks.

Councillor Isobel Bowler commented that once the process had been completed

there would be a celebratory event held and she would ensure that the local community were involved.

5.2 Public Question in respect of Sanctions for Community Groups

Martin Brighton stated that the Leader of the Council had been given quotes from examples from Council records that the Council Leader herself said were unacceptable. Why then was the Council using the same material as one basis for imposing sanction and prejudice upon a community group?

Councillor Julie Dore, Leader of the Council, responded that there was a difference between responding to quotations presented to her as opposed to evidence used to making a decision. When Mr Brighton had provided examples of quotations at a previous meeting she had said that she would find such quotes unacceptable. She did not, however, say that using material evidence to impose sanctions was unacceptable.

The Council had policies and procedures regarding the recognition of community and voluntary groups. If a particular organisation breached those policies or their own Constitution the Council was right to put sanctions upon them. Mr Brighton had not presented any evidence where the Council had imposed sanctions on an organisation without any material evidence to do so.

5.3 Public Question in respect of Sanctions for Community Groups

Martin Brighton asked why the Council Leader was allowing the Council to impose sanction and prejudice upon a community group for which the Council itself had published that there was no supporting evidence?

Councillor Julie Dore commented that she had always said that sanctions would be imposed on a group if they were in breach of the Council's Recognition Policy.

5.4 Public Question in respect of Private Meeting

Martin Brighton commented that, at Full Council, the Council Leader had stated that processing of complaints of abuse were victim-centric and the Council Leader agreed to meet with the abused people. However, having contacted the Council Leader, as instructed by the Council Leader, the Council Leader has not even responded – why not?

Councillor Julie Dore stated that her Secretary was currently in the process of organising the meeting. However, since the Leader had said that she would organise the meeting there had been the Christmas break but the meeting would be arranged shortly. If Mr Brighton or others brought any evidence to that meeting regarding community groups she would look at that at that point.

5.5 Public Question in respect of Freedom of Information/Data Protection Disclosures

Martin Brighton commented that recent Freedom of Information/Data Protection disclosures showed how this citizen had been denigrated for years, based upon

lies and that the creation and maintenance of a culture with an adverse mindset continued with political direction. Why was the Council Leader allowing this?

Councillor Julie Dore responded that the situation referred to by Mr Brighton had been a long standing issue over many years and she couldn't comment on the circumstances before she became Council Leader. During her time as Leader there had not been any occasion at Full Council or Cabinet where she had responded to a question from Mr Brighton where she had behaved in the manner referred to in the question. She had responded to Mr Brighton's questions and treated him with courtesy and respect.

5.6 Public Question in respect of a Community group in the South West Area

Martin Brighton commented that Freedom of Information/Data Protection disclosures of Council documents showed that the claim at Full Council that due process had been followed with respect to derecognition of a community group in the South-West was untenable. What redress would the Council provide?

Councillor Julie Dore stated that she would discuss this issue with Mr Brighton in the meeting referred to in her response to a previous question.

5.7 Public Question in respect of Housing Revenue Account

Mick Watts commented that he supported in principle the proposals in the Housing Revenue Account report on the agenda for the meeting. However, in borrowing up to the debt cap was the Council putting itself at risk by limiting its options for the future?

Councillor Harry Harpham, Deputy Leader and Cabinet Member for Homes and Neighbourhoods commented that he was pleased that Mr Watts believed that the investment was desirable. It would bring in a £30m subsidy, 350 jobs and bring down heating bills for tenants. The Council had previously focused on bringing homes up to the Decent Homes standard. In terms of the environmental measures being introduced, Members believed that while work was being undertaken and the scaffolding up this was an ideal time to put these in place. Councillor Harpham was extremely pleased that tenants supported the plans which would improve the lives of the hardest pressed citizens in the City.

Liam Duggan, Manager Social Housing Commissioning, added that the Council was trying to strike a balance between optimising the financial capacity of the Housing Revenue Account for the benefit of tenants and the City as a whole with the potential financial risk. He believed that this had been done through prudent budget planning and, in particular, by retaining a £9m risked based reserve to serve as an insurance policy should costs be higher than anticipated.

6. ITEMS CALLED-IN FOR SCRUTINY

- 6.1 The Cabinet noted that there had been no items called-in for Scrutiny since its last meeting.

7. RETIREMENT OF STAFF

The Interim Director of Legal and Governance submitted a report on Council staff retirements.

RESOLVED: That this Cabinet :-

(a) places on record its appreciation of the valuable services rendered to the City Council by the following staff in the Portfolios below:-

<u>Name</u>	<u>Post</u>	<u>Years' Service</u>
-------------	-------------	-----------------------

Children, Young People and Families

Eileen Dunleavy	Cleaner, Windmill Hill Primary School	37
Margaret Gosling	Senior Teaching Assistant Level 3, Bents Green School	28
Marilyn Hodgett	Early Years Childcare Manager	39
Margaret Ward	Domestic Assistant	23
Susan Woodhead	Word Processor/Clerk, High Storrs School	22

Communities

Sharon Hallsworth	Library and Information Assistant	24
Salome Kent	Support Worker	20
Anne Miller	Social Worker	34
Jane Pringle	Library and Information Assistant	37

(b) extends to them its best wishes for the future and a long and happy retirement; and

(c) directs that an appropriate extract of this resolution under the Common Seal of the Council be forwarded to them.

8. OCHRE DIKE PLAYING FIELDS, WATERTHORPE FIELDS IN TRUST DESIGNATION

8.1 The Executive Director, Place submitted a report in relation to proposals to designate Ochre Dike/Watertorpe Greenway Playing Fields as a Fields in Trust

protected site.

8.2 RESOLVED: That Cabinet:-

- (a) approves the formal submission of an application to designate Ochre Dike/Waterthorpe Greenway Playing Fields, Sheffield as a Fields in Trust protected site to allow it to be further protected and managed as a public park and playing field in perpetuity;
- (b) delegates authority to the Director of Capital and Major Projects, in consultation with the Director of Culture and Environment, to negotiate the terms of the documentation needed to dedicate the land;
- (c) delegates authority to the Director of Capital and Major Projects to instruct the Interim Director of Legal and Governance to take all necessary action and complete the documentation needed to dedicate the land;
- (d) notes that the Town and Village Green application for this site will be superseded on successful completion of the Field in Trust designation, and that this outstanding matter will then be referred back to the Licencing authority for satisfactory conclusion and withdrawal of the application in due course; and
- (e) notes that, subject to recommendations a-c being concluded, the site will be formally dedicated as a Field in Trust in a ceremony to be arranged on completion.

8.3 Reasons for Decision

8.3.1 Designation as a Fields in Trust site will protect this site for local recreation and is a more suitable alternative to the pending Town and Village Green application, in this location. The alternative designation is fully supported by the local community applicants, local ward Councillors and officers.

8.4 Alternatives Considered and Rejected

8.4.1 A Town and Village Green application was submitted by the local community in 2012 to protect the site from future alternative development threats. This application has yet to be determined.

8.4.2 Whilst this Village Green application may have some merits and benefit in offering greater protection it is not felt to be the most appropriate protection by officers to meet local community needs. One of the complications and constraints is that Village Green status is essentially for open access and non-organised recreational activity, not team sports. Consequently, such status could limit and prejudice the future of the football pitch and other legitimate recreational uses; also potentially desirable complimentary site improvements (e.g. the provision of changing rooms or other built facilities, if desired). Local residents have clearly indicated to officers that the playing of football and other games in this area is an important local facility along with the other less organised but equally important recreational activities of

walking and simple enjoyment of the open green space environment.

- 8.6 As an alternative to the Town and Village Green application the Council has jointly explored a Fields in Trust designation as a more appropriate protection. Officers and the local applicants supported by their local Councillors have met with the Fields in Trust on site. The Fields in Trust is very supportive of adding the Ochre Dike/Waterthorpe Greenway Playing Fields to the national portfolio of sites receiving protection and have invited an application from the Council, as landowner. This option is now more preferable than a Town and Village Green designation which is now felt to be less desirable by the local community and would also be more costly to determine for the Council.

9. REVENUE BUDGET AND CAPITAL PROGRAMME MONITORING 2014/15 MONTH 7 (AS AT 31/10/14)

- 9.1 The Interim Executive Director, Resources submitted a report providing the month 7 monitoring statement on the City Council's Revenue and Capital Programme covering the period 1st April to 31st October 2014.

9.2 **RESOLVED:** That Cabinet:-

- (a) notes the updated information and management actions provided by the report on the 2014/15 budget position; and
- (b) in relation to the Capital Programme:-
 - (i) approves the proposed additions to the Capital Programme listed in Appendix 1, including the procurement strategies and delegations of authority to the Director of Commercial Services or nominated Officer, as appropriate, to award the necessary contracts following stage approval by Capital Programme; and
 - (ii) approves the proposed variations and slippage requests listed in Appendix 1 of the report; and notes
 - (a) the latest position on the Capital Programme including the current level of delivery and forecasting performance;
 - (b) the emergency approval under delegated authority; and
 - (c) the slippage requests authorised by the Cabinet Member for Finance under his delegated authority.

8.3 **Reasons for Decision**

- 8.3.1 To formally record changes to the Revenue Budget and the Capital Programme and gain Member approval for changes in line with Financial Regulations and to reset the Capital Programme in line with latest information.

8.4 **Alternatives Considered and Rejected**

- 8.4.1 A number of alternative courses of action are considered as part of the process undertaken by Officers before decisions are recommended to Members. The recommendations made to Members represent what Officers believe to be the best options available to the Council, in line with Council priorities, given the constraints on funding and the use to which funding is put within the Revenue Budget and the Capital Programme.

10. **SHEFFIELD COMMUNITY COVENANT ANNUAL REPORT 2014**

- 10.1 The Interim Executive Director, Resources submitted a report updating Cabinet on the key achievements in respect of the Community Covenant during 2014.

- 10.2 **RESOLVED:** That Cabinet notes the progress made on the Community Covenant in Sheffield during 2014.

10.3 **Reasons for Decision**

- 10.3.1 To fulfil the commitment to produce an annual report on progress following the establishment of the local Community Covenant in November 2011.

10.4 **Alternatives Considered and Rejected**

- 10.4.1 There were no alternatives presented in the report.

11. **BBEST (BROOMHILL, BROOMFIELD, ENDCLIFFE, SUMMERFIELD AND TAPTON) NEIGHBOURHOOD AREA AND FORUM DESIGNATION**

- 11.1 The Executive Director, Place submitted a report in relation to the BBEST (Broomhill, Broomfield, Endcliffe, Summerfield and Tapton) Neighbourhood Area and Forum Designation.

11.2 **RESOLVED:** That:-

- (a) the BBEST Neighbourhood Area be designated as shown in background paper e) 'Plan Illustrating Recommended BBEST Neighbourhood Area Designation' in accordance with section 61G of the Town and Country Planning Act 1990;
- (b) the Broomhill, Broomfield, Endcliffe, Summerfield and Tapton (BBEST) Neighbourhood Forum be designated as the only Neighbourhood Forum for the BBEST Neighbourhood Area for five years in accordance with section 61F of the Town and Country Planning Act 1990;
- (c) the BBEST Neighbourhood Area and Forum designations be publicized in accordance with Regulations 7 and 10 respectively of the Neighbourhood Planning (General) Regulations 2012; and

- (d) approval be given to the responses to representations on the BBEST Neighbourhood Area and Forum applications.

11.3 **Reasons for Decision**

11.3.1 A local planning authority must designate a Neighbourhood Area if it receives a valid application and some or all of the area has not yet been designated.

11.3.2 A local planning authority must consider the following questions when designating a neighbourhood area:

- a) Has a relevant body applied for an area specified in the neighbourhood area application to be designated by this authority?

Answer: Yes. This is set out in section three of the application.

- b) Does the proposed area cover any part of the area of a Parish Council?

Answer: No

- c) How desirable is it to maintain the existing boundaries of areas already designated as neighbourhood areas (neighbourhood areas must not overlap?)

Answer: No surrounding areas are designated as neighbourhood areas.

- d) Should the area be designated as a business area?

Answer: No. There are a number of businesses and large institutions in the area but it is not “wholly or predominantly business in nature”.

- e) Are there any valid planning reasons to deviate from the boundary which has been submitted?

Answer: Yes. There are three minor deviations recommended because the proposed boundary cuts across a single property or “planning unit”. The recommended amendments are:

- (i) Include all of Ranmoor Student Village
- (ii) Exclude all of St Marie’s Primary School
- (iii) Include all of Weston Park

BBEST Forum’s rationale for the first two was to follow the Conservation Area boundary. The third is because we have more accurate mapping software available than BBEST Forum had at the time of their application. The deviations are shown in background paper d) ‘Plan Illustrating Recommended BBEST Boundary Amendments’.

11.3.3 A local planning authority may designate an organisation as a Neighbourhood Forum if the authority are satisfied that it meets certain conditions:

- a) Does the area consist of or include the whole or any part of the area of a Parish

Council?

Answer: No.

b) Is it established for the express purpose of promoting or improving the social, economic and environmental well-being of an area that consists of or includes the neighbourhood area concerned?

Answer: Yes. See the objectives of the proposed constitution in section 3 of appendix 3 in the application.

c) Is membership open to individuals who live in the neighbourhood area concerned, work there, and are elected Members of the City Council?

Answer: Yes. See application 5.1, 5.2c), 5.3c) and the first paragraph in section 5 of appendix 3 of the application.

d) Does membership include a minimum of 21 individuals each of whom either live in the neighbourhood area concerned, work there or are an elected Member of the City Council?

Answer: Yes. See application 5.1, 5.2a), 5.2b) and the first paragraph in section 5 of appendix 3 of the application.

e) Does it have a written constitution?

Answer: Yes. See appendix 3 of the application.

f) Has it secured (or taken reasonable steps to attempt to secure) that its membership includes at least one individual who lives in the area, at least one individual who works in the area or one elected Member in the area?

Answer: Yes. See application 5.1

g) Is membership drawn from different places in the neighbourhood area concerned and from different sections of the community in that area?

Answer: Yes. See application 5.2

h) Does the purpose reflect (in general terms) the character of that area?

Answer: Yes. See application 5.3

i) Is there another proposed or designated neighbourhood forum for the proposed neighbourhood area?

Answer: No.

j) Has the organisation or body made an application to be designated?

Answer: Yes

11.4 **Alternatives Considered and Rejected**

- 11.4.1 English Heritage had commented that where the proposed boundary runs very close to, but does not coincide with a Ward boundary, it should be changed to match the Ward boundary. Officers were not recommending this change, partly because of anticipated Ward boundary amendments in 2016, particularly for the Central Ward which has had a large increase in population.
- 11.4.2 Officer discussions with BBEST Forum included the possibility of a smaller area which excluded the large institutions to the east such as the hospitals and the University of Sheffield. However, this was discounted on the grounds that the institutions were an integral part of the neighbourhood. An example of this is the student villages on the other side of the proposed Area. There were no representations that advocated this alternative option.

12. **HOUSING REVENUE ACCOUNT (HRA) BUSINESS PLAN, HRA BUDGET AND RENT INCREASE 2015/16**

- 12.1 The Executive Directors, Place, Communities and Resources submitted a joint report providing the 2015/16 update to the Housing Revenue Account (HRA) Business Plan.
- 12.2 In presenting the report, Liam Duggan, Manager, Social Housing Commissioning, referred to an omission from paragraph 7.4 of the report where Arbourthorne Fields phase 3a was missing from the list of schemes for which property rents were to be frozen in 2015/16. This should be included and the final paragraph should read 'Should Arbourthorne Fields phase 3b be declared for demolition by the Director of Development and Regeneration Services before 6th April 2015 this will also be held with no increase in 2015/16.'
- 12.3 **RESOLVED:** That Cabinet recommends to the meeting of the City Council on 4th February 2015 that:-
- (a) the HRA Business Plan report for 2015/16 as set out in Appendix A to the report is approved;
 - (b) the HRA Revenue Budget for 2015/16 as set out in Appendix B to the report is approved;
 - (c) rents for Council dwellings are increased by 2.2% from April 2015;
 - (d) rents for garages and garage sites are frozen at 2014/15 levels and not increased from April 2015;
 - (e) Community Heating charges are not increased from April 2015;
 - (f) the burglar alarm charge which is due to be amended during 2014/15 following a procurement is not increased from April 2015;

- (g) the Sheltered Housing service charge which is due to be amended during 2014/15 is not increased from April 2015;
- (h) charges for temporary accommodation and furnished accommodation are not increased;
- (i) the Director of Commissioning, Communities and the Director of Finance, in consultation with the Cabinet Member for Homes and Neighbourhoods, be granted delegated authority to authorise prudential borrowing as allowed under current government guidelines; and
- (j) the specific projects proposed in the report be brought forward for Member approval in accordance with the Council's Capital Approval process as business cases are developed.

12.4 Reasons for Decision

- 12.4.1 To optimise the number of good quality affordable Council homes in the City.
- 12.4.2 To make neighbourhoods safer, more attractive places to live through continued investment in Sheffield's Council housing and estates.
- 12.4.3 To enable tenants to live independently and well in their own home by providing the support they need when they need it.
- 12.4.4 To help tenants deal with a challenging economic climate and remain warm in their homes by ensuring energy bills are as low as possible.
- 12.4.5 To maximise the financial resources to deliver key outcomes for tenants and the City in the context of a self-financing funding regime.
- 12.4.6 To assure the long term sustainability of Council housing in Sheffield.

12.5 Alternatives Considered and Rejected

- 12.5.1 To increase rents for Council dwellings by less than the Government guidance
The Government's self-financing debt settlement of 2012 was made in view of its expectation that each Local Authority would set rents in line with Government guidance. To raise rents by less than the guidance amount would detrimentally impact on the ability of the HRA to carry this debt whilst providing Government recommended funding to services and investment.
- 12.5.2 Not to prioritise the funding of Photovoltaic Panels
The option of delivering photovoltaic panels, which bring high levels of investment into the City and financial benefit to thousands of tenants, is cost neutral to the HRA because of the lower costs associated with it being installed alongside the re-roofing works. Because of this the subsidy payments for PV are expected to cover the cost of the installation and maintenance and management over the long term. If other investment were prioritised ahead of PV at this time there would be

no opportunity to bring PV investment forward in future, unlike the alternative options.

(NOTE:1.This item is referred for approval by the City Council and cannot, therefore, be called in for scrutiny; and

2. The report on the Housing Revenue Account will be circulated to all Council Members).

SHEFFIELD CITY COUNCIL Cabinet Report

Report of: Executive Director, Resources

Date: 11th February 2015

Subject: Staff Retirements

Author of Report: Simon Hughes, Democratic Services

Summary: To report the retirement of staff across the Council's various Portfolios

Recommendations:

Cabinet is recommended to:-

- (a) place on record its appreciation of the valuable services rendered to the City Council by members of staff in the various Council Portfolios and referred to in the attached list;
 - (b) extend to them its best wishes for the future and a long and happy retirement; and
 - (c) direct that an appropriate extract of the resolution now made under the Common Seal of the Council be forwarded to those staff above with over twenty years service.
-

Background Papers: None

Category of Report: OPEN

RETIREMENT OF STAFF

1. To report the retirement of the following staff from the Council's Service and to convey the Council's thanks for their work:-

<u>Name</u>	<u>Post</u>	<u>Years' Service</u>
<u>Children, Young People and Families</u>		
Susan Abramski	Curriculum Specialist, Intake Primary School	28

2. To recommend that Cabinet:-

- (a) place on record its appreciation of the valuable services rendered to the City Council by the above – mentioned members of staff in the Portfolios stated :-
- (b) extend to them its best wishes for the future and a long and happy retirement; and
- (c) direct that an appropriate extract of the resolution now made under the Common Seal of the Council be forwarded to those staff above with over twenty years service.

**Cabinet Report**

Report of: Eugene Walker

Report to: Cabinet

Date: 11 February 2015

Subject: Revenue and Capital Budget Monitoring 2014/15 – As at 30th November 2014

Author of Report: Andy Eckford (ext. 35872)

Key Decision: YES

Reason Key Decision: Expenditure/savings over £500,000

Summary:

This report provides the month 8 monitoring statement on the City Council's Revenue and Capital Budget for 2014/15.

Reasons for Recommendations:

To formally record changes to the Revenue Budget and the Capital Programme and to gain Member approval for changes in line with Financial Regulations and to reset the Capital Programme in line with the latest information.

Recommendations: Please refer to paragraph 71 of the main report for the recommendations.

REVENUE BUDGET & CAPITAL PROGRAMME MONITORING AS AT 30th NOVEMBER 2014

Purpose of the Report

1. This report provides the Month 8 monitoring statement on the City Council's Revenue Budget and Capital Programme for November. The first section covers Revenue Budget Monitoring and the Capital Programmes are reported from paragraph 53.

REVENUE BUDGET MONITORING

Summary

2. At month 7 the overall Council position was for a potential overspend of £949k. The position at month 8 shows an improvement of £1.6m on the previous month, with a forecast potential reduction in spending of £669k to the year end. This forecast outturn is prior to a carry-forward request being made by Children Young People and Families for £525k. If approved, the forecast outturn reported would be a reduction in spending of £144k. Details of the carry-forward request are reported in paragraph 8 and Appendix 1.
3. This forecast better reflects the ongoing corrective actions being taken by services which, until recently, were not necessarily reflected in forecast. The forecast by portfolio is summarised in the table below:

Portfolio	Forecast Outturn £000s	FY Budget £000s	FY Variance £000s	Movement from Month 7
CYPF	80,216	81,163	(947)	↔
COMMUNITIES	166,174	163,515	2,659	↓
PLACE	167,654	166,010	1,644	↓
POLICY, PERFORMANCE & COMMUNICATION	3,011	2,922	89	↔
RESOURCES	62,942	62,519	423	↓
CORPORATE	(480,666)	(476,129)	(4,537)	↔
GRAND TOTAL	(669)	0	(669)	↓
LESS APPROVED CARRY FORWARD			525	
ADJUSTED GRAND TOTAL			(144)	

4. The forecast outturn shows an improving position from the £11.4m overspend reported in month 3 to the £144k reduction in spending in month 8. This improvement reflects Portfolios' attempts to reduce spending but also the receipt of additional grant income within the

Corporate budget area to help offset the significant pressures within the Communities and Place portfolios. The position month by month is shown in the following chart:

5. In terms of the month 8 overall forecast position of a £669k reduction in spending, the key reasons are:
- Children Young People and Families are forecasting a £947k reduction in spending prior to the carry forward of savings on the 100+ Apprenticeships of £525k, additional ESG income of £398k due to a delay in academy conversions and £214k within the Inclusion and Learning Service predominantly due to additional traded income. These reductions in spending are partly offset by a forecast overspend on SEN Transport of £241k. It is worth noting that the apprenticeships underspend is requested to be carried forward to 2015/16.
 - Place are showing a forecast overspend of £1.6m, due mainly to an estimated £1.4m in risk associated with contract negotiations to deliver the full £3.3m waste management savings.
 - Communities are showing a forecast overspend of £2.7m, due predominately to a £4.4m overspend in Care and Support relating to Learning Disability Services and the purchase of Older Peoples' care.
 - Resources are showing a forecast overspend of £423k, due mainly to a £306k forecast overspend in Commercial Services (Savings) due to reduced forecast income from cashable procurement savings, a £214k overspend in Housing Benefit, mainly Rent Rebates that are forecasting a lower income from overpayment recovery. These

overspends are partially off-set by a £118k reduction in spending in Human Resources due to increased income in the Moorfoot Learning centre.

- Corporate budgets are reporting a forecast reduction in spending of £4.5m, due mainly to the receipt of additional grant income awarded to the Council as compensation for business rates related measures introduced or extended in the 2013 Autumn Statement and the release of a year end provision, which is no longer required and was taken to cover any possible stamp duty liabilities resulting from the reacquisition of the Don Valley Stadium under the Major Sporting Facilities refinancing.
6. The main variations since Month 8 are:
- Children Young People and Families are forecasting an improvement of £594k, which is mainly due a reduction in spend against 100+ Apprenticeships carry forward budget which is required to fund the continuation of existing learners in 2015/16 and 2016/17.
 - Communities are forecasting an improvement of £483k, which is mainly due to a reduction in forecast spend within Care and Support services of £241k and Housing Commissioning of £248k. These forecast reductions have resulted from the acceleration of new Care Purchasing strategies, revisions in service users' contributions and increased numbers of contributors in residential care and savings on Housing Related Support Contracts.
 - Place are forecasting an improvement of £408k, which is due to a number of small savings across the whole service. These savings are predominantly reductions in spending on supplies and services.
7. Also shown in paragraph 50 is the position on the Public Health ring-fenced grant, which is a potential £1.3m underspend. However it was approved via the month 6 monitoring report that £300k - £400k of this underspend be made available to fund food bank and fuel poverty projects. This commitment is not currently reflected within the forecast expenditure and will therefore reduce the Public Health underspend to approximately £900k. It was also approved that the balance of this underspend would be considered in the context of the 2015/16 budget savings on public health.

Carry Forwards

8. Children Young People and Families are requesting a carry forward of £525k relating to the 100+ Apprenticeship scheme. This carry forward is

required to continue with further apprenticeships in future, i.e. to cover the costs up to March 2017 of apprentices to be recruited in March 2015. More supporting details can be found in **Appendix 1**.

Individual Portfolio Positions

Children Young People and Families (CYPF)

Summary

9. As at month 8 the Portfolio is forecasting a full year outturn of a reduction in spending of £947k on cash limit, an improvement of £594k from the month 7 position (shown in the table below), and DSG is forecast to be underspent by £175k. The key reasons for the forecast outturn position are:

- **Business Strategy:** £150k forecast reduction in spending, additional Education Services Grant (ESG) income to that budgeted of £398k and £75k on Insurance due to the timing of academy conversions and a reduced level of pump priming of £79k for Vulnerable Groups with activity now being picked up by schools. This reduction in spend is partly offset by a forecast £78k overspend on Bus Passes and £241k overspend on SEN Transport due to demand increase, redundancy costs against Music Service £58k and under recovery of traded income Advice and Conciliation Service £43k.
- **Children and Families:** £1k forecast overspend. Over spending areas are: Management and Business Support £190k due to delay in the Business Support MER, Legal Fees £131k (based on previous year's trends), Fieldwork Service Areas and Permanence and Throughcare £536k net overspend mainly due to difficulties in achieving vacancy monitoring targets, Placements £79k due to costs being significantly greater than the external funding available, Direct Payments £89k due to parents accessing their own care arrangements. These overspends are being partially offset by reduction in spending on Contact Contracts £449k due to more efficient management using contact centres, Placements due to release of Special Guardianship Funds £213k and £331k reflecting the positive trends in the numbers and costs of placements.
- **Inclusion and Learning Services:** £214k forecast reduction in spending due to £143k as a result of additional traded income in Educational Psychologists, £51k in Advocacy and Challenge and

£141k in SEN Placement Team due to vacancies. These are partly offset by an overspend in In City SEN Provision £106k due to additional High Risk Learners identified.

- **Lifelong Learning and Skills:** £584k forecast reduction in spending due to £525k 100+ Apprentice Scheme, funding subject to a carry forward request to support existing learners on the programme to the end of their learning outcome, £213k reduction in spend in Youth Teams which is unallocated budget partly offset by overspends in the Training Units £135k, these are under review and as delivery reflects changes in provision an MER will be undertaken.
- **DSG Budgets:** Overall a £175k reduction in spend made up of a £809k reduced spend in Business Strategy due mainly to a corresponding £914k reduction in spending on 2 Year Old FEL. A reduction in spend of £157k in Children and Families in MAST due to a saving identified on staffing. An anticipated overspend of £694k in Inclusion and Learning overall, made up of overspends of £450k in Banded Funding, £146k Independent Placements and £293k in In City SEN Provision due to demand pressures, partially offset by reduction in spends on Sensory Services £41k and £90k Inclusion and Learning Services due to vacancies and £49k in Pupil Admissions. An overspend in Lifelong Learning and Skills of £97k due mainly to increased numbers of Post 16 High Needs learner placements £130k partially offset by small reduced spending in Extended Curriculum Team £16k and Extended Learning £16k.

Financials (Non-DSG activity)

Service	Forecast Outturn £000s	FY Budget £000s	FY Variance £000s	Movement from Month 7
BUSINESS STRATEGY	(268)	(118)	(150)	↔
CHILDREN & FAMILIES	64,888	64,887	1	↔
INCLUSION & LEARNING SERVICES	5,862	6,076	(214)	↔
LIFELONG LEARN, SKILL & COMMUN	9,734	10,318	(584)	↓
GRAND TOTAL	80,216	81,163	(947)	↓

Commentary

10. The following commentary concentrates on the key changes from the previous month.

Non-DSG Budgets

11. As at month 8 the Portfolio is forecasting a full year outturn of a reduction in spending of £947k on cash limit, an improvement of £594k since last month.

Business Strategy

12. As at month 8, Business Strategy is currently forecasting a reduction in spend of £150k (shown in the table above) relating to cash limit. This is an improvement of £30k from the previous month.
13. The improvement this month is due mainly to volume of performance on the school meals contract £63k and £40k on Insurance due to timing of academy conversions. These improvements are offset by additional pressure on SEN Transport £47k due to more accurate split of cash and DSG and £38k on Bus Passes due to demand. Other movements are all minor.

Children and Families

14. As at month 8, Children and Families is currently forecasting a £1k over spend (shown in the table above) relating to cash limit. This is an improved position of £47k.
15. The improved movement this month is due to the release of the Special Guardianship Allowances budget not required in year £400k and £147k improvement in general Placement costs due to continuing positive trend in numbers offset by the re-profiling of the Successful Families Grant £578k. The Special Guardianship allowances budget will be taken forward as a risk with consideration of a provision being made.

Inclusion and Learning

16. As at month 8, Inclusion and Learning Service is currently forecasting £214k reduction in spend (shown in the table above) relating to cash limit. This is a worsened position £12k which is minor movements across a variety of business units.

Lifelong Learning and Skills

17. As at month 8, Lifelong Learning Skills and Communities Service is currently showing a £584k reduction in spend (shown in the table above) relating to cash limit. This is an improved position of £529k.

18. The key reason for the improved position is the disclosure of the reduction in spend against 100+ Apprenticeships carry forward budget required to fund the continuation of existing learners in 2015/16 and 2016/17. The base budget will fund any new learners taken onto programmes from April 2015 during the year 2015/16.

DSG Budgets

19. The month 8 position is £175k reduction in spend, which is a worsened position of £270k from the position reported at Month 7. This worsened position is predominantly due to the more robust forecast against 2 Year Old FEL following confirmation of numbers partially offset by minor reduction in spends.

Place

Summary

20. As at month 8 the Portfolio is forecasting a full year outturn of an overspend of £1.6 million, an improvement of £408k from the month 7 position. The key reasons for the forecast outturn position are:
- **Business Strategy & Regulation:** £1.4m worse than budget due to delays in delivering the planned cost reductions to the waste contract as a result of protracted negotiations with the provider.
 - **Capital & Major Projects:** £607k over budget largely due to income and cost pressures within the markets activity.
 - **Regeneration & Development Services:** £458k under budget largely due to vacancy management of £200k and additional forecast income of £300k primarily in planning and building regulation fees.
 - **Place Public Health:** whilst the net position is balanced, forecast spend and grant income at £3.0m is £0.7m below budget, largely due to below target performance on the Stop Smoking Contract.
21. All Directors have now completed a review of their spending plans for the remainder of the financial year. This has identified a range of planned actions / improvements with the potential for up to £1m of cost reductions compared to the month 7 forecast, of which to date £0.4m has been forecast in the month 8 position.

PLACE PUBLIC HEALTH	1	0	1	↔
REGENERATION & DEVELOPMENT SER	86,686	87,144	(458)	↓
GRAND TOTAL	167,654	166,010	1,644	↓

Commentary

22. The following commentary concentrates on the changes from the previous month.

Business Strategy & Regulation

23. The forecast for this activity is £1.4m over budget, a £53k improvement on the previous period, largely due to reductions in forecast supplies and service spend.
24. The forecast reflects an assumed £1.2m risk pending agreement with the Contractor on new terms to reflect the revised waste collection arrangements.
25. Other cost pressures have to a large extent been mitigated, through one-off savings / additional income including the finalisation of the prior year sale of heat income due to the Council. However, risks remain around underlying waste volumes and diversion of waste should further maintenance be required on the Energy Recovery Facility.
26. Work is progressing on developing further the range of options for negotiation with the contractor with a view to implementation towards the end of the financial year.

Capital & Major Projects

27. The forecast for this activity is £607k over budget, an improvement of £55k on the previous period, largely due to forecast reductions in supplies and services spend.

28. The forecast position largely reflects income pressures within the markets service of £700k. There may be further risk here if stall lettings cannot be held at current levels. The business model for the market is currently under review balancing lower rents against the need for more flexibility in location to ensure let space is maximised.

Culture & Environment

29. The forecast for this activity is now broadly balanced, an improvement of £127k this period, largely due to reductions in spend forecast on supplies and services activity.
30. The Service has been working with Sheffield International Venues to finalise a three year funding commitment to enable them to deliver a significant package of savings. The three year funding commitment should remove the requirement for the Council to pick up risks associated with reductions in profit at the Motorpoint Arena or trading deficits within the SCT / SIV group, which would be absorbed by the Trust as part of its 3 year plan.
31. The Director continues to work closely with SIV to ensure that these plans are progressed and risks are mitigated.

Marketing Sheffield

32. The forecast for this activity is £173k over budget, broadly in line with the previous period. The position is largely due to not securing planned reductions in subsidy for major events.

Public Health

33. The net forecast for this activity remains balanced since spend is covered from the Health grant. However, it should be noted that forecast spend and grant income at £3.0m is £0.7m below budget. This largely reflects a forecast reduction in spend on the Stop Smoking Contract due to below target performance on this contract.

Regeneration & Development Services

34. The forecast for this activity is £458k under budget, an improvement of £135k this period due to reductions in forecast spend on supplies and services activity.

Communities

Summary

35. As at month 8, Communities is forecasting a full year outturn of an overspend of £2.7 million, an improvement of £483k from the month 7 position. The key reasons for the forecast outturn position are as follows:

- **Business Strategy:** Currently reporting a forecast reduction in expenditure of £397k against the full-year budget. This can be explained by a reduction in spend on the mail and insurance SLA of £124k, an overall reduction in Executive Team pay costs of £55k and a reduction in Business Support team pay costs of £101k. £85k of unspent Care Act Implementation Grant Income has been moved to the Balance Sheet this month. The balance of the reduction in spend arises following the review of expected costs arising from the Deprivation of Liberty Safeguards legislation, as well as savings in contract costs and staffing costs across Business Strategy.
- **Care & Support:** An overspend of £3.4m is currently forecast due to ongoing pressures and issues in Adult Social Care primarily relating to care purchasing budgets. These budgets are currently the focus of recovery action led by the Adult Social Care Savings Board and the LD Commissioning Board, overseeing several initiatives to contain the overall cost of care purchasing. Recovery action has helped improve the position by £1.3m from a forecast overspend of £4.7m earlier in the year at month 4.
- Significant improvements have been made in the Adults Assessment & Care Management, which is forecasting a reduction in spend of £1m by the end of March 2015. However, this is offset by a corresponding reduction in service user income, which is currently forecasting a total shortfall of £1.1m due to numbers of contributing service users being less than had been forecast because of business demand management and appliance of eligibility criteria. The level of income from CHC is £0.9m greater than anticipated due to more joint funded cases where services are commissioned by the Council.
- There remains a significant overspend within the Learning Disabilities Service (currently standing at a forecast overspend for the year of just under £4.4m) relating to care purchasing £3.4m and in-house care provision £1m. The work on reducing the LD overspend before the year-end, is being overseen by the LD Commissioning Board and the Adult Social Care Savings Board.

- Commissioning:** Currently reporting a reduction in forecast expenditure of £421k against the full year budget. The reduction in spend forecast by Commissioned Housing of £655k is as a result of a reduction in expenditure on Housing Related Support Contracts of £480k and surplus income from Water Rates collection services of £74k. The balance of the reduction in spend is mainly attributable to a reduction in pay-related expenditure and the release of provisions made earlier in the year. Commissioned Mental Health (MH) Services are forecasting an overspend of £143k, which is mainly due to the agreed sharing of SHSCT unachieved savings dating back to 2013/14. MH Purchasing is reporting a forecast overspend of £59k which is offset by reduction in spending on partnership contracts. Public Health funded Drug and Alcohol Services report a small overspend linked to management team pay costs. Public Health funded Community Services budgets are balanced. Social Care Commissioning Services are forecasting an overspend of £92k which are primarily as a result of pay costs of staff newly joining the LD Re-Provision Team.
- Community Services:** Reporting a forecast overspend for the year of £76k. There is a small saving shown for Community Safety of £5k, arising from reductions in supplies budgets. There is a forecast overspend on Library Services of £148k due to increased pay-related expenditure in excess of savings target and the transitional costs of moving to independent / associate library provision. There is a forecast underspend of £67k on pay-related costs in Locality Services.

Financials

Service	Forecast Outturn £000s	FY Budget £000s	FY Variance £000s	Movement from Month 7

CARE AND SUPPORT	119,956	116,556	3,400	↓
COMMISSIONING	32,345	32,766	(421)	↓
COMMUNITY SERVICES	9,745	9,669	76	↔
GRAND TOTAL	166,174	163,515	2,659	↓

Commentary

36. The forecast outturn position of a £2.7m overspend, is an improvement of £483k from the previous month. The improvement this month is due to:

Care & Support

- **Assessment & Care Management:** In the month, there has been a favourable movement of £210k, as a result of action being taken to accelerate care purchasing strategies.
- **Contributions to Care (income):** There has been an improvement of £227k from the previous month, due to revisions in service users' contributions and increased numbers of contributors in residential care
- **Joint Learning Disability Services:** There has been a favourable movement of £135k, arising from some improvement in care purchasing and a small improvement in in-house provider services.
- **Provider Services:** There has been an adverse movement of £426k, primarily due to a delay in the transfer of complex needs provision arising from the available capacity in the independent sector, and very high sickness levels in the team resulting in the use of overtime to cover posts.

Commissioning

- **Housing Commissioning:** There has been a £248k favourable movement in the month. This is mainly due to a reduction in expenditure on Housing Related Support Contracts, but also includes further reductions in staffing costs and the release of some provisions made earlier in the year.

Resources

Summary

37. As at month 8 the Portfolio is forecasting a full year outturn of an overspend of £423k, an improvement £185k from the month 7 position. The key reasons for the forecast outturn position are:

- £306k overspend in Commercial Services (Savings) due to reduced forecast income from cashable procurement savings;
- £214k overspend in Housing Benefit from overpayment under recovery.

Offset by:

- £118k reduction in spend in Human Resources due to increased income in the Moorfoot Learning centre.

Policy, Performance and Communications

Summary

38. As at month 8 the Portfolio is forecasting a full year outturn of an overspend of £89k, an adverse movement of £49k from the month 7 position. The key reasons for the forecast outturn position are:

- £99k overspend in Communications mainly due to insufficient income to cover employee costs;
- £22k overspend in CEX office due to LGYH costs;
- £45k overspend in Electoral registration due to the costs of canvas staff and IT support costs consistent with previous years.

Offset by savings in:

- Savings through vacancy management & reduced supplies & services spend.

Financials

Commentary

40. The £4.5m reduction in spending reported in month 8 is consistent with the month 7 forecast outturn. A breakdown of the £4.5m is detailed in the main summary section of this report.

New Homes Bonus Fund

		£m
Income	Reserves as at 1/04/14	-5.1
	2014/15 NHB Grant Received	-1.9
	14/15 Anticipated NHB Grant	-4.5
	Total Income	<u>-11.5</u>
Expenditure	2014/15 Spend to date at Month 6	2.4
	Forecast to Year End	2.4
	Future Years' Commitments	4.8
	Total Expenditure	<u>9.6</u>
Funds Available for Investment		<u><u>-1.9</u></u>

41. The capital spend on the Park Hill to Norfolk Park falls as the cycle way completes replaced by new spend occurring on the remediation of the Don Valley Stadium. The Norton Aerodrome housing project is now forecast to underspend the budget this year by some £0.2m and the Grace Owen nursery project by £0.4m although a formal request to slip the budgets into 2015/16 has yet to be made.
42. The largest element of revenue spending was on activities towards the Sheffield Housing Company. The forecast this year has been reduced by £665k following a further delay in the progress of building new homes.
43. In total over £1.1m of spend is forecast to slip into next year.
44. As indicated in the Month 7 report, officers have considered a number of additional projects for new Homes Bonus funding. The capital projects have or will be brought forward for member approval under the existing processes. Appendix 2 details those projects recommended by officers for revenue budget funding and approval is sought in this report in line with the original delegation from Cabinet.

Housing Revenue Account

Summary

45. The HRA Business Plan is based on the principle of ensuring that investment and services required for council housing is met by income raised in the HRA.
46. The 2014-15 budget is based on an assumed in year surplus of £6.9m which is to be used to fund the HRA capital investment programme. In accordance with the HRA's financial strategy any further in- year revenue surplus / savings generated by the account will be used to provide further funding for the future HRA capital investment programme.
47. As at month 8 the full year forecast outturn is a predicted £5.3m overall improvement from budget. As such, the funding contribution to the capital investment programme will be revised from £6.9m to £12.2m (shown in the table) This has been factored into the January 2015 HRA Business Plan which sets out the council's ambitious plans and priorities for council housing over the next five years. Capital investment is to be made on improving council housing with a focus on works such as replacement heating systems, insulation and energy efficiency, new roofs, improvements to communal areas as well as building or buying new/replacement council housing.
48. The areas contributing to the improvement are: higher than budgeted net dwelling income (£977k) mainly as a result of revised year end assumptions on the profiling of the of bad debt provision; a net forecast of (£212k) on other income; a saving of (£1.8m) on repairs and maintenance which is partly due to a reduced volume of responsive repairs. This is in accordance with HRA's Business plan of increasing capital investment in properties which would result in savings on responsive repairs any further savings will be reported in due course. A (£2m) forecasted saving on overall running costs is predicted primarily due to staff vacancies and turnover , delays in some projects and lower than expected recharges; and a forecast reduction of (£283k) for interest on borrowing due to continued favourable interest rates is also expected.

Financial Results

HOUSING REVENUE ACCOUNT (EXC COMMUNITY HEATING)	FY Outturn £000's *	FY Budget £000's *	FY Variance £000's *	Movement from Month 7
1.NET INCOME DWELLINGS	(146,870)	(145,893)	(977)	↔
2.OTHER INCOME	(6,533)	(6,321)	(212)	↔

7.CONT TO CAPITAL PROG	12,279	6,925	5,354	↔

Community Heating

49. The budgeted position for Community Heating is a draw down from Community Heating reserves of £348k. As at month 8 the forecast position is a draw down from reserves of £169k resulting in a decrease in expenditure of (£179k) This is a movement of (£26k) from last month.

COMMUNITY HEATING	FY Outturn £000's *	FY Budget £000's *	FY Variance £000's *	Movement from Month 7
INCOME	(3,299)	(3,440)	141	↔
EXPENDITURE	3,468	3,788	(320)	↑
Total	169	348	(179)	↑

Public Health

50. Public Health remains a ring fenced grant in 2014/15 and any reductions in spend are subject to carry forward requirements as per the grant conditions.

51. At month 8 the overall position was a forecast reduction in spend of £1.3m. The position shows an improvement of £121k on the previous month. This is summarised in the table below.

All figures £000s					
Portfolio	Forecast full year expenditure	Full year expenditure budget	Full year variance	Month 7 variance	Movement from prior month
CYPF	11,251	11,281	(30)	(14)	(16)
COMMUNITIES	13,143	13,314	(171)	(64)	(107)
PLACE	2,982	3,728	(746)	(803)	57
DIRECTOR OF PUBLIC HEALTH (inc PH Intelligence)	2,155	2,519	(364)	(309)	(55)
TOTAL EXPENDITURE	29,531	30,842	(1,311)	(1,190)	(121)

Key reasons for the forecast reduction in spending are:

- Contract slippage in Director Public Health Office (DPHO) (£210k);
- Lower than budgeted take up on GP Health checks (£110k);
- Unallocated vacant post budget (£50k);
- £665k reduction in spend on Stop Smoking Service contracts;
- £80k staff savings in Place due to vacancy management.
- £171k reduction in spend in Communities due to staff savings in Private Sector Housing, PH Commissioning, DACT and savings on DACT contracts.

This is offset by:

- £135k savings target under DPHO to be met from planned reduction in spends across all public health spending.

52. The forecast is an improvement of £121k from month 7 and the key reasons for the movement are:

- Communities reduction in forecast of £107k due to vacancies and changes in variable supplies costs.
- £55k improvement in DPH Office mainly due to revised estimates of contract spend and vacancy management.

Offset by:

- £57k adverse movement in Place due to revised forecast spend on the Stop Smoking service.

CAPITAL PROGRAMME MONITORING 2014/15

Summary

53. At the end of November 2014, the end of year position forecasts a variance of £15.7m (8%) below the approved Capital Programme. Project managers are forecasting to deliver a capital programme of £189.4m. This has been reduced by £12.5m from the previous forecast of £201.9m. The main reductions are in the Housing Programme (£7.0m), Resources (£2.6m) and CYPF (£2.4m). The reasons for these changes are discussed below in paragraphs 61 - 63.
54. The current forecast is predicated on an increase in the rate of spend - £109m to be spent in the last four months of the year compared to £80m in the first eight – and is dependent on key projects such as NRQ, Grey-to-Green, Leisure and sport facilities, Don Valley School and site remediation delivering to budget.
55. The year to date position shows spending to be £18.8m below the approved programme profile. The programme has fallen less than £200k further behind the budget in the month – the smallest variance seen to date. The level of spend was in line with previous months and this may indicate that project managers have at last forecast a robust monthly budget which mirrors the planned physical delivery.
56. The year to date position and the forecast position are beginning to converge (year to date spend at the end of November is £18.8m below budget and the year-end forecast has increased to £15.7m below budget a difference of £3.1m – the smallest to date).
57. The Finance report last month predicted an Outturn of around £175m and the November results reinforce that view and that future forecasts will reflect the actual physical delivery position.
58. Much of the change this month reflects work done by the Finance and Capital Delivery Services to challenge forecast and remove optimistic assessments of progress generally and on block allocations in particular.
59. Slippage in the programme is still present but this is less due to poor profiling and more due to proactive work to manage costs. For example:

- part of the underspend in the CYPF programme is due to challenging the tender prices from the contractor. This has been made before building work commences thus avoiding costly standing charges, re-works and variations payable once the contractor starts on site; and;
 - reductions in the Housing programme reflect a conscious review of potential projects awaiting development. This helps to inform the HRA of the likely timing and scope of the call on resources.
60. This reflects how there is an improved understanding of the programme which is starting to pay dividends.
61. The main changes in the Housing programme are £3.8 m re-profiling of schemes to increase the stock of Council Housing, £1.8m re-profiling of HRA funded block allocations and £0.7m lower applications for Housing Grants from authorities outside the Sheffield City Council boundary.
62. Resources forecast has decreased by £2.6m primarily as a result of re-evaluating the work that can be accomplished this year in the essential work to make the Council's buildings compliant with legislation and current building standards.
63. The £2.4m reduction in the CYPF programme reflects delays in delivering schemes at Norfolk Park School (£1.2m), additional pupil places at Tipton School (£0.6m) and Grace Owen nursery (£0.4m). These schemes will now slip into 2015/16.

Financials 2014/15

Month 7 Approved Budget	<u>205.1</u>	<u>210.3</u>	<u>311.5</u>	<u>726.9</u>

64. The five year capital programme has decreased by a net £20.9m almost wholly due to a re-appraisal of management charges on the Housing programme.

Approvals

65. A number of schemes have been submitted for approval in line with the Council's agreed capital approval process. The December report approvals include significant adjustments to the Capital Programme which will go to Special Budget Council in March and further detail will be included in the 2015/16 Capital Programme Report.

66. Below is a summary of the number and total value of schemes in each approval category:

- 3 additions to the capital programme with a total value of £42.5m.
- 26 variations to the capital programme creating a net increase of £68.9m.
- 41 slippage requests moving £11.1m into future years and one request to accelerate £222k of spend into 2014/15.
- 2 emergency approvals committing £25k pf additional expenditure on one projects and a change of scope of £0.5m on another.
- 4 director variations resulting in a net change of £9k.

Further details of the schemes listed above can be found in **Appendix 3**.

Implications of this Report

Financial implications

67. The primary purpose of this report is to provide Members with information on the City Council's Budget Monitoring position for 2014/15 and, as such it does not make any recommendations which have additional financial implications for the City Council.

Equal opportunities implications

68. There are no specific equal opportunity implications arising from the recommendations in this report.

Legal implications

69. There are no specific legal implications arising from the recommendations in this report.

Property implications

70. Although this report deals, in part, with the Capital Programme, it does not, in itself, contain any property implications, nor is there any arising from the recommendations in this report.

Recommendations

71. Members are asked to:

- (a) Note the updated information and management actions provided by this report on the 2014/15 Revenue budget position.
- (b) Approve the carry forward request for 100+ Apprenticeships Scheme within CYPF as detailed in Appendix 1
- (c) Approve the next phase of New Homes Bonus projects as detailed in Appendix 2
- (d) In relation to the Capital Programme:
 - (i) Approve the proposed additions to the capital programme listed in **Appendix 3**, including the procurement strategies and delegations of authority to the Director of Commercial Services

or nominated Officer, as appropriate, to award the necessary contracts following stage approval by Capital Programme Group;

- (ii) Approve the proposed variations and slippage requests listed in **Appendix 3**;

and note;

- (iii) The latest position on the Capital Programme including the current level of delivery;
- (iv) the emergency approvals and director variations under delegated authority; and
- (v) the slippage requests authorised by the Cabinet Member for Finance under his delegated authority.

Reasons for Recommendations

- 72. To formally record changes to the Revenue Budget and the Capital Programme and gain Member approval for changes in line with Financial Regulations and to reset the capital programme in line with latest information.

Alternative options considered

- 73. A number of alternative courses of action are considered as part of the process undertaken by Officers before decisions are recommended to Members. The recommendations made to Members represent what Officers believe to be the best options available to the Council, in line with Council priorities, given the constraints on funding and the use to which funding is put within the Revenue Budget and the Capital Programme.

Andrew Eckford
Interim Director of Finance

Revenue Budget Carry-forward Request Pro-Forma

Portfolio	Children, Young People and Families
Service Area	Lifelong Learning Skills and Communities, Employment & Skills
Business Unit	33018 – 100+ Apprenticeships
Budget Manager	Eve Waite, Head of Employment and Skills. LLSC
Approved by Executive Director	
Date of Request	30 October 2014
Amount of Request	£525,000
Please tick which of the following principles applies to your carry-forward request:	
<p><input checked="" type="checkbox"/> The carry-forward is in line with a key Council policy If yes, please state which one:</p> <p><i>A Strong & Competitive Economy</i> – more & better jobs / highly skilled workforce</p> <p><i>Successful Young People</i> – improving the quality of learning & Skills for all</p> <p><i>Tackling Poverty & Increasing Social Justice</i> – addressing the root causes of poverty - SCC Corporate Plan 2011-14</p> <p><input type="checkbox"/> The carry-forward is part of the agreed Budget Strategy / Medium Term Finance Strategy. If yes, please give details:</p> <p><input type="checkbox"/> The funding is from a ring-fenced grant and could lead to a loss of income for the Council if the funding is not carried forward. If yes, please give details:</p> <p><input checked="" type="checkbox"/> The funding is for a key Council project. If yes, please give details:</p> <ul style="list-style-type: none"> • This project is a key Council project as commissioned by the Leader and approved in Cabinet paper 24 August 2011 http://www.sheffield.gov.uk/your-city-council/council-meetings/cabinet/agendas-2011/agenda-24th-august-2011 • Youth unemployment is a priority area for the Labour administration 	

	<ul style="list-style-type: none"> • Since 2011 this project has been charged each year with creating: <ul style="list-style-type: none"> ○ 100 apprentices in the private sector ○ 20 apprentices for the Council • The funding provides a 50% wage subsidy for a maximum of a two year programme • We expect the last apprentice to start work in March 2015 <p>√ Is the overall budget of the Portfolio currently underspending? Yes</p> <p>If not, is it expected to be underspending by the year-end? Yes / No</p>
<p>Why is the budget not being spent this financial year?</p>	<p>Please give reasons:</p> <ul style="list-style-type: none"> • The base budget allocated for this programme is sufficient to cover existing commitments for this scheme. However, in order for the Council to continue with further apprenticeships in future, the carry forward will be required in order to support this. It should be noted that a significant amount of this year's budget consisted of a carry forward from 2013/14. • There is future committed spend i.e. the salaries for the apprentices on programme that we have a legal obligation to pay through the contracts in place. This includes those currently on programme and those to be recruited to March 2015. • Payment of subsidies to employers is monthly in arrears & subject to evidence of attendance at work. • Apprenticeships last a maximum of 2 years from the date of commencement.
<p>Impact if request were not approved.</p>	<p>Please give reasons:</p> <ul style="list-style-type: none"> • If the request is not approved SCC would be able to meet is contractual obligations in relation to the current apprenticeships. However, once the current apprenticeships are complete, there would be insufficient funding to continue the apprenticeships programme.
<p>Purpose of Specific Reserve (i.e. what will the monies be spent on).</p>	<p>Please give details</p> <ul style="list-style-type: none"> • The monies will be spent on wage subsidies and management of the programme, in order for the programme to continue beyond March 2015.
<p>Approved by Finance Business Partner</p>	<p>Name Liz Gough Date 21/12/2014</p>

NEW HOMES BONUS FUND REVENUE EXPENDITURE APPROVALS

1. The purpose of this appendix is to seek formal approval from Members for the next round of New Homes Bonus fund (NHB) allocations. The fund was originally known as the Local Growth Fund but has been renamed to avoid confusion with a central government economic regeneration initiative of the same name.

2. The original investment strategy and governance arrangements were approved by Cabinet on 29th November 2011. Cabinet approval was given for the individual expenditure decisions consistent with the Strategy to be taken by Directors of Housing Economic Regeneration Services and Development Services and Finance in consultation with the Cabinet Members for Finance and Homes and Regeneration. Subsequent management reorganisations within the Place Directorate have transferred the place making responsibilities to the Directors for Capital and Major Projects, and, Regeneration and Development Services.

Capital projects automatically come through for Member approval as part of the capital approvals process.

3. The cabinet report also provided for all schemes to be endorsed by the Great Place to Live Strategic Outcome Board as being consistent with delivering the strategic outcome objectives of the Council. The Board has considered a number of projects and recommends that the following be brought forward for approval:

- Attercliffe Growth Zone
- City Centre Housing Restart
- Woodside Locality Plan
- Custom Build Project
- Reducing Long Term Empties
- Milton Street Property development
- Purchase of Land for Affordable Housing
- Funding the Introduction of the Community Infrastructure Levy

The purpose and benefit of each of the projects is set out below.

4. Attercliffe Growth Zone (£300k)

The objective of the project is to regenerate the Attercliffe area, specifically by creating housing development sites which will complement the substantial regeneration work at the site of the former Don Valley Stadium. That project will remediate the site to facilitate the construction of a through 2 – 18 school and a

University Technology College with subsequent opportunities to develop the remainder of the site for commercial and sporting facilities.

The NHB funding will be in two parts. Approximately £600k of capital investment will be invested in public realm improvements in the current shopping area, and, £300k revenue budget funding will be used to undertake preliminary feasibility work on six potential housing sites which if successfully developed have the capacity to create 813 homes. The feasibility studies will assess the topography and level of ground contamination from the heavy industries that were once the mainstay of the area's economy. This will reduce the risk for potential developers and may accelerate the development of the sites. Even so, the development is unlikely to start before 2017.

5. City Centre Housing Restart (£120k)

The Housing Delivery Plan has identified the potential for approximately 6,800 homes within the city centre over the next ten years. This would be a mixed development including family homes as well as the traditional city centre flat development model.

The project will work on a number of strategic city centre sites which are currently stalled and investigate how the schemes can be restarted either by repackaging the project to be more commercial or to attract new public or institutional investment or attracting new developers. Some new ones may also be identified as confidence returns.

The areas which have been targeted with clusters of sites and schemes at Neepsend; Kelham; Wicker Riverside; St Vincent's; Devonshire Quarter; Cultural Industries Quarter (CIQ) and St Mary's Gate. Examples of advanced but not yet completed interventions include Eye Witness site (Devonshire Quarter) and Matilda St (CIQ).

These sites are a mix of some which are identified in the SHLAA and others which are not. In total the 34 sites have the potential to deliver over 3,000 new homes. It is not anticipated that this project will succeed in re-starting all of them at once so it is proposed to set a new target of 500 new starts over the next two years.

The commitment is for £120k of NHB to be used over the next three years - £90k to support council officer interventions and £30k for external consultancy support.

6. Woodside Locality Plan (£140k)

This project will develop a local plan for the Greater Woodside area which will deliver an estimated 150 new homes (with potential to stimulate further delivery on neighbouring sites) to help meet the city's considerable need for new housing and deliver safe and thriving neighbourhoods. The New Homes Bonus funding will support Council staff in developing the plan for the area.

Additional funding for some £660k of capital works to develop a new open space to enable the delivery of around 150 new homes at Woodside (£1.08m NHB over 6 years) will be brought forward under the capital approvals process when the plan has been developed and the detailed requirements are known. The new homes are proposed on some of the open space called 'Stanley Fields' (labelled 1, Fig.1). This site, proposed by a master planning project currently underway, is much flatter than the existing housing site that has been allocated and marketed for housing during the last ten years but without success (labelled no.2, Fig. 1). The open space lost at Stanley Fields would be replaced on the existing housing site but, in order to do so successfully, capital investment is needed to create a unique facility that responds to the site's topography.

7. Custom Build Project (£50k)

This initiative aims to accelerate housing development by supporting individuals who wish to construct their own properties. The money will be used to undertake site feasibility works to help the Council identify those sites which would be suitable for Custom Build. The NHB funding will be used as matched funding to secure a further £100k of central government funding.

The project aims to generate 441 homes.

8. Reducing Long term Empties

This is a successful project which has been running for two years and has brought back over 1,733 homes as at 31st March 2014 which had been previously unoccupied for more than six months. The budget allocation will be used to fund a team for the next three years to enable the Council to work with the property owners to bring the homes back into use. This confirms funding of approximately £395k per annum through to the end of 2016/17 in line with the initial NHB approvals.

9. Milton Street Property Development

The principle of this scheme was approved by Cabinet on 16th April 2014. It involves the exchange of properties between a manufacturer who will move out from a Victorian multi-storey workshop in the city centre to a more suitable modern single story building off the Parkway. The NHB funding will be used to pay the stamp duty and legal fees associated with the exchange of property titles and future running costs. The Council owns other sites in the immediate vicinity and the City centre Regeneration team believe that combining these with this city centre building will create an attractive site for housing. Around 60 homes could be created.

10. Purchase of Sites for Affordable Housing Developments

The Council owns a number of sites across the city which are suitable for housing development. By selling these properties to developers the Council generates a

capital receipt which is used to fund capital projects which are not eligible for external or central government funding.

Opportunities do arise where third parties (typically Housing Associations can obtain grants to fund the construction of affordable housing schemes that would otherwise not go ahead. In order to make the project viable for the housing association, the land has to be given at nil value so the Council loses the capital receipt. The Council will however earn New Homes Bonus on the construction of the dwellings increasing the value of the NHB fund.

This scheme will provide the facility to repay the capital programme for the land value out of NHB earned on the development.

11. Flood Management Programme £1.8m

Sheffield Flood and Water Management Capital Investment Programme 2015 to 2021 report to Cabinet in June 2014 set out the Council's approach to discharging its flood management responsibilities and set out an ambitious programme to secure up to £53m of funding to overhaul and strengthen the city's flood defences. Apart from preventing the damage, disruption and misery wrought by flooding, it will improve the development potential for sites across the city for use in economic regeneration or housing. £18m has already been secured for the Lower Don Valley flood defences project.

This allocation of NHB is to fund site investigation, feasibility works and funding bids over the next five years.

12 Funding the Introduction of the Community Infrastructure Levy (CIL) (£52k)

CIL is a charge to be levied on building developments in the city. The charge rates vary with the type of development and the area in which it takes place. The policy has been approved in a report to Cabinet dated 19th February 2014.

It is intended to introduce the CIL regime from July 2015. In order to do this efficiently the Council will need to purchase computer software to track CIL liabilities and provide management information on the income raised from CIL.

NHB fund is regarded as a suitable source of funding given that CIL will be generated from some housing developments.

Scheme Description	Approval Type	Value £000	Procurement Route

Note – for full details of the movements on the Housing Programme, please see Appendix 3.	Additions Variations Slippage Accelerated Spend	42,504 68,945 (7,289) 222	(see Appendix 3)
SUCCESSFUL CHILDREN & YOUNG PEOPLE :-			
Norfolk Park Primary Replacement This project was established to refurbish and adapt the Standhouse Centre to accommodate the permanent relocation of Norfolk Park Primary School. The total project cost stands at £4,760k and is funded from the Capital Maintenance Block Allocations for 14/15 and 15/16. Slippage of £1,248k is required as a result of a revised contractor profile and separate delay on-site due to poor weather. Specific Groundworks	Slippage	-1,248	N/A -covered by the original strategy
Grace Owen Nursery This project was set up to relocate Grace Owen Nursery into new unit at Park Hill with appropriate external play space. It is a 39 place Nursery with 35 Childcare places and is a well-respected provision, previously rated as 'outstanding' by Ofsted. Relocation of the nursery within the Park Hill complex is the desired outcome as this will lead to further attractiveness of homes for local people. The developer, Urban Splash, has identified an available unit for relocation and the	Slippage	-837	N/A -covered by the original strategy

<p>project seeks to fit out and transfer the nursery into this unit.</p> <p>The £895k project total is funded by:</p> <ul style="list-style-type: none"> • New Homes Bonus Fund, £700k; • contribution from Grace Owen devolved formula capital grant £73k; and • local community ('Great Place') funding, £122k. <p>Urban Splash, as the developers of Park Hill estate are contracted to deliver the fit-out and relocation and the procurement strategy reflects this position.</p> <p>Slippage of £837k (all previously planned for 14/15) is now requested, due to a revised delivery plan, agreed in conjunction with Urban Splash, to deliver the project in 15/16.</p>			
<p>Thornbridge Accessible Unit</p> <p>This project was established for the creation of a new Outdoor Education Centre at Thornbridge Outdoors, Great Longstone, Derbyshire. The project will erect an outdoor classroom with additional ancillary accommodation for a disabled child to stay overnight when not being used for teaching. The new centre will therefore create expanded opportunity for disabled children and their families to access Thornbridge and the Peak District either as part of a residential visit with school or as a family short break. The building will be a model exemplar and resource of environmentally friendly design which will be used to teach school groups about sustainability.</p> <p>Funding is split between Aiming High Funds already received of £416k and £484k from Capital Maintenance Grant funds in 14/15 and 15/16.</p> <p>Slippage of £651k is required due to delays in starting on-site as a result of finding protected wildlife species in the location.</p>	Slippage	-651	N/A -covered by the original strategy

<p>Feasibility & Design -Schools This project was set up to provide for initial feasibility and design works in scoping out capital projects across the Council's school estate. The £100k increase is required to enable feasibility works at various schools as required in the remainder of 2014/15, with the increase being funded from the DfE Basic Need Grant Block Allocation.</p>	Variation	100	N/A -covered by the original strategy
<p>Rowan Special School Expansion Sheffield City Council has chosen The Rowan Primary School in Dore, for expansion as this particular school, an Autism Spectrum Disorder (ASD) Special School, is significantly oversubscribed and there is a growing demand for places. This project aims to mitigate the demand on the 4-11 year old provision in the area by creating a total of 23 additional places for pupils with ASDs.</p> <p>An increase of £186k is requested to cover additional costs due to planning requirements for a green roof and additional flood risk measures, which has also resulted in later start date than originally anticipated, resulting in the corresponding slippage request for £260k to move into 15/6.</p> <p>The total project cost is now £1,886k and is funded as follows: £693k from Targeted Basic Need; the remaining £1,007k and the extra £186k from the "standard" Basic Need Block Grant Block Allocation for 14/15 and 15/16.</p>	Slippage / Variation	Slippage -260 Variation 186	N/A -covered by the original strategy
<p>Basic Need Block Grant Block Allocation Draw down on this Block Allocation to fund Feasibility & Design works (£100k) and Rowan Special School Expansion works (£186k) as outlined above.</p>	Variation	-286	N/A – Block Allocation
<p>Gleadless Primary Rebuild Gleadless Primary exists on a split site, separated by a main road. This project exists to design new Infant and Junior blocks at the existing Gleadless Primary School site and construct a new Infant block on space currently available adjacent to the Junior site. The Infant site has significant condition issues which need correction.</p>	Slippage	-299	N/A -covered by the original strategy

<p>Concurrent design of a new Junior block is to take place to allow future build if funding permits at a later date.</p> <p>Slippage of £299k into 15/16 is required due to delays in starting on-site as a result of negotiations to agree a suitable design with the contractor within the available budget. The project is funded from the Basic Need Block Grant Allocation for 14/15 and 15/16.</p>			
<p>Devolved Formula Capital (DFC) This scheme covers the cost of minor capital works at Sheffield schools, paid out on a criteria-weighted basis from a grant allocated to the council by the Department for Education (DfE) for the purpose of addressing the backlog of repairs and maintenance in schools. The schools are directly responsible for the procurement of goods or services covered by this scheme.</p> <p>The funds can be rolled forward by schools for up to 3 years and slippage of £250k is required as a result of schools spending more slowly than anticipated in the Summer period of 2014.</p>	Slippage	-250	N/A -covered by the original strategy
<p>Hallam Reconfiguration This project covers the reconfiguration and redesign of buildings at Hallam Primary School. Continued monitoring of future pupil place demand identified a need in the Hallam area and feasibility and scope of works have now been completed to design a solution to these requirements. Additional places need to be available from September 2015. The scheme comprises the demolition of the existing infant block at Hallam primary school and the construction of a new classroom block of approximately 900m2, together with associated external works.</p> <p>The total project cost stands at £3,010k and is funded from the Basic Need Block Grant Allocation for 14/15 and 15/16. Slippage of £302k into 15/16 is required due to delays in starting on site as a result of being late in receiving planning</p>	Slippage	-302	N/A -covered by the original strategy

approval.			
<p>PROCUREMENT STRATEGIES</p>			
<p>Housing Investment Projects 2015/19 – Improvements to Communal Areas to Flats and Maisonettes</p>	<p>The works comprise improvements and refurbishment to communal areas in flats and maisonettes across the City, including new flooring, windows and doors, provision of door entry systems, where these do not exist and sundry associated works.</p> <p>The project will be split into three contracts, one open via OJEU approximately £10m (Contract 1), one utilising the new Efficiency North(EN) Procure Framework approximately £6.7m (Contract 2) and one specifically configured to engage with SME Contractors worth £300k. This will give more contractors the chance to apply for the tender opportunities. This will also provide a robust benchmark comparison between different procurement routes and it will be a condition precedent in the two large Contracts that the Client (Housing Services) may take the decision to appoint two contractors from the same tender process (i.e. two contractors from the EN tender and none appointed via OJEU, or vice versa). This decision will be made purely on a best value-for-money basis.</p> <p>A provision will be made in the Tender Documents to include an option for obtaining materials via the ProcurePlus framework. Contractors will be requested to include their nett prices for key materials within their tender submissions. These prices will then be compared with those obtained from the ProcurePlus framework to assess which option gives overall better value-for-money.</p> <p>If the material prices from the merchant framework are significantly better than the</p>	<p>Procurement Strategy</p>	<p>17,000</p>
			<p>Contract 1 - Full OJEU procedure Contract 2 – EN Procure; Contract 3 – EN Small Lots</p>

<p>contractor prices, the Council would wish the successful contractor to use the merchant framework - effectively as a nominated supplier. This would deliver better overall prices for the Council. The Contractor would still do everything the same as if it were their own material provider i.e. ordering and invoicing etc. This approach would be made very clear in the ITT documentation.</p> <p>The refurbished and improved areas will provide a safer and more pleasant environment to access areas and communal areas to dwellings. This will also improve the security and thermal properties of blocks.</p> <p>Contract 1 will be advertised via OJEU and will therefore be open to any contractor submitting an acceptable PQQ response. Contract 2 will be open only to contractors appointed on the relevant Lot on the EN Framework. Contract 3 will be sourced via the EN Small Lots process which includes smaller companies.</p> <p>Should the procurement processes for Contracts 2 and/or 3 fail, the alternative procurement route be adopted.</p> <p>Form of Contract - All three Contracts will utilise the Measured Term Contract 2011.</p> <p>Evaluation Criteria proposed as- 80% Price, 20% Quality. The Employment and Skills portion will represent 5% (out of the 20% Quality). Quality questions will focus on customer care, access and use of local subcontractors.</p>		
<p>Housing Investment Projects 2015/19 – Pitched Roofing and Roofline Works Contract 5 – Arbourthorne</p> <p>The works comprise supply and installation of replacement pitched roof coverings to houses and flats throughout the Arbourthorne Estate including removal of existing coverings, checking structure, remedial structural work, new under-felt, battens and</p>	<p>10,032</p>	

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

tile coverings, hips, ridges and valleys, renewal of eaves, fascias and verges and sundry associated works to loft insulation, flashings, chimney stacks, gutters and downpipes.

There will be a provision included in the Tender Documents for supply and fixing of photovoltaic (PV) panels to roofs where the configuration and aspect of the roof is suitable for maximum benefit from the installation. This portion of work will be funded separately and will be subject to a further approval when the scope and cost of the work is better known.

This Report is consequential on the recommendations set out in the approved Procurement Strategy ref PS21-2013, where it was stated that a further report be submitted for this final strand of the Pitched Roofing Programme.

A provision will be made in the Tender Documents to include an option for obtaining materials via the ProcurePlus framework. The Pricing section will include two options, both to be priced. Contractors will be requested to include their full costs for providing the works (supply and fix) but also their net labour / plant/overheads prices (fix only). Prices will then be compared with those obtained from the ProcurePlus materials framework to assess which option gives overall better value-for-money. If the material prices from the merchant framework are significantly better than the contractor prices, we would wish the successful contractor to use the merchant framework - effectively as a nominated supplier. This would deliver better overall prices for the Council. The Contractor would still do everything the same as if it were their own material provider i.e. ordering and invoicing etc. This approach would be made very clear in the Invitation to Tender..

Proposed procurement route = Efficiency North Procure

Form of Contract - The Contract will utilise the NEC Term Services Contract.

<p>Evaluation criteria - 80% Price, 20% Quality. The Employment and Skills portion will represent 5% (out of the 20% Quality). Quality questions will focus on customer care, access and use of local subcontractors.</p>		
<p>EMERGENCY APPROVALS:- (Note only)</p>		
<p>Castle Market Demolition On 19 March 2014, Cabinet approved a sum of £4.4m from the Corporate Resource Pool to demolish the former Castle Market following the construction of the new indoor market on the Moor and the transfer of the indoor market service.</p> <p>The project plan divided into three distinct phases:</p> <ul style="list-style-type: none"> • Phase 1 to vacate, ascertain the condition of the vacant structure including asbestos testing, decommission and planning of the demolition works; • Phase 2 to demolish the building once a satisfactory method statement had been developed; and • Phase 3 to lift the “slab” on which the market stood in order to permit the excavation of whatever remains of the castle. <p>The next stage in the development of the site envisaged external funding to assist with the archaeological works and creation of a green open space as a precursor to regenerating the area. This requires external funding of circa £5m. A bid to the Heritage Lottery Fund for £0.4m to undertake a feasibility study associated with this project has been rejected because HLF were not convinced of the project to unearth the ruins.</p>	<p>Emergency Approval</p>	<p>Change in scope (£0.5m)</p>

<p>Phase 1 has proceeded to the cost plan although it has been delayed by an extension to the period the former traders were granted to clear their stalls and some technical issues which were envisaged as a risk in the original project plan. Phase 2 is now ready to commence following the submission of tenders from prospective contractors.</p> <p>The tender returns have come in £762k above the approved budget. The Council has a number of options:</p> <ul style="list-style-type: none"> • Option 1: is to provide additional funding. The CRP is already over bid and additional resource could only be provided by cancelling significant projects either compliance type (e.g. work arising from fire risk assessment or flagship projects to develop leisure facilities - £1.2m for the creation of new pitches - or housing schemes such as Arbourthorne redevelopment; • Option 2: accept the tenders, proceed with demolition but change the scope of the project to omit phase 3. Funding the lifting of the slab would therefore have to be resourced by any new project to reveal the castle remains. By utilising the £550k budget for lifting the slab and drawing down £222k of contingency within the project, the cost increase can be contained to the original approval; • Option 3: extend phase 1 to examine alternative methods or options for the site. This has an immediate revenue budget cost pressure of security costs of £25k per month of delay and risks further cost inflation if the construction market recovers and rates tighten. During this time the building will further deteriorate and extend the blight over the area; and • Option 4: Retain the Tower. The building has already racked up a considerable back log maintenance list (one of the reasons in the 			
---	--	--	--

<p>business case for moving to the Moor) which will be prohibitively expensive to repair (now compounded by the decommissioning of key services) and is unlikely to provide a business case for reactivation given that rental rates in the area were as low £4 per square foot and there is ample superior vacant office accommodation in the city.</p> <p>Option 2 was therefore recommended.</p>			
<p>Darnall Centre Public Realm Improvements</p> <p>Darnall Centre is an important District Centre and one of five currently included in the ‘Successful Centres’ work. In November 2013, a report was produced to support a bid for funding for public realm improvements that would complement and enhance the shop front improvement scheme. A budget was identified using £20k from the successful Centre’s programme, and £30k from the receipt of the sale of a freehold. The Council’s Urban Design Team was commissioned to prepare a proposal and the original CAF approved on that basis. The out puts for the original proposal were:</p> <ul style="list-style-type: none"> • 15 Meters of repaired railings • 1 new sign • Public Art • Imprinted tarmac on crossings • Repairing surface of footways <p>Unfortunately the project was not progressed in the way Cabinet had approved because of:</p> <ul style="list-style-type: none"> • some technical issues regarding position of utilities • potential loss of parking spaces • The cost of the design would exceed the approved sum. 	<p>Emergency Approval</p>	<p>25</p>	<p>Single sourced tender in accordance with the Waiver of Standing orders entitled Highway PFI Non- Core Works (waiver no. 242-2012) for the works undertaken by Amey.</p>

	<p>It has subsequently been established that some of the works which had been planned under the original approval were to be completed under the Streets Ahead Programme. This has resulted in a potential saving on the original budget. The proposal is to use this saving to do additional work not envisaged in the original proposal. This includes 7 large 'statement planters' in key locations, some of which will be large enough to contain small trees.</p> <p>The costs are as follows:</p> <ul style="list-style-type: none"> • £17.5k for planters • £3.5K fees for urban design and surveys • £4K contingency • £20K commuted sum to pay for future maintenance over the next 25years <p>The public art element has not been progressed, as some 3D virtual shop windows were installed on a prominent corner building along with some coloured panels that reflected the colour palette used for the shop fronts.</p> <p>This approval needs to be completed as an emergency approval because Funding has been set aside for this year only, and if the works are to be completed this year an order needs to be place with AMEY as soon as possible.</p> <p>The Risks attached to this project are:</p> <ul style="list-style-type: none"> • The funding will be lost. • Delays in placing order will delay installation this financial year • Delays to AMEY core works that would prevent planters being placed <p>In effect members have a choice to deliver the outputs envisaged in the</p>	
--	--	--

<p>original approval through the Streets Ahead programme which has already been funded and return money to the Corporate Resource Pool, or authorise addition outputs for this project.</p> <table border="1" data-bbox="430 955 673 1890"> <thead> <tr> <th></th> <th>Revenue Cost £000</th> <th>Capital Cost £000</th> <th>Total</th> </tr> </thead> <tbody> <tr> <td>Original submission</td> <td>8</td> <td>42</td> <td>50</td> </tr> <tr> <td>New submission</td> <td>20</td> <td>25</td> <td>45</td> </tr> <tr> <td>Variance</td> <td>12</td> <td>-17</td> <td>-5</td> </tr> </tbody> </table>		Revenue Cost £000	Capital Cost £000	Total	Original submission	8	42	50	New submission	20	25	45	Variance	12	-17	-5

<p>DIRECTOR VARIATIONS:- (Note only)</p>																		
<p>GREAT PLACE TO LIVE</p>																		
<p>Chapelton Teen Area</p>	<p>This project is to install an outdoor gym at Chapelton Park. It will enhance the recreational and play value of the existing park by adding new pieces of gym equipment.</p> <p>The initial scope included eight pieces of gym equipment. The Director Variation has approved additional funding of £9k to increase the number of equipment stations to 12 and install a picnic bench and bin.</p> <p>The increase is being funded from contributions from the Friends Group from a Big Lottery grant.</p>	<p>Director Variation</p>	<p>9</p> <p>Covered by the initial approvals</p>															
<p>Manor Fields Toddler Play</p>	<p>This project aims to address one of the gaps in provision highlighted in the Manor Fields masterplan, namely the lack play provision in the park for younger children</p>	<p>Director Variation</p>	<p>3</p> <p>Via 3 quotes</p>															

<p>and toddlers, at the City Road end of the site. The project will also bring the pond / wetland area back into use as a safe ecological and educational feature.</p> <p>Director Approval has been given to increase the funding by £3,121 from S106 which will be used on the Play and Pond project. This will allow completion of works in the original schedule that were previously omitted to keep the project in budget. The additional works include further access improvements to link the play and pond area into the site better.</p>			
<p>Manor Field Uplift Project This project is now complete. The Director Variation has approved the transfer of the remaining S106 funding to 94380 Manor Field Toddler Play.</p>	<p>Director Variation</p>	<p>-2.3</p>	<p>n/a</p>
<p>Manor Field Kickabout This project is now complete. The Director Variation has approved the transfer of the remaining S106 funding to 94380 Manor Field Toddler Play.</p>	<p>Director Variation</p>	<p>-0.8</p>	<p>n/a</p>

**Cabinet Report**

Report of: The Chief Executive and Executive Director, Resources

Report to: Cabinet

Date: 11 February 2015

Subject: Revenue Budget for 2015/16

Author of Report: Eugene Walker, Acting Executive Director of Resources

Key Decision: YES

Reason Key Decision: Expenditure/savings over £500,000
Affects 2 or more wards

Summary:

The City Council on 6 March 2015 meets to consider the Revenue Budget for 2015/16 and to determine the Council Tax for that year

The report provides information to enable the Council to set a budget and determine the Council Tax.

The proposals set out in this report provide for a balanced budget to be recommended to Council.

Reasons for Recommendations:

Please see above

Recommendations:

The report contains recommendations to Council on 6 March 2015

Background Papers:

Category of Report: OPEN

If CLOSED add 'Not for publication because it contains exempt information under Paragraph (insert relevant paragraph number) of Schedule 12A of the Local Government Act 1972 (as amended).'

2015/16 REVENUE BUDGET

REPORT OF THE CHIEF EXECUTIVE AND THE EXECUTIVE DIRECTOR, RESOURCES

Purpose of the Report

1. The purpose of this report is to:
 - approve the City Council's revenue budget for 2015/16, including the position on reserves and balances;
 - approve a 2015/16 Council Tax for the City Council; and
 - note the levies and precepts made on the City Council by other authorities.

Budget Consultation

2. As part of the development of options for the 2015/16 budget, the Council ran a budget conversation between October and January that included a range of consultation activity with local people and partner organisations. This has helped us to ensure that the proposals that we are putting forward have been shaped by people who may be affected by decisions taken as part of the budget, and to ensure that they have had an opportunity to put forward other ideas for consideration.
3. In line with our values as an organisation, we have used consultation to inform people about our proposals, provide the opportunity to give feedback, make suggestions and let people know how their feedback has helped to influence our thinking. In this way we have attempted to ensure that our consultation activity is meaningful and appropriate at all times. Our budget consultation activity has had two main strands this year:
 - Two large corporate budget conversation events in the Town Hall, supplemented by additional activity, including a survey
 - Detailed consultation on particular topics and specific proposals

Corporate Consultation

4. Budget priorities have also been heavily shaped by consultation activity undertaken over recent years that has consistently confirmed public support for protecting services for the most vulnerable. This year public feedback on our guiding principles has supported our approach to:
 - operate efficiently as an organisation

- develop solutions for the longer term
 - take early preventative action
 - focus on people with the greatest need; and
 - work with our communities to deliver services in a different way.
5. These findings have been developed by both budget and non-budget related activity. This includes consultation that informed proposals in last year's budget and where implementation is being phased over two years in areas such as libraries, reviews and assessments in Adult Social Care, and changes to supported housing funding. The first of the large budget conversation events in the Town Hall was held in October 2014 and gave an opportunity for the Council to explain the scale of reductions we are facing to members of the public and our partners, to set out our approach to making the reductions, and to invite initial feedback on our approach. The open event was attended by over 140 people from partner agencies, representatives of community groups and voluntary organisations, as well as members of the public.
6. The second event, held in January 2015, was attended by around 100 members of the public, and gave us an opportunity to describe our budget proposals in more detail, and included workshops led by each of the Cabinet Members to discuss some of the most significant proposals in their areas of responsibility. To supplement the public events, we also invited feedback on our proposals through the Council's website (see www.sheffield.gov.uk/budget). We also produced a short animated video (available at www.sheffield.gov.uk/budget) designed to broaden understanding of the budget challenge, our approach and we used this alongside social media to signpost people to the consultation, as well as posting each of the presentations given at the events on the Council's website. The video was widely promoted via social media and received several thousand hits, significantly expanding the reach of our budget conversation compared to previous years.
7. The public events and the survey elicited an extensive range of comments which helped to inform our overall thinking on the budget. These included requests for further information and explanations, along with people's views on financial and resource issues covering capital and revenue budgets and how they are spent; the Government's approach to cuts; flexibility over charging and contracts; public sector collaboration and shared services; the importance of prevention work in housing & social care; support for addressing health inequalities with and for local people; focussing on providing the infrastructure

and environment to encourage growth and investment; make the Council's assets more productive and more resilient to provide financial relief in the short-term and reduce a reliance on fossil fuels in the long term; using existing assets to encourage enterprise and wealth creation in Sheffield; supporting residents to become less dependent and more independent of grants and support; reducing the numbers of councillors and their remuneration; recovery of monies owed to the council and further efficiencies; staff pay, sickness and pensions; and Council tax levels.

8. People asked about the extent to which the most vulnerable can be protected; how communities could be helped to support themselves; and the role of the voluntary and community sector. There were also discussions in relation to the impact of devolution, retention of business rates, and the potential creation of investment funds; the balance between longer term prevention and reactive work; what delivering services in a different way might mean for fair access, and distribution and quality of services; and the cumulative impact of savings over the last four years and the consequences of these.
9. We also invited people to provide ideas on ways to reduce spend, generate income, or do things differently to allow us to continue to provide services whilst maintaining a balanced budget. Suggestions ranged from brief comments to extensive commentaries covering a range of possible approaches. Some mirrored comments raised in the public events such as suggestions for reducing spend through cutting management and staffing costs, more efficiency reviews and greater use of digital communications. Others included stopping road alterations, further reducing libraries and encouraging greater recycling and fewer collections.
10. Ideas for generating income included: more proactive collection of monies owed to the Council and charging market rates for services; introducing a local lottery to raise funds for the voluntary and community sector; increasing advertising and sponsorship of council assets; early payment discounts; better use of the higher education institutions and colleges to harness ambition and work to retain students for a longer period; increasing council tax; growing the tourist economy; increasing transport charges and fines for littering; and being more business friendly and growing business in the city.
11. Views on doing things differently included more local procurement; using better products for repairs so reducing perceived false economies; getting better value from contractors and reducing outsourcing; reducing dependency on benefits; exploring community sector delivery of services; better partnership working, e.g.

health and social care; improving Special Educational Needs (SEN) provision; and increasing the use of technology.

12. People also gave their views on the draft proposals presented by Members at the second public event. These comments, and the responses to them, are available on the Council's budget webpages.
13. More detail on the points raised by people during this consultation event are available on the Council's website at www.sheffield.gov.uk/budget. This information has been carefully considered by officers and Members in developing and refining the budget proposals.

Topic and service-based consultation

14. Alongside our corporate budget conversation, we have also consulted with people about proposals on particular themes or in specific areas. This consultation has taken many forms, depending both on the nature of the proposal and which service users and communities are likely to be affected. In general terms, proposals that were assessed as having a higher impact were subject to more detailed consultation. This has ranged from public meetings, to individual discussions with providers and customers, to surveys and questionnaires. Three areas of significant consultation activity are highlighted below.
15. We have in the past been able to protect spend, in relative terms, on areas like adult social care. Although we continue to prioritise support to the most vulnerable and those at risk, the continued reductions in government funding and continuing demand pressures have meant that this is no longer possible as the reductions in other areas would be likely to lead to these services becoming unsustainable. We have therefore spent a great deal of time talking to service users and providers about our proposals in adult social care, as this represents a significant area of change from current service provision. Consultation on the Learning Disabilities Commissioning Strategy has taken place with service users, providers and stakeholders to establish principles and overarching commissioning intentions, in order to enable the development of future specific learning disability budget proposals.
16. In Children, Young People and Families services, significant initial consultation and discussion with service users as part of the review of short break and respite services took place over April-September 2014. Consultation also included staff, providers and children and young people. A second stage consultation commenced on 27 January as proposals were developed.

17. Similarly, consultation with Sheffield Futures on the Youth Service contract started in August 2014, with staff consultation starting in October 2014 for both Sheffield Futures and Sheffield City Council employees. Final consultation with young people, parents and communities is anticipated to complete in January 2015. The consultation outcomes are being used to update the Equalities Impact Assessment, and will be communicated to Members ahead of final decisions being taken.
18. More broadly, the following examples illustrate the breadth of other consultation activity across all areas of the Council with consultation taking place with Friends of Parks Groups and local residents on the future of urban nature parks; and with business and organisations such as the Chamber of Commerce on an alternative delivery model for Marketing Sheffield. We have consulted with voluntary and community groups to establish the likely impact of funding reductions in grants, and with providers about reductions to the Community Wellbeing Programme.
19. Consultation on proposals will not stop once the budget has been agreed by Members. Further consultation with those affected individuals, groups, organisations and staff will take place throughout the year as decisions are implemented through the Council's usual governance processes – this will include, for example, highways maintenance provision following negotiations on our contract with Amey; with residents and businesses on the Council's approach to online self-service as the preferred channel for customer enquiries; and on a range of proposals in adult social care provision, e.g. community support service, home support, small adaptations and independent living solutions; and the proposed review of the Public Health Grant contribution to mental health provision in line with the Council's wider re-commissioning of mental health services. We remain committed to making sure that people have the opportunity to comment on and influence proposals, particularly where services may change or reduce.
20. All the results of consultation activity will be taken into account when making individual decisions on the proposals. In some cases this consultation activity is not yet complete and therefore firm proposals will be subject to further decision-making in line with the Council's usual governance processes.
21. More information about our approach to consulting on the various budget proposals can be found in individual service EIAs.

Medium Term Financial Strategy

22. On 15 October 2014 Cabinet considered a report of the Executive Director, Resources entitled Medium Term Financial Strategy (MTFS) 2015/16 to 2019/20. This report provided an update of the Council's MTFS to reflect the budget decision of the Council for 2014/15 and the potential impact on the next 5 years of the Government's plans for deficit reduction. This report set the planning scenario for the medium term.
23. The report on the MTFS indicated that there would be reductions in Revenue Support Grant (RSG) of up to £45m (or 28%) in 2015/16 and a further £11m (or 10%) in 2016/17. The assumption for 2015/16 was based on a Technical Consultation on the Finance Settlement for 2015/16 issued by the Government on 22 July 2014.
24. It was also forecast in the MTFS report that reductions in RSG of 10% per annum would occur in the years from 2017/18 onwards. Reductions of this scale have become the norm in funding for Government departments with the majority of public services reduced by this percentage in the spending plans for 2015/16. However, it is important to note that the Government has not provided any details regarding local government funding beyond March 2016. It is likely that there will be a spending review once the outcome of the 2015 general election is known.
25. As well as the RSG reduction, a series of assumptions around business rates income were made:
 - The Council's locally retained share of business rates income would increase by £6m in 2015/16, and;
 - The Council would receive compensation for the 2% cap on the small business rate multiplier in 2015/16 (equivalent to £2.5m).
26. In addition to these funding assumptions, the Council faced additional corporate expenditure of up to £3.5m. This primarily included:
 - additional Streets Ahead costs (£1.8m),
 - provision for funding the increased pension contributions as a result of the 2013 actuarial review (£1m),
 - provision for funding debt charges in relation to the New Retail Quarter (£1m), offset by;

- reductions in capital financing costs (£1.6m).
27. There was also the issue of rising costs faced by Portfolios due to variations in inflation, new burdens legislation and levels of demand, particularly in social care services. It was proposed that the approach to be taken regarding pressures would be the same as that adopted previously, i.e. that portfolios would be required to manage their pressures from within existing resources and where necessary they would be required to identify offsetting savings.
28. The overall forecast picture for Sheffield City Council was for a potential shortfall of around £38m in 2015/16 rising to a cumulative shortfall of £78m by 2019/20, not including portfolio cost and demand pressures. The final position shown later in the MTFS report is that £63m of savings are required – including savings to offset portfolio cost and demand pressures – in order to balance the budget for 2015/16. The MTFS indicated that in order to achieve a balanced budget position over a three 3 year period savings proposals needed to be identified that were equivalent to a reduction of 15% in 2015/16, 10% in 2016/17 and 10% in 2017/18.

Better Care Fund

29. As shown in table 3 further on in this report, the Council currently receives funding via the NHS to meet some of the costs of providing adult social care. The allocation to Sheffield is shown in the spending power figures as amounting to £12.4m in 2014/15.
30. The MTFS report also referred to announcements made in the June 2013 Spending Review (SR13) and their potential impact on the City Council. SR13 included the creation of a £3.8 billion pooled budget from April 2015 for health and social services to work more closely together. This is to be referred to as the Better Care Fund. In preparation for the move to pooled budgets in 2015/16, an extra £200m was transferred from the NHS to local authorities in 2014/15 (£2.7m of which was allocated to Sheffield) to ensure that change can start immediately through investment in new systems and ways of working. These initiatives are referred to later in this report.

Approach to balancing the budget

31. The overall approach to balancing the budget has involved using the strategic outcome model that the Council has adopted in previous years and which has assisted in developing strategic proposals that have achieved a greater alignment of priorities and resources. Strategic Outcomes are an important

statement of how the Council achieves its priorities and give important direction and prioritisation for the authority.

Autumn Statement 2014

32. The Chancellor delivered his Autumn Statement (AS2014) to Parliament on 3 December 2014. Looking at the projections made in AS2014, departmental spending is scheduled to continue to fall in 2016/17 and 2017/18 at the same rate as has occurred in this Parliament, suggesting that there could be more budget reductions beyond 2015/16.
33. AS2014 did not include any analysis of spending impacts down to Department level. It is possible to make comparisons of total forecast Departmental Expenditure Limits between the data released alongside the Budget 2014 and AS2014, from which extrapolations about potential spending cuts beyond 2015/16 could be made. However, such extrapolations would be purely speculative because it is not clear for example which departments (other than Health, Education and perhaps International Development) will be protected from cuts in the future.
34. AS2014 did include the Government's announcement about its commitment to a long-term review of business rates, the outcome of which will be reported back by March 2016, with terms of reference to be published in due course. Although no specific details were provided, the AS2014 report did state that "the review will be fiscally neutral and consistent with the government's agreed financing of local authorities".
35. A short-term business rates administration review was conducted in April 2014, the interim findings of which were published shortly after AS2014. The findings included a summary of the government's proposals to address businesses' concerns regarding clearer billing, better sharing of information and a more efficient appeals process.
36. The Chancellor re-affirmed a number of commitments he made in the 2013 Autumn Statement, namely to extend the doubling of Small Business Rates Relief and to continue the 2% cap on the RPI increase in the business rate multiplier to the end of 2015/16. He also announced that the £1,000 business rates discount for shops, pubs, cafes and restaurants with a rateable value of £50,000 or below, will be increased to £1,500 in 2015/16. The Council is fully compensated for its share of business rates foregone as a result of these measures, so the impact is cost neutral.

37. The AS2014 does have the potential to create opportunities for Sheffield's growth and reform activity with a specific focus around the economies of northern cities and a number of key announcements (Sir Henry Royce Institute; major road and rail investment). On the public service reform agenda, there are a number of key references to greater public service integration, including in health and social care (multi-year budgets for local authorities and Clinical Commissioning Groups from the next Spending Review) and health and employment (for instance, supporting people with mental health conditions to find employment).

Local Government Finance Settlement

38. The Government announced details of the Provisional Local Government Finance Settlement for 2015/16 on 18 December 2014. Unlike previous years, the 2015/16 Settlement did not include indicative figures for the 2016/17 financial year because 2015/16 is the final year of the current Parliament, after which it will be for a new Government to determine a new Settlement for Local Government, following the General Election in May 2015.
39. With the introduction of the business rates retention scheme in April 2013, Finance Settlements now include a "Settlement Funding Assessment" (SFA) which represents each local authority's share of the overall local government spending control total, i.e. the total amount the Government plans to spend in respect of local government.
40. The SFA comprises the following elements:
- The Business Rates Baseline funding: the Government's estimate of each local authority's 50% share of business rate income which is then adjusted via a system of top up grants or tariffs to arrive at a Business Rates Baseline Funding level for each local authority, and;
 - Revenue Support Grant which includes some of the funding allocations that have been specific grants in the past.

Settlement Funding Assessment for 2015/16

41. The Settlement included a reduction in the SFA of approximately £40m in 2015/16. Although the overall reduction in SFA is broadly as expected, there are variations within the components:

- The business rates baseline is £3.8m less than assumed in the MTF5. The Government's estimate of the business rates baseline is simply based on the increase in the multiplier (which is capped at 2%), whereas the Council also took into account factors such as growth in the number of properties liable to business rates as well as a reduction in the provision for appeals.
- The level of RSG in 2015/16 is marginally worse than assumed in the MTF5, once the inclusion of the Council Tax Freeze Grant for 2014/15 – which was paid as a specific grant in 2014/15 – is taken into account.

42. The comparison between 2014/15 and 2015/16 is set out below:

Table 1

	Actual 2014/15 £000	Provisional 2015/16 £000	Difference £000
Revenue Support Grant	157,460	114,749	-42,711
Baseline Business Rates Funding			
Local Share of Business Rates	100,593	102,517	1,924
Top Up Grant	28,342	28,883	541
Total Settlement Funding Assessment	<u>286,395</u>	<u>246,149</u>	<u>-40,246</u>

43. The amount that is allocated to each local authority as SFA has two component parts:

- A formula funding allocation that is based on complex formulae to reflect the relative needs and resources of local authorities. This formula involves data sets that include 2011 based population projections and council tax projections. A floor damping mechanism exists to limit the impact that movements in data and formulae have on individual authorities, and;
- Grants that were previously allocated as specific grants and which now have been “rolled up” into RSG and Business Rates Baseline funding. This mechanism was introduced in order to provide the facility for the Government to make the overall Spending Review reductions in local government funding.

44. The elements in SFA are shown below:

Table 2

	RSG 2015/16 £000	Baseline 2015/16 £000	Total 2015/16 £000
Upper Tier Funding	76,240	97,182	173,422
Lower Tier Funding	13,430	18,503	31,933
Grants rolling in:			
Council Tax Freeze Compensation Part 1	2,837	2,042	4,879
Early Intervention Funding	7,558	7,378	14,936
Homelessness Prevention Funding	293	215	508
Lead Local Flood Authority Funding	76	56	132
Learning Disability and Health Reform Funding	8,572	6,024	14,596
Council Tax Freeze Compensation Part 2	3,882	0	3,882
Local Welfare Provision	1,861	0	1,861
Total SFA	<u>114,749</u>	<u>131,400</u>	<u>246,149</u>

45. It should be noted that the Government adjusts some of the figures for grants rolling into RSG and the business rates baseline, purportedly for the purposes of like-for-like comparisons. What this means is that the figure quoted in the Government's settlement figures does not always bear any resemblance to the actual specific grant received in the previous year. A good example is the Local Welfare Provision Grant which, according to DCLG settlement figures as per Table 2 above, will be rolled up into RSG at £1.861m. However, as shown in Table 3 below, the actual amount paid to the Council in 2014/15 was £2.472m.

Specific Grants

46. The overall impact of the Local Government Finance Settlement will include variations in the level of specific grants that will be allocated to the City Council. Although the majority of funding is now allocated through the Formula Funding process, there remain a number of specific grants from Government in support of service delivery costs. The table below shows the grants that the Council has taken into account when setting the 2015/16 revenue budget. The majority of these grants are already included in Portfolio/Service budgets and the proposals set out in the budget implementation plans.

Table 3

	Actual 2014/15 £000	Budget 2015/16 £000	Variance £000
Council Tax Freeze Grant 2014/15	1,968	0	-1,968
Local Welfare Provision Grant	2,472	0	-2,472
Housing Benefit Admin Grant	3,868	3,564	-304
Council Tax Support New Burdens Funding	270	124	-146
Local Services Support Grant	0	53	53
NHS Funding	12,399	0	-12,399
Better Care Fund	0	37,783	37,783
Public Health	30,748	30,748	0
Business Rates Top Up Grant	28,342	28,883	541
S31 Grant for Business Rate Cap 2014/15 & 2015/16	1,079	1,916	837
S31 Grants for Business Rate Reliefs	0	3,100	3,100
Adult Social Care New Burdens (starting in 2015/16)	0	2,644	2,644
Total	81,146	108,815	27,669
Less:			
Adult Social Care New Burdens (starting in 2015/16)	0	-2,644	
Better Care Fund	0	-37,783	
Adjust:			
Local Welfare Provision Grant	-2,472	0	
NHS Funding	0	12,399	
Revised total	78,674	80,787	2,113

47. The overall net increase in specific grants of £2.1m for 2015/16 reflects the following key changes:

- Council Tax Freeze Grant (CTFG): the Council accepted the Grant for 2014/15 and included £1.968m in its revenue budget for that year. However this is no longer a specific grant in 2015/16. As CTFG has effectively become a one-off source of funding, acceptance of CTFG can no longer be viewed as a sustainable strategy. The Council is proposing to increase council tax up to the local referendum limit of 2%, hence it will not be eligible for CTFG in 2015/16.
- Local Welfare Provision Grant: this is being removed from April 2015. This currently amounts to £2.472m and funds the Council's welfare assistance scheme.
- Compensation for business rates capping: the 2013 Autumn Statement capped the increase in the business rates multiplier (the rate in the £ that

businesses pay) to 2% in 2014/15 and 2015/16. The business rates retention scheme that was established in April 2013 uplifts the Business Rates Baseline by RPI and this was therefore expected to increase by approximately 2.8% for 2014/15 and 2.3% for 2015/16. The Government will continue to compensate local authorities for this difference. For Sheffield the compensation is expected to amount to £1.916m in 2015/16.

- Compensation for business rates reliefs: as compensation for business rates-related measures introduced and/or extended in the 2013 Autumn Statement, the Council expects to receive a number of grants including Small Business Rates Relief (£2.5m), Retail Relief (£500k) and Empty New Build Relief (£100k).
- Adult Social Care New Burdens funding: the Government will provide £2.644m of new funding for Sheffield to cover additional statutory responsibilities as a result of the Care Act.
- Better Care Fund: contrary to what is implied in the Settlement figures, the Council will not receive £37.8m from the Better Care Fund; this figure represents the total amount of the pooled budget shared with the NHS, and the actual amount which the Council will receive from the BCF is subject to ongoing discussions with the Clinical Commissioning Group. NHS funding to support social care will be amalgamated into the BCF.

Numerous independent commentators have stated that it is misleading on the part of the Government to quote the full amount for BCF in spending power figures because it masks the underlying reduction in RSG. CIPFA for example has been quoted as stating that the government's spending power presentation is "disingenuous" and massively underplays the "true size and scope of the cuts", which it says amount to more than three times the official government figure.

- Independent Living Fund (ILF): The ILF scheme is currently administered by Department for Work & Pensions (DWP) and delivers financial support to disabled people so they can choose to live in their communities rather than in residential care. The scheme will close on 30 June 2015, after which point the responsibility for service users will transfer to local authorities. No official confirmation of funding to support the transfer of responsibilities from DWP to local authorities was provided in the December 2014 Settlement, hence it does not appear in Table 3 above. It is understood that funding will be paid as a so-called Section 31 grant from DCLG, which normally means that the

grant is not ring-fenced. The current estimate for the Council in 2015/16 is around £2m, and this figure has been used for the purposes of setting the budget for the Communities portfolio on the basis that this funding will be earmarked for ILF activity.

- Public Health Grant: the Government announced in the December 2014 Settlement that £30.7m of Public Health grant would be allocated to the Council. A further £3.5m will be allocated to the Council in 2015/16, along with a transfer of responsibilities from the NHS with effect from October 2015. These responsibilities will include health visitor services for children aged 5 years and under. This additional funding has not been shown in Table 3 above because it has not yet been officially confirmed.
48. The position above does not include various education-related grants such as Education Services Grant (ESG) and Dedicated Schools Grant (DSG), the majority of which is “passported” to schools. The provisional DSG settlement amounts to £377m for Sheffield, of which it is currently estimated that £320m will be passported directly to schools. The remaining funding is used to provide early years activities and statutory educational services. The final settlement for DSG will be received in the spring.
49. The New Homes Bonus (NHB) was introduced in 2011 as an incentive for local authorities to build new homes and bring back into use those which have been unoccupied for more than six months. The NHB allocation has increased from £6m in 2014/15 to £7.4m in 2015/16. This variation is not included in the assessment of the revenue budget position because it would not be prudent to use time-limited funds such as NHB to sustain long-term commitments. The Council has decided to use NHB to fund projects which help make sites available to developers to encourage new housing developments or bring long term empty properties back into use. NHB is therefore used mainly on capital projects but some projects are used to enhance services normally funded through the revenue budget. NHB-funded projects are approved on a case by case basis and for a specific time period.

Business Rates income

50. Prior to 2013/14 local authorities collected business rates on behalf of the Government and the amount was redistributed as part of the Formula Funding mechanism. As a result of the Government’s Business Rates Retention scheme, which was introduced in April 2013, the Council continues to collect all of the business rates in its area, but it is allowed to keep a share (49%). The

remaining portion is paid over to Government (50%) and South Yorkshire Fire Authority (1%). The Council therefore has a strong incentive to maximise this source of income in order to mitigate the impact of reductions in RSG.

51. The amount of business rates an individual authority is capable of collecting differs significantly across the country depending on its location and certain characteristics. For example, relatively prosperous areas will expect to collect more business rates because their billing areas will include a large proportion of business premises with high rents and therefore high rateable values. In contrast to this, authorities in regions of relatively high deprivation will expect to collect less in business rates because their billing areas are likely to comprise a large proportion of small business premises with low rents and therefore low rateable values which are subject to small business rate relief.
52. In order to counteract this national imbalance, the Government has introduced a system of top-ups and tariffs to re-distribute business rates across the country. Authorities with a relatively high level of business rates pay a tariff into a national pot which is then used to pay top-ups to those authorities with relatively low levels of business rates. The Government has set the level of tariffs and top-ups for a period of at least seven years with effect from April 2013, although top-ups and tariffs will increase by inflation over that period.
53. The Council is required to provide an estimate of how much business rate income it will collect and therefore how much it will rely upon in setting the budget for 2015/16. The basis for doing so is set out on a statutory return called an NNDR1 which the Council is required to submit to Government. This will involve the Council's own assumptions about growth (if any) in the amount to be collected, the losses on collection, the levels of refunds that may be given and the levels of outstanding appeals. All of these carry significant risk and will involve assumptions about performance in 2015/16 that will be based on experience of recent years and the use of the most up to date information available.
54. The first assumption which the Council needs to make is the number of business premises in Sheffield that are liable for business rates. The NNDR1 asks authorities to use 30 September 2014 as the starting point; on this basis, it is estimated that the number of business premises in Sheffield that are liable for business rates is 18,161 (17,602 as at 30 September 2013) with an aggregate rateable value of £533.965m (£530.083m as at 30 September 2013). This includes two parts of the city where special rules apply.

New Development Deal and Enterprise Zone

55. As shown in the table below, the parts of the city referred to as the New Development Deal and Enterprise Zone account for less than 2% of the aggregate rateable value of the city. However, both parts of the city are significant because any growth in business rates above the “baseline” established in 2013/14 can be retained in full locally, rather than half being repaid to Government. On the NNDR1, they are called “Designated Areas”.
56. The New Development Deal, which is within the section of the city centre earmarked for the New Retail Quarter, is expected to see substantial long-term growth in business rates, which will be re-invested to improve the infrastructure of the city centre. Sheffield is one of only three authorities in England who have successfully applied for this status as part of the Government’s programme of city deals, the other two being Newcastle and Nottingham.
57. The Enterprise Zone is located at the Advanced Manufacturing Park off the Parkway. Businesses which choose to re-locate to enterprise zones can receive several financial incentives. The Government also allows the Council to passport all business rates over and above the 2013/14 baseline to the Local Enterprise Partnership (or in Sheffield’s case, the Combined Authority) which then decides how those receipts should be invested. In 2015/16, the amount payable to the Combined Authority over and above the baseline, and including the Government’s Enterprise Zone qualifying relief, is £347k (see ‘Designated Areas’ in Table 5).

Table 4

	£m	
New Development Deal	3.420	0.6%
Enterprise Zone	3.779	0.7%
Rest of Sheffield	526.766	98.7%
Total	533.965	100%

Calculating the Business Rates Estimate for 2015/16

58. Based on the 2015/16 rating multiplier (the “rate poundage”, which is set by Government) this produces a gross business rate estimated income (the “Gross Rate Yield”) of £259.9m (£250m in 2014/15). This is the most realistic estimate

of the likely level of income before any further adjustments. However there are a number of deductions from this figure:

- Reliefs: there are a number of reliefs against business rates liability including small business rates relief, charitable relief, deductions for empty properties and partly occupied premises. It is estimated that the total value of these reliefs and deductions will amount to approximately £38.2m (£36.9m in 2014/15).
- Losses and costs of collection: this includes an estimate of the bad and doubtful debts in 2015/16, the potential legal and other recovery costs. Using the assumptions set out in Government guidance about this, the estimated figure is £3m (£2.2m in 2014/15).

59. A further deduction is required relating to refunds of business rates due to successful appeals. Business ratepayers can seek an alteration to the rateable value of a property by appealing to the Valuation Office Agency (VOA). However, because of the large volume of appeals, decisions by the VOA can take several years, although the Chancellor announced in the Autumn Statement in December 2013 that he had set a target for the VOA to work through 95% of outstanding appeals (as at 30th September 2013) by July 2015.
60. It is difficult to arrive at a reliable estimate of the potential refunds due on outstanding appeals in addition to any new ones that may be lodged. Based on data provided by VOA in September 2014, the number of outstanding appeals in Sheffield include 72 (114 in September 2013) in respect of the 2005 rating list and 858 (988 in September 2013) in respect of the 2010 rating list.
61. The provision for losses due to appeals that was established in 2013/14 amounted to £13.6m and was based on information relating to the level of outstanding appeals, assumptions about the likely level of “success” for the claimant and potential further claims lodged. In 2014/15 a further provision for appeals of £5m was taken. A similar method in 2015/16 results in an additional estimated provision for appeals of £3.8m.

Overall Business Rates Estimate for 2015/16

62. Based on assumptions relating to reliefs and appeals, it is estimated that the total net business rates for Sheffield will amount to £214.9m in 2015/16 (£205.8m in 2014/15). However, this is then appropriated between Government and local authorities (the City Council and SY Fire Authority) on the 50:50 basis set out in the Business Rates Retention scheme. Business Rate income is

taken to the Council's Collection Fund where the appropriations are made. The estimated Collection Fund for 2015/16, insofar as it relates to business rates, is shown below.

Table 5

Collection Fund - Business Rates Estimate for 2015/16

2014/15 £'000		2015/16 £'000
249,955	Gross Business Rates income yield	259,881
-36,886	LESS Estimated Reliefs	-38,208
-2,240	Losses in Collection	-3,027
-5,028	Losses on Appeals re Current Year Bills	-3,761
<u>205,801</u>	Net Estimated Business Rates	<u>214,885</u>
Appropriation of net business rates:		
100,898	Sheffield City Council	105,661
2,058	SY Fire Authority	2,136
102,845	Government	106,741
	Designated Areas	347
<u>205,801</u>		<u>214,885</u>

63. The estimated 49% of net business rates for Sheffield amounts to £105.7m (£100.9m for 2014/15). This is slightly more than the figure assumed by the Government in the provisional 2015/16 Local Government Finance Settlement that £103.6m would be retained by Sheffield City Council due to anticipated growth in the city's business rates yield above inflation.

It is proposed that the Council budget for 2015/15 include business rates income of £105.661m as its 49% share of net income. The proposed budget for specific grants includes £1.9m relating to the compensation from Government for the loss of business rates as a result of the decision to cap the increase in the multiplier at 2%.

Council Tax income

Council Tax base for 2015/16

64. The Council set a Council Tax Requirement of £164.377m for 2014/15 which resulted in a Band D council tax of £1,282.75. This included a determination that the council tax base – the number of properties on which a tax can be charged – would be 128,144.18 Band D equivalent properties. This represented a modest increase in the taxbase of 0.07% compared to the previous year.
65. The phrase “Band D equivalent properties” is used throughout this report because Band D is used by the Government as the standard for comparing council tax levels between and across local authorities. This measure is not affected by the varying distribution of properties in bands that can be found across authorities. A definition of Council Tax can be found in **Appendix 10**.
66. A summary of the council tax levels by band can be found in Table 9 further on in the ‘Financing the 2015/16 Budget Requirement’ section of this report. Further details can also be found in **Appendix 6**.
67. The calculation of the tax base for 2015/16 has involved an assessment of the following:
- There has been an increase in the number of domestic properties that are liable for council tax. An increase in house building has resulted in an additional 1,079 band D equivalent properties.
 - There has been a decrease in the expected CTSS caseload. This reduction amounts to 1,104 fewer band D equivalent properties claiming council tax support.
 - There is an increase of 95 in the number of band D equivalent properties that are entitled to discounts and exemptions. This is mostly due to additional student properties which are exempt from council tax.
 - The estimated collection for 2015/16: the practice has been to set a prudent in year collection rate as part of the tax base calculations although eventually the Council recovers up to 99% of council tax. As anticipated, the introduction of CTSS and other welfare reforms such as the ‘Spare Room Subsidy’ (the ‘Bedroom Tax’) has increased the level of financial hardship of many taxpayers resulting in late payments and non-payment of council tax. Therefore for tax

base setting purposes for 2015/16, a prudent collection rate of 95.5% has been assumed (although we still intend to collect 99% over the long term), which is unchanged from 2014/15. The collection rate will continue to be closely monitored during the year as the ongoing impact of the CTSS and other welfare reforms continue to put pressure on taxpayers' ability to meet their payments.

68. The Council Tax Base for 2015/16 has therefore been determined as 130,231.44 Band D equivalent properties, as shown in Table 6 below. This is an increase of 2,087.26 properties (or 1.6%) compared to 2014/15 and will result in an increase in council tax income of £6m assuming a 1.99% increase in Band D council tax. Of the £6m increase, £2.7m is as a result of the net increase in Band D equivalent properties, and the remaining £3.3m is due to the proposed 1.99% increase in Band D council tax.

Table 6

	Band D equivalent number of properties
Council Tax Base of Band D equivalent properties for 2014/15	128,144.18
Additional properties in 2015/16	1,078.78
Reduction in properties entitled to CTSS	1,103.53
Increase in number of properties entitled to discounts / exemptions	-95.06
Council Tax Base of Band D equivalent properties for 2015/16	<u>130,231.44</u>

Council Tax Freeze Grant for 2015/16

69. The Finance Settlement includes details of the Council Tax Freeze Grant for 2015/16. This is to be paid to local authorities that do not increase the council tax from the 2014/15 level and the cash value of the Grant will be equivalent to a 1% increase in council tax excluding the reduction in tax base due to the Council Tax Support Scheme. If the Council chose to freeze council tax at the same level as 2014/15, the actual grant would amount to £1.972m in 2015/16 (approximately £0.3m higher than the amount based on the actual tax base).

70. The Finance Settlement states the following:

“Government intends that Council Tax freeze funding for 2015/16 should be built into the baseline for subsequent years. This provides the maximum possible certainty for councils that the extra funding for freezing council tax will remain available. The 2011/12, 2013/14 and 2014/15 freeze grants are already in the local government settlement total for future years.”

71. To what extent this grant will continue indefinitely is uncertain. In any event, as the pattern appears to be that CTFG will no longer be given as a specific grant for more than one year, acceptance of CTFG can no longer be viewed as a sustainable financial strategy.

72. Therefore, the proposals set out in this Report assume that the Council will set a 1.99% increase in council tax in 2015/16. This follows four years (2011-15) during which time council tax has been frozen.

Council Tax referenda

73. The Localism Act 2011 introduced a requirement for a local authority to determine whether its council tax for a financial year is excessive. If the council tax were to be considered as excessive, a referendum is required in respect of that amount.

74. The principles on which a council tax is considered to be excessive are determined by the Secretary of State. This replaces the capping powers that were previously available to the Secretary of State.

75. The principles for 2014/15 were issued on 5 February 2014. Although there were indications that the Government were considering setting the threshold at 1.5%, the principles have determined that the “basic amount of council tax” is excessive if the 2014/15 tax is 2%, or more than 2%, greater than the tax for 2013/14.

76. The Provisional Local Government Finance Settlement issued on 18 December 2014 confirmed that, subject to consultation, the Government had no plans to revise either the 2% referendum limit or the provisions relating to the calculation of the “relevant basic amount” of council tax.

Business Planning for 2015/16

77. The Council’s approach to managing its financial position in the medium term has been through the Business Planning process. This requires Services and

Portfolios to develop business plans which show what activities will be provided in 2015/16 for a specified cash limited budget.

78. The Business Planning process for 2015/16 began before the consideration of the MTFs report by Cabinet in October 2014. The planning process to balancing the budget over the medium term involved a strategic approach that included:

- For planning purposes, the development of forecast budget totals that fit within the level of available resources over a 5 year period
- Resources being allocated to Services/Portfolios and also to strategic outcomes in a way that reflected priorities
- Executive Directors being given responsibility for developing realistic, affordable 2 year delivery plans within a 3 year context for each outcome area and which fits within the available level of resources
- The plans were to consider all income and spending, cost and demand pressures, as well as setting out clearly any major changes required in service delivery.

79. To assist in the development of these outcome driven plans, the current year Service/Portfolio budgets were aligned to strategic outcomes. This approach enabled broad planning totals to be produced for strategic outcome areas and led to the development of savings proposals that are set out in the budget implementation plans.

Formulation of the budget for 2015/16

80. In formulating the budget for 2015/16 there are a number of adjustments that will need to be made to reflect variations in costs and resources, some of which are outside of the control of the Council and others reflect the continuation of current Council policy. The following section shows those items that have been included in the proposed budget, along with a summary table (Table 7) which demonstrates how the Council's revenue budget for 2015/16 has been balanced.

Funding from Government

81. The earlier part of the report provided details of the Local Government Finance Settlement for 2015/16. The Settlement resulted in a reduction in RSG of £42.7m for 2015/16. Further details of variations to specific grants are also

provided earlier in this report; a summary of the main changes – amounting to a net increase in specific grants of £2.1m – are as follows:

- Council Tax Freeze Grant 2014/15 will be rolled up into RSG (£2m loss of income), offset by;
- £3.1m of grants awarded to the Council as compensation for business rates-related measures introduced and/or extended in the 2013 Autumn Statement, including Small Business Rates Relief (£2.5m), Retail Relief (£500k) and Empty New Build Relief (£100k);
- Additional Business Rates Inflation Cap Grant (£837k);
- Additional Business Rates Top Up Grant (£541k).

82. The overall reduction in funding from Government is £40.6m.

Business Rate income

83. As stated earlier in this report the position relating to business rate income carries significant risk. The City Council's share of estimated business rate income amounts to £105.661m, which is an increase of circa £4.8m compared to 2014/15. This is £3.1m above the assumed retained business rate figure that is determined by Government as part of the Business Rates Baseline.

Council Tax income

84. The determination of the council tax base has resulted in additional income of £6m as reported earlier. This assumes that the actual Band D equivalent tax will increase by 1.99% from April 2015.

Collection Fund surplus

85. The Collection Fund position has been determined at 15 January 2015, as required by statute. There is an estimated surplus for the City Council of £3.3m. For further details, please refer to the 'Financing the 2015/16 Budget' section of this report.

Additional Budget Provisions

86. There are a number of proposed additions to the budget for 2015/16:

- Portfolio pressures: Portfolios are faced with increased levels of demand for services and rising costs of service provision, particularly in the area of social

care, all of which is exacerbated by onerous legislative changes to the Council's statutory responsibilities and by loss of funding. The total cost of Portfolio pressures amounts to around £22m. Details of the pressures are in **Appendix 1**.

- Local Government Pensions costs: as a result of the triennial valuation of the South Yorkshire Local Government Pension Scheme (LGPS) completed by 31 March 2014, the Council's financial obligations with regard to the LGPS have increased significantly over the period 2014-17 compared to the previous triennial period. The Council is required to set aside a further £2.4m to meet these obligations in 2015/16.
- Pay strategy: the expected net cost of reinstating half-increments after taking account of 3 days' unpaid leave is around £0.1m greater than the 2014/15 budget.
- Infrastructure Investment (New Retail Quarter): proposals relating to the development of the new retail quarter were presented to Members in July 2014. These proposals involve land acquisitions funded by prudential borrowing which could result in capital financing charges to the revenue account. The existing budget for such charges is £0.4m in 2014/15, rising to £1.4m thereafter.
- Streets Ahead: the Council investment in the Streets Ahead contract will result in the required amount increasing by approximately £1.8m per annum from April 2015, as planned. This includes the full debt charges associated with borrowing £135m to finance the acquisition of assets (a saving on the previous borrowing via PFI).
- Improved sundry debt collection: as performance in respect of sundry debt collection improves, the practice of taking income to a corporate budget is being phased out. The improvement in debt collection is now reflected in Portfolio budgets. It is proposed to reduce the corporate budgeted income target from £250k in 2014/15 to £nil in 2015/16.
- Future Shape: As part of the plan to deal with further sustained funding reductions, the Council needs to ensure that it continues to adapt and change to maximise the outcomes it can achieve for the people of Sheffield at the least cost. Our new Corporate Plan will set out how we aim to be an "in touch" organisation. For us this means:

- finding smarter ways to operate so that we are intelligent, agile, innovative and efficient;
- to listen and be responsive to customers;
- to reform public services to meet people's needs;
- to make well informed decisions, based on good information;
- making changes to the right things in the right way, and;
- valuing our employees to ensure we support and get the best out of them.

In order to achieve this we will have to work with a range of partners and invest in technology and projects to change the way we work – to improve customer services, including digital access to services and to develop better business intelligence, joined up with partners such as health to support integrated working. The budget approves a level of funding for such projects, funded from savings that we have made by negotiating an extension to, and changes in, the Capita contract.

- Council Tax Hardship Scheme: the Council set up this scheme alongside the introduction of its council tax support scheme in April 2013, with a budget of £500k which remained in 2014/15. For 2015/16, it is proposed to increase this budget by £100k to mitigate the potential for an increase in claimants as a result of the 1.99% increase in council tax.

Reductions in budget provision

87. There are a number of reductions that the Council can make to its budget:

- Capital financing costs: the Council holds a revenue budget in order to meet the costs of borrowing undertaken to finance the capital programme. On the assumption that market conditions will remain favourable to the Council next year, i.e. interest rates and borrowing requirements will not exceed those stated in the Treasury Management Strategy in **Appendix 7**, it is proposed to reduce this budget by £3.1m.
- Provisions for redundancy/severance costs: based on the savings proposals that are set out in this report and which are required to achieve a balanced budget, the Council will require an adequate provision for redundancy and severance costs. The 2014/15 base budget included a provision of £11.2m to fund redundancies and other severance costs. The proposals set out in the budget implementation plans (BIPs) involve a reduction of fewer than 200 posts (the figure quoted in the Council's HR1 submission), a number of which are currently assumed to be vacant. The net reduction in posts estimated in

the BIPs amounts to 98 which represents a 79% decrease compared to the figure of 475 for 2014/15. It is therefore proposed to reduce the redundancy cost provision in the 2015/16 budget by £3m to £8.2m. As part of the Council's risk based reserves strategy, it is also proposed to increase the corporate redundancy reserve from £2.1m to £5.1m as a contingency.

- Public Health: savings of £2.5m have been targeted from existing public health activities in order to avoid disinvestment in other Council services which promote health and wellbeing outcomes, for which revenue funding is no longer available. Of the £2.5m, £500k is already included in CYPF's savings proposals. Further details of individual savings proposals can be found in the portfolios' Budget Implementation Plans (BIPs) in **Appendix 2**.
- Capita contract: in-depth negotiations have taken place between Council officers and Capita to identify the potential for further savings on the Capita contract. It was announced in Autumn 2014 that the negotiations were successfully concluded, resulting in savings of £1.8m in 2015/16.
- Pensions re-financing: the Council has been reviewing a number of options for re-financing large regular payments to third parties by gaining access to low interest rates in order to secure an early payment discount. One such instance is the £20m+ annual payment to South Yorkshire Pensions Authority, whereby the Council will generate an estimated net saving of £500k in 2015/16.

Contribution from Reserves in 2015/16

88. The budget proposals involve the use of reserves to meet expenditure in 2015/16, and/or smooth costs in future years, for the following purposes:
- Drawing down funding from the Better Care Fund reserve to smooth the transition to pooled budget arrangements with the CCG whilst a more sustainable funding strategy is formulated;
 - Setting aside a proportion of the estimated 2014/15 Collection Fund surplus in the business rates reserve as a contingency against the risk of an increase in refunds as a result of appeals

NOTE

Public Health savings / re-investments * - savings of £2.5m have been targeted from existing public health activities in order to avoid disinvestment in other Council services which promote health and wellbeing outcomes. Of the £2.5m, £0.5m is already included in the portfolio savings proposals figure.

Savings proposals for 2015/16

89. Discussions with Members have taken place since the consideration of the MTF5 to produce a set of proposals that will achieve a balanced budget. The proposals set out in this report form the basis of a balanced budget and a recommendation to Council on 6 March 2015. The total amount of Portfolio savings are £37.5m. If any of these proposals were not to be approved by Council then alternative compensating savings would need to be identified and recommended to Council. Details of the Portfolio savings are in the Budget Implementation Plans (attached at **Appendix 2**).

Total	37.5

Revenue Budget position for 2014/15

90. At its meeting in March 2014, the Council approved a Net Revenue Budget for 2014/15 of £451.248m. The Council kept the level of Council Tax unchanged from the previous year – at £1282.75 for a Band D equivalent property - and therefore qualified for the one off Council Tax Freeze Grant.
91. The level of spending against budget is subject to a rigorous monitoring and review process each month and results in a comprehensive budget monitoring report being submitted to Cabinet which shows the forecast outturn position. The budget monitoring position at month 8, covering the period to November 2014, shows a forecast reduction in spend of £144k as per the table below.
92. In summary, the position as at Month 8 shows a balanced budget for 2014/15, so there is no direct impact on the 2015/16 budget.

Portfolio	Forecast Outturn £000s	FY Budget £000s	FY Variance £000s	Movement from Month 7

ADJUSTED GRAND TOTAL			(144)	

Balances and Reserves

93. The Council budget has been prepared against a backdrop of uncertainty and potential risk. There is nothing new in this and whilst some of these are risks which the authority has managed for many years it is important that the Council has adequate financial reserves to meet any unforeseen expenditure. For an organisation of the size of Sheffield City Council relatively small movements in cost drivers can add significantly to overall expenditure.
94. The Director of Finance has reviewed the position relating to Reserves and has produced a Reserves Strategy which is attached at **Appendix 4**. This sets out the estimated requirement for Reserves and explains the purpose of each earmarked reserve.

Risk Management

95. Attached at **Appendix 5** are details of corporate risks which will need to be monitored closely throughout the year. The budget proposals identified in this report will be risk assessed and given a risk rating. The implementation of the budget proposals will then be closely monitored and reviewed based on the risk assessment and this will be reported as part of the budget monitoring process for 2015/16.

Levies

96. The Council currently has approximately £28m in its revenue budget for levies. This includes the following levies:
- Sheffield City Region (SCR) Combined Authority Local Transport Board (CALTB) levy; the SCR Combined Authority has approved its budget for 2015/16 in January 2015. A transport levy reduction of £4.2m is expected for

Sheffield. This reduction is included in the City Council budget proposals under the Place portfolio.

- Payments to the South Yorkshire Pensions Authority and to the Environment Agency amounted to £0.214m and £0.186m respectively in 2014/15. The figures for 2015/16 are £0.205m and £0.196m respectively.

Portfolio Revenue Spending Plans for 2015/16

97. A Budget Implementation Plan (BIP) has been completed for each of the five Portfolios and these plans, together with a detailed cash allocation for each Portfolio, are provided at **Appendix 2**. As in previous years, the BIPs will be subject to regular monitoring reports throughout the year, in accordance with the City Council's overall budget monitoring procedures.
98. Set out below is a high level summary of the Portfolio savings proposals. This section reflects the content of the Council website relating to budget proposals.

Our Priorities

99. Our budget for 2015/16 is driven by five priorities:
- **An in-touch organisation:** This means listening; being connected and being responsive to a range of people and organisations; ideas and developments. This includes local people; communities and Government, as well as keeping pace with technology. This means understanding the increasingly diverse needs of individuals in Sheffield so the services we and our partners provide are designed to meet these needs. It also means understanding how to respond. This priority is also about empowering individuals to help themselves and providing opportunities to do this, so they and their communities are increasingly independent and resilient.
 - **Strong economy:** This means creating the conditions for local businesses to grow and making Sheffield an attractive location to start a business. We want Sheffield to achieve our economic potential and for the pace of Sheffield's economic growth to quicken, particularly in the private sector. This means being well-connected, both physically and digitally, building on our success as a city that supports businesses to grow and play a full, distinctive role in the global economy. We want local people to have the skills they need to get jobs and benefit from economic growth; and to make the most of the distinctive things Sheffield has to offer, such as cultural and sporting facilities.
 - **Thriving neighbourhoods and communities:** This means neighbourhoods where people are proud to live, with communities that support each other and get on well together. This includes good, affordable housing in places that are well-

maintained and easy to get around. It means places with access to great, inclusive schools that also act as community amenities, together with libraries and it means places with access to high quality sport and leisure facilities, including green and open spaces. We want people living in Sheffield to feel safe and will continue to join with other agencies in the city to make it easier for local people and communities to get involved, so we can spot and tackle issues early. We will work with communities to support them and to celebrate the diversity of the city.

- **Better health and wellbeing:** This means helping people to be healthy and well, by promoting and enabling good health whilst preventing and tackling ill-health, particularly for those who have a higher risk of experiencing poor health, illness or dying early. Health and wellbeing matters to everyone. We will provide early help and look to do this earlier in life to give every child the opportunity to have a great start in life. This is strengthened by our other priorities that make sure the city has facilities and amenities that help people to stay healthy and well, such as leisure and culture, as well as access to green and open spaces.
- **Tackling inequalities:** This means making it easier for individuals to overcome obstacles and achieve their potential. We will invest in the most deprived communities; supporting individuals and communities to help themselves and each other, so the changes they make are resilient and long-lasting. We will work, with our partners, to enable fair treatment for individuals and groups, taking account of disadvantages and obstacles that people face.

100. Part of our response to the recommendations made by the Fairness Commission was to embed the fairness principles into our Corporate Plan. The Fairness Commission report available on the Council's website at www.sheffield.gov.uk/fairnesscommission and we have continued to use the Fairness Principles to influence the shape of the budget as a whole, ensuring the Council's budget is invested as fairly and equitably as possible. These principles are:

- Those in greatest need should take priority
- Those with the most resources should make the biggest contributions.
- The commitment to fairness must be for the long-term.
- The commitment to fairness must be across the whole city.
- Preventing inequalities is better than trying to cure them.

- To be seen to act in a fair way as well as acting fairly.
- Civic responsibility - all residents to contribute to making the city fairer and for all citizens to have a say in how the city works.
- An open continuous campaign for fairness in the city.
- Fairness must be a matter of balance between different groups, communities and generations in the city.
- The city's commitment to fairness must be both demonstrated and monitored in an annual report.

101. We need to find savings of around £63m to meet grant cuts and pressures in 2015/16 compared to 2014/15. The Council is structured with four large spending portfolios: Communities; Children, Young People and Families; Place; and Resources. Our approach to the budget has been to seek to identify budget savings totalling 15% of our investment in each portfolio bearing in mind the Council's overall priorities and the fairness principles. Within each portfolio, some areas of spend have been protected, whilst other areas of spend within outcomes have seen larger reductions.

102. Our broad approach for each portfolio is set out below. Our broad approach for each portfolio is set out below.

Communities

103. We spend around £146 million each year helping adults across Sheffield stay healthy and well. This is our second biggest area of our spending, behind education.

104. Most of our money goes on **Adult Social Care** – helping those people who need extra help and support to stay independent, safe and well. Last year we supported nearly 14,000 people through our services, including paying for more than one million hours of home care.

105. In previous years, we have been able to protect most of our spending on adult social care by finding the majority of the savings needed from other service areas. As explained above, the scale of the Government funding cuts means that we can no longer protect our adult social care budgets. We expect, therefore, to reduce our adult social care spending by over £9.2m in 2015/16. This means significant reductions in spending over a short period of time. At the same time, there are changes underway which affect how people will pay

for their care in future. This means that adult social care will be a challenging area for some time and that we will have to make changes to ensure that services are as effective and efficient as they can be.

106. On top of the savings required because of reductions in Government grant, Adult Social Care is experiencing significant demand pressures – these are additional costs caused by more people needing a service from us or because costs are rising. This has meant additional pressures on services of £13m.

107. We are committed to ensuring Sheffield people can stay healthy, stay out of hospital, and live independently at home for as long as possible. The city has set out its priorities in this area in the Health and Wellbeing Strategy and this is reflected in our new Corporate Plan for 2015-18. We will therefore focus our remaining spending in this area on:

- Doing what we can to help people stay independent, safe and well
- Targeting our support on those that need it most, to reduce health inequalities
- Making sure services in this area are as efficient and effective as possible
- Working more closely with health services so that people get better coordinated help and support.

108. We have been working very closely with NHS Sheffield Clinical Commissioning Group (CCG) towards developing a single budget for health and social care under the Better Care Fund. The planned pooled budget of around £240m (including £116m from ourselves) goes significantly beyond the statutory minimum requirement of £42m demonstrating a real commitment to the benefits of joint working. The Better Care Fund includes all our current expenditure on four areas of citizen's need, focussing on those at risk of admission and those for whom there is the greatest opportunity for health outcomes improvement:

- Keeping people well in their communities - incorporating GP care planning, focussed on preventing avoidable crises.
- Independent living solutions - recognising the current joint commissioning arrangements for community equipment and the opportunities presented by the expiry of the current contract.
- Intermediate care - to improve the range and efficiency of out of hospital step up and step down services, to reduce admissions to hospital and support re-ablement, reducing admissions to long term care.

- Long term high support care - integrating our assessment, placement, quality management and contracting processes to ensure a shared focus on achieving the most effective care for people, and avoiding the unproductive cost shift between health and social care that has often characterised approaches to achieving savings as single organisations.

These joint arrangements will come into effect from April 2015.

109. The Better Care Fund as outlined above is one example of how we are working hard to make services more joined up and efficient. However, the scale of the continued funding reductions means that we continue to have to make difficult decisions. In 2015/16 some of our main areas for reducing costs are:

- Developing the supply and market for Learning disability support. We expect to see efficiency gains of £1.7m as a result of transferring all current supported living business to providers on the Supported Living Framework who have all been evaluated for quality and cost effectiveness.
- Using Adult Placement Shared Lives as an alternative solution to long term Care Placements will save £850k.
- Promoting cost effective home care supply. By promoting the independence of some service users we will achieve reductions in home care costs of £850k.
- Full year effects of previously implemented changes. Many of the changes agreed in last year's budget process were implemented part way through 2014-15 as planned. The full year effect of these changes in 2015-16 means that we will see further savings of £4.9 m. These relate mainly to Reviews and Assessments and continue to ensure that we are allocating our resources fairly and equitably.
- We remain committed to giving people choice or control over how their needs are met, but we will be more mindful of value for money. For example, we won't pay a higher price for someone's personal care if a good quality alternative provider can meet these needs for less. If someone wants to use a more expensive provider then they will have to pay the extra cost themselves
- We will continue to offer people Direct Payments so that they can arrange and pay for their own care if that is their wish. However, we need to make sure that everyone who receives a Direct Payment is able to manage it, and that the arrangements meet their care needs. We will review people's Direct

Payments at least every year. Where people are using Direct Payments to buy the same or similar services, we will bulk buy those services on their behalf to get better value for money.

110. Our **library service** has undergone a major review following consultation with stakeholder groups. Changes to introduce a new structure and service were implemented from October 2014. This implementation included asking some community groups to take over the running of some libraries, whilst still having a core network of council run and staffed hub libraries. In order to maintain the viability of the non-council run libraries we will be supporting these groups to demonstrate the long term viability once allocated funding ceases after 3 years. The full year effect of these changes will mean a further saving of £800k in 2015/16.
111. Sheffield is one of the safest cities in England and anti-social behaviour is much lower than in other similar cities. We want to keep Sheffield safe and make it even safer.
112. As a local authority, we spend a relatively small amount of money **keeping Sheffield safe**, compared with some other organisations in the city. Our direct spend in this area is less than 1% of our net revenue budget – just under £1 million - compared with South Yorkshire Police’s spend of almost £250 million, which is spent on a wide range of activity across the whole of South Yorkshire.
113. We will continue to work with the Police and Crime Commissioner (PCC) on these proposals. We want to discuss how we can best spend our remaining budget on safety in the city, including how best to align this with South Yorkshire Police’s budget. We are already working with the PCC and his staff to develop a more coordinated and intelligence-led approach, making sure that between ourselves and the Police, our money is being spent where it can have the biggest possible impact.
114. The Council’s budget in this area is spent on:
 - A small number of Safer Neighbourhood Officers who work alongside the Police in specific areas of the city;
 - Running Community Justice Panels, which bring victims and offenders together to resolve conflict and harm;
 - A specific budget for small grants to various community-based organisations.

115. In addition to the above, we support specific groups of people - for example, we spend about £8.5 million supporting people who misuse illegal drugs and alcohol: we know that **reducing the harmful impact that drugs and alcohol** has on individuals' health has a positive impact on communities as a whole. We also use our enforcement powers, including those associated with requiring, issuing and removing licenses, to make sure that activities don't happen that have a negative effect on safety and security for local communities.
116. We've already made changes in this area - including reducing staff numbers and reducing the amount we spend on funding other groups and organisations. We have also protected some services by working more closely with the Police and PCC.
117. Over the next two years, we need to continue the work already started to keep Sheffield safe and secure whilst maximising value for money, by reducing our spend accordingly. The level and speed of change we need to make isn't easy so we will make sure that we keep a close eye on how any changes we make affect different groups of people in the city.
118. We have now integrated our Safer Neighbourhood Officer team and our Community Safety function, creating a single street-based response team, which has led to a more targeted and coordinated response at a local level and a better way of responding to issues. This has saved us £131,000 in annual costs.
119. We plan to be much more targeted about how small grants are spent, based on what the street-level response and anti-social behaviour teams tell us. Part of our remaining budget is spent on a fund for supporting communities in crisis. This year will see further reductions to the total amount available which will have an impact on how many groups are supported and the value of grants made.
120. We will work with people and organisations about our proposals over the next few months and ensure this informs our next steps. We will also be having discussions with our partners and the private sector in the city to maximise their contribution to this area. Clearly the Police's budget is the largest area of spending alongside ours but other city partners benefit from Sheffield being and feeling safe and we will be looking at what contribution they can make.

Children, Young People & Families

121. Our ambition is that all children, young people and families in Sheffield achieve their full potential in all aspects of their lives. That they have the best start in life, go to great schools, are safe and healthy, active, informed and engaged in society.
122. We will work together with all our partners and communities to ensure we raise expectations and attainment and enable our children, young people and adults to gain first class qualifications and skills, have enriching experiences and make a positive contribution to their local communities and our city.
123. We will continue to respond to increases in demand for services and in the range of our statutory duties and expectations of Inspectors (e.g. Ofsted). Our approach will be creative and transformative in the way we work and deliver services to ensure that outcomes for children, young people and families continue to improve.
124. In 2014/15 we have spent in the region of £82m cash, which includes £11m of Public Health investment, on delivering services for our children, young people and their families. A further £421m of funding was allocated separately by government for schools.
125. We've made a lot of changes to how we deliver and pay for services – increasingly working with partner organisations including schools. We have found savings on management, premises and administration costs and have increased our traded income, whilst protecting as far as we can, services to children, young people and families – this will always be a priority for us and is where we spend the majority of our budget.
126. The strategies that underpin our ambition for successful children, young people and families are shaped in three main areas:

Keeping children, young people and families safe, healthy and strong and giving every child a great start in life. Our services focus on safeguarding, learning difficulties/disabilities, early intervention and prevention and the city's health strategy for children/young people. We provide multi-agency support services for children with additional needs and for social care services for Children in Need (CIN), including those at risk of harm, in need of accommodation and those looked after. Our services promote the early identification of children in need and deliver high quality preventative and supportive services that enable children to achieve their potential. Through

good quality assessments that inform effective plans to address children's needs, including the need to be safeguarded, will be met and their outcomes will be improved. We will ensure that services are put in place to support children living within their families wherever possible. Where children cannot remain in their families we will make timely decisions to ensure that they are secured in a permanent placement as soon as is possible. We will deliver, monitor and provide the highest quality care and placements for our looked after children.

Developing skills for life and work and encouraging active, informed and engaged young people into further education, employment or training.

Increasingly we are spending our limited resources in a targeted way, supporting young people and helping those who are most at risk of not being in education, employment or training (NEET) when they leave school. This is an area we are leading the way in nationally: we have a deal with Government whereby we have control of the funding and are redesigning and improving the skills system. We're putting much more power in the hands of employers and local businesses, and with other local authorities, agreed to deliver 4,000 new apprenticeships and 2,000 upskilled employees by 2016.

Supporting schools and children and young people's education; being the advocate and champion for Children, Young People and Families and improving the quality of learning outcomes and attainment for all.

The quality of the school experience for children is fundamental to their later life chances. Children who experience high quality teaching and learning are much more likely to experience positive outcomes (sustained employment, good mental and physical health, avoidance of poverty and increased social mobility) in the short and long term.

The Council does not run schools and has not for many years, however, it does have a vital role to play to ensure all our children and young people achieve their full potential. We do this by working in partnership with schools and other education providers (the City Wide Learning Body) on the key educational issues affecting the whole city such as school places or support for vulnerable learners, and by challenging schools and other education providers where their performance is not good enough and supporting them to improve.

127. For 2015/16 we need to find further reductions of £8m from our current spending on Successful Young People and Families. Our challenge is that we have to reduce how much we spend, whilst focusing on our ambitions we want to achieve for the City. We need to be sure our organisational changes lead to

positive impacts and that we are still flexible enough to respond to unforeseen challenges.

128. Our approach to address this budget challenge will be:

- To continue to keep children and young people safe we will invest £1.2m grant in evidence based prevention and early intervention, making sure that we do as much as we can to support children and their families before a crisis hits. We will continue with our approach to reorganising and supporting early intervention that we have consulted on and began implementing last year.
- To build on our Successful Families programme to further develop early years, family support and early intervention with our partners and this will enable us to save £2m without affecting services. We also want to work effectively with our partners to redesign and develop services to support children, young people and families' emotional wellbeing and mental health.
- To make sure there are more local and better fostering placements. We think that this will save around £400k.
- By further integrating Education, Social Care and Health services and providing a transition into independence service. We are also reviewing respite and short breaks to ensure a fairer system of allocation for all. Consultation on these proposals has been underway for some time and will continue over the coming months.
- To work across the region to develop and improve approaches to adoption and fostering and youth justice. This will deliver around £350k savings.
- To support young people into further education, employment or training. We will continue our approach of increasingly targeting resources to those who most need our help and where we can have the biggest impact - focusing our spending on those young people most at risk of offending and anti social behaviour and ensuring young people are active citizens and have a voice and influence over their lives. This is an area where we have prioritised investment and have developed innovative proposals to provide opportunities for young people and which match the training that young people receive with the needs of local employers.

- As our funding reduces, we will be less able to provide funding for activities for young people. We will reduce the amount we spend on youth services (delivered either through the Council, Sheffield Futures, or voluntary and community organisations) by £840k next year by focusing our support primarily on young people who are in most need, and tapering most of our remaining universal or non-targeted provision, and instead encouraging and supporting community organisations to provide this sort of activity.
- We will continue to work in partnership with schools, through the City Wide Learning Body, to give responsibility to schools wherever possible. We will work with others to increase the scope and potential of “school to school” improvement partnerships, so their knowledge and expertise can jointly lead the improvement needed. This means all our schools seeking improvement; so that outstanding schools truly excel alongside the best in the country and they also support other schools to improve.
- We will continue to ensure that funding for services for those most vulnerable children and young people is prioritised and make sure that funding retained by the Council to deliver its core functions is spent on key services which support children and young people’s education.
- We aim to increase our trading income with schools and academies by around £640k in response to rising demand for services such as educational psychology.
- By restructuring management, business support integrating services that work with children and young people, we intend to save over £1.3m next year.
- Meanwhile, we will continue to be as efficient as possible across all our services. Within this overall approach, we have a number of specific savings proposals, and will be consulting with service users and other interested people and organisations on these and other proposals over the next few months. In the medium term, we are working to develop (with adult services and the NHS) an all age disabilities service from birth to old age, to support individuals to lead independent lives. We are also exploring what opportunities exist to bring together our children and adult safeguarding services.

- During 2015/16 we will work closely with Sheffield Teaching Hospitals (STH) to consider innovative ways in which to deliver sexual health services to the population of Sheffield (both adults and children) in order to embed the integration of Sexual Health Sheffield (SHS), improve service delivery and release savings.

Place

129. The Place portfolio works to strengthen Sheffield's economy even further - helping existing and new businesses to grow, and to provide more and better jobs.
130. This area also includes our commitment to environmental responsibility. This includes reducing the carbon footprint of our own buildings and vehicles; encouraging Sheffield's businesses to reduce their carbon emissions; and working with our partners to invest in sustainable and affordable energy, such as in our District Heating network.
131. We also want to continue to offer a vibrant mix of cultural and sporting facilities and events. This includes putting on events in the city centre, supporting cultural venues such as the Sheffield Theatres – the Crucible, Studio and the Lyceum; Sheffield Museums – Millennium Gallery, Weston Park Museum, the Graves Gallery; as well as major sporting and cultural facilities such as the Arena, Ponds Forge and the City Hall.
132. We want to create new and improve existing public spaces and buildings so that they are safe and welcoming for businesses and people to use, for example our improvements to the Moor pedestrian area and the new Moor Market. Much of our work in this area relies on large one-off project funding, and large scale projects will continue to transform the city over the next few years. Work will start shortly in the West Bar area removing 500m of redundant highway and replacing it with a green environment. Plans are being developed for the regeneration of the Castlegate area too.
133. It also about working with and influencing key partners to improve transport links (including the proposed new high speed rail links) from Sheffield to other key cities such as London and Manchester, to increase our economic activity.
134. We currently spend about £9 million each year on this area of work. This is about 7% of the Place portfolio's net revenue budget – this is in addition to any one-off project funding we receive for major capital projects.

135. As part of this budget, we plan to reduce our spending in this area by about £0.2 million. That is £0.7m of savings offset by inflation and demand pressures of £0.5m. Our challenge has two parts: we need to quickly reduce how much we spend and at the same time keep focussing on the ambitions we want to achieve for the city.
136. Our ambition around creating a competitive city with a strong economy and great assets and transport links will not change, but how we go about it will. In particular, we are going to have to pay for things in different ways and influence our partners to find new ways of funding activity.
137. In the past we have paid for services and activities ourselves as a council, we are now working with our partners in the private sector to support them to pay for activity themselves. Our plan is to save approximately £0.4m this year by changing the method of **funding for our major events**.
138. We will reduce our subsidy for **cultural and sporting organisations** in the city, such as Sheffield Theatres, Sheffield Museums, and Sheffield International Venues this year by £0.5m. This may affect the programmes and activities that those organisations offer, but we have agreed plans with the various trusts to minimise the impact on quality. Wherever possible we have protected the trust budgets especially where that commitment has enabled the trust to gain external funding to help develop the services they offer. Moreover, our three year business planning process in this area helps to give the organisations a basis for their own long term planning so they can better adapt to the age of austerity.
139. We are also looking to find **new ways to pay for how we promote Sheffield** – including through events such as the World Snooker Championship and the hugely successful Tour de France in 2014 – because the amount of money that we can commit continues to reduce. We know that different people benefit when we promote Sheffield and put on events: visitors and the people of Sheffield, and there is a financial benefit for businesses in the city centre, including both retailers and hotels. We need to have a more commercial approach to events and how we market the city. We are therefore looking at whether this type of activity could be funded through other means such as ‘Business Improvement Districts’, where businesses make a contribution to activities that will attract visitors to the area to work, shop, eat and relax. This follows the successful vote for Sheffield’s first Business Improvement District in 2013.

140. We also want Sheffield to be a city that has successful places and sustainable communities with access to high quality housing, local services, shops, and jobs, as well as having excellent parks, streets and other physical infrastructure. Our ambition is that everyone in Sheffield should have a high quality of life, and that people feel proud of where they live.
141. It means making sure our neighbourhoods are safe and easy to move around through delivering our Streets Ahead scheme to improve our roads and pavements and keep them in good condition. We also want people to be able to choose how they travel about the city whether by bus, tram, cycling or walking.
142. We need to maintain our parks, sports and leisure facilities to encourage people to use and enjoy them, and keep the streets clean by collecting and processing the city's waste and recycling. As well as making Sheffield a better place to live in, all of these help to promote the health of the people of Sheffield as part of our new responsibilities for Public Health. We also want communities to be better able to help themselves and for people to have a say over what happens in their local area.
143. As a local authority, we also provide a number of other services that are legally required. These include planning, pest control, trading standards and health protection services as well as the coroner and bereavement services for the city.
144. We will spend around £130 million this year on all these things.
145. Next year, we need to reduce our budget in this area by a further £8 million. Not only do we need to reduce how much we spend; we need to do it quickly. The level and pace of change we need to make isn't easy so we will make sure that we keep a close eye on how any changes we make affects different groups of people in the city.
146. The amount of savings we need to find over the next three years in this area means that we need to change the way we do some things or do less. A key part of this strategy is working with our long term contract partners to **reduce the cost of delivering the Streets Ahead programme** to renew and maintain roads, pavements and street lighting, and the Waste Management contracts to recycle and dispose of the residual waste which is not converted into energy at the Energy Recovery Facility.

147. We'll continue to collect and process the city's waste and recycling at the same time as looking at more efficient ways of doing this. For example, we want to make it easier for people to recycle. We will also look to **reduce the cost of our contract for waste management by over £1m**, but we will make sure that this has no impact on the frequency of bin collections as part of these proposals.
148. As part of an agreed plan being led by the South Yorkshire Passenger Transport Executive, we aim to reduce our spending across this area by just over £4m next year.
149. Some of the city's **local green spaces and parks** might also look different as we continue to switch from traditional, formal maintenance to more natural and lower cost land management that will support meadow, wildlife, wild flowers and more trees in some of our parks, saving almost £100k per year.
150. Along with these changes, we are also proposing that we increase charges for some of the services we have to provide including **pest control, allotments and bereavement services**, although there will be no increase in parking charges. Those charges that do increase will be benchmarked against market rates.

Resources

151. We have a number of corporate services which support Sheffield residents in their day to day lives. These include the Council's Customer Service Function and our service for assessing and paying benefits and collecting council tax and business rates.
152. Additionally, the Council is like any large organisation and we rely on effective support to run our business and the services we provide to Sheffield people. This support includes:
- helping our teams to manage their budgets and staff
 - providing and maintaining our technology
 - helping our teams with legal advice
 - making sure we get the best value for money when we buy goods and services

- helping us as a whole Council to manage our performance, finance staff, contracts and our plans for the future
153. Sheffield City Council is also a democratically elected organisation. This means we have specific additional responsibilities associated with running elections and ensuring that the public can engage with the council and have their say on important decisions, and supporting Councillors who make these decisions on behalf of the people of Sheffield.
154. In addition, Services require the necessary 'infrastructure', which includes providing council buildings, transport services and information technology systems.
155. We have already made substantial savings in these areas – saving over £35 million in recent years. We have reduced our spending on computers and technology by 30%. We are also reducing the number of offices we occupy: consolidating 27 locations into three city centre sites, thereby avoiding expenditure of £34 million. By reducing staff in our corporate services, this has meant that we have been able to protect frontline services.
156. Where services have historically had a significant core budget, savings have already been made to a great extent, for example the Finance and Human Resources Services have experienced budget reductions in the region of 50% since 2010/11, with the Finance Service planning to save a further £0.6m in 2015/16 and Human Resources £0.3m.
157. Many corporate services have small core budgets and are increasingly reliant on trading income (some are fully traded, so receive no budget allocation) – this trading income is effectively subsidising the strategic functions that would need to exist irrespective of general services to Council departments, such as Legal and Governance. It would therefore be high risk to reduce such service budgets much further.
158. We intend to drive out savings in excess of £1m from the **cost of essential goods and services** by working with our suppliers on a range of payment initiatives, and a further £1m on the cost **of transport, facilities management and office accommodation provision**.
159. Some services, such as **Customer Services**, work directly with customers, and significant savings continue to be achieved by changing the way we provide services. We will be making improvements to our website and encouraging people to contact and do business with us – such as paying their Council Tax –

through electronic channels. This is faster and more efficient for customers, and easier and cheaper for us. Most of the savings (£0.4m in 2015/16) will come from reducing the size of teams and through restructures, and the full-year effect of outsourcing the City Wide Alarms service in 2014/15. We also intend to make £0.4m savings on system costs in this area via the Capita Contract.

Public Health

160. As a consequence of the Health and Social Care Act 2012, substantial public health responsibilities were transferred to local authorities on 1 April 2013.
161. The budget in this area is around £30 million, which is spent on a wide range of programmes and services such as:
- addressing the root causes of ill health by supporting community groups that help people improve their health and wellbeing
 - working to improve the quality of housing
 - promoting healthier lifestyles through encouraging physical activity, and
 - commissioning services such as school nursing, sexual health services, and treatment for people with drug and alcohol problems.
162. Local authorities were given a ring-fenced Public Health grant, which took into account estimates of baseline spending, including from PCT recurrent resources and non-recurrent resources, such as the pooled treatment budget and drugs intervention programme, and a fair shares formula based on the recommendations of the Advisory Committee for Resource Allocation. The grant allocation for Sheffield was £29.665m in 2013/14, rising to £30.748m in 2014/15. As per the Local Government Finance Settlement announced on 18 December 2014, the allocation will be frozen at £30.748m for 2015/16.
163. The outcomes expected of the public health grant will be assessed under the Public Health Outcomes Framework (PHOF), and broadly fall into the following categories:
- Improving significantly the health and wellbeing of local populations
 - Carrying out health protection functions delegated from the Secretary of State

- Reducing health inequalities across the life course, including within hard to reach groups
 - Ensuring the provision of population healthcare advice.
164. Under the Health Premium Incentive Scheme (HPIS), a proportion of future grant allocation will be dependent on making progress in improving performance against two of the PHOF outcomes. Therefore, there is a risk of grant clawback if sufficient progress against these outcomes is not made, or if there is any underspend.
165. As part of the Council's business planning process for 2015/16, Officers have reviewed all current Public Health contracts and commitments for which the Council is liable, to ensure that best use is made of the Public Health grant so as to deliver the outcomes – as identified above – with the aim of broadening the use of public health funding across further activities.
166. Savings of £2.5m have been targeted from existing public health activities in order to avoid disinvestment in other Council services which promote health and wellbeing outcomes, for which revenue funding is no longer available. Further details of individual savings proposals can be found in the portfolios' Budget Implementation Plans (BIPs) in **Appendix 2**, and are summarised in the sections for each portfolio above.

Financing the 2015/16 Budget Requirement

167. The earlier part of this report is concerned with the formulation of the revenue budget and the issues which need to be considered in arriving at a total budget for 2015/16. This section of the report sets out the overall summary position and the statutory determinations relating to total net expenditure and its financing. In accordance with the Local Government Finance Act 1992 (as amended by the Localism Act 2011) the Council is required to make a number of determinations. These will be set out in Appendix 6 and will include:
- a Budget Requirement (a “section 32 calculation”)
 - a Council Tax Requirement (a section 31A(4) calculation)
 - a basic amount of tax (Band D equivalent)
168. The Budget Requirement will be financed by a combination of Revenue Support Grant, Business Rate income, Top Up Grant and Council Tax income. Other

specific grants including the Council Tax Freeze Grant must be used to reduce the Budget Requirement and are therefore netted off against this figure.

Council Tax

169. After taking account of the Revenue Support Grant, Business Rate income and Top Up Grant for 2015/16, the total amount to be raised from council tax amounts to £170.379m: this is the Council's Council Tax Requirement.

Collection Fund

170. The City Council is required to estimate, for Council Tax setting purposes, the projected year-end balance on the Collection Fund. This estimate must take account of payments received to date, the likely level of arrears and provision for bad debts etc, based on information available by 15 January. Taking these factors into account, the projection on 15 January was that the Collection Fund is in surplus with a distribution to the City Council of £3.3m.

Council Tax Base

171. On 18 January, the Director of Finance, under delegated authority, approved the calculation of the Council Tax Base for the 2015/16 financial year. The amount of the Tax Base is 130,231.44 Band D equivalent properties.

Budget Requirement for 2015/16

172. If the Council votes in favour of increasing the Council Tax by 1.99%, this will mean the Budget Requirement for 2015/16 will be £422.972m, as shown in the table overleaf.

	2014/15 £'000	2015/16 £'000
Service Expenditure	453,216	422,972
LESS		
Council Tax Freeze Grant	(1,968)	-
Total Expenditure	451,248	422,972
Financed by:		
Revenue Support Grant	157,460	114,749
Business Rates	100,898	105,661
Top Up Grant	28,342	28,883
Council Tax	164,377	170,379
Collection Fund Surplus	171	3,300
Budget Requirement	451,248	422,972
Band D Council Tax (City Council)	£ 1,282.75	£ 1,308.28

Council Tax Levels

173. Details of the indicative level of Council Tax for Bands A to H are set out below with further details in **Appendix 6**.

Band	Multiplier	Value (up to) in 1991	Chargeable Properties %	Tax £
A	6/9	£40,000	58.5	872.19
B	7/9	£52,000	15.9	1,017.55
C	8/9	£68,000	12.7	1,162.92
D	9/9	£88,000	6.4	1,308.28
E	11/9	£120,000	3.7	1,599.01
F	13/9	£160,000	1.7	1,889.74
G	15/9	£320,000	1.1	2,180.47
H	18/9	over £320,000	0.1	2,616.56
			100.0	

Precepts

South Yorkshire Police and Fire & Civil Defence Authorities

174. The budget proposals of the South Yorkshire Police & Crime Commissioner (PCC) and of South Yorkshire Fire & Rescue Authority are to be finalised in February. Details of the approved precepts will be submitted to Council on 6 March.

Parish and Town Councils

175. The overall level of Council Tax needs to include the precepts of Parish and Town Councils that lie within the City's boundaries. The latest indications from the Parish Councils are that the levels of precept will be as set out in the table below. The final figures will be confirmed in the revenue budget report to Full Council on 6 March.

	Council Tax Income	Grant from Council	Total Precept on Collection Fund
	£	£	£
Bradfield Parish Council	218,517	12,506	231,023
Ecclesfield Parish Council	136,284	12,551	148,835
Stocksbridge Parish Council	103,978	9,030	113,008

176. In 2013/14 the Council received a specific grant of £82k for the purposes of compensating Parish Councils for the loss of council tax income as a result of the introduction of the Council Tax Support Scheme (CTSS). From 2014/15 this specific grant was no longer provided by Government. Nevertheless, in March 2014, the Council voted in favour of still compensating Parish Councils in full for the loss of council tax income as a result of CTSS, which was £47k in 2014/15. This was despite the fact that the Council had to absorb RSG reductions in excess of 20% over the period 2013-15.
177. The council tax base calculations have been revised again for 2015/16 to reflect the actual level of Council Tax Support Scheme (CTSS) claimants in parish council areas. A reduction in the number of CTSS claimants across the city means that the "lost" council tax income as a result of CTSS is less than was the case in 2014/15.
178. As part of the 2015/16 business planning process, the Council has reviewed its position with regard to the CTS subsidy to Parish Councils. The Council has

taken into account the fact that as RSG is the source of the CTS subsidy, the subsidy should reduce in direct proportion to RSG (i.e. 28% in 2015/16). Furthermore, there are indications that RSG is likely to be reduced by 20% per annum from 2016/17.

179. The Council is therefore proposing to reduce the CTS subsidy to Parish Councils by 28% in 2015/16, to a total of £34k as shown in the table above. The total reduction is thus £13k.

Legal Advice

Responsibility of the Chief Financial Officer

180. Under Part 2 of the Local Government Act 2003, the Chief Finance Officer of an authority is required to report on the following matters:

- the robustness of the estimates made for the purposes of determining its budget requirement for the forthcoming year; and
- the adequacy of the proposed financial reserves.

181. There is a requirement for the authority to have regard to the report of the Chief Finance Officer when making decisions on its budget requirement and level of financial reserves. Details of Reserves are set out in a separate Appendix. The view of the Director of Finance is that Reserves are low (compared to benchmarks) but are not inadequate.

182. In addition, under the Prudential Code framework the Chief Finance Officer of an authority is required to prepare and report upon a series of Prudential and Affordability indicators. These are set out in Appendix 7.

183. The Local Government Finance Acts of 1988 and 1992 specify that the City Council determines its Revenue Budget before 11 March each year. The City Council is also required by Section 30 of the Local Government Finance Act 1992 to set its Council Tax after having determined its Revenue Budget requirement in accordance with the provisions of section 32 to 36 of the Act. Details of how the Council Tax has been calculated are included as part of the Council Tax resolution in this report, which is set out as required by legislation.

184. In determining its budget as in all other matters, an authority should have due regard towards the interest of Council Tax payers and Members must, in arriving at a balanced decision based on the evidence, take into account all relevant information placed before them and ignore irrelevant matters.

185. The proposed budget has been prepared in the context of the requirement for the Council to make significant savings in its overall expenditure. The implementation of some of the proposals in the budget will require Executive decisions. These will be made in accordance with the Leader's Scheme of Executive Delegations, and any further delegations (e.g. from Cabinet) made in accordance with the Leader's Scheme. It is important to note that in making these decisions there will have to be full consideration of all the relevant issues such as the Council's legal duties and contractual obligations (including but not limited to its Equality duties and consideration of any impact on Human Rights).
186. In relation to equalities the Council has a duty to have regard to the need to eliminate discrimination and advance equality of opportunity between all irrespective of whether they fall into a protected category such as race, gender religion etc. Determining the final set of proposals for consideration Officers and Cabinet Members have had regard to how the equality impact assessments will be prepared for specific proposals as identified by each Portfolio prior to decisions being made. The Council needs to be satisfied that it can continue to meet its statutory duties and meet the needs of vulnerable young people and adults. Proposals have been drawn up on the basis that Strategic Directors are satisfied that this will enable them to continue to meet their statutory duties and the needs of the most vulnerable. In some cases further consultation may be required.
187. If the outcome of such further considerations were to present difficulties in adhering to the agreed Council budget, officers would bring further proposals to members as appropriate.

Housing Revenue Account (HRA) Budget

188. This Report concerns the position of the Revenue Account of the Council, i.e. the income and expenditure for the bulk of Council services other than those that are accounted for separately as part of the Housing Revenue Account. A separate report on the HRA budget was considered by Cabinet on 14 January 2015.

The Outlook for 2016/17

189. As mentioned earlier in this report, the Government did not issue any Illustrative Finance Settlement for 2016/17 as part of the Settlement announcement for 2015/16.
190. However, in the Autumn Statement in December 2014, the Chancellor signalled the Government's intent to continue with the current austerity programme into

the next Parliament in order to tackle the national deficit. A number of think tanks have come to the conclusion that it is likely that local authorities can expect to see further reductions in RSG in the order of 20% per annum. The Council's MTFs published in October 2014 currently assumes that RSG will reduce by 10% per annum from 2016/17.

191. The position for 2016/17 and beyond is therefore more difficult than currently forecast. To enable the Council to begin planning a revised Medium Term Financial Strategy, officers will be formulating planning proposals based around Council priorities early in the 2015/16 financial year.

192. The financial planning predicament faced by local authorities is summed up in the speech of the Rt Hon Margaret Hodge MP (Chair of the Public Accounts Committee) on 28 January 2015 at the launch of the Committee's publication 'Financial Sustainability of Local Authorities 2014':

"Looking to the future, if funding reductions were to continue following the next spending review, we question whether the Department [DCLG] would be in a position to provide assurance that all local authorities could maintain the full range of their statutory services.

The Department cannot at present satisfy us that it understands whether it is feasible and practical for local authorities to deliver the service transformation necessary to maintain financial sustainability. Nor does it understand what the effects on service users would be.

Late funding announcements by the Department in this Parliament, coupled with incentive-based mechanisms such as the Business Rates retention scheme, have increased financial uncertainty which undermines the ability of local authorities to act according to longer-term savings plans."

Treasury Management Strategy

193. As part of its budget decision the Council is required to approve a Treasury Management Strategy for 2015/16. Treasury Management relates to the management of the Council's investments, borrowings, and banking operations.

194. The Council's Treasury Management activities are required to comply with the CIPFA Code of Practice on Treasury Management which sets out the controls over the risks associated with those activities and looks to achieve optimum performance consistent with those risks.

195. A separate CIPFA code, the Prudential Code for Capital Finance, requires the Council to set a range of Prudential Indicators as part of the budget process to ensure that capital spending plans are affordable, prudent and sustainable. The Local Government Act 2003 requires the Council to have regard to the Prudential Code and to set Prudential Indicators for the next three financial years.
196. The Sheffield City Council Treasury Management Strategy for 2015/16, including the proposed Annual Investment Strategy, Prudential Indicators, and the Minimum Revenue Provision Policy, is set out in **Appendix 7**. The responsibility for day to day management of the Council's treasury management activities rests with the Director of Finance and it is recommended that authority for undertaking treasury management activity and relevant reporting be delegated to the Director of Finance.

Financial Implications

197. The financial implications of the recommendations in this report (below) are set out in the preceding sections of the report.

Workforce Impact

198. There are a number of potential workforce impacts as a result of the recommended actions of this report.
199. The potential workforce impact arising from the recommended actions to set the 2015/16 Budget equates to a reduction of approximately 123 full time equivalent posts although the reduction once vacant posts are taken into account falls to 98 posts. The Budget Implementation Plans attached at **Appendix 2** contain details of these reductions. This will be managed in the first instance through deleting vacant posts, voluntary early retirement (VER) and voluntary severance (VS) schemes where appropriate and then through the Council's Managing Employee Reductions (MER) procedure to achieve the balance of reductions and redesign services.
200. VER/VS activity and the outcomes of MER processes have been the subject of Equality Impact Assessments as described below and will continue to be monitored on an ongoing basis to ensure there is no disproportionate impact on any group within the workforce.
201. Consultation is taking place with the trades unions at a corporate and portfolio level to identify opportunities to mitigate redundancies.

Pay Policy

202. In accordance with the Localism Act the Council is required to publish a Pay Policy for 2015/16. This will be reported to Council on 6 March.

Members' Allowances

203. Prior to 1 April each year, the Council has to agree a Members' Allowances Scheme for the forthcoming financial year. At least every four years, or whenever the Council wishes to amend its Scheme, its Independent Remuneration Panel has to consider the Scheme (and any changes being proposed by the Council) and make recommendations to the Council.
204. The Independent Remuneration Panel reviewed the whole of the Scheme in March 2013 and the Council, at its annual meeting on 15 May 2013, having regard to the recommendations contained in the Panel's report, made substantial revisions to its 2013/14 Scheme. The revisions that were made to the structure of the Scheme, when allied to fewer appointments of Members to positions of Special Responsibility in 2013/14, resulted in financial savings being achieved of approximately £96k over a full year.
205. The 2013/14 Scheme was also implemented for 2014/15.
206. Following approval of the 2014/15 Scheme and the setting of the 2014/15 Members' Allowances budget, regulatory changes were introduced relating to a phased removal of Members' entitlement to participation in the Local Government Pension Scheme, meaning that savings have resulted in the 2014/15 financial year, and will do so again in the 2015/16 and 2016/17 financial years, on the amount of superannuation contributions that the Council makes. A savings proposal from the Members' Allowances budget in 2015/16 of £80k (£52k relating to 2014/15 and £28k relating to 2015/16) has been put forward relating to these superannuation savings.
207. As regards the Scheme for 2015/16, officers have not identified any forthcoming changes in the structure or operation of the Council's decision-making arrangements which would require consideration by the Independent Remuneration Panel due to their impact on the structure of the Scheme, and the outcome of discussions held in December 2014 with the leaderships of the political groups on the Council was that the 2014/15 Scheme would be rolled forward unchanged for 2015/16. Accordingly, the members of the Panel have been informed of this fact and of the savings that will be made in the Members' Allowances budget in 2014/15 and 2015/16 arising from the changes in

pensions regulations, and they have affirmed the views expressed in their previous report and have indicated that in these circumstances they are content not to re-convene the Panel to review the Scheme for 2015/16.

208. The Council is therefore recommended to agree that the Members' Allowances Scheme for 2013/14 and onwards, approved on 15 May 2013, and implemented for 2014/15, be also implemented for 2015/16, with the addition (to paragraph (h) of Schedule 2) of the following approved duty which was approved by the Council at its meeting held on 3 December 2014 – "attendance at meetings of Local Area Housing Forums".
209. The Scheme contains provision for the allowances to be adjusted on an annual basis in line with an agreed index. The index that has been used for many years for applying to the allowances is the average percentage officer pay award in Sheffield, although the Council has agreed not to apply an annual increase each year from 2010/11, including in the last two years when Council employees received a pay rise. In 2014/15 the Council rejected an increase in Members' allowances and instead used the £12k financial provision that had been made for this as a fund to mitigate against the impact, on the ability of disabled children to travel to education, of the Transport Authority's changes to bus passes which was introduced around the same time that the Council agreed its 2014/15 revenue budget.
210. All portfolios have made provision of 1% towards the costs of the pay award to Council officers in the revenue budget for 2015/16, and in line with that general planning assumption this uplift has also been applied to the Members' Allowances budget to cover the costs of a similar increase in the allowances. If the Council wished to apply an uplift to the allowances in 2015/16 in line with the officer pay award, this is estimated to amount to £13,500 with on-costs.
211. However, the Administration will be recommending to the Council that, for the 5th consecutive year, it agrees not to apply an annual increase to the allowances in 2015/16.

Equality Impact

212. Under the Equality Act 2010, as a Council we have a statutory Public Sector Equality Duty to pay due regard to:
- Eliminating discrimination, harassment and victimisation
 - Advancing equality of opportunity

- Fostering good relations

213. This is with regard to people who share Protected Characteristics under the Act and those who don't. This means we need to understand the effect of our policies and practices on equality, this will involve looking at evidence, engaging with people, staff, service users and others and considering the effect of what we do on the whole community. One of the ways in which we do this as a Council is through conducting Equality Impact Assessments (EIAs).
214. We have undertaken both a corporate EIA on the budget as a whole, as well as individual EIAs on the various proposals that are being recommended as part of the budget. A list of these is available on the Council's website for anyone to request at: Equality Impact Assessments.
215. The Council wide EIA and the individual service EIAs on budget proposals that underpin it are focussed on the impact on the protected characteristics set out in the Equality Act 2010. These include age, disability, race, sex, sexual orientation, religion/belief, gender reassignment, and pregnancy & maternity. In Sheffield, we have also decided to assess the impact on other areas such as the voluntary and community sector, poverty and financial exclusion, carers and cohesion.
216. Decisions will affect different people in different ways. It is possible that the decisions will have a disproportionate impact on some groups in comparison to others, even if this is not the intention. We use the impact assessments to help us identify and avoid any negative unintended consequences of the proposals developed. These could, for example, be disproportionate impacts on different geographic locations, different communities such as disabled people, lone parents, younger or older people or BME communities as well as the cumulative effect of any decisions made.
217. All budget proposals have undergone an initial impact analysis which was started early in the process to decide whether there was likely to be disproportionate negative impact on different groups of people. Where this was identified as disproportionate, having medium or high impact, full EIAs were carried out. The impact analysis shapes proposals which do not make it forward into the budget as well as those that do.
218. Inevitably when funding is reducing year on year at the scale and pace that we are experiencing, there will be an impact on the front-line services we deliver

and on some of the work we do with groups who share a protected equality characteristic. We have tried to minimise the impact on the most vulnerable and these groups as far as possible, however we have to make some really tough choices.

219. This year the savings we are required to make amount to £63 million which is on top of £240 million of savings already made over the past 4 years and this means we are less able to protect frontline services than before. This is particularly relevant in the Communities Portfolio where Adult Social Care was substantially protected in the first 3 years having to make fewer savings than other areas. However this year we expect to reduce our adult social care spending by over £9.2m. This means significant reductions in spending over a short period of time at a time of increasing demand. Therefore adult social care will be a challenging area for some time, and we will have to make changes to the way we do things to ensure that services are as effective and efficient as they can be. However protecting those in greatest need still remains one of our top priorities this year.
220. These substantial reductions in funding mean that progress on work on equality and fairness is much more focused on ensuring we do not slide backwards and lose ground in existing areas of inequality and ensure we are doing things fairly, not necessarily about meeting new demands.
221. Also national policies such as welfare reform are adding to the financial pressures facing some communities and are widening existing inequalities. Overall we estimate that over £169m has been taken from the local economy as a result of these welfare reform changes. This equates to £460 per year per every working adult in the city, although this reduction is not spread evenly. These changes are likely to impact on specific groups who already experience inequality such as people on a low income, disabled people and women. For example households with dependent children across the city will experience an average loss of £1,690 per year. This increases for lone parents to an average of just over £2,000 per year.

Consultation

222. As part of the development of options for the 2015/16 budget, the Council ran a budget conversation between October and January that included a range of consultation activity with local people and partner organisations. This has helped us to ensure that the proposals that we are putting forward have been shaped by people who may be affected by decisions taken as part of the

budget, and to ensure that they have had an opportunity to put forward other ideas for consideration.

223. In line with our values as an organisation, we have used consultation to inform people about our proposals, provide the opportunity to give feedback, make suggestions and let people know how their feedback has helped to influence our thinking. In this way we have attempted to ensure that our consultation activity is meaningful and appropriate at all times. Our budget consultation activity has had two main strands this year:

- Two large corporate budget conversation events in the Town Hall, supplemented by additional activity, including a survey
- Detailed consultation on particular topics and specific proposals, that includes informing Equality Impact Assessments

224. More information about our approach to consulting on the budget proposals can be found in the consultation section of this Revenue Budget Report and in individual service EIAs. The full results of our consultation can be found on the website. <https://www.sheffield.gov.uk/your-city-council/finance/2015-2016-budget.html>

These considerations have been discussed with Members in developing our proposals and in advance of any decision being taken at Cabinet or Full Council, including briefing all relevant Cabinet Members on impact assessments related to proposals in their area of responsibility.

Assessment of Impact

225. Our response to this funding challenge has been firstly to find more efficient ways of delivering our services including through contract renegotiation. However, the continuing size of the financial challenge means that efficiency savings alone will not enable us to balance our budgets and so we will be continuing to reduce the Council's investment in services next year and in future years.

226. Many of these reductions or changes in provision are in progress or will occur during the next year and we are monitoring the impacts on individuals and groups to ensure that any potential negative impact is reduced as far as possible. Our EIAs are 'live' documents and will be subject to change, as proposals or evidence of impact changes.

What do we already know?

227. As well as consultation evidence, we have used monitoring information we already hold in services to help us identify possible impacts and to help shape and inform the EIA process. To help us identify possible impacts requires an understanding of how the city is made up and the issues people face.

228. The [2011 Census](#) [Sheffield Facts and Figures](#) and [State of Sheffield](#) show:

- Sheffield's population has grown above the national average and the City Region, rising from 513,000 in 2001 to 552,698 at the time of the 2011 census. This is currently projected to increase to around 600,000 by 2020.
- Sheffield is a diverse city and the ethnic profile continues to change, with the proportion of residents classifying themselves as non-white British growing from 11% in 2001 to 19% in 2011. BME adults make up 16% of the population and BME children 29%.
- Sheffield has a higher proportion of its population aged 65 years or over (16.7 % or 85,700 people) than the other English Core Cities. This is projected to increase, with the largest increase in the number of people aged over 85.
- The age group that has increased the most from 2001 to 2011 is 16 – 24; we now have 16.7% of our population in this group and a further 18.2% under 16.
- Residents' incomes are around 10-15% lower than the national average. In addition Sheffield is ranked 6th out of 326 against other Local Authorities for low income.
- Life Expectancy in the city is 78.4 years for men and 82.1 years for women and there are greater numbers of women than men in the city, due to higher life expectancy for women.
- While the pay gap between men and women has been reducing, in general men are paid more than women. Women working full-time are paid on average 15.5% less an hour than men for doing work of equivalent value. Women pensioners therefore tend to be poorer than male pensioners.
- There are over 105,000 adults with a long term limiting illness, equivalent to around 19% of the population, with 9% saying this limits their activity a lot.
- The Council has 31,552 working age taxpayers who receive council tax support and although fluctuating in December 2014 there were 3,903 Council tenants affected by under occupancy.

- At the end of December 2014, 151 households in Sheffield were subject to the Benefit Cap; the number of children within these households was 780.
- There are geographic variations in poverty in Sheffield. 125,000 (22%) Sheffield people live within areas ranked as the most deprived tenth nationally, and 47,000 (8%) live within the least deprived tenth nationally.
- The face of poverty has changed and some of the characteristics overlap to cause multiple deprivations. Whilst pensioners are now less likely to be in poverty than previously, poverty amongst pensioners is directly linked to their experience in earlier life. Falling poverty rates for disabled people have reversed, with poverty starting to increase. People from minority ethnic backgrounds are more likely to be poor than white British people. Care leavers, and carers (both young carers and adult carers) are at increased risk of poverty. Children in large or single parent families are at greater risk of poverty and almost two thirds of children living in single parent families live in poverty.

Fairness and Equalities Impact Overview

229. Inevitably when funding has reduced year on year at the scale that we have experienced, there will be an impact on the front-line services we deliver and on some of the work we do with the most vulnerable people in Sheffield, including groups who share a protected equality characteristic. We have tried to minimise the impact on these groups and on front line services as far as possible, however we have to make some really tough choices. We are being guided in these choices by our priorities as outlines and supported in our budget consultation these are to:

- operate efficiently as an organisation
- develop solutions for the longer term
- take early preventative action
- focus on people with the greatest need
- work with our communities to deliver services in a different way.

230. Our approach to the budget is summarised in **Portfolio Areas** which correspond to the way in which the Council is structured. Each Portfolio area has been asked to make savings but in line with the Fairness Commission Principles and our Tackling Poverty and Increasing Social Justice Outcome Board. There are a number of key themes that run through the budget proposals in most Portfolio Areas.

- Restructuring and integrating services and teams to increase efficiency and effectiveness

- 'Managing Employee Reductions' processes to reduce the number of staff employed
- Targeting of resources to target those in greatest need and at risk
- Helping people to be independent, safe and well and to make their own choices
- Intervening early and doing more preventative work
- Working with other agencies to avoid duplication and to help coordinate help and support
- Better value for money in the services we commission or purchase
- Fairer contributions and charges to ensure full cost recovery and as a way to maintain service levels
- Increasing traded services in non-core areas (such as with schools)
- Reductions in funding to the Voluntary Community sector in line with reductions to the rest of the Council's budget
- Shifting the focus of public health spend to addressing the root causes of ill health
- Continuing with changes made in the past year to have full year effect on savings
- Continuing to monitor the impact of changes over the coming year.

231. Furthermore, we will continue to fund a Local Assistance Scheme and to have a Council Tax Support scheme at 23% in spite of Government funding cuts in these areas. We will also mitigate the impact of the 1.99% increase in Council Tax by increasing the Council Tax Hardship Fund by £100k in 2015/16.

232. Overall, the proposals have the potential to impact negatively in some areas and service EIAs have sought to mitigate this, however there are also positive impacts identified which are highlighted. Further details of the impacts are contained in individual service EIAs.

233. Our impact assessments identify and provide mitigations for potential impact in services for younger people, older people, disabled people, BME, women and men, religion and belief, sexual orientation, voluntary community and faith sector, cohesion and financial inclusion/ poverty (there is over representation within this last group of disabled people, some women and some BME communities).

234. **Headline features of the combined Impact Assessment show:**

- There are 124 EIAs on proposals and the groups most likely to be impacted negatively by individual proposals and cumulatively are disabled people, young and older people, women and people on a low income.
- Many services are continuing to comprehensively restructure services and teams and as a result we have saved money on office and technology and staffing levels across the council have reduced. Last year the majority of

changes were managed through voluntary severance schemes. In 2015/16 we will be reducing the workforce by fewer than 200 further posts. Monitoring from the past year indicates that there has been no disproportionate impact on those who share protected characteristics. See workforce implications section below.

- Services will be looking to increase charges, to ensure full cost recovery and to continue with the work to apply costs fairly through our Fairer Contributions Policy. However, the changes will impact more on people experiencing financial exclusion.
- We will continue to fund a Local Assistance Scheme and to have a Council Tax Support scheme at 23% despite Government cuts in these areas. However we will increase Council Tax for the first time in 4 years by 1.99% or approx. 38p per week for most households to enable us to continue to protect services to those in greatest need and at risk. We will mitigate the impact of this by increasing the Council Tax Hardship Fund by £100k in 2015/16.
- Public Health spending is integrated throughout the Portfolios. Overall there will not be any reduction in investment in this areas, but in line with what as agreed last year we are reviewing how and where the funding is spent to ensure that it is targeted to tackle the root causes of ill health and to have the maximum impact on reducing inequalities. This means that we will save £2.5 million on existing activities in order to reinvest in other areas.
- This year will see the start of the new integrated Commissioning Programme between the Council and the NHS Clinical Commissioning Group (CCG) to create a combined budget to develop joined up services. This new approach aims to ensure people get the right care when and where they need it but will also create efficiencies in processes. It focuses on supporting people at home where possible to help increase independence and delay access to Health and Social Care services.
- When considering the impact on the VCS the importance of ‘social value’ is recognised by the ‘Best Value’ guidance¹, which was published by the Government in 2011. This states that authorities have a duty² to consider the impact of budget reductions on VCF or other organisations that have a ‘social value’. The Public Services (Social Value) Act³ requires us to take social value into consideration when we commission services. In order to do this

¹ <https://www.gov.uk/government/publications/best-value-statutory-guidance--4>

² The Best Value Statutory Guidance has statutory force and must therefore be taken into account in the exercise of funding decisions. It is issued under section 3(4) Local Government Act 1999 which states that, in deciding how to fulfil its Best Value duty (section 3(1) LGA 1999), local authorities have to take into account guidance issued by the Secretary of State which may cover the form, content and timing of consultations <http://www.ncvo-vol.org.uk/news/civil-society/helping-you-understand-new-best-value-guidance>

³ <http://www.legislation.gov.uk/ukpga/2012/3>

effectively we will: continue to monitor the impact of changes over the next year, on service changes as well as the knock on effects of reductions on other providers and continue detailed consultation with customers and other stakeholders as specific activities are implemented.

- We are investing in the Voluntary and Community Sector including through Grant Aid and Public Health albeit at reduced levels. Some negative equality impacts have been identified resulting from the reductions in overall grant aid funding available. Some projects that the Council previously supported will no longer receive funding in future; however the funding will be targeted at those in greatest need of support. We will also review existing arrangements across the Council in the next year to ensure we are prioritising support available.
- We will continue to target resources to those most in need and at risk; help people to become more independent; where possible intervene earlier and do more preventative work; get even better value for money in the services we purchase; and pursue innovative approaches in service commissioning and design. This relates to both internal and external services.
- We are proposing to continue with restructures of Council services and are considering both internalising and externalising services where appropriate (such as the contract for Revenues and Benefits customer services function being brought back in house and with some care and support services being externalised).
- We will continue to work on getting value for money from our contracts; this is with our major strategic providers but also across Portfolios where for example we have issued a new Framework for Supported Living to ensure we have a choice of providers at competitive prices and retendering of existing services.
- The Impact Assessment also highlights some positive implications of budget proposals. Examples include improving the process of assessment and support planning for existing and future social care customers whilst ensuring choice and control over support to meet their eligible needs, and reshaping transport to provide services which promote independence. The Better Care Fund partnership should continue to develop and mean more joined up pathways and services. Also, as we restructure services both internally and with external providers there should be clearer and more efficient ways to contact services.

Portfolio Area Impact Assessments

235. Each portfolio has undertaken initial impact analysis on all proposals and where the risk of disproportionate impact has been identified an in depth impact assessment has then been undertaken, informed by service specific consultation where appropriate.

236. The **Place Portfolio** has completed 35 Budget EIAs on savings totalling £10.2m identified for 2015/16. We have asked our partners Amey, Veolia and South Yorkshire Passenger Transport Executive (SYPTTE) to identify and deliver potential savings of 15% on each contract; this will total 71% of our reductions.

237. The budget proposals are a mix of:

- Finding new ways to deliver the services that support the priorities for the Great Place to Live, Competitive City and Health & Wellbeing strategic outcomes;
- Making sure that all of our services are operating as efficiently as possible;
- Reviewing existing charges and introducing new ways of generating income;
- Changing or reducing service standards and as a last resort, stopping some activities altogether.

238. We have used a range of evidence, such as consultation and data, to identify if there are if there are any differential impacts and the key areas are:

- There is a cumulative impact of year on year reduced subsidies on our charitable partners, Museums Sheffield, Sheffield International Venues and Industrial Museums. Although the services continue to be delivered this is with staffing levels at reduced levels. Any potential leisure or theatre price increases will be minimised for low income users via discount schemes.
- The Place Public Health budget savings will have a low level impact on health inequalities for those people living in the more deprived areas of Sheffield, where the work tends to be concentrated. The savings also have the potential to impact on some of our Voluntary, Community and Faith partners due to reduced funding.
- By increasing the number of school crossing patrols funded by schools, there may be a negative impact for children/young people travelling to/from school should the school not fund a replacement vacancy. This would be mitigated through the council proactively implementing measures to improve safety outside schools e.g. 20 mph speed limits.
- Dependent on the savings identified through working with our partners Amey, Veolia and SYPTTE there potentially could be a negative impact on young/old, disabled people, carers, new mothers and mothers-to-be and the less well-off. This will be identified in the individual EIAs on each proposal.

239. Last year the key impacts related to socio economic issues, impacts on partners and staffing. Most of the budget savings have been implemented with no significant impact due to, for example, ongoing subsidies mitigating any potential barriers to increased charging. Key to this process was well planned quality consultation to inform the decisions and also gain the public and partners' input and understanding of the changes required.

240. The **Children Young People and Families** Portfolio have completed 28 Budget EIAs for savings of £8m identified for 2015/16. Education is our biggest area of spending.
241. The Business Strategy proposals are changes to support services which are based around continuing to provide the current level of services to schools. The proposals include a reduction in the marketing of Services to Schools, hosting changes to the School Information Centre, reduction of cash collections by schools and an admin charge for joining the central catering contract.
242. The Children's Commissioning Unit proposals enable the unit's functions to continue with a greater integration of public health outcomes and functions.
243. The Inclusion and Learning Services proposals enable us to continue providing essential support services to schools and academies that support the successful children and young people outcome and respond to changes in funding following the conversion of schools to academies. The savings proposed help us to protect those statutory and regulatory functions such as the Statutory duty to provide independent Educational Psychology input into the educational needs aspect of all SEN statements; the Statutory Duty to act as the champion for children and families for the quality and effectiveness of education and the Statutory Duty to ensure the availability of sufficient school places.
244. A further proposal is to start trading of the Inclusion and Targeted Service which supports capacity development and to improve outcomes for pupils, in particular new arrivals.
245. Within Lifelong Learning Skills and Communities, the proposed savings are in youth services and further savings from proposals agreed in 2014/15. These savings help protect other areas of targeted support to children and young people and employment projects. This means that we can continue to provide support to those young people Not in Education Employment or Training (NEET), diverting young people from offending, maintaining individual support for 16-24 year olds with learning difficulties and disabilities, supporting young people who are at risk of sexual exploitation, protecting apprenticeships and employment programmes and external investment.
246. Whilst significant, the youth service savings are part of a strategy over several budget rounds of planned reductions in buildings and back office costs which has helped protect frontline delivery. In 2015/16, there will be some reduction in staffing across the council and in Sheffield Futures, and some changes

- proposed to youth open access delivery. The strategy has protected provision to the neediest.
247. The CYPF Public Health changes to Sexual Health Sheffield will be delivered through a redesign, transformation of services and improved partnership working and potentially re-allocating investment across the sexual health system in order to better meet outcomes. There will be some funding reduction to Young People's Substance Misuse pooled budget.
248. The Children and Families savings proposals include reviewing all Independent Fostering Agency placements and long term fostering placements aiming to secure permanency or LA fostering placements; developing regional approaches to youth justice services and fostering and adoption; improved coordination of SEN placements; changes to the out of hours social work provision; improved choice and flexibility on short breaks and integrated provision.
249. In addition, there is planned investment in Strengthening Families to provide an incremental transformation of all services to children and young people into a jointly funded, commissioned and delivered multi agency family service. There is a public health investment in Best Start early years programme which supports the neediest children and families.
250. There will be some staff reductions in all the areas noted above. All staff reductions are subject to HR procedures and EIAs are completed where relevant and in addition a Council wide EIA on managing employee reductions is completed annually - see the workforce section.
251. The savings enable high quality essential intervention and prevention services for the most vulnerable children and families to continue. The potential adverse effects of other saving options would have included our ability to keep children's centres open, an increase in social care referrals and other subsequent interventions such as child protection cases, LAC which would have greater cost pressures as well as unmanageable social worker caseloads.
252. Last year although we had difficult choices to make, our mitigations and monitoring of impact were effective. Wherever possible we have minimised the impact that the proposed changes on young people's services will have on young people and their parents/carers. We recognise that some of the children, young people and their families will be using more than one of the services where there are changes proposed and may therefore be affected by this.

253. We recognise that there have been year on year reductions since 2010, for example to youth services. These have been mitigated and usage data since the start of reductions in 2010/11 highlights improved take up of youth provision. Equally, other reductions for example those to the Integrated Sexual Health Service affect multiple characteristics and the consultation with the provider through the development of a provider led EIA is part of the mitigation.
254. Some people may receive a changed or a reduced service as we focus on the most in need and at risk and wherever possible we have sought to mitigate this.
255. Our transformational changes, for example the Early Years Best Start investments will have positive impacts for those in the greatest need which includes some BME groups and women, and militates against future impacts.
256. The **Public Health spending** is approx. £30 million and is integrated throughout the Portfolios. More detail on the use of our Public Health grant is given in the portfolio sections. There are also 5 EIAs for the Director of Public Health Office which mainly cover internal structures and have lower impact. Overall there will not be any reduction in investment in this area, but in line with what was agreed last year we are reviewing how and where the funding is spent to ensure that it is targeted to tackle the root causes of ill health and to have the maximum impact on reducing inequalities. This means that we will save on existing activities in order to reinvest in other areas. Some of the proposals involve more cost effective delivery and retendering contracts, earlier intervention leading to prevention, or internal restructuring that will have fewer equality impacts. Some of the changes have the potential to impact negatively upon some people who share protected characteristics. However, two of the main areas the changes will support are early years and advice and information so impact of the overall investment will be positive on the groups within the EIA.
257. In the **Resources Portfolio** there are 18 EIAs which cover all budget proposals for 2015/16. There are 5 EIAs pending Managing Employee Reduction (MER) processes within the Finance, HR, Commercial Services and Transport & FM services. EIAs on past MERs have all shown no disproportionate impacts on staff within the portfolio. Of the other EIAs, a limited number have potential equality impacts on our customers.
258. There is a Customer Service proposal which covers the restructure of the service, implementation of contact centre technology to deliver efficiencies alongside implementation of channel shift strategy and tools. There are no

expected negative impacts from this strategy and in some cases positive impacts on certain groups.

259. There are other EIAs which cover Council Tax and its support schemes; we are proposing this year to continue to keep the same Council Tax Support (CTS) scheme. The CTS scheme continues to be based on the principles of the old CTB regulations and provides for the maximum financial support being made available to those with the greatest financial need. They protect some of the income of the disabled and of families whilst providing assistance to those people who move off benefits into paid employment. The Council recognises however that requiring all working age customers to pay a minimum of 23% of their Council Tax may cause financial hardship amongst some households. Therefore the Council is also proposing to continue to operate the CT Hardship Scheme in 2015/16 in order to continue to offer assistance to the most financially vulnerable households.
260. This year we are also proposing an increase in Council Tax for the first time in 4 years, again we are aware that any increase in Council Tax could have a negative impact on those households who are already struggling financially. However, the provision of Council Tax Support (CTS) backed up by the CTHS will ensure that such an impact is minimised. The impacts will continue to be monitored through the EIA process and action plans developed to mitigate impacts where appropriate.
261. In the **Communities Portfolio** there are 31 EIAs most of which are full EIAs as many of the services in this Portfolio such as Adult Social Care are, by definition, providing services to vulnerable, disabled and older people. This area represents the single largest controllable area of our budget and we support 14,000 people through our services. This area has also seen an increasing level of demand and of costs of services.
262. Savings in this area have the potential to impact negatively upon those protected groups. However, some of the proposals involve more cost effective solutions to individuals, earlier intervention leading to prevention, retendering contracts or service internal restructuring that will have fewer equality impacts.
263. We are continuing to implement last year's changes in a number of areas such as to library services, adult social care reviews and reassessments and housing related support. We are implementing a programme of change to move focus to short term preventative and re-enablement services. We are working with providers around the changes to mitigate direct impact.

264. We are taking steps to ensure we get the best value for money and quality in our contracts in a number of areas, e.g. value for money in provision of short breaks for people with learning disabilities, moving to Supported Living Frameworks in mental health and learning disability services, and re-tender of the community equipment store, small adaptations and independent living preventative solutions. We are supporting individuals with any transitions.
265. We are investing a reduced amount in Grant Aid to the voluntary sector, although this reduction is less than the Council's overall budget cut. Some negative equality impacts have been identified resulting from the reductions in overall grant aid funding available, and the fact that some projects that the Council previously supported will no longer receive funding in future. However the funding will be targeted at those in greatest need of support. We are also restructuring teams such as Grant Aid and Locality Management to ensure greater efficiency. The current local area working model includes providing Councillors with a ward pot to fund community groups, projects or additional services to tackle the issues and priorities within their ward. We will also review existing arrangements across the Council in the next year to ensure we are prioritising support.
266. Public health in communities will see a reduction in the community well-being and community health champions programmes but investment in other areas such as support to advice centres to tackle the root causes of ill health in communities. We are also starting to review the public health contribution to mental health provision in line with the Council's re-commissioning of mental health services strategy overall. EIAs and consultation will be undertaken as this work progresses.
267. We are also proposing to review the Community Support Service, and will undertake a full EIA to determine the future direction of the service.
268. There will be some staff reductions (for example in internal services such as Business Support and Business Strategy) and we have worked towards minimising impact on front line services.
269. The Better Care Fund partnership with the NHS CCG will continue to develop with the aim to deliver better joint commissioning, to ensure people get the right care when and where they need it. This should also lead to more effective and efficient services to release savings in this area.

270. In **Policy, Performance and Communications** there are 7 EIAs and they are mainly internal restructuring and are not likely to have any customer impact.

Cumulative impact

271. Groups highlighted as impacted across EIAs and all Portfolios are disabled people, older and younger people, women, carer's and people on low incomes. Disabled people, some women such as lone parents and women pensioners, carers, young people and some BME communities who tend to have a lower income may be cumulatively impacted.

272. By definition, older people, disabled people, carers and women will be the most impacted by the changes in Adult Social Care. Young people and parents will be impacted by changes in 'young peoples' services. Some people who have been previously receiving a service will receive a changed, reduced or no service as we focus on the most in need.

273. We are continuing to work with partners to be more efficient and joined up such as with the NHS Clinical Commissioning Group towards developing a single budget for Health and Social Care. The changes come into effect in April 2015 and could help mitigate both demand pressures and cumulative impact.

274. There are year on year reduced subsidies on our charitable partners, however where charges increase, whether for leisure, cultural or other services, this has the potential to increase barriers to participation to people on a low income, therefore affecting the groups noted above.

275. A further impact across a range of proposals will be the transition from one provider to another, which may include moving from one location to another and these changes have the potential for significant impact on those individuals transitioning. We will take this into account in any changes, undertake risk assessments where necessary and provide support for users and carers.

276. There are again a number of changes to our strategic contract arrangements, our providers where relevant have undertaken consultation and evaluated impact and we have tried where possible to limit impact on front line services.

277. There will be an impact on the workforce across all areas given the amount of internal restructuring as a result of the budget proposals and possible staff reductions of up to a further 200 posts in 2015/16; a significant number of workforce EIAs are ongoing and a Council wide Managing Employee Reductions (MER) EIA has been completed.

278. It is difficult to quantify the cumulative level of impact although mitigations have been highlighted in all EIAs as external factors such as welfare reform are also impacting negatively on some of the same groups for example, disabled people, carers, young people and women.
279. We will as a Council not invest or provide services in as many areas as we did before the reductions started 4 years ago. Services are targeting those in greatest need and those at risk but that does mean that there is reduced universal provision. We are still providing statutory services and we are focusing on the most vulnerable with the resource we have to invest.

Managing Impact: Mitigation

280. Our overall approach is to protect services for those in greatest need and at risk where possible and to change how we manage and deliver services to make savings. This will have an impact on what the Council can continue to deliver.
281. The year on year reductions and the scale of the savings required mean there will be impacts upon vulnerable groups that share protected characteristics. Most impacts relate to age both younger and older people, disabled people, women and people on low incomes. In all these areas some mitigating actions have been identified and will be implemented as part of EIA action plans. For example:
- All proposals have been assessed in line with the Fairness Commission Principles and to take into account the Tackling Poverty and Increasing Social Justice outcome area.
 - Working with external providers to achieve savings in our large contracts and to achieve this as much as possible through non front line service functions.
 - Working with partners to encourage private sector to support activities and events and encouraging commercial activity to promote Sheffield.
 - Working to increase our income through fees and charges, full cost recovery, and increased trading of our services, for example with schools to help keep non- core services.
 - Continuing where possible with successful schemes from last year that impacted positively such as the apprenticeship schemes and employability programmes.
 - Investing in prevention and delivering targeted support for those most vulnerable or at risk such as in our Best Start programmes.

- Following the library review investing in local community groups to maintain the viability of non- council run libraries.
- Continuing to encourage people to be independent, safe and well in both children and adult social care such as through direct payments and to continue to reduce reliance on expensive provision outside of Sheffield.
- Reviewing care and support arrangements and re tendering services where applicable to ensure fair contributions and value for money.
- Working in partnership with the NHS Clinical Commissioning Group towards developing a single pooled budget for health and social care under the Better Care Fund.
- Restructuring management and services to increase efficiencies and create simpler routes of public access. For example through our safer neighbourhood team and community safety function creating a single street based response team.
- Regionalisation of services where appropriate such as adoption and youth justice.
- Continuing to invest £30 million in Public Health but shifting the focus to address the root causes of ill health to help reduce health inequalities.
- Continuing to invest in the Voluntary and Community Sector through grant aid, including building on the successful integration of the Sheffield Advice and Law Centre and lunch clubs.

282. Although there are very difficult choices, our impact assessments illustrate our approach to fairness principles and to mitigate negative impacts where possible. Through our 'live' EIA process we will be monitoring closely any adverse equality impacts as reductions and changes in provision occur during the next year.

Human Resources Impact Overview

283. In all Portfolio areas many of the budget proposals involve staff efficiency savings, including: service restructuring, a reduction in management costs by deleting vacancies, reviewing agency staff, managing employee reductions through voluntary early retirement and severance. We have across the Council reduced management costs, minimised redundancies by using the talent pool, and reduced the impact on frontline staff where appropriate. Unfortunately there may still also be compulsory redundancies in some areas.

284. We have also promoted employee led measures such as voluntary reductions in hours, career breaks and annual leave purchase schemes. We are committed to continue to pay a 'Living Wage' to Council employees.
285. The council believes that the composition, skills and commitment of the workforce are vital factors in our ability to deliver effective, efficient responsive and personalised services. We continue to monitor workforce issues, and are aware of the need to address:
- The degree of occupational segregation within the workforce such as a high proportion of women in the Communities and Children and Young People and Families workforces and a high percentage of men in the Place portfolio
 - Under-representation of disabled, BME and lesbian, gay, bisexual and trans (LGBT) people in the workforce and especially for women, disabled and BME staff at Chief Officer level
286. Given the amount of internal restructuring as a result of the budget proposals, other drivers and possible staff reductions of up to a further 200 posts in 2015/16, a significant number of workforce EIAs within Portfolios have been done and a Council wide Managing Employee Reductions (MER) EIA has been completed.
287. These show possible changes to the diversity of the workforce as a result of staff restructuring and MERs required from some of the budget proposals. It is not yet possible at this stage to predict the precise impact of these processes upon workforce diversity as this can only be known later in the year as the schemes are all worked through. Last year's monitoring of the MER and VER/VS schemes showed no negative disproportionate impact on people who share a protected characteristic and had positive impacts in line with our workforce diversity strategy. See the corporate MER EIA for full details.
288. We will continue to work within our current policies and procedures, which promote workforce diversity to reflect the demographics of the city. We are also working with managers, staff and trade unions to ensure the workforce is viable and appropriate to the council's future operating and service needs, with a balance of skills and experience.
289. Workforce related Impact Assessments are periodically updated and have for example been undertaken as part of MER including Voluntary Early Retirement (VER) and Voluntary Severance (VS), and the Pay Strategy.

Recommendations

290. Members are recommended:

- a) To approve a net Revenue Budget for 2015/16 amounting to £422.972m;
- b) To approve a Band D equivalent Council Tax of £1,308.28 for City Council services, i.e. an increase of 1.99%;
- c) To approve the Revenue Budget allocations and Budget Implementation Plans for each of the services, as set out in **Appendix 2**;
- d) To note that, based on the estimated expenditure level set out in **Appendix 3** to this report, the amounts shown in part B of **Appendix 6** would be calculated by the City Council for the year 2015/16, in accordance with sections 32 to 36 of the Local Government Finance Act 1992;
- e) To note the information on the precepts issued by the South Yorkshire Police Authority and the South Yorkshire Fire and Civil Defence Authority, together with the impact of these on the overall amount of Council Tax to be charged in the City Council's area.
- f) To approve the proposed amount of compensation to Parish Councils for the loss of council tax income in 2015/16 at the levels shown in the table below paragraph 175;
- g) To note the latest 2014/15 budget monitoring position;
- h) To approve the Treasury Management and Annual Investment Strategies set out in **Appendix 7** and the recommendations contained therein;
- i) To approve the Minimum Revenue Provision (MRP) Statement set out in **Appendix 7**;
- j) To agree that authority be delegated to the Director of Finance to undertake Treasury Management activity, to create and amend appropriate Treasury Management Practice Statements and to report on the operation of Treasury Management activity on the terms set out in these documents;
- k) To agree that the Members' Allowances Scheme for 2013/14 and onwards, approved on 15 May 2013, and implemented for 2014/15, be also implemented for 2015/16, with the addition (to paragraph (h) of Schedule 2) of the following approved duty which was approved by the Council at its

meeting held on 3 December 2014 – “attendance at meetings of Local Area Housing Forums”

- l) To approve foregoing an annual increase in the Members’ allowances in 2015/16.
- m) To approve a Pay Policy for 2015/16 as set out in **Appendix 8**.
- n) To agree that authority be delegated to the Director of Public Health and the Executive Director of Resources, in consultation with the Cabinet Member for Finance, to approve the final allocation of Public Health grant to portfolios in 2015/16.

John Mothersole
Chief Executive

Eugene Walker
Interim Executive Director, Resources

Section 1: Summary of Core Services (Form A)

Line	A1					
Activity	INCLUSIONS & TARGETED SERVICES					
Description	Timely assessments and reviews are undertaken to identify needs and support required. Needs will usually be met within maintained mainstream schools, integrated resources or special schools. However for a few children and young people independent provision may be required or travel assistance for school attendance. The key objective of the Inclusive Learning Strategy is to ensure that every school is good and inclusive, improving parental confidence to send their children to their local school. Key to all schools being inclusive is Special Educational Needs (SEN) provision delivered through excellent services (Educational Psychologists, Hearing and Visual Impairment and Autism), specialist provision (Integrated Resources and Special Schools) and for vulnerable individuals high quality targeted support as well as challenge when outcomes are not good.

Service	CARE AND SUPPORT
Planning Entity	ASSESSMENT & CARE MANAGEMENT (Division)

Description of core purpose of Planning Entity	The service assesses needs and provides resources for the care and protection of vulnerable older people, adults with a physical disability or sensory impairment and their carers. The aim is to provide through self directed support and personal budgets care and support for people either in their own homes, or in residential care, by working in close partnership with health, housing, Care4you, the independent sector and voluntary organisations to assess and provide care as required.

Section 1: Summary of Core Services (Form A)

Line	A1				
Activity	ADULT SOCIAL CARE PURCHASING				
Description	Care purchased from Independent Sector Providers, via direct payments and self directed support. Primarily provision of services where there is statutory duty to meet the required needs. Some service provision of preventative services, to avoid higher levels of need developing (therefore maximising independence and minimising higher cost packages).				
Grant Income Source

0.00	-	69,467	69,467	(2,328)	67,139

Line	A2				
Activity	ADULT SOCIAL CARE REABLEMENT				
Description	Provision of initial early and preventative intervention and safeguarding through timely assessment, reablement and support to people to access universal services.				
Grant Income Source					
FTE	Staff	Non Staff	Gross Revenue Expenditure	Income	Net Revenue Expenditure
1.00	7	56	64	-	64

Line	A3				
Activity	CASE MANAGEMENT FUNCTION				
Description	Provide time limited support/Social Work services to enable people to continue to live as independently as possible. Provision of support/protection for very vulnerable people, e.g. Safeguarding, Deprivation of Liberty etc. Statutory duties associated with Community Care Services define the responsibilities to access needs and provide services. To assess and manage risks associated with vulnerable service users and to agree outcomes with them to keep them free from harm and as independent as possible whilst remaining in their own home. Additionally to support people who have to go into care or who have complex mental health problems. We also work with the Sheffield Clinical Commissioning Group to establish eligibility for either social care or health care funding.

Section 3: Summary of Savings

Line	B1				
Activity	Promote cost effective home care supply				
Description	This saving will be achieved by promoting independence of service users, which will lead to a reduction in home care costs.				
FTE	Staff	Non Staff	Gross Revenue Expenditure	Income	Net Revenue Expenditure
0.00	-	(850)	(850)	-	(850)

Line	B2				
Activity	Adults Reviews & Reassessments				
Description	The Council must review/reassess people who require Care and Support. Outcomes of those reviews and reassessments is that for some people the Council has been providing more care and support than people need and/or support has not been provided cost effectively, which is not a fair and equitable use of resources. This has reduced costs in 2014/15 and will give a full year effect in 2015/16 as the costs are continuous.

Section 3: Summary of Savings

Line B1					
Activity: Implement existing plans. Housing Related Support					
Description: A range of changes to housing related support contractual arrangements, which will deliver efficiencies in the way this support is provided. A large proportion of the savings is the full year effect of savings made in 2014/15 for sheltered accommodation and extra care housing. Where possible the full impacts of reductions to extra care and sheltered housing have been mitigated by remodelling some of the funding into Housing Benefit, but has covered risks and priorities and full impacts of reductions of services to other vulnerable groups have been mitigated by better prioritising who support is directed to.

Directorate	RESOURCES
Service	BUSINESS CHANGE & INFO SOLNS
Planning Entity	BUSINESS CHANGE & INFO SOLNS (Service)

Description of core purpose of Planning Entity	The Business Change and Information Solutions Service makes change happen across SCC by supporting the implementation of change across the business. Changes may involve process re-engineering, technology implementation, cultural change and organisational redesign. We provide guidance and support relating to the management of the council's information technology (IT) to ensure that they are exploited effectively; we drive information and knowledge management through the development of a number of strategies, policies and procedures that underpin how information is managed and used across the council; we assure that the service delivered by our ICT Partners meets the agreed SLA performance criteria in terms of day-to-day business, client-driven and planned ICT changes and all elements of charging and billing, driving the improvement of the service delivered by our partner and suppliers.

Public Health savings / re-investments * - savings of £2.5m have been targeted from existing public health activities in order to avoid disinvestment in other Council services which promote health and wellbeing outcomes. Of the £2.5m, £0.5m is already included in the portfolio savings proposals figure.

Reserves Strategy

INTRODUCTION

1. This appendix reports on the latest position in relation to the level of the Council's reserves. Section 25 of the Local Government Act 2003 requires the Chief Finance Officer to present to the authority, in determining council tax levels, a report assessing the adequacy of unallocated reserves in the context of corporate and financial risks facing the Authority. The Authority needs to balance the necessity for reserves against the immediate impact on council taxpayers and arrive at a level it considers adequate and prudent, but not excessive.
2. This Reserves Strategy therefore needs to be considered and agreed by the Authority in setting its 2015/16 budget, capital programme and council tax. The Strategy explores the purpose of the general and earmarked reserves held by the Authority and sets out a recommended approach to optimise their use over the 2015-20 Medium Term Financial Strategy period.
3. This assessment of reserves is even more important in the context of the significant and sustained cuts in central government funding in the five years from 2011/12 to 2015/16, and the likelihood of continued cuts thereafter. In addition, there is pressure on the capital programme and ultimately any deficit on the programme would have to be charged to revenue reserves. Reserves can be used temporarily to fund services and this is reviewed as part of the budget strategy. However:
 - reserves are "one off" funds and using them in the budget will only delay the need to make savings. Once used, they are clearly not available to support future years.
 - they are therefore most suited to covering "one off", unexpected costs such as emergencies (e.g. the Sheffield flood in 2007) or costs that are likely to be incurred in the future but the timing is uncertain (e.g. legal or other claims against the council).

TOTAL RESERVES

4. The Council's Statement of Accounts for 2013/14 <https://www.sheffield.gov.uk/your-city-council/finance/statement-of-accounts.html> shows a figure for "usable" reserves in the balance sheet at page 30 of £212m as at 31 March 2014. However, this figure is a technical accounting one and is not relevant for the purposes of setting the General Fund revenue budget. The definition of "usable" is important here – it means usable in some way, but there are very specific rules about what different parts of this type of reserve can be used for. The Council's total spending and total reserves is legally separated in to four main blocks:
 - delegated school budgets, held in trust and only usable for schools spending;
 - Housing Revenue Account (HRA), i.e. spend on council housing, funded by rents;
 - capital spending, i.e. investment in long term assets such as roads and buildings;
 - "General Fund" spend, which is spend on all other services not in the above three categories and is funded from government grants and council tax. It is only this category that this reserves strategy and budget report to Cabinet and Full Council is concerned with.
5. None of the resources for schools, HRA or capital can be used for the Council's General Fund spending, so for the purposes of setting the budget, £131m of the "usable reserves" are irrelevant, namely:
 - Schools reserves of £16m
 - Housing revenue account reserves of £14m
 - Capital reserves of £101m, which are committed to funding schemes planned over a number of years, e.g. school rebuilding, highways, council housing major repairs or rebuilding.
6. This leaves around £81m of General Fund reserves. However, as part of the assessment of the adequacy of reserves referred to above, a number of reserves are set aside or "earmarked" to cover liabilities for expenditure which is already committed but not yet paid for, as

explained below. The following table shows the split of earmarked and non-earmarked reserves - of the £81m as at 31 March 2014; all but £11m is set aside as earmarked reserves for future liabilities.

7. The table below shows that next year earmarked reserves levels are planned to increase by £27m. This is primarily as a result of the transfer of Highways PFI grant to reserves to fund future increases in unitary charge payments relating to the Streets Ahead project, the final outstanding amounts being repaid to the invest-to-save Reserve and the planned repayment of funds borrowed from the PFI and MSF reserves in 2014/15 to cover the early pension deficit payment made to South Yorkshire Pension Authority.
8. So to summarise, earmarked reserves are expected to decrease by £7m in 2014/15 (from £70m to £63m), then to increase by £27m in 2015/16 (from £63m to £90m). This means that a larger balance is then available for consideration as part of setting the 2016/17 budget.
9. Although the balance on reserves as at 31 March 2016 of £101m seems significant it is worth noting that this is well below the national average as a proportion of net revenue expenditure for Single Tier and County Councils. The National Audit Office Report 2014 'The impact of funding reductions on local authorities' highlighted that:

"There has been a marked increase in levels of both types of reserve. For single tier and county councils most growth has been in earmarked reserves. These have increased from 19% to 27% of net revenue expenditure in real terms. Unallocated reserves have remained stable at 6% of net revenue expenditure."
10. This report shows that on average Single Tier and County Councils have set aside 33% of their net revenue expenditure budget in reserves. The comparable figure for Sheffield City Council in 2015/16 is only 25.5%.

**Summary Estimate of Non-Earmarked & Earmarked Reserves at 31
March 2015 & 31 March 2016**

Description	Balance at 31/03/15 £000	Movement in 2015/16 £000	Balance at 31/03/16 £000
Non-earmarked Reserves			
General Fund Reserve	10,616	200	10,816
	10,616	200	10,816
Earmarked Reserves			
Invest to Save Reserve:			
Projects	2,899	(2,899)	0
Capita Contract	(4,047)	4,047	0
Customer First	(10,229)	10,229	0
Investment Fund	3,959	(3,959)	0
Total Invest to Save Reserve:	(7,418)	7,418	0
PFI Reserve	4,213	12,388	16,601
Highways PFI Reserve	3,574	7,110	10,684
Total PFI Reserve	7,787	19,498	27,285
Major Sporting Facilities	13,564	839	14,403
New Homes Bonus	4,430	918	5,348
Insurance Fund Reserve	9,394	(3,000)	6,394
Other earmarked	35,799	1,071	36,870
Total Earmarked Reserves	63,555	26,744	90,299
Total Revenue Reserves	74,171	26,944	101,115

* a negative number (in brackets) indicates that the reserve is in deficit: in this case because of up front investment that is to be repaid in future years from savings.

GENERAL (NON-EARMARKED) REVENUE RESERVES

11. The purpose of general revenue reserves is to provide funding for any unforeseen risks and expenditure which may arise in the year, but only as the last resort for emergency funding. Reserves also provide flexibility in managing fluctuations between budgets and actual expenditure or emergencies: a good example being the Sheffield floods in 2007, when we had to use reserves to fund spending on the recovery operation before reclaiming costs from insurance or the Government. Finally, cash reserves and other working capital generate interest which is used in the funding of the budget.
12. Non-earmarked General Fund Reserves (the “working balance”) are estimated to be £10.6m at 31 March 2015, representing only 2.5% of the 2015/16 budget (at the maximum net budget requirement of £423m). If this £10.6m were ever used, it would have to be replaced as soon as possible as the Council would always need a minimum level of emergency reserves.
13. There is no overall formula that can calculate what the level of reserves should be; it is a matter of judgement based on the known risks, budgetary pressures and local factors. The 2012 Audit Commission report ‘Striking a Balance’ indicated that:

“most Chief Finance Officers in our research regarded an amount between 3 and 5 per cent of the council’s net spending as a prudent level for risk-based reserves...”
14. Sheffield’s level of general fund reserves at 2.5% of the 2015/16 net revenue budget is well below these benchmarks. It is also low in comparison to most other major cities. The table below shows that Sheffield has the lowest level of General Fund reserves as a percentage of their 2014/15 net revenue budgets when compared to similar councils.

	Estimated Reserves 31 March 2014	% of Net Revenue Budget (2014/15)
Liverpool	£24.8million	5.2%
Leeds	£27.2million	4.8%
Manchester	£24.1million	4.6%
Newcastle	£10.1million	3.8%
Nottingham	£9.8million	3.5%
Bristol	£9.9million	2.7%
Birmingham	£25.2million	2.6%
Sheffield	£10.6million	2.4%

EARMARKED RESERVES

15. Earmarked reserves are set aside to meet known or predicted liabilities, but ones that are not certain enough to create an exact provision in the accounts. The liabilities are, however, likely enough to say that the earmarked reserves are not normally available to fund the budget or other measures.

16. A list of earmarked reserves, their purpose and proposed use are set out below.

Invest to Save Projects (Balanced)

17. The Council's Modern and Efficient Council programme has started to deliver a number of core infrastructure and business transformation projects that are essential to the future success of the Council's business operations.

18. This reserve is budgeted to balance during 2015/16. It had received up-front investment for various Transformation projects (e.g. procurement savings and changes in finance including replacement of the council's finance system). However, the current surplus of £2.9m will be used to ensure that the overall deficit on the total Invest-to-Save reserve is fully repaid in 2015/16.

19. These projects have been funded on an invest-to-save basis with savings being used in two ways:

- to repay the reserve by 2015/16
- to deliver annual contributions to support the revenue budget, which is currently £3.5m.

Capita Contract (Balanced)

20. The Capita contract included a significant additional investment in the early years, principally to update the Council's ICT infrastructure. This investment is fully repaid in 2015/16 and hence the balanced position as at 31 March 2016 in the table above.

Customer First (Balanced)

21. This is the funding from reserves for the Customer First programme. This reserve is fully repaid as part of the overall repayment of the invest-to-save reserve in 2015/16.

Investment Fund (Balanced)

22. This reserve reflects an annual contribution of £1.5m from the revenue budget to support invest-to-save projects and has contributed to the planned delivery of a balanced reserves in 2015/16 but ceases from 2016/17 onwards.

Private Finance Initiative (PFI) Reserve (£27.3m)

23. This PFI grant is a good example of why we have earmarked reserves – Government pays us money in advance to pay future years' liabilities, so we set it aside in a reserve until it is needed. If we did not do so, there would be insufficient funds to cover the cost of contracts in future years.

24. However, as explained above these reserves have been used temporarily to cash flow invest-to-save investments but more recently to cover the early payment of the pension deficit. All of these investments

will be fully repaid in 2015/16. The PFI reserve balance starts to reduce from 2017/18.

Major Sporting Facilities (MSF) (£14.4m)

25. This reserve has been available on a temporary basis and has been used to fund invest-to-save and part of the early pension deficit payment, both of which are planned to fully repay in 2015/16. The remaining funds are required for the future costs of the Major Sporting Facilities debt (re: Ponds Forge, Hillsborough Leisure Centre, etc.). It was agreed at Cabinet in June 2013 to reschedule the leasing arrangements with Sheffield City Trust, as a result of which this reserve has been re-profiled, thus releasing up to £7m of savings to the revenue budget over the next three years.

New Homes Bonus (£5.3m)

26. The Government is paying all Councils “New Homes Bonus” to incentivise them to bring empty properties back into use or encourage new housing to be built. The Council intends to use the payments to promote housing development but also fund economic growth projects. This reserve sets aside the payments until required for agreed projects.

Insurance Fund (£6.4m)

27. This reserve was created in 2013/14 following the audit of the 2012/13 accounts. The External Auditor recommended that the difference between the Council’s best estimate of actual losses and the maximum potential liability (around £6.4m) should be classified as an earmarked reserve.

Other Earmarked Reserves (£32.4m)

28. This includes various specific earmarking including:

- equal pay claims
- redundancies
- contingencies for potential budget deficits, including risk of business rate income shortfalls
- portfolio reserves agreed by Cabinet in previous years for service specific issues, e.g. Electric Works business plan funds.

29. Government policy requires us to use reserves to fund many one-off costs such as redundancies and in recent years they have specifically refused permission for “capitalisation” directives that allow councils to

spread such one-off costs – they point instead to the need to hold and use reserves.

ASSESSMENT OF LEVEL OF RESERVES

30. The Section 151 officer has carried out an assessment of the adequacy of the level of reserves held by the Authority in light of the principal risks it faces. While the maximum total financial impact of these risks far exceeds the reserve held, the overall likelihood of all these risks being incurred in any one year is low and therefore, it is not deemed prudent nor offers best value to hold sufficient reserves to cover all eventualities.

Appendix 5 details the risks and the level of their potential impact.

31. The current level of non-earmarked general reserves held is only £10.6m. However, currently unused earmarked reserves, such as the PFI and MSF reserves provide an additional level of risk cover on a short term basis. Currently these are around £21.3m, having allowed for the aforementioned temporary funding for invest-to-save and the early pension deficit payment. The current repayment profile for these commitments replenishes the reserves in time for the required use on the PFI projects and future MSF liabilities.

32. Given the severely restricted funding outlook for the foreseeable future and the level of risk in the 2015/16 budget, the level of reserves is low but not inadequate. The Section 151 Officer therefore recommends that general reserves:

- be maintained as a minimum at the current levels for 2015/16;
- only be used in year to fund the risks identified above, should the 2015/16 budget be unable to absorb any such costs.

CORPORATE RISK REGISTER

This Appendix provides a brief overview of the main financial risks facing the Council in 2015/16. A more detailed schedule of these risks will be monitored by the Executive Management Team to ensure that the risks are mitigated.

Corporate Risks

2015/16 Budget Savings & Emerging Pressures

1. There will need to be robust monitoring in order to ensure that the level of savings required for a balanced budget in 2015/16 are achieved, especially given the cumulative impact of £300m of savings over the last five years (2011-16), and furthermore the backdrop of continuing reductions in Government grant from 2016/17 onwards.
2. Whilst preparing the budget, officers have identified numerous pressures which, if left unchecked, could lead to significant overspends in 2015/16 and beyond. The following pressures have been highlighted because they present the highest degree of uncertainty.

Capital financing costs

3. Corporate savings of £3.4m from capital financing costs have been offered up to balance the 2015/16 budget, on the assumption that market conditions will remain favourable to the Council next year, i.e. interest rates and borrowing requirements will not exceed those stated in the Treasury Management Strategy in the 2015/16 revenue budget.

Business Rates

4. Following the advent of the Government's Business Rates Retention Scheme in April 2013, a substantial proportion of risk has been transferred to local government, particularly in relation to appeals, charitable relief, tax avoidance, hardship relief and negative growth. The issue of appeals dating as far back as the 2005 rating list is the greatest risk causing concern across all authorities. As at the end of December 2014, there were properties with a rateable value of £159m under appeal in Sheffield, with an allowance for £3.8m of refunds next year. Actual trends on appeals are monitored in year, and revised estimates of the impact of appeals have been made as part of the 2015/16 budget process.

Implementation of savings proposals

5. The risk of delivering savings in 2015/16 in specific areas such as adult social care and waste management is considerable, given that the Communities and Place portfolios are forecasting overspends of around £2.7m and £1.6m respectively in 2014/15 (as at Month 8). To mitigate this, officers are working on the safe and legal implementation of budget proposals by:
 - Ensuring that there is a thorough understanding of the impact of proposals on different groups and communities, including undertaking Equality Impact Assessments for budget proposals and discussed with Cabinet Members
 - Carrying out appropriate, meaningful consultation activity with affected communities and stakeholders, and ensuring that where the proposal affects a supplier or provider, that they undertake appropriate consultation and equalities work with service users.
 - Discussing budget proposals with affected members of staff in advance of them being made public, and putting in place MER processes where required, in consultation with HR.

One-off funding

6. There is a significant risk about the high level of one-off funding and reserves to balance the budget, particularly with regard to the Better Care Fund. At £9.3m, this is the highest level of one-off funding that the Council has had to use in recent years. However, officers will continue to work with colleagues at the CCG to find more sustainable ways to generate the required level of savings or income, by the end of this financial year and throughout next year so that real savings are identified to replace the one-off use of resources.

Medium Term Financial Position

7. The savings target for 2016/17, as indicated in the MTF5 in October 2014, is £14.3m, and will increase (by £9.3m) to £23.6m if the Council is unable to find more sustainable options to replace the one-off use of BCF reserves. This savings target is predicated on the assumption that RSG is only cut by a further 10% per annum from 2016/17. A number of think tanks have come to the conclusion that it is likely that local authorities can expect to see further reductions in RSG in the order of 20% per annum.

8. In the future the Council's financial position will be significantly determined by the level of Business Rates and Council Tax income. Each of these may be subject to considerable volatility and will require close monitoring and a focus on delivering economic growth to increase our income and on delivering outcomes jointly with other public sector bodies and partners.

Pension Fund

9. Bodies whose Pension liability is backed by the Council are likely to find the cost of the scheme a significant burden in the current economic context. If they become insolvent the resulting liability may involve significant cost to the Council.

Economic Climate

10. There is potential for current adverse economic conditions to result in increased costs (e.g. increased homelessness cases) or reduced revenues.
11. The Council seeks to maintain adequate financial reserves to mitigate the impact of unforeseen circumstances.

External Funding

12. The Council utilises many different grant regimes, for example central government and EU. Delivering projects that are grant funded involves an element of risk of grant claw back where agreed terms and conditions are not stringently adhered to and evidenced by portfolios. In order to minimise risk strong project management skills and sound financial controls are required by Project Managers along with adherence to the Leader's Scheme of Delegation to approve external funding bids.
13. As SCC funding reduces, portfolios are increasingly seeking out new sources of external funding, both capital and revenue. EU funding contracts have more complex conditions, require greater evidence to substantiate expenditure claims and are less flexible on timescales and output delivery targets. This increases the inherent risk in projects which are EU funded. Furthermore as the Council reduces its staff resources a combination of fewer staff and less experienced staff increases the risk of non-compliance with the funding contract conditions and exposes the authority to potential financial claw back.
14. Moreover, the pressure on the General Fund means that Service Managers are forced to seek more external funding such that the general

level of risk associated with grants is increasing because of the additional workload this creates amongst reduced and potentially inexperienced staff.

Treasury Management

15. The Council has been proactively managing counter-party risk since the credit-crunch of 2008. Counterparty risk arises where we have cash exposure to bank and financial institutions who may default on their obligations to repay to us sums invested. Counterparty risk has somewhat diminished over the last financial year as banks have been obliged to improve their capital funding positions to mitigate against future financial shocks. The Council is continuing to mitigate counterparty risk through a prudent investment strategy, placing the majority of surplus cash in AAA highly liquid and diversified funds.
16. We will be developing the Treasury Management and Investment Strategies, as part of the 2015/16 budget process, and this will include discussing our risk appetite with members and senior officers as part of this process. This will include a review of our counter-party risk to ensure it is reflective of the relative risks present in the economy without being unduly conservative for the improving UK economic position.
17. The Council is also actively managing its longer term need for cash. Cash flow requirements show that the Council will require new borrowing in the coming years to finance capital investment. With interest-rates expected to rise from their current historic lows the Council is remaining vigilant to interest-rate risk, and will draw down loans in a timely manner to mitigate against borrowing costs rising above our target rates.
18. The Co-op Bank is withdrawing from the Local Authority banking market and our relationship will end in March 2015, except for a specific contract to take payments over counters at Post Offices and Pay Point outlets. Barclays Bank has been selected to provide the Council's with its core banking requirements and the transfer process is well advanced. This process will give a reasonable period in which to wind down Co-op banking transactions in the run up to the end of the contract.

Welfare Reforms

19. In April 2013, the government began to introduce changes to the Welfare system, which have had and will continue to have a profound effect on Sheffield residents including council taxpayers and council house

tenants. The cumulative impact of these changes is significant. They include:

- **The Abolition of Council Tax Benefit:** replaced with a local scheme of local Council Tax Support from April 2013. The Council approved the replacement scheme, based on the reduced funding available from Government, and set up a hardship fund in January 2013, but there are risks to council tax collection levels and pressures on the hardship fund which are being closely monitored.
- **Housing Benefit changes:** there have been a number of changes, including the implementation of the 'bedroom tax', from April 2013 where the impacts are that a significant number of claimants are now receiving fewer benefits, thereby impacting on their ability to pay rent. The government is providing financial assistance to support affected claimants through the funding of Discretionary Housing Payments which are administered by the council, however, this funding does not meet the shortfall in housing benefit created by the bedroom tax and the level of and commitment to ongoing funding is uncertain.
- **Introduction of Universal Credit:** originally scheduled from October 2013 but now delayed and awaiting further updates from the DWP. Along with the impact of reducing amounts to individuals and the financial issues that it might cause, the one of the biggest potential impacts of this change is the impact on the HRA and the collection of rent. Support towards housing costs is currently paid through housing benefit direct to the HRA; in future this will be paid through UC direct to individuals. This will potentially increase the cost of collection and rent arrears. There will also be an impact on the current contract with Capita and internal client teams.

Children, Young People and Families Risks

Education Funding

20. In 2013/14 it is anticipated that 25 of the Council's maintained schools will become independent academies (24 primary / 1 secondary). To date 5 primary schools and 4 secondary schools have converted in 2014/15. Academies are entitled to receive a proportion of the Council's DSG which schools forum have decided can be de-delegated back to CYPF to fund central services. Academies can on conversion choose whether to buy into those services thus creating a potential funding gap. Based on projected academy conversions it is estimated that:

- up to £5m has now been deducted from the Council's DCLG funding, under the new Education Services Grant (ESG), and given to academies. Currently around £3.5m is still at risk if all schools choose to convert with the council retaining only £1.1m for retained duties only.
 - Up to £500k could be at risk to centrally funded services should Academies choose not to buy back those services funded from de-delegated DSG from the local authority.
21. If an academy is a sponsored conversion then the Council will have to bear the cost of any closing deficit balance that remains in the Council's accounts. It is estimated that this may be up to £500k based on current projected academy conversions during 2014/15.

Communities Risks

NHS Funding Issues 2015/16

22. The Better Care Fund becomes fully operational from 1 April 2015, bringing together health and social care expenditure across Sheffield. This programme aims to shift pressures and resources from the hospital to community settings over the medium to longer term. This is supported by a couple of joint initiatives that will help keep people well within the community, first of all the additional £1.0m funding made available through the Transformation Challenge Award and the joint tender for the Independent Living Solutions contract coming into effect from July 2015, which will pool around £2.5m of equipment budgets.
23. In 2014/15 monitoring of the £268m shadow budget has taken place to determine the amounts expended both within the Sheffield Clinical Commissioning Group (CCG) and the Council. Out of this funding, some £117m has been included relating to Sheffield City Council budgets, primarily purchasing budgets. The 2015/16 baseline for the Council is £113.8m, after pressures and savings. This is offset by CCG funding of £12.4m. NHS funding to support social care increased from £9.7m in 2013/14 to £12.4m in 2014/15. Of the £2.7m increase, £2m was allocated directly to Communities whilst the remaining £0.7m was held as part of the corporate social care contingency budget. It is now proposed to release the £0.7m held as a contingency to support the Council's part of the Better Care Fund.
24. As part of the overall requirement to balance the Council's budget for 2015/16, we assumed that £10m would be made available through a

combination of additional BCF savings and/or funding transfers from the NHS, to be used to reduce the Council's overall budget gap. There is however a significant risk in relation to this and discussions with CCG are ongoing. It is assumed at this stage that the Council will secure £5m of funding from the NHS. A key recommendation of the EMT Report was to match this assumed £5m contribution from the NHS with £5m of one-off funding principally from the Council's reserves. This would, on a one off basis, mean that Adult Social care is held at cash standstill in 2015-16 after savings and pressures have been taking into account.

25. A 2-year plan is required, however, to ensure that these one-off funds can be replaced by more sustainable proposals from the Better Care Fund or Health: this £10m is not sustainable within the SCC budget. The £10m would therefore be shifted to 2016-17, although clearly there will have to be a re-assessment of options once the 2016-17 funding cuts from Government are known.

Place

2015/16 Revenue Budget savings

26. The Portfolio intends to achieve its target savings in 2015/16 and 2016/17 by reducing the cost of the Streets Ahead Programme and waste management contracts as well as seeking savings in the South Yorkshire Passenger Transport Levy. The portfolio faces a significant challenge in re-negotiating the contract payments which if not achieved will require compensating savings in other services.

Resources Risks

Electric Works

27. The running costs of the business centre are not covered by rental and other income streams. The approved business plan set-aside contingency monies to cover potential deficits in its early years of operation. By the close of 2014/15 this contingency will have been fully utilised as the occupancy of units within Electric Works has been slower (lower) than that assumed within the business case, such that the call on the contingency has been greater (earlier) than planned. From 2015/16 onwards, responsibility for Electric Works is being transferred to the Place portfolio. The risk of covering any potential deficit for 2015/16 has been addressed as part of Place's business planning process.

28. A full review of the options for the future is underway and will be reported to Members as soon as possible.

Housing Revenue Account Risks

Housing Revenue Account (HRA)

29. There are a number of future risks and uncertainties that could impact on the 30 year HRA business plan. As well as the introduction of Universal Credit, outlined in the risk above, the main identified risks to the HRA are:

- **Interest rates:** fluctuations in the future levels of interest rates have always been recognised as a risk to the HRA.
- **Repairs and Maintenance:** existing and emerging risks within the revenue repairs budget include unexpected increased demand (for example due to adverse weather conditions).

Capital Programme Risks

Capital Receipts and Capital Programme

30. Failure to meet significant year on year capital receipts targets due to reduced land values reflecting the depressed market and the impact of the Affordable Housing policy. This could result in over-programming / delay / cancellation of capital schemes.

Housing Regeneration

31. There is a risk to delivering the full scope of major schemes such as Parkhill because of the severe downturn in the housing market. This could result in schemes 'stalling', leading to increased costs of holding the sites involved.

Bus Rapid Transit (BRT) North

32. The project is significantly over budget and a year behind schedule due to the discovery of asbestos on land which was previously thought to have been decontaminated, and, an unchartered sewer which has had to be relocated. The result could be that there is less qualifying spend than planned by the ERDF deadline. ERDF payments are based on an agreed percentage of costs at a specific time. This could create a gap of some £6– 8m in the project funding. In conjunction with South Yorkshire Passenger Transport Executive, the authority is seeking additional funding and recovering costs from the utility company.

Treasury Management Strategy Statement Minimum Revenue Provision Policy Statement and Annual Investment Strategy 2015/16

Introduction

Background

The Council is required to operate a balanced budget, which broadly means that cash raised during the year will meet cash expenditure. Part of the treasury management operation is to ensure that this cash flow is adequately planned for, with cash being available when it is needed. Surplus cash is invested in low risk counterparties and instruments in alignment with the Council's risk appetite. The security and liquidity of our investments are primary concerns before considering investment return.

The second main function of the treasury management service is the funding of the Council's capital programme. These capital plans provide a guide to the borrowing needs of the Council, informing the longer term cash flow planning to ensure that the Council can meet its capital spending obligations. This management of longer term cash may involve arranging long or short term loans, or using longer term cash flow surpluses. On occasion any loans or credit liabilities previously drawn may be restructured to meet Council risk or cost objectives.

CIPFA defines treasury management as:

"The management of the local authority's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks."

Reporting Requirements

The Council is required to receive and approve a number of reports each year, incorporating a variety of policies, estimates and actuals.

These reports include the:

Prudential and treasury indicators and treasury strategy (this report) – This report covers:

- the capital plans (including prudential indicators);
- a minimum revenue provision (MRP) policy (how residual capital expenditure is charged to revenue over time);

- the treasury management strategy (how the investments and borrowings are to be organised) including treasury indicators; and
- an investment strategy (the parameters on how investments are to be managed).

Annual treasury report – This provides details of a selection of actual prudential and treasury indicators and actual treasury operations compared to the estimates within the strategy.

The above reports are required to be adequately scrutinised before being recommended to the Council. This role is undertaken by the Cabinet Member for Finance.

Treasury Management Strategy for 2015/16

The strategy for 2015/16 covers two main areas:

Capital issues

- the capital plans and the prudential indicators;
- the minimum revenue provision (MRP) policy.

Treasury management issues

- the current treasury position;
- treasury indicators which limit the treasury risk and activities of the Council;
- prospects for interest rates;
- the borrowing strategy;
- policy on borrowing in advance of need;
- debt rescheduling;
- the investment strategy;
- creditworthiness policy; and
- policy on use of external service providers.

These elements cover the requirements of the Local Government Act 2003, the CIPFA Prudential Code, CLG MRP Guidance, the CIPFA Treasury Management Code and CLG Investment Guidance.

Training

The CIPFA Code requires the responsible officer to ensure that members with responsibility for treasury management receive adequate training.

During the course of the year the Cabinet Member for Finance has been provided with introductory treasury management training from officers. Further internal and external training will be considered as necessary.

The training needs of treasury management officers are also periodically reviewed. During the year officers attended workshops and seminars provided by the Council's consultants and CIPFA. The Council has also committed to commissioning training from the Association of Corporate Treasurers for one of its senior Treasury officers.

Treasury Management Consultants

The Council uses Capita Asset Services (formerly known as Sector) as its external treasury management advisors.

The Council recognises that responsibility for treasury management decisions remains with the organisation at all times and will ensure that undue reliance is not placed upon our external service providers.

It also recognises that there is value in employing external providers of treasury management services in order to acquire access to specialist skills and resources. The Council will ensure that the terms of their appointment and the methods by which their value will be assessed are properly agreed and documented, and subjected to regular review.

The Capital Prudential Indicators: 2015/16 – 2017/18

The Council's capital expenditure plans are the key driver of treasury management activity. The output of the capital expenditure plans is reflected in the prudential indicators, which are designed to assist members' overview and confirm capital expenditure plans.

Capital expenditure

This prudential indicator is a summary of the Council's capital expenditure plans.

The following table shows capital expenditure forecasts:

	2013.14	2014.15	2015.16	2016.17	2017.18
	Actuals	Estimate	Estimate	Estimate	Estimate
Capital Expenditure	£'000	£'000	£'000	£'000	£'000
Resources	£7,938	£5,969	£4,569	£0	0
CYP	£27,742	£31,745	£30,980	£18,933	168
Communities	£1,173	£1,893	£0	£0	0
Place	£20,207	£49,791	£72,288	£6,501	164.5
Housing	£41,022	£40,740	£92,165	£103,567	89041
Highways General	£11,221	£29,338	£4,706	£468	194.5
Highways Capital Contribution	£7,218	£32,883	£27,946	£26,803	£38,350
Total	£116,521	£192,360	£232,653	£156,271	£127,918

The above financing need does not include other long term liabilities, such as PFI arrangements. Assets will be acquired through PFI arrangements according to the following profile:

	2013.14	2014.15	2015.16	2016.17	2017.18
	Actuals	Estimate	Estimate	Estimate	Estimate
	£'000	£'000	£'000	£'000	£'000
Assets acquired through PFI					
Highways	£55,552	£39,528	£47,206	£47,059	£11,113
Schools	£567	£0	£0	£0	£0
Total	£56,119	£39,528	£47,206	£47,059	£11,113

The above tables show that Council will invest significantly in the city in coming years. The large amounts of money to be invested in highways through PFI arrangements and more traditional financing represents the Council's prioritisation of the city-wide Streets Ahead programme that will transform the city's road and pathway network.

The table below summarises our capital expenditure plans, and shows how these plans are being financed by capital or revenue resources. Any capital expenditure not funded by grants, receipts, or revenue contributions, results in a need for borrowing.

	2013.14	2014.15	2015.16	2016.17	2017.18
	Actual	Estimate	Estimate	Estimate	Estimate
	£'000	£'000	£'000	£'000	£'000
Capital expenditure:					
General Fund	£75,499	£151,619	£140,488	£52,705	£38,877
HRA	£41,022	£40,740	£92,165	£103,567	£89,041
Total	£116,521	£192,360	£232,653	£156,271	£127,918
Financed by:					
Capital Receipts	£7,290	£13,183	£24,433	£10,128	£7,783
Capital Grants & Contributions	£40,455	£80,121	£60,929	£30,013	£2,635
Revenue Contributions	£31,002	£27,903	£74,260	£89,204	£67,618
Net borrowing need for the year	£37,774	£71,153	£73,030	£26,927	£49,882
Fund Split:					
General Fund	£37,593	£68,243	£71,197	£26,927	£38,368
HRA	£181	£2,910	£1,833	£0	£11,514
Total	£37,774	£71,153	£73,030	£26,927	£49,882

Continued investment in the city is essential to ensure Sheffield remains an attractive place to live and do business. Investment does not simply mean development of our built environment, but also investment in our services to ensure we go about our business in an efficient and cost effective manner.

Judicious use of borrowing to support that investment remains a prudent financing option when borrowing costs remain low, and will be supported by the increased income generation we can expect to flow from our investments by way of increases in rates and savings generated by efficiencies generated in the way we conduct our business.

The majority of the Council's borrowing need over this period relates to the capital contributions to the Highways Streets Ahead project. This project is essential to enable the Council to maintain its road and pathway network in a cost effective manner, moving away from comparatively expensive and inefficient remedial repair work.

Using historically cheap borrowing for the Streets Ahead project has further enabled the Council to make significant savings on what we would have otherwise paid to a contractor under a PFI contract.

The Council also plans to use borrowing to support the development of the New Retail Quarter. This is a flagship scheme aimed at kick-starting the regeneration of the city centre.

Using borrowing to fund this scheme will allow us to press ahead with essential redevelopment at a time when the costs of borrowing are near all-time lows. The

costs of this borrowing will, in time, be offset by increased income generated from business rates.

The significant use of revenue to fund capital expenditure relates to the use of rental income raised in the HRA to fund capital works on the Council's housing stock.

The Council's need for borrowing (the Capital Finance Requirement)

The second prudential indicator is the Council's Capital Financing Requirement (CFR). The CFR is simply the total historic outstanding capital expenditure which has not yet been paid for from either revenue or capital resources. It is essentially a measure of the Council's underlying need for borrowing that has been built up over time and will be repaid in accordance with statutory rules.

Any capital expenditure which has not immediately been paid for from grants, receipts, or contributions, during the year will increase the CFR.

Most of the increase in CFR relates to General Fund expenditure. The HRA finances the significant amount of its capital expenditure through the income it raises from housing rents. Financing expenditure in this way means the HRA has less need for credit.

The CFR does not increase indefinitely. Statute requires the Council to charge an amount each year to the budget known as the minimum revenue provision (MRP). This charge mimics depreciation, reduces the CFR, and ensures the Council has enough cash to repay its debts.

The CFR also includes other long term liabilities such as PFI arrangements. Whilst these increase the CFR, and therefore the Council's borrowing requirement, these types of arrangements include a borrowing facility which means the Council is not required to separately borrow for these schemes. The Council currently has £363m of such arrangements within the CFR.

The following table shows CFR projections:

	2013.14	2014.15	2015.16	2016.17	2017.18
	Actual	Estimate	Estimate	Estimate	Estimate
	£'000	£'000	£'000	£'000	£'000
Capital Financing Requirement					
CFR General Fund	£819,406	£893,329	£976,523	£1,014,008	£1,032,247
CFR HRA	£346,336	£349,218	£351,023	£350,996	£362,483
Total CFR	£1,165,741	£1,242,547	£1,327,546	£1,365,004	£1,394,730
Movement in CFR	£69,015	£76,806	£84,999	£37,457	£29,726
<u>Movement in CFR represented by:</u>					
Expenditure not funded by grants, receipts, or contributions	£41,019	£67,524	£73,435	£29,114	£53,110
Additional PFI liabilities	£56,119	£39,528	£47,206	£47,059	£11,113
- MRP/VMRP and other movements	-£28,122	-£30,246	-£35,641	-£38,716	-£34,496
Movement in CFR	£69,015	£76,806	£84,999	£37,457	£29,726
Movement by Fund:					
General Fund	£68,266	£73,923	£83,194	£37,485	£18,239
HRA	£749	£2,882	£1,805	-£27	£11,487
Total Movement	£69,015	£76,806	£84,999	£37,457	£29,726

The table above shows that although the Council is taking on additional borrowing and PFI liabilities to create assets through capital expenditure, it is also charging prudent amounts of MRP to the budget to ensure it has enough cash to pay down its debts.

The costs of this debt will be funded through the revenue flows generated from the investment it enabled. These flows will arise from increased rates as new businesses set up in the city, and from cost reductions generated from investment that allows us to conduct our business in a more cost effective and efficient manner.

Minimum Revenue Provision (MRP) policy statement

Each year statute requires the Council to charge an amount to its General Fund revenue budget to raise cash to reduce the General Fund element of its CFR. This cash then ensures that the Council can pay down its debts.

The statute requires a minimum amount to be charged, but also allows the Council to charge more if it feels it prudent to do so. This is known as a Voluntary Minimum Revenue Provision (VMRP).

Regulations have been issued by the Department for Communities and Local Government that require the full Council to approve an MRP statement in advance each year. This statement sets out how the Council determines how the MRP will be

calculated. Guidance affords a variety of options to Councils, so long as the calculation results in a prudent provision.

The Council is recommended to approve the following MRP statement:

For capital expenditure incurred before 1st April 2008, or which in the future will be Supported Capital Expenditure (expenditure which receives income support from government), MRP will be charged on a flat line basis over fifty years. This will ensure that all debt associated with Supported Capital Expenditure is fully provided for up to the Adjustment A level that is required of us by government within fifty years.

This approach better aligns the charges we make to the General Fund with the funding we receive from government and, importantly, accelerates the rate at which the Council will provide for this debt over the Council's previous policy of using the 'regulatory method'. This approach does, therefore, represent a more prudent way of ensuring the Council can pay down debt in good time.

The Council will review the efficacy of this approach with its auditors and other stakeholders during financial year 2015/16, and will apply voluntary minimum revenue provisions to realign overall charges to the 'regulatory method' where it is considered prudent to do so.

From 1st April 2008, the MRP on all unsupported borrowing will be based on the 'asset life method'. This means that MRP will be based on the estimated useful life of the assets created.

Where it is considered prudent to do so, the Council will adopt an annuity profile for MRP charges under the asset life methodology. Adoption of this approach will be considered on a scheme-by-scheme basis, and will only be used where adoption will result in costs being better aligned to the benefit flows that will accrue from the investment.

There is no requirement on the HRA to make a minimum revenue provision but there is a requirement for a charge for depreciation to be made. The HRA may opt to make voluntary revenue provisions where it is prudent to do so.

Where appropriate, the Council will defer the MRP related to specific projects until the asset(s) for the project become(s) operational. This is known as an MRP holiday and will allow the Council to align borrowing repayments to the economic benefit generated from those assets.

The Council will also withhold MRP payments related to the acquisition of assets purchased under compulsory purchase orders (CPO) where there is a commitment to pass these assets and their costs onto a development vehicle.

Where capital loans are provided by the Council under section 25 of the The Local Authorities (Capital Finance and Accounting) (England) Regulations 2003, the Council will, where it is prudent to do so, align MRP profiles to loan repayments. This will ensure the Council does not unnecessarily charge amounts to its revenue budget.

The Council can at times receive capitalisation directives from the Secretary of State. Where this is the case, the Council's policy will be to provide for MRP as the capitalisation is defrayed, rather than on initial recognition. The 'asset-life' approach will be taken to providing for MRP on capitalisations, but where there is no discernible asset-life the Council will opt for a 20 year life.

Repayments included in annual PFI or finance leases are applied as MRP.

Core Funds and Expected Investment Balances

The application of resources (capital receipts, grants, revenue reserves) to finance capital expenditure will have an associated impact on investment balances, unless resources are supplemented each year from new sources such as asset sales or the receipt of other grants. This is simply because as receipts, reserves, and grants are spent, there is less cash available to place on deposit.

Detailed below are estimates of the year end balances for each resource and anticipated day to day cash flow balances.

	2013.14	2014.15	2015.16	2016.17	2017.18
	Actual	Current	Estimate	Estimate	Estimate
	£'000	£'000	£'000	£'000	£'000
Year End Resources:					
Cash backed reserves*	£212,450	£160,817	£167,067	£150,745	£140,224
Capital Receipts	£34,452	£21,000	£10,000	£10,000	£10,000
Provisions	£48,378	£48,229	£43,229	£38,229	£36,229
Total Core Funds	£295,280	£230,046	£220,296	£198,974	£186,453
Working Capital	-£60,341	£40,743	-£26,511	-£40,111	-£40,911
(Under)/over Borrowing	-£142,137	-£179,041	-£155,952	-£125,283	-£117,209
Expected Investments	£92,802	£91,748	£37,833	£33,580	£28,333

**The majority of these reserves are earmarked for future spend, and do not represent available surplus for the budget*

The table above shows that the Council's investment balances are expected to fall in the coming years from the high seen in 2013/14. This is consistent with the Council's

approach to using its surplus cash to repay or restructure existing financial obligations in order to create revenue savings.

This approach makes financial sense when investment returns from cash held on deposit are particularly poor and there is still a relatively high risk in placing cash on deposit with financial institutions.

As an example, during 2014/15 the Council used surplus cash balances (that is, cash we don't need right now) to prepay its pension deficit contributions due to the South Yorkshire Pensions Authority. In return for paying early, the Pensions Authority awarded the Council a significant discount. In total, this transaction is expected to save the Council around £2.6m which can be used to support under-pressure services.

The table also highlights that our cash balances are likely to fall due to the reduction in our reserves. With ongoing pressure on our budget, the Council plans to use reserves to support service provision. As these reserves are spent our cash balances will fall.

The above table also indicates that the Council will continue to operate an under-borrowed position. This means that instead of using external borrowing to fund capital expenditure the Council will use its surplus cash. Surplus cash arises from timing differences between when the money comes into the Council and when we expect to spend it. Surplus cash rarely means that this is resource available to invest in services, as more often than not it has already been earmarked to support future expenditure.

Operating an under-borrowed position using this surplus cash is a prudent approach since it temporarily removes the need for external loans that incur interest charges, and reduces investment balances that are otherwise exposed to default risk for only minimal returns.

However, this approach involves a different form of risk around interest rates. Should the Council's plans change in the future it may need additional cash that is no longer available to support the under-borrowed position. If this occurred the Council would be required to go to the markets to raise cash through loans. The risk is, therefore, that should we need to raise loans they will be more expensive than they are now.

To mitigate this risk, and reduce the under-borrowed position from the 2014/15 highs, the Council intends to take new loans in 2015/16 whilst rates remain historically low. These loans will bring cash into the Council to offset the outflows principally associated with our investments in the NRQ and Streets Ahead schemes.

Treasury officers will continue to monitor the financial markets to ensure our cash management plans are properly aligned to the Council's investment decisions and the ongoing risks in the wider economy.

The Council's expected investment balances are likely to fluctuate considerably during the year due to the irregular nature of cash flows, in particular grant income received from government.

Affordability Prudential Indicators

The previous sections cover the overall capital and control of borrowing prudential indicators. Prudential indicators are also required to assess the affordability of the capital investment plans. These indicators highlight the impact of the capital investment plans on the Council's overall finances.

The Council is asked to approve the following indicators:

Ratio of Financing Costs to Net Revenue Stream

This indicator identifies the trend in the cost of capital (principally borrowing and PFI arrangements) against the net revenue stream. The net revenue stream consists of the money we have available from grant, Council Tax, and other sources that is without restriction and can be spent as the Council sees fit.

The indicator below highlights a rise in the amount of the General Fund net revenue stream that is being spent on financing costs:

	2013.14	2014.15	2015.16	2016.17	2017.18
Ratio of financing costs to	Actual	Estimate	Estimate	Estimate	Estimate
net revenue stream:	£'000	£'000	£'000	£'000	£'000
Non-HRA	14%	16%	18%	20%	19%
HRA	10%	10%	9%	10%	10%

However, this ratio should not be viewed entirely in isolation from other sources of information.

The increase in financing costs relates largely to the Council's investment in the Streets Ahead project and the New Retail Quarter.

The Streets Ahead project is a huge city-wide investment scheme that will bring up to standard the condition of the city's roads, bridges, pavements, lights, and street scene.

This project not only addresses one of the public's and businesses' principal concerns, but also allows the Council to move away from expensive remedial repair work to a managed affordable maintenance approach based on the up-front investment.

This approach sees costs saved on service budgets which are not reflected in the above prescribed ratios.

The Council also plans to invest significantly in the city centre to kick-start the regeneration of the area known as the New Retail Quarter. This investment will not only help to deliver a revived retail area to enable the city centre to compete with out-of-town alternatives and regional competition, but will also attract rate paying businesses to the city.

The increased rates this investment will generate will help to service the costs associated with the investment.

The HRA's static ratio reflects that costs are currently largely being funded through housing rents, restricting the need for additional borrowing. Although the HRA has a significant investment programme from 2016 onwards it is anticipated that the initial costs of servicing any borrowing required will be largely offset from the expected increase in its housing rents income base.

Incremental Impact of Capital Investment Decisions on Council Tax

The Council operates a policy of striving to ensure that all new unsupported borrowing funded projects are self-financing. This means that existing budgets are found to fund new borrowing costs, or that the projects operate on an 'invest-to-save' basis whereby investment in a project enables savings to, at a minimum, service the borrowing costs incurred on that project. As a result of this policy, capital projects funded by borrowing should not, in normal circumstances, add additional costs to the Council's budget.

The Council considers a variety of options when considering how to fund capital projects. Currently, and due to global economic conditions, the Council can borrow money at historically low rates. This has enabled the Council to use borrowing to fund capital projects that will in turn generate revenue savings whilst helping us meet our wider objectives.

As an example, the Council will be using cash raised from borrowing to part finance the Streets Ahead project. By putting our own cash into the project the Council has been able to secure significant savings on the contract cost the PFI provider would otherwise have charged us. This saving arises because borrowing costs are significantly cheaper for the Council than the provider.

Equally, the Council is using cash raised from borrowing to enable us to invest in innovative new processes and ways of working. By paying for extensions to foster carers' houses the Council is enabling carers to take additional children into their homes where they would have otherwise been restricted from doing so simply due to available space. This provides the dual benefit of allowing siblings entering foster

care to be cared for together, and allows us to avoid arranging for children to be cared for outside of the city, or in other establishments, at significant additional cost.

The Council is also using borrowing as a means of delivering a more efficient, less expensive service. This is particularly evident through our approach to rationalising our city-wide office accommodation. By investing in a central hub at Moorfoot, the Council has been able to move out of expensively leased private accommodation around the city, whilst also securing procurement efficiencies by having staff concentrated in one building.

Accordingly the following indicator should not be viewed in isolation from the fact that our capital investments are generating revenue savings that are not represented within the figures shown. These saving have, though, contributed towards the Council managing the significant cuts imposed upon it without recourse to large Council Tax rises.

The indicator does, however, show what the cost to an average Band A council tax bill would be if we did not follow the policy and all new borrowing costs had to be met by an increase on council tax:

	Actual	Estimate	Estimate	Estimate	Estimate
	£'000	£'000	£'000	£'000	£'000
Council Tax Band A	£2.95	£20.59	£38.33	£50.61	£57.24

The average impact upon a Band D council tax bill would be:

	Actual	Estimate	Estimate	Estimate	Estimate
	£'000	£'000	£'000	£'000	£'000
Council Tax Band D	£4.42	£30.89	£57.50	£75.92	£85.86

Estimates of the Incremental Impact of Capital Investment Decisions on Housing Rent Levels

Following the end of the subsidy system and the move to self-financing HRAs, costs incurred in the HRA are principally funded from housing rents.

This indicator shows the impact of HRA capital investment decisions outlined in this report on weekly housing rent levels.

	2013.14	2014.15	2015.16	2016.17	2017.18
	Actual	Estimate	Estimate	Estimate	Estimate
	£'000	£'000	£'000	£'000	£'000
Weekly housing rents	£0.00	£0.03	£0.06	£0.07	£0.16

The table shows a minimal impact on rent levels. This is consistent with the fact that the HRA's plans to fund capital investment through borrowing are currently small, with most investment being directly funded through rents or receipts. However, the small charge is also symptomatic of the fact that the HRA is not obliged to charge MRP to its budget as the General Fund does.

However, the HRA does have a significant housing stock investment programme from 2016 onwards that will be supported by borrowing. This is reflected by the increase in the incremental impact on rents from 2016/17.

It should be further noted that the government largely controls housing rent levels through a prescribed formula. Accordingly, any increase in financing costs would primarily need to be offset by cost reductions in other areas to ensure rents stayed within the given parameters.

Borrowing

The capital expenditure plans set out previously provide details of the Council's investment plans. The treasury management function ensures that the Council's cash is organised in accordance with relevant professional codes, so that sufficient cash is available to meet these plans. This will involve both the organisation of the cash flow, and where required, the organisation of appropriate borrowing facilities.

This section of the strategy covers the relevant treasury and prudential indicators, the current and projected debt position, and the annual investment strategy.

Current Portfolio Position

The Council's debt portfolio position is outlined below. The table below shows actual external debt against the CFR which represents the Council's need to borrow for capital purposes.

Comparing actual debt to the CFR highlights any under or over borrowing. Under borrowing represents the Council's use of its own cash surpluses rather than external debt, whilst over borrowing represents the Council taking on more debt than it needs at that point in time.

	2013.14	2014.15	2015.16	2016.17	2017.18
	Actual	Estimate	Estimate	Estimate	Estimate
	£'000	£'000	£'000	£'000	£'000
External Debt					
Loans at 1st April	£698,388	£687,999	£679,003	£757,747	£797,997
Expected change in Loans	-£10,389	-£8,996	£78,744	£40,249	£40,964
PFI liabilities at 1st April	£290,803	£335,603	£363,111	£395,228	£426,155
Expected change in PFI liabilities	£44,800	£27,508	£32,117	£30,927	£190
Transferred Debt at 1st April	£26,204	£23,912	£21,392	£18,619	£15,570
Expected Change in Transferred Debt	-£2,291	-£2,521	-£2,773	-£3,050	-£3,355
Actual Gross Debt at 31st March	£1,047,515	£1,063,506	£1,171,594	£1,239,721	£1,277,521
The Capital Financing Requirement	£1,165,741	£1,242,547	£1,327,546	£1,365,004	£1,394,730
Authority Under/(Over) Borrowing	£118,226	£179,041	£155,952	£125,283	£117,209
By Fund:					
GF Under / (Over) Borrowing		£123,983	£100,000	£100,000	£100,000
HRA under/(Over) Borrowing		£55,058	£55,952	£25,283	£17,209
Total		£179,041	£155,952	£125,283	£117,209

The rise in external loans and PFI liabilities is consistent with the Council's significant investment in the Streets Ahead project. The Council has committed to making MRP charges to eliminate the debt associated with this project by 2038.

The table also highlights that the Council plans to continue to operate an under borrowed position. This means that in the near term the Council will opt to use some of its surplus cash to fund capital expenditure rather than take out new loans.

This policy is helping the Council to meet its budget challenges by allowing us to avoid the interest charges that come with external loans. It does, however, mean that the Council loses investment income from cash that would otherwise be on deposit. As investment returns are currently poor, and default risk from financial institutions still elevated, this represents a prudent use of our cash.

The table does show, however, that the Council intends to reduce its under borrowed position to more manageable levels. This is a deliberate move to mitigate the Council's exposure to interest rate risk. Whilst using our surplus cash in the short term is beneficial, in the longer term we are likely to have to replenish that cash with loans in order for it to be spent as originally planned for. Interest rate risk is the risk that when we come to find to raise those loans the cost of servicing them is prohibitively high. This is an issue the Council is monitoring closely, as interest rates are likely to rise in the coming years.

This indicator also serves as a test as to whether the Council complies with the requirement to ensure that its gross debt does not, except in the short term, exceed the total of the CFR in the preceding year plus the estimates of any additional CFR for 2015/16 and the following two financial years.

The Director of Finance reports that the Council complied with this prudential indicator in the current year and does not envisage difficulties for the future. This view takes into account current commitment, existing plans, and the proposals in this budget report.

Treasury Indicators: Limits to Borrowing Activity

The **operational boundary** is the limit beyond which external debt is not normally expected to exceed. In most cases, this would be similar figure to the CFR but sometimes due to cash flow issues debt can be above or below the CFR.

The operational boundary can be exceeded, but it does serve as a useful indicator to assessing the Council's external debt levels.

The following table shows the Council's estimates for its operational boundary:

	2014.15	2015.16	2016.17	2017.18
	Actual	Estimate	Estimate	Estimate
	£'000	£'000	£'000	£'000
Operational Boundary				
Loans	£840,000	£850,000	£900,000	£950,000
Other Long Term Liabilities	£390,000	£420,000	£450,000	£450,000
Total	£1,230,000	£1,270,000	£1,350,000	£1,400,000

The **authorised limit on external debt** represents a control on the maximum amount of debt the Council can legally hold. Under Section 3 of the Local Government Act 2003 this limit is agreed by full Council and cannot be revised without that body's agreement.

The authorised limit reflects the level of external debt which, while not desired, could be afforded in the short term, but is not sustainable in the long term.

The Council is asked to approve the following limit:

	2014.15	2015.16	2016.17	2017.18
	Actual	Estimate	Estimate	Estimate
	£'000	£'000	£'000	£'000
Authorised Limit				
Loans	£940,000	£1,100,000	£1,100,000	£1,100,000
Other Long Term Liabilities	£407,000	£420,000	£450,000	£450,000
Total	£1,347,000	£1,520,000	£1,550,000	£1,550,000

Separately, the government also limits the amount of debt the HRA can hold through a cap that was set in 2013. This debt-cap arose as a result of the HRA's transition from a government supported subsidy system to a self-financing approach.

The HRA's debt (CFR position) is currently under the cap. The difference between the cap and the HRA's CFR represents the headroom it has to use credit to fund capital investment.

The debt cap and the HRA's headroom position are currently:

	2014.15	2015.16	2016.17	2017.18
	Estimate	Estimate	Estimate	Estimate
	£'000	£'000	£'000	£'000
HRA Debt Limit				
HRA Debt Cap	£388,311	£388,311	£388,311	£388,311
HRA CFR	£346,336	£349,218	£351,023	£350,996
HRA Headroom	£41,975	£39,093	£37,288	£37,315

Prospects for Interest Rates

Until 2013, the economic recovery in the UK since 2008 had been the worst and slowest recovery in recent history. However, growth rebounded during 2013 and 2014, due largely to a recovery in consumer spending and continued growth in the housing market.

Forward surveys are currently positive in indicating that growth prospects are strong for 2015, particularly in the services and construction sectors. However, growth in the manufacturing sector and in exports has weakened during 2014 due to poor growth in the Eurozone. For a more sustained recovery the economy will need to see a move away from short-term consumer spending led bubbles, to export driven growth centred on manufacturing and business investment.

Wage inflation continues to drag on the economy. Growth has consistently been lower than CPI inflation, so eroding disposable income and living standards, although income tax cuts have ameliorated this to some extent. This therefore means that labour productivity must improve significantly for this situation to be corrected by warranting increases in pay rates. In addition, the encouraging rate at which unemployment has been falling must eventually feed through into pressure for wage increases, though current views on the amount of hidden slack in the labour market probably means that this is unlikely to happen in the near future.

The US, the main world economy, faces similar debt problems to the UK, but thanks to reasonable growth, cuts in government expenditure and tax rises, the annual government deficit has been halved from its peak without appearing to do too much damage to growth.

The current economic outlook and structure of market interest rates and government debt yields have several key treasury management implications:

- Within the Eurozone, concerns in respect of a major crisis subsided considerably in 2013. However, the downturn in growth and inflation during the second half of 2014, coupled with worries over the Ukraine situation, the ongoing violence in the Middle East, and Ebola, have led to a resurgence of those concerns as risks increase that it could be heading into deflation and a triple dip recession. Sovereign debt difficulties have not gone away and major concerns could return in respect of individual countries that do not dynamically address fundamental issues of low growth, international uncompetitiveness and the need for overdue reforms of the economy. It is, therefore, possible over the coming years that levels of government debt to GDP ratios could continue to rise to levels that could result in a loss of investor confidence in the financial viability of such countries. Counterparty risks therefore remain elevated. This continues to suggest the use of higher quality counterparties for shorter time periods;
- Investment returns are likely to remain relatively low during 2015/16 and beyond;
- Borrowing interest rates have been volatile during 2014 as alternating bouts of good and bad news have prompted optimism, and then pessimism, in financial markets. During July to October 2014, a building accumulation of negative news has led to an overall trend of falling rates. The policy of avoiding new borrowing by running down spare cash balances has served well over the last few years and supported our revenue budget, however we remain vigilant to the prospect of interest rate risk and have plans to mitigate that risk in the forthcoming financial year;
- There will remain a cost of carry to any new borrowing which causes an increase in investments as this will incur a revenue loss between borrowing costs and investment returns.

Borrowing strategy

The Council is currently maintaining an under-borrowed position, and plans to do so for the coming years. This means that the capital borrowing need (the Capital Financing Requirement), has not been fully funded with loans and other credit arrangements such as PFI. Instead cash supporting the Council's reserves, balances and working capital has been used as a temporary measure. This strategy is prudent as investment returns are low and counterparty risk is relatively high, whilst the approach has allowed us to avoid interest costs and thus support the revenue budget.

However, the Council recognises the inherent risk in operating to this strategy and has plans to mitigate its position through a draw down of loans in 2015/16 to replenish cash balances and finance the Council's investment plans.

Against this background and the risks within the economic forecast, caution will be adopted. The Director of Finance will monitor interest rates in financial markets and adopt a pragmatic approach to changing circumstances.

The Council's under borrowed position is currently supported by reasonable cash balances from reserves, grants unapplied, receipts and other sources. However, these balances are expected to fall, which increases our exposure to interest rate risk.

The Director of Finance will continue to monitor the interest rate environment and market borrowing rates.

If it is felt that there is likely to be a fall in the cost of borrowing, or an extension to the current low cost period, then the Council's plans for its reduction of the internal borrowing position will be reviewed, with consideration being given to maintaining the position at its current levels, or increasing it.

However, if it was felt that there was a significant risk that the cost of borrowing was likely to increase beyond that currently being forecast, the Director of Finance will give consideration to taking on more fixed-rate loans whilst interest rates are still lower than they would be in future years.

The cost of borrowing is likely to be effected by global events. Financial year 2014/15 has seen 'event-risk' consistently effect both borrowing and investment rates as global instability has intermittently pushed investors back into safe-haven assets. Decisions taken on how to manage quantitative easing in the US, and whether to implement it in the Eurozone, will help determine market sentiment towards asset classes such as UK gilts. The pace of recovery in the global economy will also weigh heavily on demand for sovereign debt.

Any decisions on the drawdown of loans will be reported to the Cabinet Member for Finance at the next available opportunity.

Treasury management limits on activity

There are three debt related treasury activity limits. The purpose of these are to restrain the activity of the treasury function within certain limits, thereby managing risk and reducing the impact of any adverse movement in interest rates. However, if these are set to be too restrictive they will impair the opportunities to reduce costs / improve performance. The indicators are:

- Upper limits on variable interest rate exposure. This identifies a maximum limit for variable interest rates based upon the debt position net of investments

- Upper limits on fixed interest rate exposure. This is similar to the previous indicator and covers a maximum limit on fixed interest rates;
- Maturity structure of borrowing. These gross limits are set to reduce the Council's exposure to large fixed rate sums falling due for refinancing, and are required for upper and lower limits.

The Council is asked to approve the following treasury indicators and limits:

	2015.16	2016.17	2017.18
	£'000	£'000	£'000
interest rate exposure	Upper	Upper	Upper
Limits on fixed interest rates based on net debt	100%	100%	100%
Limits on variable interest rates based on net debt	£178,000	£178,000	£178,000

This table indicates our desire not to increase the number of variable rate loans we have beyond our current floating-rate lender option buyer option (LOBO) bank loans.

	2014/15	
	Lower	Upper
Maturity structure of fixed interest rate borrowing:		
Under 12 months	0%	20%
12 months to 2 years	0%	20%
2 years to five years	0%	20%
5 years to 10 years	0%	40%
10 years to 20 years	0%	40%
20 years to 30 years	0%	20%
30 years to 40 years	0%	15%
40 years to 50 years	0%	15%

This table shows the Council's desire to avoid having too many loans maturing in any one period. The Council currently expects the majority of its loans to mature in the medium term, supporting the HRA business plan and aligning maturities to our CFR profiles to avoid over-borrowing situations.

	2014/15	
	Lower	Upper
Maturity structure of variable interest rate borrowing:		
Under 12 months	0%	100%
12 months to 2 years	0%	0%
2 years to five years	0%	0%
5 years to 10 years	0%	0%
10 years to 20 years	0%	0%
20 years to 30 years	0%	0%
30 years to 40 years	0%	0%
40 years to 50 years	0%	0%

This table is reflective of our floating-rate LOBO bank loans. The bank has the option to re-set the interest rate on these loans every six months. As the Council then has the option to accept the rate or repay these loans, we are required to show them as maturing within 12 months for the purposes of this indicator.

The Council monitors the potential for the rates on these loans to re-set, but does not believe this is likely in 2014/15. Accordingly, and despite this indicator, we do not expect to repay these loans in 2014/15.

Policy on Borrowing in Advance of Need

The Council will not borrow more than, or in advance of, its needs purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be within forward approved Capital Financing Requirement estimates, and will be considered carefully to ensure that value for money can be demonstrated and that the Council can ensure the security of such funds.

Debt Rescheduling

As short term borrowing rates will be considerably cheaper than longer term fixed interest rates, there may be potential opportunities to generate savings by switching from long term debt to short term debt. However, these savings will need to be considered in the light of the current treasury position and the size of the cost of debt repayment (premiums incurred).

The reasons for any rescheduling to take place will include:

- * the generation of cash savings and / or discounted cash flow savings;
- * helping to fulfil the treasury strategy;
- * enhance the balance of the portfolio (amend the maturity profile and/or the balance of volatility).

Consideration will also be given to identify if there is any residual potential for making savings by running down investment balances to repay debt prematurely as short term rates on investments are likely to be lower than rates paid on current debt.

Consideration was given to rescheduling opportunities during 2014/15, but the costs of terminating loans early outweighed any potential gain.

Any rescheduling will be reported to the Cabinet Member for Finance, at the earliest meeting following its action.

Municipal Bond Agency

It is likely that the Municipal Bond Agency, currently in the process of being set up, will be offering loans to local authorities in the near future. It is also hoped that the borrowing rates will be lower than those offered by the Public Works Loan Board (PWLB). The Council will review the efficacy of lending from the Agency in the forthcoming year.

Annual Investment Strategy

Investment Policy

The Council's investment policy has regard to the government's Guidance on Local Government Investments ("the Guidance") and the 2011 revised CIPFA Treasury Management in Public Services Code of Practice and Cross Sectoral Guidance Notes ("the CIPFA TM Code").

The Council's investment priorities will be security first, liquidity second and then return. This ensures we do not chase yield at the expense of the security of our investment.

In accordance with guidance from government and CIPFA, and in order to minimise the risk to investments, the Council clearly stipulates the minimum acceptable credit quality of counterparties for inclusion on the lending list.

The creditworthiness methodology used to create the counterparty list fully accounts for the ratings, watches, and outlooks, published by all three ratings agencies with a full understanding of what these reflect in the eyes of each agency. Using these ratings services, potential counterparty ratings are monitored on a real time basis with knowledge of any changes notified electronically.

Furthermore, officers recognise that ratings should not be the sole determinant of the quality of an institution and that it is important to continually assess and monitor the financial sector on both a micro and macro basis and in relation to the economic and political environments in which institutions operate.

The assessment will also take account of information that reflects the opinion of the markets. To this end the Council engages with its advisors to maintain a monitor on market pricing such as 'credit default swaps', and overlay that information on top of the credit ratings. This is fully integrated into the credit methodology provided by our advisors, Capita Asset Services, in producing its colour codings which show the varying degrees of suggested creditworthiness.

Other information sources used will include the financial press, share price and other such information pertaining to the banking sector, in order to establish the most robust scrutiny process on the suitability of potential investment counterparties.

The intention of the strategy is to provide security of investment and minimisation of risk. The strategy also enables the Council to operate a diversified investment portfolio to avoid an over concentration of risk.

Investment instruments identified for use in the financial year are listed under the 'specified' and 'non-specified' investments categories. Counterparty limits will be as set through the Council's treasury management practices.

Creditworthiness Approach

This Council applies the creditworthiness service provided by Capita Asset Services. This service employs a sophisticated modelling approach utilising credit ratings from the three main credit rating agencies - Fitch, Moody's and Standard and Poor's. The credit ratings of counterparties are supplemented with the following overlays:

- credit watches and credit outlooks from credit rating agencies;
- CDS spreads to give early warning of likely changes in credit ratings;
- sovereign ratings to select counterparties from only the most creditworthy countries.

This modelling approach combines credit ratings, credit watches and credit outlooks in a weighted scoring system which is then combined with an overlay of CDS spreads. The end product is a series of colour coded bands which indicate the relative creditworthiness of counterparties. These colour codes are used by the Council to determine the suggested duration for investments. The Council will therefore use counterparties within the following durational bands :

Colour Band	Duration
Yellow	5 years *
Dark pink	5 years for Enhanced money market funds (EMMFs) with a credit score of 1.25
Light pink	5 years for Enhanced money market funds (EMMFs) with a credit score of 1.5
Purple	2 years
Blue	1 year (only applies to nationalised or semi nationalised UK Banks)
Orange	1 year
Red	6 months
Green	100 days
No colour	not to be used

	Colour (and long term rating where applicable)	Money and/or % Limit	Time Limit
Banks *	yellow	100%	5 years
Banks	purple	£30m	2 years
Banks	orange	£30m	1 year
Banks – part nationalised**	blue	£50m	1 year
Banks	red	£15m	6 months
Banks	green	£10m	100 days
Banks	No colour	Not to be used	
Council's banker (Barclays) in the event of the bank being 'no colour'	-	100 %	3 days
DMADF	AAA	100%	6 months
Local authorities	n/a	£30m	5yrs
Money market funds	AAA	100 %	liquid
Enhanced money market funds with a credit score of 1.25	Dark pink / AAA	100 %	liquid
Enhanced money market funds with a credit score of 1.5	Light pink / AAA	100 %	liquid

* Please note: the yellow colour category is for UK Government debt, or its equivalent, constant net asset value money market funds and collateralised deposits where the collateral is UK Government debt.

** When placing deposits with part nationalised banks the Council will take care to review when it expects the UK Government to divest its interest in the institution, and the impact this move would have on the Council's view of the institutions security. The Council does not expect to place deposits for maturities greater than 12 months during 2014/15. Should it choose to do so, the action will be reported to the Cabinet Member for Finance at the earliest available opportunity.

Our creditworthiness service uses a wider array of information than just primary ratings and, by using a risk weighted scoring system, does not give undue preponderance to just one agency's ratings.

Typically the minimum credit ratings criteria the Council use will be a short term rating (Fitch or equivalents) of short term rating F1, and a long term rating A. There may be occasions when the counterparty ratings from one rating agency are marginally lower than these ratings but may still be used. In these instances consideration will be given to the whole range of ratings available, or other topical market information, to support their use.

All credit ratings will be monitored daily. The Council is alerted to changes to ratings of all three agencies through its use of the Capital Asset Services creditworthiness service.

- if a downgrade results in the counterparty / investment scheme no longer meeting the Council's minimum criteria, its further use as a new investment will be withdrawn immediately.
- in addition to the use of credit ratings, the Council will be advised of information in movements in credit default swap spreads against the iTraxx benchmark and other market data on a weekly basis. Extreme market movements may result in downgrade of an institution or removal from the Council's lending list.

Sole reliance will not be placed on the use of this external service. The Council will also use market data and market information, information on government support for banks, and the credit ratings of that supporting government.

Country limits

The Council has determined that it will only use approved counterparties from countries with a minimum sovereign credit rating of AA- from Fitch. The list of countries that qualify using this credit criteria as at the date of this report are shown in an appendix. This list will be added to, or deducted from, by officers should ratings change in accordance with this policy.

Investment strategy

When considering its investments the Council will consider:

- Its longer term cash balances. This is cash available for use in the medium to long term, and comes from reserves, grants and receipts that are yet to be spent;
- Short term cash flow requirements that arise on a daily basis; and,
- Expectations on interest rates. This is important for the Council when determining a required rate of return on our investments.

The Bank of England base rate is forecast to remain unchanged at 0.5% before starting to rise from quarter 2 2016. Base rate forecasts for financial year ends (March) are as follows:

Year	Base Rate Forecast
2015/16	0.5% - 1%
2016/17	1% - 1.50%
2017/18	1.50% - 1.75%

There are upside risks to these forecasts (i.e. start of increases in base rate occurs sooner) if economic growth remains strong and unemployment falls faster than expected. However, should the pace of growth fall back, there could be downside risk, particularly if Bank of England inflation forecasts for the rate of fall of unemployment were to prove to be too optimistic.

The suggested budgeted investment earnings rates for returns on investments placed for periods up to 100 days during each financial year for the next four years are as follows:

Year	Proposed Returns
2015/16	0.90%
2016/17	1.50%
2017/18	2.00%
2018/19	2.50%

The Council also offers an indicator for the forecast total funds invested for greater than 364 days. These limits are set with regard to the Council's cash requirements and to reduce the need for early sale of an investment.

The Council does not expect to place deposits with maturity dates in excess of 12 months, but should it do so the monetary value of those deposits will not exceed:

	2015.16	2016.17	2017.18
Invested greater than 365 days	£'000	£'000	£'000
Maximum sums	£30,000	£30,000	£30,000

Appendix 1

Treasury Management Practice (TMP1) – Credit and Counterparty Risk Management

SPECIFIED INVESTMENTS:

All such investments will be sterling denominated, with **maturities up to maximum of 1 year**, meeting the minimum 'high' quality criteria where applicable.

The following specified investment instruments, along with their minimum credit rating, have been outlined below:

	* Minimum credit criteria / colour band	** Max % of total investments / £ limit per institution
DMADF – UK Government	UK sovereign rating	100%
Bonds issued by multilateral development banks	AAA	100%
Money market funds	AAA	100%
Enhanced money market funds with a credit score of 1.25	AAA	100%
Enhanced money market funds with a credit score of 1.5	AAA	100%
Local authorities	N/A	100%
Term deposits with banks and building societies	Green	£10m
CDs or corporate bonds with banks and building societies	Green	£10m
Gilt funds	UK sovereign rating	100%

NON-SPECIFIED INVESTMENTS:

These are any investments which do not meet the specified investment criteria. Non-specified investments are typically viewed as being riskier than specified investments.

A maximum of £30m will be held in aggregate in non-specified investment.

A variety of investment instruments are outlined below. The Council has selected these instruments based on their high credit quality.

The criteria, time limits and monetary limits applying to institutions or investment vehicles are:

	* Minimum credit criteria / colour band	** Max % of total investments/ £ limit per institution	Max. maturity period
UK Government gilts	UK sovereign rating	100%	5 years
UK Government Treasury bills	UK sovereign rating	100%	5 years
Local authorities	N/A	100%	5 years
Gilt funds	UK sovereign rating	100%	5 years
Banks	Purple Yellow	100% 100%	2 years 5 years

PAY POLICY STATEMENT

March 2015

1.0 Background

- 1.1 Sheffield City Council is required under Sections 38 – 43 of the Localism Act 2011 to publish its pay policy; Sheffield City Council has routinely, on an annual basis, published data on all posts which have remuneration above £50,000.
- 1.2 Much of the information contained in this report has been placed in the public domain by Sheffield City Council over a number of years; this report pulls this information together in one Council report.
- 1.3 Sheffield City Council undertakes quarterly monitoring of posts which have a remuneration of over £50,000, and over the past two years there has been active management of the number of these posts resulting in a total reduction of 27 posts in Sheffield City Council since January 2009. However due to Sheffield Homes and Public Health Services being transferred in to Sheffield City Council there were an additional 14 posts over £50,000 making the actual overall reduction to 41.
- 1.4 The Council continues to monitor closely its senior management posts and keeps the structure under review to ensure it continues to be fit for purpose.
- 1.5 This policy statement does not cover or include staff employed by schools and is not required to do so.
- 1.6 This policy statement is required to be considered and approved by full Council at the Council meeting on 6 March 2015.

2.0 Definition of Officers Covered by this Policy Statement

- 2.1 This policy statement covers the following posts, full details of these posts is attached at **Annex A**.
 - a) **Head of the Paid Service**, which in Sheffield City Council is the post of:
 - i) Chief Executive
 - b) **Statutory Chief Officers**, which in Sheffield City Council are the posts of:
 - i) Director of Adult Services (under LASSA 1970) (pending recruitment)
 - ii) Executive Director CYPF (Director of Children's Services under Children's Act)
 - iii) Director of Legal and Governance (Monitoring Officer)
 - iv) Executive Director of Resources (Chief Finance Officer under Sec 151 of LGA1972)
 - v) Director of Public Health

- c) **Non-statutory Chief Officers** (those who report to the Head of Paid Service or Statutory Officer)
- d) **Chief Officers** (those who report to Non Statutory Chief Officers)

3.0 Pay Policy Statement

Sheffield City Council's aim on matters of remuneration is to have in place an approach that enables the authority to:

- Recruit and retain people with the skills and expertise to deliver high quality services to the citizens of Sheffield City Council;
- Manage employee remuneration in a manner that is fair, transparent and reasonable;
- Take account of national and regional pay policy and market trends in the context of local government;
- Have a framework for managing the range of pay across the Council's workforce, this is known as pay ratios;
- Have simple uniform packages across all employment groups and to manage pay matters within national guidelines and agreements;
- Protect and remunerate low paid employees at appropriate levels and this includes the Council's commitment to the Living Wage, and;
- Protect jobs and services for as long as reasonably possible and this includes a prudent, affordable and fair approach to pay.

4.0 Policy on Remunerating Chief Officers

- 4.1 Sheffield City Council's policy is to pay Chief Officers' basic annual salary; Chief Officers' salaries do not attract enhancements or bonus of any kind. There are no additional enhancements to redundancy payments, pension contributions or pension payments outside of the Council's normal arrangements for all Sheffield City Council employees. Travel and other expenses are paid through the normal authority procedures.
- 4.2 The exception to this is the post of Director of Public Health whose pay arrangements are protected by legislation post transfer into Sheffield City Council of the Public Health service. The additional payments paid to this post are outlined in **Annex A**.
- 4.3 It is the policy of this authority to establish a remuneration package for each Chief Officer post that is sufficient to attract and retain staff of the appropriate skills, knowledge, experience, abilities and qualities that is consistent with the authority's requirements of the post in question at the relevant time. The Chief Officer Grading Structure is attached as **Annex B**.
- 4.4 Recruitment to posts at Chief Officer Level is undertaken by the Senior Officers Employment Committee which is a sub committee of the Council; membership is agreed by Council on an annual basis. All recommendations for appointment at this level are signed off by Cabinet.

- 4.5 Remuneration and recruitment – all posts will be advertised and appointed to at the appropriate approved salary for the post in question, unless there is good evidence that a successful appointment of a person with the required skills, knowledge, experience, abilities and qualities cannot be made without varying the remuneration package. In such circumstances a variation to the remuneration package may be appropriate under the authority’s policy and any variation will be approved through the appropriate authority decision making process.
- 4.6 Pay Increases - the authority will apply any pay increases that are agreed by relevant national negotiating bodies and/or any pay increases that are agreed through local negotiations. The authority will also apply any pay increases that are as a result of authority decisions to significantly increase the duties and responsibilities of the post in question beyond the normal flexing of duties and responsibilities that are expected in senior posts.
- 4.7 Additions To Pay - the authority will not make additional payments beyond those specified in the contract of employment unless varied by the appropriate authority decision making process.
- 4.8 Local Election Fees- the Council sets and makes payment to the Returning Officer for the management and administration of local elections. The Returning Officer will make payments to those officers who undertake specific duties in relation to the elections (including Chief Officers) dependant on their role.

It should be noted that any fees payable for duties in connection with Parliamentary and European elections, election for Police Commissioners or referenda are recouped from Central Government subject to a prescribed aggregate maximum amount, and are not funded by the Council.

- 4.9 Performance Related Pay - the authority does not operate a performance related pay system as it believes that it has sufficiently strong performance management arrangements in place to ensure high performance from its senior officers. Any areas of under-performance are addressed rigorously.
- 4.10 Earn-Back (Withholding an element of base pay related to performance) - the authority does not operate an earn-back pay system as it believes that it has sufficiently strong performance management arrangements in place to ensure high performance from its senior officers. Any areas of under-performance are addressed rigorously.
- 4.11 Severance Payments - The authority’s normal policies regarding redundancy and retirement apply to Chief Officer Posts. From 1 April 2013 to 31 December 2014 5 Chief Officers were released from the authority on Voluntary Early Retirement and one on Voluntary Severance.

5.0 Policy on Remunerating the Lowest Paid in the Workforce

- 5.1 The authority applies terms and conditions of employment that have been negotiated and agreed through appropriate collective bargaining mechanisms (national or local) or as a consequence of authority decisions, these are incorporated into contracts of employment. The lowest pay point in this authority is Scale 1, point 5; this relates to an annual salary of £12,435 and can be expressed as an hourly rate of pay of £6.45 (April 2013 to March 2014).

A decision was taken at Cabinet on 16 January 2013 to uplift the pay of employees earning less than the nationally recognised Living Wage.

From April 2015 this will increase to £7.85 per hour. The payment will be made as a supplement which will be reviewed on an annual basis.

Pay rates are increased in accordance with any pay settlements which are reached through the National Joint Council for Local Government Services.

6.0 Policy on the Remuneration ratios

6.1 Currently in this authority the ratio between the highest salary (£184,588) and the average median salary (£19,817) is 9.31. This demonstrates the authority's commitment to a fair approach to pay. Sheffield City Council is keen to maintain this ratio going forward and continues to commit to a maximum ratio of 10:1 based on December 2014 values, amended for inflation.

6.2 The authority is conscious of the need to ensure that salaries are kept under review and consistent with the needs of the authority as expressed in this policy statement. The authority's approach to the payment of staff is to pay that which the authority needs to pay to recruit and retain staff with the skills, knowledge, experience, abilities and qualities needed for the post in question at the relevant time, and to ensure that the authority meets any contractual requirements for staff including the application of any local or national collective agreements, or authority decisions regarding pay.

7.0 Approval of Salary Packages in Excess of £100k

7.1 The authority will ensure that, at the latest before an offer of appointment is made, any salary package for any post (not including schools) that is in excess of £100k will be considered by full Council. The salary package will be defined as base salary, any fees, routinely payable allowances and benefits in kind that are due under the contract.

8.0 Flexibility to Address Recruitment Issues for Vacant Posts

8.1 In the vast majority of circumstances the provisions of this policy will enable the authority to ensure that it can recruit effectively to any vacant post. There may be exceptional circumstances when there are recruitment difficulties for a particular post and where there is evidence that an element or elements of the remuneration package are not sufficient to secure an effective appointment. This policy statement recognises that this situation may arise in exceptional circumstances and therefore a departure from this policy can be implemented without having to seek full Council approval for a change of the policy statement. Such a departure from this policy will be expressly justified in each case and will be approved through an appropriate authority decision making route.

9.0 Amendments to the Policy

9.1 As the policy covers the period April 2015 – end of March 2016, amendments may need to be made to the policy throughout the relevant period. As the Localism Act 2011 requires that any amendments are approved by the Council by resolution,

proposed amendments will be reported to the Cabinet Member for Finance and Resources for recommendation to the Council.

10.0 Policy for Future Years

- 10.1 This policy statement will be reviewed each year and will be presented to full Council each year for consideration in order to ensure that a policy is in place for the authority prior to the start of each financial year.

Julie Toner
Director of Human Resources

None of the Post holders list below receives an honorarium payment for increased duties and responsibilities. Nor do any receive a payment related to joint authority duties **Annex A**

Status	Post	Base Salary (£)	Other Payments
Head of Paid Service	Chief Executive	184,588	The Returning Officer's fee is based upon that payable at a national election and is variable dependent upon the type of election taking place. The Chief Executive will not be taking fees for local elections.

Sheffield City Council Equality Impact Assessment

Name of policy/proposal: 2015/16 Revenue Budget

Status of proposal: New **Name of person(s) writing EIA:** Adele Robinson

Date: 02/02/2015

Service: Finance

Portfolio: Resources

What are the brief aims of the Proposal?

The purpose of the Revenue Budget report is to:

- To approve the City Council's revenue budget for 2015/16, including the position on reserves and balances;
- To approve a 2015/16 Council Tax for the City Council; and
- To note the levies and precepts made on the City Council by other authorities

Background

Section 149, of the Equality Act 2010, the Public Sector Equality Duty says a Public Authority must, in the exercise of its functions, have due regard to:

- Eliminate discrimination, harassment, victimisation
- Advance equality of opportunity
- Foster good relations

Having due regard to these involves:

- Removing or minimising disadvantage suffered by persons
- Taking steps to meet the needs of persons with different characteristics
- Encouraging people to participate in public life
- Tackling prejudice and promote understanding.
- Taking steps to take account of disabled persons' disabilities

This is with regard to people who share Protected Characteristics under the Act and those who don't. This means we need to understand the effect of our policies and practices on equality, which will involve looking at evidence, engaging with people, staff, service users and others and considering the effect of what we do on the whole community. One of the ways in which we do this as a Council is through conducting Equality Impact Assessments (EIAs).

The Council-wide EIA and the individual service EIAs on budget proposals that underpin it are focussed on the impact on the protected characteristics in the Equality Act 2010. These include age, disability, race, sex, sexual orientation, religion/belief, gender reassignment, pregnancy & maternity.

In Sheffield, we have decided to go beyond our statutory duty under the Equality Act 2010. We also assess the impact on the Voluntary and Community Sector (VCS), financial exclusion, carers, armed forces and cohesion. We believe that this gives us a wider understanding than the statutory framework would without these additions.

Decisions will affect different people in different ways. It is possible that decisions will have a disproportionate impact on some groups in comparison to others, even if this is not the intention. We use the impact assessments to help us identify and to avoid any negative unintended consequences of the proposals developed. These could, for example, be disproportionate impacts on different geographic locations, different communities such as younger or older people, women or men, disabled people or BME (Black & Minority Ethnic) communities as well as the cumulative effect of any decisions made

A commitment to tackling inequality, ensuring fairness and increasing social justice is at the heart of the Council's values. We have supported the city's independently chaired [Fairness Commission](#) and are currently producing a new Tackling Household Poverty Strategy. The Commission report contained a set of Fairness Principles and these, as well as our emerging Tackling Poverty Strategy have influenced our priorities and decision making across the Council.

The savings we are required to make this year amount to £63million, which is on top of £240 million of savings already made over the past 4 years and this means we are less able to protect frontline services than before. This is particularly relevant in the Communities Portfolio where Adult Social Care was substantially protected in the first 3 years by having to make fewer savings than other areas. However this year we expect to reduce our Adult Social Care spending by over £9.2m, which is in line with the proportion of savings required in other areas of the Council. This means significant reductions in spending over a short period of time. At the same time, there are changes underway which affect how people will pay for their care in future, and demand for some services is increasing. This means that adult social care will be a challenging area and that we will have to continue to make changes to the way we do things to ensure that services are as effective and efficient as they can be. However protecting those in greatest need still remains one of our top priorities this year.

Also national policies such as welfare reform are adding to the financial pressures facing some communities and are widening existing inequalities. Overall we estimate that over £169m has been removed from the local economy as a result of these welfare reform changes. This equates to £460 per year per every working adult in the city, although this reduction is not spread evenly, with some people seeing a much larger reduction and others seeing a smaller (or zero) reduction. These changes will be likely to impact on specific groups who already experience inequality such as people on a low income, disabled people and women. For example households with dependent children across the city will experience an average loss of £1,690 per year. This increases for lone parents to an average of just over £2,000 per year.

These substantial reductions in funding mean that progress on work on tackling inequality is much more focused on ensuring we do not slide backwards and lose ground in existing areas of inequality and ensuring we are doing things fairly and more efficiently, not necessarily about just meeting new demands.

However it is inevitable when funding levels are reduced year on year that there will be an impact on the services we deliver, including some of the work we do with people who are most vulnerable. As far as practically possible within the confines of a cumulatively reduced financial settlement, we have tried to minimise the impact on those in greatest need and most at risk. However, these are extremely challenging choices and difficult decisions are proposed.

Impact analysis is started early in the process of considering service changes to ensure we involve relevant individuals and groups and understand any negative impact. The action plans for individual

EIAs are designed to ensure that the services concerned implement reductions with as little negative impact as possible for the customers involved. There will be careful management control of each reduction. The impact analysis process helps to shape proposals which do not make it forward into the budget as well as those that do.

Impact assessments are made available to all Council Members in advance of any decision being taken at Cabinet or Full Council, including briefing all relevant Cabinet Members on impact assessments related to proposals in their area of responsibility.

The size and pace of the financial challenge means that efficiency savings alone will not enable us to balance our budgets so we will be continuing to reduce the Council's investment in services next year and in future years. Many of these reductions or changes in provision started in previous years and will continue - therefore the impacts on individuals and groups will be monitored to ensure that any potential negative impact is reduced as far as possible. EIAs are 'live' documents and will be subject to change, as proposals or evidence of impact changes.

We are confident that our budget proposals will mean services for those that most need our help and support will see lesser reductions. We have tried as far as possible to target the savings through changes to the way we work, including regionally and with other partners, redesigning and restructuring our services and support teams, restructuring our contracts and commissioning and increasing trading of our services, but it is inevitable that there will be some negative impact on service delivery and on those who share protected characteristics under the Equality Act.

Consultation and evidence to support EIAs

Tackling inequality is crucial to increasing fairness and social cohesion, reducing health problems, improving wellbeing and helping people to have independence and control over their lives. It underpins all that we do. The [Fairness Commission](#) findings and principles have guided the approach we have taken in developing these proposals such as:

- Those in greatest need should take priority.
- Those with the most resources should make the biggest contributions.
- The commitment to fairness must be a long-term one.
- The commitment to fairness must be city-wide.
- Prevention is better than cure.
- Be seen to act in a fair way as well as acting fairly.
- Civic responsibilities among residents contribute to the maximum of their abilities and ensuring all citizens have a voice.
- Open a continuous campaign for fairness in the city.
- Fairness must be a matter of balance between different groups, communities & generations.
- The city's commitment to fairness must be both demonstrated and monitored annually.

As part of the development of options for the 2015/16 budget, the Council ran a budget conversation between October and January that included a range of consultation activity with local people and partner organisations. This has helped us to ensure that the proposals that we are putting forward have been shaped by people who may be affected by them, and to ensure that they have had an opportunity to put forward other ideas for consideration.

In line with our values as an organisation, we have used consultation to inform people about our proposals, provide the opportunity to give feedback, make suggestions and let people know how their feedback has helped to influence our thinking. In this way we have attempted to ensure that our consultation activity is meaningful and appropriate at all times. Our budget consultation activity has had two main strands this year:

- Two large corporate budget conversation events in the Town Hall, supplemented by additional activity, including a survey
- Detailed consultation on particular topics and specific proposals

Corporate Consultation

Budget priorities have also been heavily shaped by consultation activity undertaken over recent years that has consistently confirmed public support for protecting services for the most vulnerable. This year public feedback on our guiding principles has supported our approach to:

- operate efficiently as an organisation
- develop solutions for the longer term
- take early preventative action
- focus on people with the greatest need
- work with our communities to deliver services in a different way

These findings have been developed through both budget and non-budget related activity. This includes consultation that informed proposals in last year's budget and where implementation is being phased over two years in areas such as libraries, reviews and assessments in Adult Social Care, and changes to supported housing funding. The first of this year's large budget conversation events in the Town Hall was held in October 2014 and gave an opportunity for the Council to explain the scale of reductions we are facing to members of the public and our partners, to set out our approach to making the reductions, and to invite initial feedback on our approach. The open event was attended by over 140 people from partner agencies, representatives of community groups and voluntary organisations, as well as members of the public.

The second event, held in January 2015, gave us an opportunity to describe our budget proposals in more detail, and included workshops led by each of the Cabinet Members to discuss some of the most significant proposals in their areas of responsibility. To supplement the public events, we also invited feedback on our proposals through the Council's website. We also produced a short animated video (www.sheffield.gov.uk/budget) designed to broaden understanding of the budget challenge, and our approach and we used this alongside social media to signpost people to the consultation and website.

The public events and the survey elicited an extensive range of comments which helped to inform our overall thinking on the budget. These included requests for further information and explanations, along with people's views on financial and resource issues covering capital and revenue budgets and how they are spent; the Government's approach to cuts; flexibility over charging and contracts; public sector collaboration and shared services; the importance of prevention work in housing & social care; support for addressing health inequalities with and for local people; focussing on providing the infrastructure and environment to encourage growth and investment; make the Council's assets more productive and more resilient to provide financial relief in the short-term and reduce a reliance on fossil fuels in the long term; using existing assets to encourage enterprise and wealth creation in Sheffield; supporting residents to become less dependent and more independent

of grants and support; reducing the numbers of councillors and their remuneration; recovery of monies owed to the council and further efficiencies; staff pay, sickness and pensions; and Council tax levels.

People asked about the extent to which the most vulnerable can be protected; how communities could be helped to support themselves; and the role of the voluntary and community sector. There were also discussions in relation to the impact of devolution, retention of business rates, and the potential creation of investment funds; the balance between longer term prevention and reactive work; what delivering services in a different way might mean for fair access, and distribution and quality of services; and the cumulative impact of savings over the last four years and the consequences of these.

We also invited people to provide ideas on ways to reduce spend, generate income, or do things differently to allow us to continue to provide services whilst maintaining a balanced budget. Suggestions ranged from brief comments to extensive commentaries covering a range of possible approaches. Some mirrored comments raised in the public events such as suggestions for reducing spend through cutting management and staffing costs, more efficiency reviews and greater use of digital communications. Others included stopping road alterations, further reducing libraries and encouraging greater recycling and fewer collections.

Views on doing things differently included more local procurement; using better products for repairs so reducing perceived false economies; getting better value from contractors and reducing outsourcing; reducing dependency on benefits; exploring community sector delivery of services; better partnership working e.g. health and social care; improving Special Educational Needs (SEN) provision; and increasing the use of technology. People also gave their views on the draft proposals presented by Members at the second public event. These comments, and the responses to them, are available on the Council's budget webpages.

More detail on the points raised by people during this consultation event is available on the Council's website at www.sheffield.gov.uk/budget. This information has been carefully considered by officers and Members in developing and refining the budget proposals.

Topic and service-based consultation

Alongside our corporate budget conversation, we have also consulted with people about proposals on particular themes or in specific areas. This consultation has taken many forms, depending both on the nature of the proposal and which service users and communities are likely to be affected. In general terms, proposals that were assessed as having a higher impact were subject to more detailed consultation. This has ranged from public meetings, to individual discussions with providers and customers, to surveys and questionnaires. Three areas of significant consultation activity are highlighted below.

We have in the past been able to protect spend, in relative terms, on areas like adult social care. Although we continue to prioritise support to the most vulnerable and those at risk, the continued reductions in government funding and continuing demand pressures have meant that this is no longer possible as the reductions needed in other areas would be likely to lead to these services becoming unsustainable. We have therefore spent a great deal of time talking to service users and providers about our proposals in adult social care, as this represents a significant area of change from current service provision. For example, consultation on the Learning Disabilities Commissioning Strategy has taken place with service users, providers and stakeholders to establish principles and overarching commissioning intentions, in order to enable the development of future specific leaning disability budget proposals.

In Children's and Young Peoples' and Families' Services, significant initial consultation and discussion with service users as part of the review of short break and respite services took place over April-September 2014. Consultation also included staff, providers and children and young people. A second stage consultation will commence on 27 January as proposals are developed.

Similarly, consultation with Sheffield Futures on the Youth Service contract started in August 2014, with staff consultation starting in October 2014 for both Sheffield Futures and Council employees. Final consultation with young people, parents and communities is anticipated to complete in January 2015. The consultation outcomes are being used to update the Equalities Impact Assessment, and will be communicated to Members ahead of final decisions being taken.

More broadly, the following examples illustrate the breadth of other consultation activity across all areas of the Council with consultation taking place with Friends of Parks Groups and local residents on the future of urban nature parks; and with business and organisations such as the Chamber of Commerce on an alternative delivery model for Marketing Sheffield. We have consulted with voluntary and community groups to establish the likely impact of funding reductions in grants; and with providers about reductions to the Community Wellbeing Programme.

Consultation on proposals will not stop once the budget has been agreed by Members. Further consultation with those affected individuals, groups, organisations and staff will take place throughout the year as decisions are implemented through the Council's usual governance processes – this will include, for example, consultation on changes to waste management following negotiations with Veolia; highways maintenance provision following negotiations on our contract with Amey; with residents and businesses on the Council's approach to online self-service as the primary channel for customer enquiries; and on a range of proposals in adult social care provision e.g. community support service, home support, small adaptations and independent living solutions; and the proposed review of the Public Health Grant contribution to mental health provision in line with the Council's wider re-commissioning of mental health services. We remain committed to making sure that people have the opportunity to comment on and influence proposals, particularly where services may change or reduce.

All the results of consultation activity will be taken into account when making individual decisions on the proposals. In some cases this consultation activity is not yet complete and therefore firm proposals will be subject to further decision making in line with the Council's usual governance processes. More information about our approach to consulting on the various budget proposals can be found in individual service EIAs.

Evidence - What do we already know – Sheffield Demographics

As well as consultation evidence, we have used monitoring information we already hold in services to help us identify possible impacts and to help shape and inform the EIA process. To help us identify possible impacts requires an understanding of how the city is made up and the issues people face. The [2011 Census](#), [Sheffield Facts and Figures](#), [State of Sheffield](#), & [Community Knowledge Profiles](#) show:

- Sheffield's population has grown above the national average and the City Region, rising from 513,000 in 2001 to 552,698 at the time of the 2011 census. This is currently projected to increase to around 600,000 by 2020. This has resulted from increases in births, net inward migration and longer life expectancy.

- We are a diverse city and the ethnic profile continues to change, with the proportion of residents classifying themselves as non-white British growing from 11% in 2001 to 19 % in 2011. BME adults make up 16% of the population and BME children 29%. Sheffield's BME population is increasingly dispersed across the city, although there remain geographical areas with high proportions of BME people. These areas tend to correlate with areas of deprivation.
- Sheffield has a higher proportion of its population aged 65 years or over (16.7 % or 85,700 people) than the other English Core Cities. This is projected to increase, with the largest increase in the number of people aged over 85.
- The age group that has increased the most from 2001 to 2011 is the 16–24 group - we now have 16.7% of our population in this group and a further 18.2% under 16.
- Sheffield has a geographical pattern of communities that experience differing levels of deprivation and affluence. Generally, the most deprived communities are concentrated in the north and east of the city whilst the most affluent are located in the south and west.
- Around 12 % of all households, 28% of over 60's and 24% of dependent children live in households reliant on Housing and/or Council Tax Support. The Council has 31,552 working age taxpayers who receive council tax support and although fluctuating in December 2014 there were 3,903 Council tenants affected by under occupancy.
- Residents' incomes are around 10-15% lower than the national average. In addition Sheffield is ranked 6th out of 326 against other Local Authorities for low income.
- Around 20% of people in Sheffield live in relative poverty at any one time. In 2012 this included 23% of all Sheffield children and almost a third of all Sheffield children under 10.
- Life Expectancy in the city is 78.4 years for men and 82.1 years for women and there are greater numbers of women than men in the city, due to higher life expectancy for women.
- While the pay gap between men and women has been reducing, there is still evidence that, in general, men are paid more than women. Women working full-time are paid an average of 15.5% less an hour than men for doing work of equivalent value. Women pensioners therefore tend to be poorer than male pensioners. Other issues, which cannot be separated from experiences of financial exclusion and poverty, include age, ethnicity, sexuality, disability and domestic abuse etc.
- There are over 105,000 adults with a long term limiting illness, equivalent to around 20% of the population, with 9% saying this limits their activity a lot.
- Although the city is becoming healthier for most people, health inequalities across the city remain and are in some cases widening, with particular individuals and groups remaining or increasingly vulnerable, in particular older people, the young and some women and some ethnic minority groups. People in the most deprived parts of the city still experience poorer health and die earlier than people living in the rest of the city.
- We have high levels of financial exclusion in almost half of Council wards (affecting approximately 218,743 people in 48% of wards). Rates of unemployment are highest among

those with no or few qualifications and skills, those with caring responsibilities, lone parents, those from some ethnic minority groups, older workers and, in particular, young people.

- People within some groups can be disproportionately affected by disadvantage and inequality. For example, children are more likely to live in poverty if they are from Black and minority ethnic (BME) family: 77% of Somali and 61% of Yemeni children in Sheffield are eligible for Free School Meals compared to 18.5% of all children in poverty in Sheffield¹ and 29% of children with Special Educational Needs (SEN) in Sheffield are eligible for Free School Meals compared with 18.5% of all children in Sheffield.¹

Impact Analysis

Areas and detail of impact

Overall

Inevitably when funding is reducing year on year at the scale and pace that we are experiencing, there will be an impact on the front-line services we deliver and on some of the work we do with groups who share a protected equality characteristic under the Equality Act 2010. We have tried to minimise the impact on the most vulnerable and these groups as far as possible, however we have to make some really difficult choices. This year the savings and pressures we are required this year means we are less able to protect frontline services than before.

These substantial reductions in funding mean that progress on work on equality and fairness is much more focused on ensuring we do not slide backwards and lose ground in existing areas of inequality and ensure we are doing things fairly, and is not necessarily about meeting new demands.

We have tried to minimise the impact on front line services to customers as far as possible by finding more efficient ways to deliver services by including by reducing costs of management, offices, technology and other corporate services, however we have had to make some really difficult choices. We are being guided in these choices by our values, commitment to fairness, tackling inequality, and by our priorities as outlined and supported by our consultation.

Our approach to the budget is in **Portfolio Areas** which correspond to the way Council is structured

- Children, Young People and Families
- Place
- Resources
- Communities

There is also a small corporate services function Policy, Performance and Communications (PPC).

Each Portfolio was initially asked to make up to 15% savings on top of any cost or demand pressures in their area. We subsequently reviewed all options across Portfolios to come up the proposals contained in the budget report. Within each portfolio, some areas of spend have been protected, whilst other areas of spend within outcomes have seen larger reductions.

In line with their longer term plans Portfolios have undertaken initial impact analysis on all budget proposals. Where the risk of disproportionate impact has been identified an in-depth impact

¹ SCC, January School Census 2010

Areas and detail of impact

assessment has been undertaken and mitigations sought. The impact analysis shapes proposals which do not make it forward into the budget proposals as well as those that do.

Overview of Portfolios Areas

Place Portfolio has completed 35 Budget EIAs on savings totalling £10,172,000 identified for 2015/16. We have asked our partners Amey, Veolia and South Yorkshire Passenger Transport Executive (SYPTTE) to identify and deliver potential savings of 15% on each contract; this will total 71% of our reductions. The budget proposals are a mix of:

- Finding new ways to deliver the services that support the priorities for the Great Place to Live, Competitive City and Health & Wellbeing strategic outcomes.
- Making sure that all of our services are operating as efficiently as possible
- Reviewing existing charges and introducing new ways of generating income
- Changing or reducing service standards and as a last resort, stopping some activities altogether

We have used a range of evidence, such as consultation and data, to identify if there are any differential impacts and the key areas are:

- There is a cumulative impact of year on year reduced subsidies on our charitable partners, Museums Sheffield, Sheffield International Venues and Industrial Museums. Although the services continue to be delivered this is with staffing levels at reduced levels. Any potential leisure or theatre price increases will be minimised for low income users via discount schemes.
- The Place Public Health budget savings will have a low level impact on health inequalities for those people living in the more deprived areas of Sheffield, where the work tends to be concentrated. The savings also have the potential to impact on some of our Voluntary, Community and Faith partners due to reduced funding.
- Given changes to ways that schools are funded we are increasing the number of school crossing patrols funded by schools; this may be a negative impact for children should the school not fund a replacement vacancy. This would be mitigated through the council proactively implementing measures to improve safety outside schools e.g. 20 mph speed limits.
- Dependent on the savings identified through working with our partners Amey, Veolia and SYPTTE there potentially could be a negative impact on young/old, disabled people, carers, new mums and mum-to-be and the less well-off. This will be identified in the service EIAs on each proposal.

Last year the key impacts related to socio economic issues, impacts on partners and staffing. Most of the budget savings have been implemented with no significant impact due to, for example, ongoing subsidies mitigating any potential barriers to increased charging. Key to this process was well planned quality consultation to inform the decisions and also gain the public and partner's input and understanding of the changes required.

The **Children and Young People and Families** Portfolio have completed 28 Budget EIAs for savings of £8,027,000 identified for 2015/16. We will spend in the region of £82m, which includes £11m of Public Health investment, on delivering services for our children, young people and their families. A further £421m of funding was allocated separately by government for schools and academies. Education is our

Areas and detail of impact

biggest area of spending.

The CYPF Business Strategy proposals are changes to support services which are based around continuing to provide current level of services to schools. The proposals include a reduction in the marketing of Services to Schools, hosting changes to the School Information Centre, reduction of cash collections by schools and introduction of an administration charge for joining the central catering contract.

The Inclusion and Learning Services proposals enable us to continue providing essential support services to schools and academies that support the successful children and young people outcome and respond changes in funding following the conversion of schools to academies. The savings proposed help us to protect those statutory and regulatory functions such as the statutory duty to provide independent educational psychology input into Education, Health and Care Plans; the statutory duty to act as the champion for children and families for the quality and effectiveness of education and the statutory duty to ensure the availability of sufficient school places.

A further proposal is to start trading the Inclusion and Targeted Support Service which supports capacity development and to improve outcomes for pupils, in particular new arrivals.

Within Lifelong Learning Skills and Communities, the proposed savings are concentrated in youth services and further savings from proposals agreed in 2014/15. These savings help protect other areas of targeted support to children and young people and employment projects. This means that we can continue to provide support to those young people Not in Education Employment or Training (NEET), diverting young people from offending, maintaining individual support for 16-24 year olds with learning difficulties and disabilities, supporting young people who are at risk of sexual exploitation, protecting apprenticeships and employment programmes and external investment.

Whilst significant, the youth service savings are part of a strategy over several budget rounds of planned reductions in buildings and administrative costs and have helped protect frontline delivery. In 2015-16, there will be some reduction in staffing across the council and in Sheffield Futures, and some changes proposed to youth open access delivery. The strategy has protected provision to the neediest.

The CYPF Public Health changes to Sexual Health Sheffield will be delivered through a redesign, transformation of services and improved partnership working and potentially reallocating investment across the sexual health system in order to better meet outcomes. There will be some funding reduction to Young People's Substance Misuse pooled budget.

The Children and Families savings proposals include reviewing all Independent Fostering Agency placements and long term fostering placements aiming to secure permanency or local authority fostering placements; developing regional approaches to youth justice services and fostering and adoption; improved coordination of SEN placements; changes to the out of hours social work provision; improved choice and flexibility on short breaks and integrated provision.

In addition, there is planned investment in Strengthening Families to provide an incremental transformation of all services to children and young people into a jointly funded, commissioned and delivered multi agency family service. There is a public health investment in Best Start early years programme which supports the children and families most in need.

Areas and detail of impact

The savings enable high quality essential intervention and prevention services for the most vulnerable children and families to continue. The impact analysis process helps to shape proposals which do not make it forward into the budget as well as those that do.

Last year although we had difficult choices to make, our mitigations and monitoring of impact were effective. Wherever possible we have minimised the impact that the proposed changes on young people's services will have on young people and their parents/carers. We recognise that some of the children, young people and their families will be using more than one of the services where there are changes proposed, and there may therefore be a cumulative impact of some of these changes. We recognise that there have been year on year reductions since 2010, for example to youth services. These have been mitigated and usage data since the start of reductions in 2010-11 highlights improved take up of youth provision. Equally, other reductions, for example those to the Integrated Sexual Health Service, affect multiple characteristics and the consultation with the provider, including the development of a provider led EIA, is a critical part of the mitigation. Some people may receive a changed or a reduced service as we focus on the most in need and at risk and wherever possible we have sought to mitigate this by focusing reductions, where possible, on restructuring and internal changes to protect front line services. This will however not mean that front line services will not be reduced.

Our transformational changes, for example the Early Years Best Start investments, will have positive impacts for those in the greatest need, which includes some BME groups and women and militates against future impacts.

In the **Communities Portfolio** there are 31 EIAs, of which most are full EIAs as many of the services in this Portfolio, such as Adult Social Care, are by definition providing services to vulnerable, disabled and older people. This area represents the single largest controllable area of the Council's budget, and we spend around £146 million each year helping adults across Sheffield stay healthy and well, supporting 14,000 people through our services. This area has also seen an increasing level of demand and of costs of services.

Savings in this area have the potential to impact negatively upon those protected groups. However, some of the proposals involve more cost effective solutions to individuals, earlier intervention leading to prevention, retendering contracts or service internal restructuring that will have fewer equality impacts.

We are continuing to implement last year's changes in a number of areas, such as to library services, adult social care reviews and reassessments and housing related support. We are implementing a programme of change to move focus to short term preventative and re-enablement services. We are working with providers around the changes to mitigate direct impact.

We are taking steps to ensure we get the best value for money and quality in our contracts in a number of areas; e.g. value for money in provision of short breaks for people with learning disabilities, moving to Supported Living Frameworks in mental health and learning disability services, and re-tender of the community equipment store, small adaptations and independent living preventative solutions. We are supporting individuals with any transitions between providers where appropriate.

We are also proposing to review the Community Support Service, and will undertake a full EIA to determine the future direction of the service.

Areas and detail of impact

We are investing a reduced amount in Grant Aid to the local voluntary sector, although this reduction is less than the Council's overall budget cut. Some negative equality impacts have been identified resulting from the reductions in overall grant aid funding available, and the fact that some projects that the Council previously supported will no longer receive funding in future. However the funding will be targeted at those in greatest need of support. We are also restructuring teams such as Grant Aid and Locality Management to ensure greater efficiency. The current local area working model includes providing Councillors with a ward pot to fund community groups, projects or additional services to tackle the issues and priorities within their ward. We will review existing arrangements across the Council in the next year to ensure we are prioritising support.

The funding for the Local Welfare Provision Grant is being removed by Government in April 2015. This currently funds the Council's Local Assistance Scheme based in Communities Portfolio. As a Council we have decided to continue to invest £1.5 million in this area to match current demand and to seek to reduce financial hardship for those in greatest need. We will continue to monitor and review its use.

Public Health in Communities will see a reduction in the community well-being and community health champions programmes but investment in other areas such as support to advice centres to tackle the root causes of ill health in communities. We are also starting to review the public health contribution to mental health provision in line with the Councils re commissioning of mental health services strategy overall. EIAs and consultation will be undertaken as this work progresses.

There will be some staff reductions (for example in internal services such as Business Support and Business Strategy) and we have worked towards minimising the impact of this on front line services.

The Better Care Fund partnership with the NHS CCG will continue to develop during 2015/16 with the aim to deliver better joint commissioning, to ensure people get the right care when and where they need it. This should also lead to more effective and efficient services to release savings in this area.

In the **Resources Portfolio** there are 18 EIA's which cover all budget proposals for 15/16. There are 5 EIA's pending Managing Employee Reduction (MER) processes within the Finance, HR, Commercial Services and Transport & Facilities Management services. EIAs on past MER's have not shown disproportionate impacts on staff within the portfolio. Of the other EIAs, a few have the potential to impact on our customers. By reducing staff in our corporate services, this has meant that we have been able to protect frontline services.

There is a Customer Services proposal which covers the restructure of the service, implementation of contact centre technology to deliver efficiencies alongside implementation of channel shift strategy and tools. There are no expected negative impacts from this strategy and in some cases positive impacts on certain groups.

There are other EIAs which cover Council Tax and its support schemes; we are proposing this year to continue to keep the same Council Tax Support (CTS) scheme. The CTS scheme continues to be based on the principles of the old Council Tax Benefit regulations and provides for the maximum financial support being made available to those with the greatest financial need. They protect some of the income of disabled people and of families whilst providing assistance to those people who move off benefits into paid employment. The Council recognises however that requiring all working age customers to pay a minimum of 23% of their Council Tax may cause financial hardship amongst some

Areas and detail of impact

households. Therefore the Council is also proposing to continue to operate and increase the value of the Council Tax Hardship Scheme (CTHS) in 2015/16 in order to continue to offer assistance to the most financially vulnerable households.

This year we are also proposing an increase in Council Tax for the first time in 4 years, again we are aware that any increase in Council Tax could have a negative impact on those households who are already struggling financially. However, the provision of Council Tax Support (CTS) backed up by the enhanced CTHS will ensure that such an impact is minimised. The impacts will continue to be monitored through the EIA process and action plans developed to mitigate impacts where appropriate.

In Policy, Performance and Communications there are 7 EIAs and they relate mainly to internal restructuring and cost savings and are not likely to have any customer impact.

The Council's **Public Health spending** for 2015/16 is approx. £30 million and is integrated throughout the Portfolios. More detail on the use of our Public Health grant is given in the portfolio sections above. There are also 5 EIAs for the Director of Public Health Office which mainly cover internal structures and have lower impact. Overall there will not be any reduction in investment in this area, but in line with what was agreed last year we are reviewing how and where the funding is spent to ensure that it is targeted to tackle the root causes of ill health and to have the maximum impact on reducing inequalities. This means that we will save £2.5million on existing activities in order to reinvest this sum in other areas. Some of the proposals involve more cost effective delivery and retendering contracts, earlier intervention leading to prevention, or internal restructuring that will have fewer equality impacts. Some of the changes have the potential to impact negatively upon some people who share protected characteristics. However, two of the main areas the changes will support are early years and advice and information so impact of the overall investment will be positive on the groups within the EIA.

In summary there are a number of key themes relating to equality that run through the proposals:

- Restructuring and integrating services and teams to increase efficiency and effectiveness
- 'Managing Employee Reductions' processes to reduce the number of staff employed
- Targeting of resources to target those in greatest need and at risk
- Helping people to be independent, safe and well and to make their own choices
- Intervening early and doing more preventative work
- Working with other agencies to avoid duplication and to help coordinate help and support
- Better value for money in the services we commission or purchase
- Fairer contributions and charges to ensure full cost recovery and as a way to maintain services
- Increasing traded services in non-core areas (such as with schools)
- Reductions in funding to the VCS in line with reductions to the rest of the Council's budget
- Shifting the focus of public health spend to addressing the root causes of ill health
- Continuing with changes made in the past year to have full year effect on savings
- Continuing to monitor the impact of changes over the coming year.

Overall, the proposals have the potential to impact negatively in some areas and service EIAs have sought to mitigate this negative impact; however there are also positive impacts identified in impact assessments which are also highlighted.

Our impact assessments identify and provide mitigations for potential impact in services for younger

Areas and detail of impact

people, older people, disabled people, BME, women and men, religion and belief, sexual orientation, voluntary community and faith sector, cohesion and financial inclusion/ poverty (there is over representation within this last group of disabled people, some women and some BME communities).

As noted earlier although not within the scope of our budget proposals it is important in the EIA to highlight some relevant other factors which are impacting on people in the city. For example national policy, such as the welfare reforms are adding to the financial pressures facing some people and communities and are widening existing inequalities.

Further details of the impacts are contained in individual service EIAs which are listed at the end

Multiple and cumulative Impacts

Groups highlighted as impacted most across EIAs and all Portfolios are disabled people, older and younger people, women, carer's and people on low incomes. Disabled people, some women such as lone parents and women pensioners, carers, young people and some BME communities who tend to have a lower income may be cumulatively impacted.

By definition, older people, disabled people, carers and women will be the most impacted by the changes in Adult Social Care. Young people and parents will be impacted by changes in services specifically for these groups. Some people who have been previously receiving a service will receive a changed, reduced or no service, as we focus on the most in need.

As noted earlier these proposals represent the full extent of changes to adult social care provision that we are able to achieve in 2015/16, while still meeting our statutory obligations and providing essential services for the most vulnerable people in the city.

We are continuing to work with partners to be more efficient and joined up such as with the NHS Clinical Commissioning Group towards developing a single budget for Health and Social Care, including through the Better Care Fund process. The changes begin to come into effect in April 2015 and could help mitigate both demand pressures and cumulative impact.

Our subsidies to our charitable partners have reduced year on year. We recognise that this may result in charges for services provided by these partners (such as leisure or cultural services) to increase. Where this does happen it has the potential to increase barriers to participation to people on a low income, therefore affecting the groups noted above. Any potential leisure or theatre price increases will be minimised for low income users via discount schemes.

A further impact across a range of proposals will be the transition from one provider to another, which may include moving from one location to another and these changes have the potential for significant impact on those individuals transitioning. We will take this into account in any changes, undertake risk assessments where necessary and provide support for users and carers.

There are again a number of changes to our strategic contract arrangements (e.g. for waste management and highways). Our providers where relevant have undertaken consultation and evaluated impact and we have tried where possible to limit impact on front line services. Details can be found in individual service EIAs.

Areas and detail of impact

There will be an impact on the workforce across all areas given the amount of internal restructuring as a result of the budget proposals and possible staff reductions of a further 200 posts in 2015/16, a significant number of workforce EIAs are ongoing and a Council wide Managing Employee Reductions (MER) EIA has been completed.

Because external factors such as welfare reform are also impacting negatively on some of the same groups for example, disabled people, carers, young people and women, it is difficult to quantify the cumulative level of impact although mitigations have been highlighted in all EIAs.

In summary then, we will not invest or provide services in as many areas as we did before the reductions started 4 years ago. Services are targeting those in greatest need and those at risk but that does mean that there is reduced universal provision. We are still providing statutory services and we are focusing on the most vulnerable with the resource we have to invest.

Age	Older people
-----	--------------

In 2011 Sheffield had a higher proportion of its population aged 65 years or over (16.7 % or 85,700 people) than the other English Core Cities (the 8 biggest cities in England). The proportion of Sheffield's population aged over 65 is also projected to increase, with the largest increases in the number of people aged over 85.

Across **all Portfolios** impacts on age have been identified; however for older people the impacts are largely in the **Communities**. There are currently approx. 14,000 people currently receiving support including paying for 1 million hours of home care.

Where proposals are about taking steps to get the best value for money and quality in our contracts, we have assessed equality implications to ensure that there isn't a disproportionate or negative impact on customers with protected characteristics (e.g. moving mental health and learning disability contracts onto providers on supported living frameworks; retender of the Community Equipment Store and small adaptations and independent living solutions Preventative services; alternative provision for short breaks for people with learning disabilities). Any customers who will change providers will be fully supported in the transition. We have also used EIAs to identify opportunities to strengthen equality monitoring for contracts.

We will also ensure that where eligible, people get the financial and health care support they are entitled to, such as continuing health care and ensuring appropriate financial inclusion support is put in place so that service users and carers are maximising their existing income.

There are some proposals which were implemented following last years' budget, where the reductions did not fully take effect until this year (for example adult social care review and reassessment programme; changes to housing related support contractual arrangements). We have reviewed and updated EIAs from last year, to make sure that we have implemented EIA action plans and identify what needs to happen next. For example –

- We have continued to take a fair and consistent approach taken to the adult social care reviews and reassessments to enable resources to be fairly distributed across the entire city and across all groups rather than being disproportionately provisioned. We value our customers' feedback, and survey results have highlighted some areas for improving customer experience (for example improved communication about assessment outcomes. We will carry out EIAs on new aspects of

Areas and detail of impact

the programme, such as reviewing our approach to Double Handed care.

- Where possible, the full impacts of reductions to extra care and sheltered housing have been mitigated by remodelling, so some of the services will be eligible for Housing Benefit. This has left a variable reduction of on-site support but has covered risks and priorities and full impacts of reductions of services to other vulnerable groups have been mitigated by better prioritising who support is directed to.
- Where proposals are about making our organisational structures more effective (for example reducing posts) we have worked towards minimising the impact on front line services and applied good human resources practice to make sure that employees with ‘protected’ equality characteristics aren’t unfairly affected.
- For proposals to review services, full EIAs will be integral to finalising recommendations (for example, the Options Appraisal to determine the future direction of the Community Support service; the development of the Adult Placements Shared Lives service for long term care placements).
- Fairer Contributions –proposal to remove the upper limit on contributions. Initial analysis suggests low numbers of people affected, but this is being confirmed. Capping of charging from 2016 introduced by the Care Act will provide some, longer-term mitigation. Where appropriate we will identify mitigations, e.g. phasing in changes for current customers.

As part of the continuation of the Adult Social Care recovery programme, proposals will try to ensure we have consistent assessment processes, and that we only fund services that clearly meet unmet eligible social care needs and that are provided as cost effectively as possible. There may however be conflicting views from service users as to whether this work has a positive or negative impact on their lives. Some will see the opportunity to utilise Council and community-based support to live more independent lives to be highly positive. There may be other people unhappy that the cost of their care package is reducing, or concerned about the fact that a more cost-effective service has to be put in place to meet their eligible needs. However, the overall approach to reassessments is not changing; eligible needs will be identified and appropriate support put in place to meet those unmet needs. People will not be subject to a different approach based on their age. Every person’s eligible needs will be identified and met through appropriate support arrangements.

The Better Care Fund partnership with the NHS CCG will continue to develop with the aim to deliver better joint commissioning, to ensure people get the right care when and where they need it. This should also lead to more effective and efficient services to release savings in this area. This will lead to positive impacts for older people.

We are investing a reduced amount in Grant Aid to the local voluntary sector, although this reduction is less than the Council’s overall budget cut. As part of this we are continuing to support lunch clubs to reduce isolation of older people. We are also reviewing existing arrangements across the Council in the next year to ensure we are prioritising support available. The main beneficiaries of grant funded services are BME people, older people, women and people on a low income.

In Place there may be some negative impacts on older people dependent on the savings identified through working with our partners Amey, Veolia and SYPTE, but wherever possible, we will try to mitigate by reduced impact on frontline services. For example where services are reducing we will still be providing reasonable adjustments for disabled people and we will continue make sure the most

Areas and detail of impact

vulnerable customers can access services.

There are only none to low impacts on older people in **CYPF, Resources and PPC**. In **Resources** the changes to council tax support scheme are likely to only have a low impact in this area as regulations prescribe that current, and the vast majority, of future claimants of a pensionable age are protected. This means that if they are eligible for support, the amount of support that they receive is based on 100% of their net Council Tax liability. Those who receive Pension Guarantee Tax Credit will currently have their full council tax charge covered by CTS, and this will still be the case if council tax increases.

Young People

The age group that has increased the most from 2001 to 2011 is the 16 – 24 age groups. We now have 16.7% of our population in this group and a further 18.2% of the city's population is under 16. BME children make up 29% of the population.

Around 20% of people in Sheffield live in relative poverty at any one time. In 2012 this included 23% of all Sheffield children and almost a third of all Sheffield children under 10.

In **Children, Young People and Families** Services many of the proposals and subsequent EIA's relate to internal changes or small employee reductions. The proposals with the main differential impact are summarised below.

The ongoing reshaping of Youth Services, is a continuation of changes underway to restructure services which includes a reduction of the 'Sheffield Futures' contract. Youth services are by definition delivered to young people, so there is always a possibility that any budget reduction if not carefully managed or mitigated will have an adverse impact on young people.

The strategy started in 2012 was to have shared and more effective management as well as savings on overheads such as buildings. This approach protects services to young people as much as possible. The majority of these savings are being therefore achieved through reductions in the council contract with Sheffield Futures, and the council resources that form part of the Community Youth Teams. Some street based sessions which are poorly attended or where there is other nearby provision will be replaced with alternatives to give full mitigation for the change.

There will be increased trading of our services to schools who are increasingly independent from us, including financial independence. We will still continue to provide statutory provision in these areas.

Following on from the successful partial trading of the non-statutory services provided by the Educational Psychology Service piloted during 2014/15, there is more trading proposed in this area. In addition, other areas of trading proposed include Pupil Admission and supporting schools with new arrivals.

There is a reduction proposed to the Public Health Young Person's Substance Misuse Contract which works to provide specifically with 11-18 and there are mitigations to reduce impact detailed in the service EIA.

We are proposing to use the Public Health Grant to invest in the Early Years Best Start service redesign to improve outcomes for 0-5 and their families as a part of the approach of targeting services to those

Areas and detail of impact

in greatest need in order to improve outcomes.

The Sheffield Integrated Sexual Health Service (ISHS) is commissioned using the Public Health Grant to deliver open access demand led sexual health services for all ages including under 16s as well as Chlamydia Screening which targets the 16-25 age range. Young people are more at risk of poor sexual health due to increased exposure to risk taking behaviours. The ongoing work on the EIA with the provider is part of identifying mitigations, which include reducing elements of the service in relation to training and communications.

A significant number of proposals focus on the internal restructuring of teams which means reduced numbers of posts. We do not expect the changes to have an impact on service provision and details of these changes can be found in service EIAs.

The review of Independent Fostering Agency placements and long term fostering placements with a view to securing either permanency or Local Authority fostering placements will have a positive impact on children in care. Where a permanency solution is achieved, the child's long term prospects and outcomes are improved.

In Resources and PPC, there are mainly none to low impacts, most of the EIAs relate to internal restructuring. The two areas of customer impact are Council Tax and customer services. In relation to Council Tax it is clear from the respective collection rates that under the CTS Scheme some working age households have found (and will continue to find) it harder to meet their Council Tax liability than others. In anticipation of this the Council introduced a Council Tax Hardship Scheme (CTHS) to offer additional support. However Analysis of awards made under the CTHS scheme show that only 8% have been made to customers aged 18- 25. The changes in the Customer Service covers contact centre technology and implementation of channel shift strategy which means in some cases positive impacts such as better access to services online.

In Place given the changes to ways that schools are funded, (increasingly independent from us, including financial independence) we are increasing the number of school crossing patrols funded by schools; however there may be a negative impact for children/young people travelling to/from school should the school not fund a replacement vacancy. This would be mitigated through the council proactively implementing measures to improve safety outside schools e.g. 20 mph speed limits. Also there potentially may be impacts dependent upon the savings identified through working with our partners Amey, Veolia and SYPTE on young people, although this is more likely to be low. This will be identified in the individual EIAs on proposal.

Although the overall investment from the **Public Health Grant** will not reduce it will be directed in different ways so there is a focus on the root causes of ill health and health inequalities. Therefore there may be some contract and services which change, that may impact on young people, such as funding for cycling opportunities through Skyride, changes to tobacco control, trading standards healthy takeaways work or cooking skills. The impacts will be noted in the individual proposal EIAs.

Disability

There are over 105,000 adults with a long term limiting illness in Sheffield, equivalent to around 20% of the population, with 9% saying this limits their activity a lot. Service EIAs have identified a potential risk of negative impact on disabled people, both directly and indirectly, through impacts on people on a low

Areas and detail of impact

income and noted mitigations to be put in place.

Most users of Adult Social Care are disabled by virtue of the eligibility criteria for services. This means that some of the changes within Adult Social Care will have a larger impact upon disabled people.

Across **all Portfolios** impacts on disability have been identified; however for disabled people the impacts are largely in the **Communities Portfolio**. There are currently approx. 14,000 people currently receiving support including paying for 1 million hours of home care. A lot of the same impacts as were identified for older people are also outlined below for disabled people, due to the nature of the services.

Where proposals are about taking steps to get the best value for money and quality in our contracts, we have assessed equality implications to ensure that there isn't a disproportionate or negative impact on customers with protected characteristics (e.g. moving mental health and learning disability contracts onto providers on supported living frameworks; retender of the Community Equipment Store and small adaptations and independent living solutions Preventative services; alternative provision for short breaks for people with learning disabilities). Any customers who will change providers will be fully supported in the transition. We have also used EIAs to identify opportunities to strengthen equality monitoring for contracts.

We will also ensure that where eligible, people get the financial and health care support they are entitled to, such as continuing health care and ensuring appropriate financial inclusion support is put in place so that service users and carers are maximising their existing income.

There are some proposals, which were implemented following last years' budget, where the reductions did not fully take effect until this year (for example adult social care review and reassessment programme; changes to housing related support contractual arrangements). We have reviewed and updated EIAs from last year, to make sure that we have implemented EIA action plans and identified what needs to happen next. For example –

- We have continued to take a fair and consistent approach to the adult social care reviews and reassessments to enable resources to be fairly distributed across the entire city and across all groups rather than being disproportionately provisioned. We value our customers' feedback, and survey results have highlighted some areas for improving customer experience (for example improved communication about assessment outcomes). We will carry out EIAs on new aspects of the programme, such as reviewing our approach to Double Handed care.
- Where possible, the full impacts of reductions to extra care and sheltered housing have been mitigated by remodelling some of the funding into Housing Benefit, which has left a variable reduction of on-site support but has covered risks and priorities and full impacts of reductions of services to other vulnerable groups have been mitigated by better prioritising who support is directed to.
- For proposals to review services, full EIAs will be integral to finalising recommendations (for example, the Options Appraisal to determine the future direction of the Community Support service; the development of the Adult Placements Shared Lives service for long term care placements).
- Fairer Contributions –proposal to remove the upper limit on contributions. Initial analysis suggests low numbers of people will be affected, but this is being confirmed. Capping of charging from 2016

Areas and detail of impact

introduced by the Care Act will provide some, longer-term mitigation. Where appropriate we will identify mitigations, e.g. phasing in changes for current customers.

As part of the continuation of the recovery programme, proposals will try to ensure we have consistent assessment processes, but that we only fund services that clearly meet unmet eligible social care needs and are provided as cost effectively as possible. There may however be conflicting views from service users as to whether this work has a positive or negative impact on their lives. Some will see the opportunity to utilise Council and community-based support to live more independent lives to be highly positive. There may be other people unhappy that the cost of their care package is reducing, or concerned about the fact that a more cost-effect service has to be put in place to meet their eligible needs. However, the overall approach to reassessments is not changing; eligible needs will be identified and appropriate support put in place to meet those unmet needs. People will not be subject to a different approach based on their age. Every person's eligible needs will be identified and met through appropriate support arrangements.

The Better Care Fund partnership with the NHS CCG will continue to develop during 2015/16, with the aim to deliver better joint commissioning, to ensure people get the right care when and where they need it. This should also lead to more effective and efficient services to release savings in this area. This will lead to positive impacts for disabled people.

Given the changes we have therefore spent a great deal of time talking to service users and providers about our proposals in adult social care, as this represents a significant area of change from current service provision. Consultation on the Learning Disabilities Commissioning Strategy has taken place with service users, providers and stakeholders to establish principles and overarching commissioning intentions, in order to enable the development of future specific learning disability budget proposals.

In Place there may be some negative impacts on disabled people dependent on the savings identified through working with our partners Amey, Veolia and SYPTTE but wherever possible we will try to mitigate by reducing our impact on frontline services and continuing to make reasonable adjustments in our provision for disabled customers, for example in kerb side collection. Mitigations have been identified and put in place in individual service EIAs

In Children, Young People and Families, it is recognised that although there are no specific reductions proposed for services for disabled children and young people, changes to the Integrated Sexual Health Service, specifically around reductions to clinics and outreach work may reduce access for some disabled people.

There is likely to be a positive impact for disabled people through the Successful Families Transformation Project as there will be improved and more personalised local provision.

The Choice and Flexibility proposals have three stands which will have a positive impact for families with disabled children by improving choice and increasing the flexibility of delivery.

There are mainly none to low impacts on disabled people in **Resources and PPC**. The changes in the Customer Service proposal which covers contact centre technology and implementation of channel shift strategy and tools means in some cases positive impacts such as better access to services online.

Also changes to council tax schemes are likely to only have a low impact to disabled people. Council Tax

Areas and detail of impact

regulations provide for exemptions or discounts to be applied in relation to the specific circumstances of certain disabled taxpayers. These exemptions or discounts are separate to reductions allowed under Council Tax Support. There are also households in the city whose Council Tax is reduced due to disability. Any Council Tax increase will affect these taxpayers and will also affect those disabled taxpayers who do not receive a reduction due to disability. The provision of CTS and access to the enhanced CTHS will help in mitigating any negative impact that a Council Tax increase will have on taxpayers with a disability.

In excess of 12,000 of taxpayers with a disability are in receipt of CTS which reduces the amount they have to pay. The Council's CTS scheme, which has a system of allowances and premiums, ensured that those in receipt of disability benefits received the highest possible level of CTB. If not covered by this and in recognition of the limited ability that taxpayers with a disability may have to improve their financial circumstances, applicants with a disability have been identified as a specific group for whom support under the CTHS is prioritised. In 2013/14 22% of all applicants to the CTHS had a disability. Disabled customers received on average 11% more in financial support than those who are not disabled and also received support for longer periods than those who were not disabled, with the average period of support being 42% longer.

Should Council Tax increase, the Council will assess the demand that this may place on the CTHS and if appropriate will increase the funding for the CTHS. It is important to note that any increased revenue from a council tax increase could be used to continue to provide services that are accessed by people with the greatest need including a disability.

Race

Sheffield is a diverse city and the ethnic profile continues to change, with the proportion of residents of working age classifying themselves as non-British white growing from 11% in 2001 to 19.2 % in 2011. BME adults make up 16% of the population and BME children 29%. The largest proportional increases are occurring in the Arabic, East European, Indian and Chinese communities. Sheffield's BME population is increasingly dispersed across the city, although there remain geographical areas of the city with high proportions of BME people, these tend to correlate with areas of higher deprivation.

There were very few impact assessments which highlight a medium/high impact on race. There are more indirect impacts on race identified; this is mainly in the areas of impacts on young people and people on low incomes. Mitigations have been identified and put in place in individual service EIAs.

In Children, Young People and Families the change to the Integrated Sexual Health Services may negatively impact on some ethnic groups who are at a higher risk of contracting sexually transmitted infections. This is partially due to cultural differences around sexual health and the often strongly resistant approach of some BME communities to engage with sexual health services or in encouraging young people to access contraception.

There are no changes proposed to youth provision to BME groups who continue to be a priority and monitoring data highlights the high proportion of users from BME groups. The change to the Public Health Young People Substance Misuse contract highlights a potential negative impact across a number of BME groups where there are increasing levels of substance misuse.

The proposed trading of the Inclusion and Targeted Support Service has the potential for a positive impact on different ethnic groups and schools will continue to be equipped to meet the needs and be

Areas and detail of impact

inclusive to support pupils who are from the wide range of ethnic backgrounds that new arrivals comprise. The continuation of this work would help schools fulfill their legal duties and, given the city's changing pupil profile demographics, there is scope for a greater number of schools accessing the service.

The Early Years Best Start investment by Public Health will have a positive impact on BME groups who have a higher birth rate and include some of the most deprived sections of the population.

The **Communities** portfolio is investing a reduced amount in Grant Aid to the local voluntary sector, although this reduction is less than the Council's overall budget cut. Some negative equality impacts have been identified resulting from the reductions in overall grant aid funding available, and the fact that some projects that the Council previously supported will no longer receive funding in future however the funding will be targeted at those in greatest need of support. We are also restructuring teams such as Grant Aid and Locality Management to ensure greater efficiency. The current local area working model includes providing Councillors with a ward pot to fund community groups, projects or additional services to tackle the issues and priorities within their ward. We will also review existing arrangements across the Council in the next year to ensure we are prioritising support available. The main beneficiaries of grant funded services are BME people, older people, women and people on a low income.

There is no evidence to suggest that BME people will be disproportionately affected by the reductions in adult social care.

In Resources the proposal to increase Council Tax will affect all taxpayers irrespective of race. However, there is no evidence available which would suggest that taxpayers from differing ethnic backgrounds will be disproportionately affected by an increase.

However, it is clear from analysing overall Council Tax collection rates that some households from across the City have found (and will continue to find) it more difficult to meet their council tax liability. As the CTS caseload is representative of the City's differing ethnic diversity, it is reasonable to assume households from different ethnic backgrounds will form part of the overall group of CTS taxpayers who are struggling financially. The mitigation for the financial impact of a Council Tax increase is the provision of CTS and access to the CTHS.

Our latest data shows that around 28% of the CTS caseload are from a BME background whilst around 17% of applications to the CTHS have been received from taxpayers from a BME background. In 2013/14, under the CTHS, 80% of applicants from a BME background were awarded assistance under the scheme, compared to 55% of customers from a White British/ White English background. The ongoing provision of the CTS scheme in its present format, allied to the ongoing provision of the CTHS, should continue to offer similar levels of financial assistance to taxpayers from different racial backgrounds.

Religion/ Belief

According to the Census 2011 the largest religion/belief held in the city is Christian 52.5 %, followed no religion 31%, Muslim 7.7% and no religion stated 6.8% etc. Few service impact assessments have detailed any disproportionate impacts in this area.

Areas and detail of impact

In **Children, Young People and Families** the proposed trading of the Inclusion and Targeted Support Service, who work within key schools to develop resources around cultural awareness and practices when working with newly arrived pupils and their families, will have a potential positive impact on faith issues.

The reduction to the Integrated Sexual Health Service contract highlights the difficulties of sexual health services engaging with some communities which may increase. Further monitoring of the impact is being undertaken as part of the EIA being developed in collaboration with the provider.

Sex – including men, women, pregnancy and maternity

Few impact assessments have noted clear direct disproportionate impacts on gender. However as women overall have lower incomes, are a larger proportion of adult social care service users, carers and lone parents, there will therefore be an indirect impact from multiple proposals such as increasing in charging and changes in adult social care. See the sections on older people and disability for potential of indirect impact due to multiple disadvantages in Communities Portfolio.

The **Communities** portfolio is investing a reduced amount in Grant Aid to the local voluntary sector, although this reduction is less than the Council's overall budget cut. As part of this we are continuing to support lunch clubs to reduce isolation of older people. We are also reviewing existing arrangements across the Council in the next year to ensure we are prioritising support available. The main beneficiaries of grant funded services are BME people, older people, women and people on a low income.

In **Children, Young People and Families Portfolio** a change to the Integrated Sexual Health Services may negatively impact on women who are more likely to access sexual health services. Treating and preventing sexually transmitted infections is critical in both sexes. A reduction in levels of outreach with men will also negatively impact.

However the Early Years Best Start investment will result in improved antenatal and postnatal support with improved pregnancy and maternity services provision. There is also likely to be a positive impact for mothers through the Successful Families Transformation Project as there will be improved and more personalised local provision.

The savings in CYPF will enable high quality essential intervention and prevention services for the most vulnerable children and families to continue.

Sexual Orientation

The [Community Knowledge Profiles](#) note that approximately 5 to 7% of people identify nationally as LGB, although we do not have more local information. We think though that Sheffield is likely to have a similar proportion of people who identify as LGB as the national average so approximately 28,000 to 38,000 people. This percentage is usually larger for younger people. Few service impact assessments have detailed negative impacts in this area except the **Children, Young People, and Families portfolio**.

The Sheffield Integrated Sexual Health Service (ISHS) is commissioned by Public Health to deliver open access demand led sexual health services. The universal service has a range of functions. This has been an ongoing reduction since 2013 and the ISHS works across several protected characteristics

Areas and detail of impact

particularly in age, race, religion/beliefs, maternity, sexual orientation, disability, and poverty. Reductions are proposed to this service for 2015/16.

Mitigations include reducing training, communications and rationalising the development of sexual health outreach work, which will all impact on access and delivery of services. Further monitoring of the impact is being undertaken as part of the EIA being developed in collaboration with the provider.

Within the Youth Service budget savings, Lesbian, Gay and Bisexual young people are seen as a particular priority vulnerable group and therefore there are no planned reductions of current levels of support to this group despite the changes to the overall Youth Services budget.

Overall across the Council, we do not think there will be a negative disproportionate impact for LGB people, but information on our service users in this area is limited, although in the past year we have integrated appropriate monitoring into key areas like social care. Further monitoring will be undertaken as part of individual EIAs to assess this as relevant and appropriate.

Transgender

There are nationally approximately 0.6% of the population that are trans, we would expect there to be similar numbers in Sheffield, so 3,300 people. Few service impact assessments have detailed any disproportionate or negative impacts in this area except in the **Children, Young People and Families Portfolio**. Within CYPF the public health contract changes to the Integrated Sexual Health Service (ISHS) may negatively impact support for transgender issues, for example tackling transphobia, awareness raising, building self-esteem etc. as it is a non-core activity and could be compromised if funding is reduced, carrying the risk that trans people, already one of the most marginalised groups, will be further marginalised.

Further monitoring of the impact is being undertaken as part of the EIA being developed in collaboration with the provider. Within the Youth Service Budget savings, transgender young people are seen as a particular priority vulnerable group and therefore there are no planned reductions of current levels of support.

We do not think overall, across all proposals, there will be negative disproportionate impact. However we do not have a sufficient amount of monitoring information about our service users in a lot of services so further monitoring will be undertaken as part of individual EIAs to assess this as relevant and appropriate.

Financial Exclusion, Poverty and Social Justice

Sheffield residents' incomes are around 10-15% lower than the national average. In addition Sheffield is ranked 6th out of 326 against other Local Authorities for low income. Around 20% of people in Sheffield live in relative poverty (below 60% of median income) at any one time. In 2012 this included 23% of all Sheffield children and almost a third of all Sheffield children under 10.

- A greater number of people experience poverty over the course of ten years, potentially 40%.
- Despite efforts to reduce poverty, the proportion of people living in relative poverty is stable and reducing slightly, but at the same time the poor are getting poorer: nationally, income for the bottom fifth of people in 2011/12 was 5% lower in real terms than it was ten years before.

Areas and detail of impact

There are geographic variations in poverty in Sheffield. 125,000 [22%] Sheffield people live within areas ranked as the most deprived tenth nationally, and 47,000 [8%] live within the least deprived tenth nationally.

The face of poverty has changed and some of the characteristics overlap to cause multiple deprivations

- Pensioners are now less likely to be in poverty than previously, but other groups are more likely to be in poverty. Poverty amongst pensioners is directly linked to their experience in earlier life.
- Previously, falling poverty rates for disabled people have reversed, with poverty increasing.
- People from minority ethnic backgrounds are more likely to be poor than white British people.
- Care leavers, and carers (both young carers and adult carers) are at increased risk of poverty.
- Children in large or single parent families are at greater risk of poverty. Almost two thirds of children living in single parent families live in poverty.

Although not within the scope of our budget proposals, it is important to highlight some other relevant factors which are impacting on people in the city. For example national policy, such as the welfare reforms, are adding to the financial pressures facing some communities and are widening existing inequalities. These changes are likely to impact on specific groups who already experience inequality such as people on a low income, disabled people and women. Households with dependent children across the city will experience an average loss of £1,690 per year. This increases for lone parents to an average of just over £2,000 per year. The changes are affecting around one in seven people in the city and again the full extent of these changes has not yet been felt.

Central Government has cut funding to Local Authorities over the last 4 years as part of its deficit reduction programme. At the same time, we have had to deal with rising costs and increasing demand for our services. As noted earlier, inevitably when funding is reducing year on year, the large scale that we are experiencing, there has been impact on the front-line services. The budget reductions coupled with welfare reform and the impact of the recession, mean that preventing things from worsening is one of the main aims of the impact assessments.

Across **all Portfolios** we have tried to minimise the impact as far as possible especially on those that are in greatest need or at risk, such as those that face financial exclusion and poverty and to ensure the budget proposals are in line with the Fairness Commission Principles and our values.

We have considered the key drivers of poverty and its effects short medium and long term. Our proposals therefore reflect the Councils intentions to tackle poverty and reduce inequality. We are also currently developing the new [Tackling Child and Household Poverty Strategy](#) and following the consultation and evidence gathering will be launched in 2015.

In **Place** we are reducing the subsidies we are providing to culture and environment, for example to Sheffield International Venues, Sheffield Theatres Trust, Museums Sheffield, city centre management and to events. This may result in increased charging/ ticket prices for cultural and sporting events and so impact more on people on a low income. This may increase barriers to participation for people on a low income. However price increases will be minimised for low income users via discount schemes.

In **Children, Young People and Families**, the reduction to the Young People Substance Misuse contract could have a negative impact as the intervention and support provided by the provider, Crime Reduction Initiatives (CRI), the Corner helps prevent the longer term negative effects on financial inclusion and tackling poverty. The Best Start Public Health Investment in early years from antenatal care through to preschool will help support improved life chances and social inclusion for children and

Areas and detail of impact

families needing support.

Within the Successful Families Transformation, by allocating resources on a much more local level, areas of greatest need will be receiving support more aligned with local need which will help improve tackle exclusion and poverty.

The Early Years Best Start investment by Public Health will have a positive impact and support improved life chances of children and families in the greatest need. Within the proposed reduction to the Integrated Sexual Health Service, the impact between poor sexual health and health inequalities is highlighted.

We will continue to provide support to those young people Not in Education Employment or Training (NEET), diverting young people from offending, maintaining individual support for 16-24 year olds with learning difficulties and disabilities, supporting young people who are at risk of sexual exploitation, protecting apprenticeships and employment programmes and external investment. For example we're putting much more power in the hands of employers and local businesses, and with other local authorities, agreed to deliver 4,000 new apprenticeships and 2,000 upskilled employees by 2016.

In Resources we will continue to fund a Local Assistance Scheme and to have a Council Tax Support scheme at 23% despite Government cuts in these areas. However we will increase Council Tax for the first time in 4 years by 1.99% or approx. 38p per week for most households to enable us to continue to protect services to those who are in greatest need and at risk. We will mitigate the impact of this by increasing the Council Tax Hardship Fund by £100k in 2015/16.

In Public Health across the Council we have continued to invest the same amount of money £30 million however savings of £2.5m have been targeted from existing Public Health activities in order to avoid disinvestment in other Council services which promote health and wellbeing outcomes, for which revenue funding is no longer available. This investment will

- Address the root causes of ill health by supporting community groups that help people improve their health and wellbeing.
- Work to improve the quality of housing.
- Promote healthier lifestyles through encouraging physical activity.

The outcomes expected of the public health grant will continue to be assessed under the Public Health Outcomes Framework (PHOF), and broadly fall into the following categories:

- Improving significantly the health and wellbeing of local populations.
- Carrying out health protection functions delegated from the Secretary of State.
- Reducing health inequalities across the life course, including within hard to reach groups
- Ensuring the provision of population healthcare advice.

Carers

According to the Census 2011 there are 57,373 residents who provide unpaid care, including 4,559 young people under age 25 and 58% of carers are women. Few impact assessments have noted clear direct negative impacts on carers however as carers overall have lower incomes and by definition care for a large proportion of adult social care service users, there will be an indirect impact from multiple proposals. See the sections on older people and disability for potential of indirect impact due to

Areas and detail of impact

multiple disadvantages in **Communities Portfolio**.

In particular there are some proposals which were implemented following last years' budget, where the reductions did not fully take effect until this year (for example adult social care review and reassessment programme; changes to housing related support contractual arrangements). These will impact mainly on older and disabled people but are also likely to impact on carers directly and indirectly as a result. We have reviewed and updated EIAs from last year to make sure that we have implemented EIA action plans and identify what needs to happen next. For example, we have continued to take a fair and consistent approach to the adult social care reviews and reassessments to enable resources to be fairly distributed across the entire city and across all groups rather than being disproportionately provisioned. However anyone identified as providing care for another adult, who appears to have a level of need for support, will also be entitled to receive a carers assessment themselves.

We are taking steps to ensure we get the best value for money and quality in our contracts in a number of areas; e.g. value for money in provision of short breaks for people with learning disabilities, moving to Supported Living Frameworks in mental health and learning disability services, and re-tender of the community equipment store, small adaptations and independent living preventative solutions. . We are supporting individuals with any transitions between providers where necessary.

A further impact across a range of proposals will be the transition from one provider to another, which may include moving from one location to another and these changes have the potential for significant impact on those individuals transitioning. We will take this into account in any changes, undertake risk assessments where necessary and provide support for users and carers.

To help mitigate against these impacts, further work and monitoring will take place. (See the older persons and disabled people section as well for other proposals which impacts on both groups).

In **Children, Young People and Families**, the Choice and Flexibility proposals will give more families and carers of children with profound or multiple disabilities more flexible respite services, short break provision and short break grants. Last year although we had difficult choices to make, our mitigations and monitoring of impact were effective. Wherever possible we have minimised the impact that the proposed changes on young people's services will have on young people and their parents/carers. We recognise that some of the children, young people and their families will be using more than one of the services where there are changes proposed and may therefore be affected by this

Voluntary and Community Sector

When considering the impact on the VCS the importance of 'social value' is recognised by the 'Best Value' guidance², which was published by the Government in September 2011. This states that authorities have a duty³ to consider the impact of budget reductions on VCF or other organisations that

² <https://www.gov.uk/government/publications/best-value-statutory-guidance--4>

³ The Best Value Statutory Guidance has statutory force and must therefore be taken into account in the exercise of funding decisions. It is issued under section 3(4) Local Government Act 1999 which states that, in deciding how to fulfil its Best Value duty (section 3(1) LGA 1999), local authorities have to take into account guidance issued by the Secretary of State which may cover the form, content and timing of consultations <http://www.ncvo-vol.org.uk/news/civil-society/helping-you-understand-new-best-value-guidance> ,

Areas and detail of impact

have a 'social value'. The Public Services (Social Value) Act⁴ requires us to take social value into consideration when we commission services. In order to do this effectively we will continue to monitor the impact of changes over the next year, on service changes as well as the knock on effects of reductions on other providers, and continue detailed consultation with customers and other stakeholders as specific activities are implemented.

The **Communities** portfolio is investing a reduced amount in Grant Aid to the local voluntary sector. Some negative equality impacts have been identified resulting from the reductions in overall grant aid funding available, and the fact that some projects that the Council previously supported will no longer receive funding in future. However the funding will be targeted at those in greatest need of support.

We are also restructuring teams such as Grant Aid and Locality Management to ensure greater efficiency. The current local area working model includes providing Councillors with a ward pot to fund community groups, projects or additional services to tackle the issues and priorities within their ward. We propose a 15% reduction in ward pots. We will also review existing arrangements across the Council in the next year to ensure we are prioritising support available. The main beneficiaries of grant funded services are BME people, older people, women and people on a low income.

In **Children, Young People and Families**, Sheffield Futures – a voluntary and community sector provider - is the largest contractor of youth services and has a key role in the current redesign of youth services in growing and supporting community capacity to deliver youth activities, through volunteers, help with grant applications, loan of equipment and use of rooms etc.

However, the programme does not provide, nor has it been designed to provide any direct cash funding for organisations on an ongoing basis. Therefore, no organisation or group will lose funding. Savings on youth buildings will be achieved through proposals to transfer the running of some buildings to community organisations to run.

Though the current impact is neutral, within the Successful Families Transformation Project there is the potential for greater involvement and a possible greater role in long term locality based delivery for the VCF sector.

In **Public Health** we are continuing to address the root causes of ill health by supporting community groups that help people improve their health and wellbeing, although these contracts are being reviewed to ensure value for money and may result in reduced contract values for some organisations.

Within the Public Health Young People Substance Misuse contract change, there will be a small negative impact through the decrease of staff for Crime Reduction Initiatives (CRI) within the Corner project, which is the young people substance misuse provider. However, we are able to mitigate the NHS England reduction as the local authority loses the responsibility to provide substance misuse services into Aldine House and staffing issues have been mitigated through TUPE.

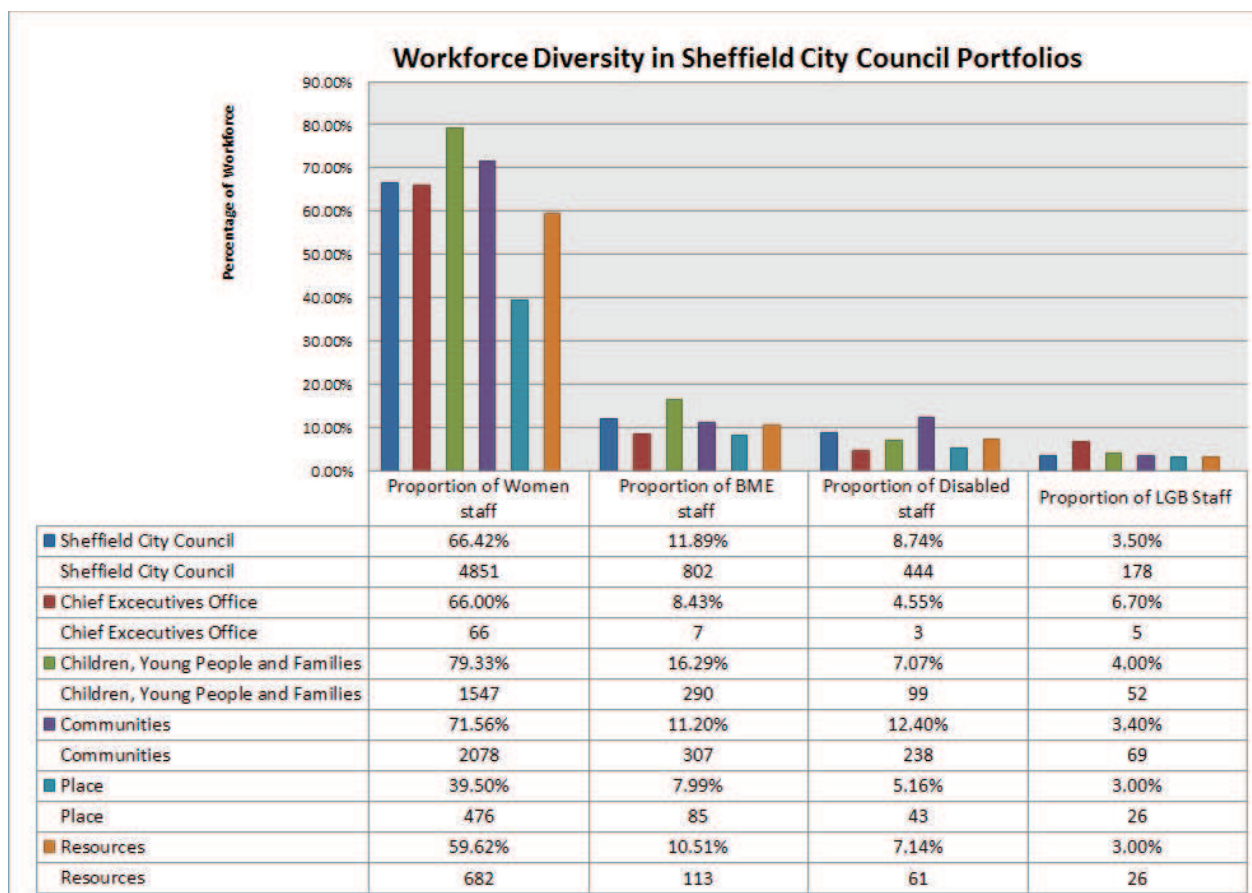

It is possible that the combination of cumulative budget reductions over the last few years may have the unintended effect of destabilising some organisations that the Council and communities value, we are however working to mitigate this. Although the impact on the VCF sector is large, overall we do not think that it is disproportionate.

Areas and detail of impact

Council staffing implications, including workforce diversity

Workforce diversity summary in Sheffield City Council 2014 by Portfolio

In all **Portfolio areas** many of the budget proposals involve staff efficiency savings including; service restructuring, a reduction in management costs by deleting vacancies, reviewing agency staff and managing employee reductions through voluntary early retirement and severance schemes. We have across the Council reduced management costs, minimised redundancies by using the talent pool, and reduced the impact on frontline staff where appropriate. Unfortunately there may still also be compulsory redundancies in some areas.

We have also promoted employee led measures such as voluntary reductions in hours, career breaks and annual leave purchase schemes to deliver savings but also promote work / life balance. The council is also committed to continuing to pay a 'Living Wage' to employees.

The Council believes that the composition, skills, and commitment of the workforce are vital factors in our ability to deliver effective, efficient responsive and personalised services. We continue to monitor workforce issues, and are aware of the need to address:

- The degree of occupational segregation within the workforce such as a high proportion of women in the Communities and Children and Young People and Families workforces and a high percentage of men in the Place portfolio

Areas and detail of impact

- Under-representation of disabled, BME and lesbian, gay, bisexual and trans (LGBT) people in the workforce and especially for women, disabled and BME staff at Chief Officer level.

Given the amount of internal restructuring as a result of the budget proposals, other drivers and possible staff reductions of a further 200 posts in 2015/16, a significant number of workforce EIAs within Portfolios have been done and a Council wide Managing Employee Reductions (MER) EIA has been completed.

These show possible changes to the diversity of the workforce as a result of staff restructuring and MERs required from some of the budget proposals. It is not yet possible at this stage to predict the precise impact of these processes upon workforce diversity as this can only be known later in the year as the schemes are all worked through. Last year's monitoring of the MER and VER/VS schemes showed no negative disproportionate impact on people who share a protected characteristic and had positive impacts in line with our workforce diversity strategy. See the corporate MER EIA for full details.

We will continue to work within our current policies and procedures, which promote workforce diversity to reflect the demographics of the city. We are also working with managers, staff and trade unions to ensure the workforce is viable and appropriate to the council's future operating and service needs, with a balance of skills and experience.

Workforce related Impact Assessments are periodically updated and have for example been undertaken as part of MER's including Voluntary Early Retirement (VER) and Voluntary Severance (VS), and the Pay Strategy.

Headline Features

All budget proposals have undergone an initial impact analysis to decide whether there was likely to be disproportionate negative impact on different groups of people. Where this was identified as having medium or high impact, in-depth (full) EIAs were carried out.

- Our overall approach is to protect services for those in greatest need and at risk where possible and to change how we manage and deliver services to make savings. This will have an impact on what the Council can continue to deliver.
- Groups highlighted as impacted across EIAs and all Portfolios, are disabled people, older and younger people, women, carer's and people on low incomes. Disabled people, some women such as lone parents and women pensioners, young people and some BME groups tend to have a lower income may be cumulatively impacted.
- Many services are continuing to comprehensively restructure services and teams and as a result staffing levels across the council have reduced. Last year the majority of changes were managed through voluntary severance schemes. In 2015/16 we will be reducing the workforce by approximately 200 further posts. Monitoring from the past year indicates that there has been no disproportionate impact on those who share protected characteristics. See workforce implications section below.
- Services will be looking to increase charges to ensure full cost recovery and will continue to

Areas and detail of impact

apply costs fairly through our Fairer Contributions Policy. However, the changes will impact more on people experiencing financial exclusion.

- We are investing in the VCF sector including through Grant Aid and Public Health albeit at reduced level. Some negative equality impacts have been identified resulting from the reductions in overall grant aid funding available. Some projects that the Council previously supported will no longer receive funding in future; however the funding will be targeted at those in greatest need of support. We will also review existing arrangements across the Council in the next year to ensure we are prioritising support available.
- We will continue to fund a Local Assistance Scheme and to have a Council Tax Support scheme at 23% despite Government cuts in these areas. However we will increase Council Tax for the first time in 4 years by 1.99% or approx. 38p per week for most households to enable us to continue to protect services to those in greatest need and at risk.
- Public Health spending is integrated throughout the Portfolios. Overall there will not be any reduction in investment in this area but in line with what was agreed last year we are reviewing how and where the funding is spent to ensure that it is targeted to tackle the root causes of ill health and to have the maximum impact on reducing inequalities. This means that we will save £2.5million on existing activities in order to reinvest in other areas.
- This year will see the start of the new integrated Commissioning Programme between the Council and the Clinical Commissioning Group to create a combined budget to develop joined up services. This new approach aims to ensure people get the right care when and where they need it but will also create efficiencies in processes. It focuses on supporting people at home to help increase independence and delay access to Health and Social Care services.
- We will continue to target resources to those in greatest need and at risk; help people to become more independent; where possible intervene earlier and do more preventative work; get even better value for money in the services we purchase; and pursue innovative approaches in service commissioning and design. This relates to both internal and external services.
- We are proposing to continue with restructures of Council services and are considering both internalising and externalising services where appropriate (such as the contract for Revenues and Benefits customer services function being brought back in house and some care and support services being externalised).
- We will continue to work on getting greater value for money from our contracts; this is with our major strategic providers such as Capita, Veolia, Amey and Kier but also in Communities where we have issued a new Framework for Supported Living to ensure we have a choice of providers at competitive prices and retendering of existing services.
- The Impact Assessment also highlights some positive implications of budget proposals. Examples include improving the process of assessment and support planning for existing and future social care customers whilst ensuring choice and control over support to meet their eligible needs, and reshaping transport to provide services which promote independence. The Better Care fund partnership should continue to develop and mean more joined up pathways and services. Also as we restructure services both internally and with external providers there

Areas and detail of impact

should be clearer and more efficient ways to contact services.

Managing Impact: Mitigation

Our overall approach is to protect services for those in greatest need and at risk where possible and to change how we manage and deliver services to make savings. This will have an impact on what the Council can continue to deliver.

The year on year reductions and the scale of the savings required mean there will be impacts upon vulnerable groups that share protected characteristics. Most impacts relate to both younger and older people, disabled people, women and people on low incomes. In all these areas some mitigating actions have been identified and will be implemented as part of EIA action plans. For example

- All proposals have been assessed in line with the Fairness Commission Principles and take into account the Tackling Poverty and Increasing Social Justice outcome area
- Working with external providers to achieve savings in our large contracts and to achieve this as much as possible through non front line service functions.
- Working with partners to encourage private sector to support activities and events and encouraging commercial activity to promote Sheffield.
- Working to increase our income through fees and charges, full cost recovery, and increased trading of our services, for example with schools to help keep non-core services.
- Continuing where possible with successful schemes from last year that impacted positively such as the apprenticeship schemes and employability programmes.
- Investing in prevention and delivering targeted support for those most vulnerable or at risk such as in our Best Start programmes.
- Following the library review investing in local community groups to maintain the viability of non-council run libraries.
- Continuing to encourage people to be independent, safe and well in both children and adult care such as through direct payments and continuing to reduce reliance on expensive provision outside of Sheffield.
- Reviewing care and support arrangements and re-tendering services where applicable to ensure fair contributions and value for money.
- Working in partnership with the NHS Clinical Commissioning Group towards developing a single pooled budget for health and social care under the Better Care Fund
- Restructuring management and services to increase efficiencies and create simpler routes of public access. For example through our safer neighbourhood team and community safety function creating a single street based response team.

Areas and detail of impact
<ul style="list-style-type: none"> • Regionalisation of services where appropriate such as adoption and youth justice. • Continuing to invest £30 million in Public Health but shifting the focus to address the root causes of ill health to help to help reduce health inequalities. • Continuing to invest in the Voluntary and Community Sector through grant aid, including building on the successful integration of the Sheffield Advice and Law Centre. <p>These continued substantial reductions in funding mean that progress on work on tackling poverty, inequality and increasing social justice is much more focused on ensuring we do not slide backwards and lose ground in existing areas of inequality and to ensure we are doing things fairly and more efficiently, not necessarily about just meeting new demands.</p> <p>Although there are very difficult choices, our impact assessments illustrate our approach to consider the Fairness Commission Principles and to mitigate negative impacts where possible. Through our 'live' EIA process we will be monitoring closely any adverse equality impacts as reductions and changes in provision occur during the next year. The impact analysis shapes proposals which do not make it forward into the budget as well as those that do.</p>

EIA Action plan		
Area of impact	Action and mitigation	Lead, timescale and how it will be monitored/reviewed
Overall and for specific issues relating to communities sharing protected characteristics under the Equality Act 2010	<p>Individual proposals have had detailed EIAs and specific mitigation has been devised wherever possible. These will contain the detail of the actions required be monitored as appropriate.</p> <p>In some cases as proposals are developed further and implemented, alongside consultation, some impact assessments will be revisited or updated.</p> <p>Continued focus on applying corporate priorities, the Fairness Commission Principles and the Equality and Fairness Objectives</p>	<p>Service Managers within Portfolios as noted in EIAs</p> <p>Performance monitoring within Portfolios - Directors of Business Strategy</p> <p>Strategic Equality and Inclusion Board to examine in more detail the cumulative impact of the budget cuts made on Sheffield over the last 4 years.</p>

Term	Definition
Abbreviations	The symbol 'k' following a figure represents £thousand. The symbol 'm' following a figure represents £million. The symbol 'bn' following a figure represents £billion.
Capital Expenditure	Expenditure that is incurred to acquire, create or add value to a non-current asset.
Capital Financing Requirement	It measures an authority's underlying need to borrow or finance by other long-term liabilities for a capital purpose. It represents the amount of capital expenditure that has not yet been resourced absolutely, whether at the point of spend or over the longer term. Alternatively, it means capital expenditure incurred but not yet paid for.
Capital Receipts	The proceeds from the sale of capital assets which, subject to various limitations (e.g. Pooling Arrangements introduced in the Local Government Act 2003) can be used to finance capital expenditure, invested, or to repay outstanding debt on assets originally financed through borrowing.
Collection Fund	A fund administered by the Council recording receipts from Council Tax, National Non-Domestic Rates and payments to the General Fund. All billing authorities (including the Council), are required by law to estimate the year-end balanced on the Collection Fund by 15 January, taking account of various factors, including reliefs and discounts awarded to date, payments received to date, the likely level of arrears and provision for bad debts. Any estimated surplus on the Fund must be distributed to the billing authority (the Council) and all major precepting authorities (Police, Fire and DCLG) in the following financial year. Conversely, any estimated deficit on the Fund must be reclaimed from the aforementioned parties.
Contingency	A condition which exists at the Balance Sheet date, where the outcome will be confirmed only on the occurrence of one or more uncertain future events not wholly within the Council's control.
Council Tax	A banded property tax that is levied on domestic properties. The banding is based on assessed property values at 1 April 1991, and ranges from Band A to Band H. Around 60% of domestic properties in Sheffield fall into Band A. Band D has historically been used as the standard for comparing council tax levels between and across local

	authorities, as this measure is not affected by the varying distribution of properties in bands that can be found across authorities.
Council Tax Freeze Grant	Grant funding provided by national government to support councils that freeze their Council Tax charges. The grant scheme is open to all billing and major precepting authorities, including police and fire authorities, which decide to freeze or reduce their council tax. If they do, they receive additional funding in 2015/16 equivalent to raising their council tax by 1 per cent.
Council Tax Support	Support given by local authorities to low income households as a discount on the amount of Council Tax they have to pay, often to nothing. Each local authority is responsible for devising its own scheme designed to protect the vulnerable. CTS replaced the nationally administered Council Tax Benefit.
Credit Risk	The possibility that one party to a financial instrument will fail to meet their contractual obligations, causing a loss to the other party.
DCLG	Department for Communities & Local Government
Designated Areas	These are specific parts of the city referred to as the New Development Deal and Enterprise Zone. They are significant because any growth in business rates above the “baseline” established in 2013/14 can be retained in full locally, rather than half being repaid to Government.
Equality Impact Assessment (EIA)	A process designed to ensure that a policy, project or scheme does not discriminate against people who are categorised as being disadvantaged or vulnerable within society.
General Fund	The total services of the Council except for the Housing Revenue Account and the Collection Fund, the net cost of which is met by Council Tax, Government grants and National non-domestic rates.
HR1	Each local authority is required to submit an HR1 form to inform the Government of potential redundancies in the organisation. The Redundancy Payments Service then collects the information and distributes it to the appropriate government departments and agencies who offer job brokering services and/or training services. This happens so that the government can discharge its obligation to these employees.
Minimum Revenue Provision (MRP)	The minimum amount which must be charged to an Authority’s revenue account each year and set aside as provision for credit liabilities, as required by the Local Government and Housing Act 1989.
National Non-Domestic Rates (NDR)	These are often referred to as Business Rates, and are a levy on business properties based on a national rate in the pound applied to the ‘rateable value’ of the property. The Government determines the national rate multiplier and the Valuation Office

	Agency determine the rateable value of each business property. Business Rates are collected by the Local Authority and paid into their collection fund, this amount is then distributed 49% to the Local Authorities general fund, 1% to the South Yorkshire Fire and Rescue Authority and 50% to Central Government. The Central Government share is then redistributed nationally, partly back to Local Authorities through Revenue Support Grant.
LAC	Looked After Children
Precepts	The amount levied by another body such as the South Yorkshire Police Authority that is collected by the Council on their behalf.
Private Finance Initiative (PFI)	A contract in which the private sector is responsible for supplying services that are linked to the provision of a major asset and which traditionally have been provided by the Council. The Council will pay for the provision of this service, which is linked to availability, performance and levels of usage.
Provisions	Amounts charged to revenue during the year for costs with uncertain timing, though a reliable estimate of the cost involved can be made.
Public Works Loan Board (PWLB)	A government agency, which provides loans to authorities at favourable rates.
Remuneration	All sums paid to or receivable by an employee and sums due by way of expenses allowances (as far as those sums are chargeable to UK income tax) and the money value of any other benefits received other than in cash. Pension contributions payable by either employer or employee are excluded.
Reserves	Result from events that have allowed monies to be set aside, surpluses, decisions causing anticipated expenditure to have been postponed or cancelled, or by capital accounting arrangements.
Revenue Expenditure	Expenditure incurred on the day-to-day running of the Council, for example, staffing costs, supplies and transport.
Revenue Support Grant (RSG)	This is a Government grant paid to the Council to finance the Council's general expenditure. It is based on the Government's assessment of how much a Council needs to spend in order to provide a standard level of service.
Specific Government	These are designed to aid particular services and may be revenue or capital in nature. They typically have specified

Grants	conditions attached to them such that they may only be used to fund expenditure which is incurred in pursuit of defined objectives.
Spending power	<p>DCLG measures the impact of government funding reductions against local authorities' combined income from both government funding and council tax. This combined measure of income is called revenue spending power.</p> <p>NB: in a press release from the Chartered Institute of Public Finance & Accountancy (CIPFA) following the Local Government Finance Settlement, CIPFA made the following notable comment:</p> <p><i>"CIPFA's measure of funding used in this analysis is "unfenced spending power". This is funding that councils have available to meet their priorities and fund existing staff and commitments and which is not already ring-fenced for other use. This includes Revenue Support Grant (RSG), retained business rates, council tax and a number of special grants that authorities are free to spend as they wish. In contrast DCLG's measure also includes Public Health Grant (which can only be spent on public health matters) and the Better Care Fund (which is largely NHS money or budgets that local authorities have pooled with the NHS, and can only be spent on priorities agreed with local NHS managers)."</i></p>
Unsupported (Prudential) Borrowing	Borrowing for which no financial support is provided by Central Government. The borrowing costs are to be met from current revenue budgets.
VCF	Voluntary and Community Sector

SHEFFIELD CITY COUNCIL Cabinet Report

Report of: Interim Executive Director Resources

Date: 11th February 2015

Subject: 2015 – 16 Capital Programme

Author of Report: Eugene Walker 0114 273 5167

Summary:

The report sets out the proposed Capital Programme from 2015 –16 onwards describing the programmes to be undertaken, lists the projects to be delivered and sets out the context in which it has been compiled.

Reasons for Recommendations:

Implementing the proposed programme in this report offers a means of furthering the Corporate Plan objectives.

Recommendations:

The report makes a number of recommendations. It is recommended that Members:

1. Note the specific projects included in the years 2014-15 to 2019-20 programmes at Appendix 9. Block allocations are included within the programme for noting at this stage and detailed proposals will be brought back for separate Member approval as part of the monthly monitoring procedures.
2. Note the proposed Capital Programme for the 5 years to 2019/20 as per Appendix 9.

3. Approve the Corporate Resource Pool policy outlined in Appendix 4 such that the commitment from the CRP is limited to one year and no CRP supported schemes are approved beyond 2015-16 unless explicitly stated. (If substantial capital receipts are realised within 2014-15 or 2015-16 a further report will be brought to Members as part of the monthly approval process).

2015/16 Capital Programme

CAPITAL PROGRAMME EXECUTIVE SUMMARY

1. Capital spending pays for buildings, roads and council housing and for major repairs to them. It does not pay for the day-to-day running costs of council services.
2. The Council's Corporate Capital Strategy is shaped by a number of central Government policies:
 - the self-financing regime for the Housing Revenue Account (HRA) has provided for a relatively well funded programme of investment in existing and even new Council housing stock;
 - the Streets Ahead programme is providing massive investment in the City's roads and street lighting over the next few years, funded via the Private Finance Initiative (PFI). Some of the cost is outside the capital programme;
 - the Government austerity programme, has had a major impact on the rest of the non-housing programme, which has not only led to less capital funding but is also reducing revenue budget funding and the scope for contributions to the capital budget;
 - the education policy mandating that all new schools should be academies which transfers maintenance responsibilities away from the Council's Local Education Authority (LEA) role and will subsequently reduce central grant funding which is formula driven based on pupil numbers;
 - the shift towards capital funding to economic regeneration projects which generate a financial return to repay the initial investment and create a revolving fund;
 - the devolvement of capital funding to City Region authorities and the involvement of the Local Enterprise Partnerships (LEP) in capital allocation decisions.

As a result of the above, the Housing investment programme therefore now accounts for almost 60% of the Capital Programme.

3. The impact of these policies will result in the Capital Programme principally supporting the Great Place to Live (GP2L) and Competitive City strategic outcome objectives. This is discussed further in paragraphs 59-67.
4. In GP2L, the delivery of the Council's Affordable Housing policy will be increasingly through council housing investment and, for private sector affordable housing, local housing associations or the Sheffield Housing Company initiative where the Council is working in partnership with a private sector developer to increase the number of affordable homes and regenerate housing estates.

5. In the Competitive City outcome, the focus will be on creating the necessary infrastructure to support economic regeneration.
6. In the Health and Well-being outcome investment will be directed to adapt homes so that people can live independently.
7. The Successful Young People outcome will continue to invest in schools to meet the increasing demand for pupil places.
8. The declining central government support will place increased reliance on the Council's Asset Enhancement programme to generate capital receipts to use on its own priorities.
9. The graph below illustrates the change in activity in the Capital Programme from 2010/11 to 2018/9.

Capital Investment Plans

10. So, looking forward, the current Approved Capital Programme from 2014-15 is projected at £872m.
11. 2012/13 saw the introduction of the Streets Ahead Programme (a Highways Private Finance Initiative (PFI)). The programme will result in loss of the Local Transport Plan (LTP) Maintenance Grant of approximately £6m per year, but the PFI funding of £1.2bn should deliver substantial improvements to the Highways network through capital investment over a 30 year period concentrated in the first five years of the Core Investment Period of the project. Where economically advantageous, the Council will invest further sums if this can generate revenue

budget savings because it can raise finance cheaper than its commercial partners.

12. The Housing Revenue Account HRA Self Financing project delivers to local authorities' greater autonomy in the management of their housing stock and writes off substantial amounts of accumulated debt. This will allow the authority to plan contributions to the capital programme from the Housing Revenue Account with greater certainty over a longer term period, and the Authority has developed a 30 year business plan which will inject into the Housing Programme £70.5m in 2015-16 and £214m thereafter over the next three years.
13. School building works will be financed mainly by Department for Education formula calculated central grants supplemented by occasional specific grants to deal with building condition or population growth.
14. The proposed programme illustrated by the graph in paragraph 9 above does not include a number of major projects worth potentially £100m+ which are currently the subject of funding bids or approvals as detailed below.
15. **Flood Defence Schemes (£35 m):** Cabinet has already approved a £18m scheme to provide enhanced flood defences over a five mile stretch of the River Don between the city centre and Meadowhall which would protect homes and businesses against a 100 year flood event. The Environment Agency has invited the Council to apply for a further £35m of funding to undertake works across the city in the Upper Don valley, on the River Sheaf, Blackburn Brook and Car Brook.
16. **City Centre Development:** it is a Council priority to regenerate the city centre. The Council is reviewing different partnership options for taking this project forward. This may involve the Council undertaking infrastructure works to prime the development.
17. **Central Library:** the objective will be to provide a refurbished and improved central library and gallery facility to meet modern requirements, while maintaining the heritage value of the existing building. The project is the subject of feasibility work to ascertain the best use of the Council's city centre buildings. The scale of the work could be very significant requiring external funding support. Approvals will be sought once a funded proposal has been developed.
18. **Castlegate Redevelopment:** the Council is seeking external funding to develop the former Castle Market site potentially as a visitor attraction if there are sufficient remains of the former castle which can be uncovered.

Pressures on the Capital Programme

19. This summary details the pressures on the Capital Programme and the consequences for its funding.

Schools

School Places

20. The Council has a significant duty to provide sufficient and suitable school places. The rising birth rate means that the primary population (which eventually becomes the secondary group from 2015/16) has risen significantly and two new schools have been delivered in 2014. This need will continue for the foreseeable future as the responsibility to build new schools remains with the Council and does not transfer to academies.
21. The proposals in this report are based on the current education funding arrangements and do not include any attempt to forecast the impact of additional schools converting to academy status. This development is expected to reduce the level of funding from today but the demands on the Authority's capital funds will reduce too as the commensurate responsibility for the upkeep of the school infrastructure transfers to the Academies. However the demands relating to the condition of the primary estate are still significant. For the whole school estate, the backlog maintenance bill has been estimated at £100m.

Homes

22. The Housing Programme has suffered twin pressures caused by reductions in nationally funded programmes and reducing capital receipts as a result of the economic climate and changes to the Right to Buy legislation. The introduction of the Self-Funded Business Model has created greater freedom for the Council to invest in its housing stock through contributions from the Housing Revenue account.
23. Having conducted an assessment of the housing market, the Council estimates that at least 725 affordable homes are required each year. The Council aims to deliver these through a combination of initiatives including building homes itself using the Sheffield Housing Company, releasing land to Housing Associations, bringing long term empty properties back into use as well as private sector developments.

Roads

24. The Streets Ahead programme is well underway renewing the fabric of the City's highway infrastructure. The new contract creates greater budgetary discipline than before in that the future maintenance costs of changes to the network have to be identified at the point of construction. This is done by calculating the future costs as a "commuted sum" which is usually funded out of the existing revenue budget. As the austerity programme reduces local authority budgets, there may

come a point where new works are unable to progress because the Council cannot meet the future maintenance obligations.

25. The final position on the Inner Relief Road (IRR) scheme is dependent on the disposal of a small number of residual sites. Balancing this project relies on realising the sales to match any shortfall otherwise funding will have to be taken from the Corporate Resource Pool (CRP).

Maintaining the Existing Fabric of the Property Estate

26. The Council has traditionally allocated several million pounds each year to fund building renovations and machinery replacement. Cabinet has approved a £4.4m programme to maintain the rolling programme and deliver savings to the Revenue Budget by engaging in capital spend to address the fundamental problems rather than “patch and mend”. However, the size and age of the estate produces a significant demand on the Council’s funds.
27. In order to mitigate this pressure, the Capital & Major Projects service is currently reviewing the estate to identify underutilised or high cost buildings where the facility can be provided from existing or new premises. This project, the Community Investment Plan, will run in conjunction with the Accommodation Efficiency Strategy which will reduce the Council’s office space needs enabling it to leave rented property.
28. The Community Investment Plan (CIP) and Asset Enhancement programmes are underway and receipts should arise in the next two years. The first call on the receipts is to repay the investment in these initiatives. The CIP will progress on cash neutral basis with minimal funding whereby future schemes will be financed from capital receipts or revenue savings from completed projects.
29. There is also a substantial programme of remedial works in schools. A small proportion of this can be met by specific grants from the Department for Education (DfE) but the majority of works will require either significantly more grant from the DfE and/or alternative financing.

Developing the Local Economy and Infrastructure

30. Despite the downturn in the property market, the Council will be presented with opportunities to acquire strategic land sites which will help the city recover as the economic upturn gathers pace or provide sites for housing development. Investing in the city’s people is also a key priority. In 2012-13 the Council acquired land to facilitate the construction of the University Technology College in the city centre and is supporting a second venture on the site of the former Don Valley Stadium where building will commence in 2015-16. This is not part of the Council’s programme being directly funded by the Education Funding Agency. In 2013-14 the Council completed the building of the new Moor Indoor Market as part of joint private-public sector initiative to regenerate the Moor. £2m has been

invested in building workshops to assist new small businesses to develop and provide employment.

31. The Capital programme funding strategy needs to be flexible enough to respond to such opportunities.

The Consequences for funding the Capital Programme

32. The impact of the national expenditure reductions, the uncertainties of the weakened property market and the need to manage the risks and contain the pressures within the non-housing programme combine such that the authority becomes increasingly reliant on capital receipts. Looking beyond this source, there are opportunities within the capital programme and new funding streams which have been combined to create funding pools such as the Local Growth Fund. Other initiatives such as the Tax Increment Financing Scheme (TIF) are now in operation and the Community Infrastructure Levy (CIL) should come into force in January 2015. These sources are discussed more fully at paragraphs [82 - 93]

The Capital Resource Pool (CRP)

33. Historically the Capital Resource Pool (CRP) has been used to fund investment needs not met by Government funding, which is principally targeted at housing, schools and roads. The CRP is therefore used to improve the authority's building estate, deal with backlog maintenance demands and unplanned failures of structures or other property losses caused by natural disasters such as the floods in 2007. The authority needs to retain a prudent level of reserve to cover such risks.
34. CRP is also a key resource for funding those projects which are not supported by specific central government grants for homes, schools or roads. It can also be used to demolish empty properties to redevelop land for sale. This can bring benefits to the Revenue Budget by reducing the costs of safeguarding vacant property as well as replenishing the CRP.
35. The success of the Asset Enhancement programme is key to replenishing this reservoir of funding.
36. Appendix 4 discusses the position on the CRP in further detail but the key point to note is that this report, as for the past two years, recommends that no schemes funded from this source be approved beyond one year (2015-16) because of the uncertainty around future capital receipts.

THE CAPITAL PROGRAMME 2014 – 18

37. The capital programme over the 5 years 2014-18 shows a broadly balanced position with proposed expenditure totalling £872m as per Appendix 1.
38. Wherever possible, attempts are made to match the timing of the receipt of resources and the incurrance of expenditure to protect the Council's cash flow position. Where the levels of expenditure are significant, then individual management arrangements are put in place to mitigate the impact as far as possible. These are overseen by the Director of Finance, in conjunction with the respective Head of Service.
39. The funding of the programme comes from a diverse range of resources, such as government grants, other grants and contributions from other public bodies or third parties, capital receipts, prudential borrowing and revenue contributions to capital. The majority falls within either prudential borrowing or contributions from the revenue account to the capital programme, which together represents £727.8m (71 %) of the overall programme value.
40. The 2014-15 programme was set on the 7th March 2014 and at the time totalled £101.3m for 2014-15. This has been revised as additional resources have been secured, and to reflect the impact of newly approved schemes, together with the net effect of the 2013/14 Outturn slippage and actions taken below, resulting in a revised current approved programme of £192.4m as per appendix 1.

Slippage within the Capital Programme

41. For the last five years there has always been an underspend against the approved capital programme. Subject to Cabinet approval, funds are rolled forward into the next year in order to complete projects. Slippage reflects delays in physical progress of a project and in most cases the work is delivered in the next financial year. The risk of slippage is present in all capital programmes and has been experienced in previous years.
42. However, the current reporting system has provided greater transparency and identified instances where money appears to be repeatedly carried forward from earlier years. This allows members to test if the funding is really needed and could be reallocated to other priorities. It also shows the delivery performance on the capital programme.
43. Considerable work has been undertaken in 2014-15 to identify the cause of slippage and improve capital delivery. This work has compared Sheffield's approach to that of other organisations with significant capital programmes. This has concluded that project management needs to be strengthened and that

delivery plans need independent scrutiny. The main improvement areas are being addressed as part of the recovery plan:

- The need for an independent review and challenge of project timelines which tend to be optimistic and do not allow sufficient time for key procedures such as approval, procurement and consultation with no contingency if things go wrong;
- Submitting investment bids before the whole project has been scoped in order to obtain capital funding; and
- Weak project governance with inadequate supervision of project managers by project and programme boards. In some cases the supervising group is managing the project.

44. The value of slippage approved to date totals £23.6m. A breakdown of this by portfolio is listed in the table below.

Portfolio	Slippage (£m)	Accelerated Spend (£m)	Net Slippage (£m)	2013/14 Comparable Figure [1]
Housing	11.0	0.2	10.8	24.2
Other Place	2.7	0.0	2.7	1.9
Resources	4.1	0.0	4.1	1.9
Highways	0.0	0.0	0.0	1.3
Communities	0.0	0.0	0.0	0.8
CYPF	6.0	0.0	6.0	0.0
TOTAL	23.8	0.2	23.6	30.2
[1] Represents the level of slippage approved at the equivalent period last year.				

KEY ELEMENTS of the CAPITAL PROGRAMME

45. The overall Capital programme position for the 5 years from 2014/15 to 2018/19, amounts to £872m. Although the programme is made up of numerous capital projects the majority of its value falls within the Housing programme, which represents around £488.5m (56%) of the total programme.

2014/15 Approved Programme	
Annual Profile	
	£m
2014/15	192.4
2015/16	232.7
2016/17	156.3
2017/18	127.9
Beyond 2017/18	163.0
	872.2

46. When represented graphically the peak of the programme is in 2015-16. As discussed at paragraph 14, it is expected that further projects will come forward for approval and add to the programme.

47. The Housing programme becomes the single largest element (56%) of the Capital Programme with significant amounts being invested in roads, regeneration, schools and leisure facilities.

CAPITAL PROGRAMME		
2014/15 to 2018/19		
	£m	%
Schools	79.8	9%
Housing	488.5	56%
Streets Ahead	126.0	14%
Transport & Highways	34.7	4%
Regeneration	91.9	11%
Sport & Leisure	36.4	4%
Other	14.9	2%
Overall Total	872.2	100%

Comments on the main elements are shown below. Further detail can be found in Appendices 6 to 8.

School Places and Capital Maintenance Programme for Schools

48. The need to meet the demand for additional school places created by an expanding population is a priority for the council. Two new schools in the Waterthorpe and Skinnerthorpe areas will produce new places in two areas with increasing pupil numbers. The Council will design and procure the new schools, which will be academies under government rules. An external sponsor will then maintain them.
49. Capital investment in maintaining the primary estate (including primary schools) utilises the approximately £6m annual grant from the DfE together with the Devolved Formula grant from the schools themselves (£1.3m annually). Good prioritisation utilising our asset management plans means that the Council can target resources at the most needy schools throughout the city. This includes the ability to combine programmes at schools where it produces better value for money. The critical programmes to follow are, heating and electrical, fire risk assessment measures, structural, roofs, windows and mobile replacements.

Housing Programme

The proposed programme is aligned to the three main themes in the Council's Housing Strategy. The programme is summarised below and described in detail in Appendix 6.

50. **Increasing the Supply of New Homes in the City (£100.1m)** through supporting the Sheffield Housing Company and other registered homes providers to build new properties. Local Growth Fund money will be used to clear undeveloped sites to prime construction work. For the first time in many years the Council will build its own houses putting substantial funds from the HRA and Affordable Housing payments from developers.
51. **Making the best use of the City's existing housing stock (£319.4m)** by continuing to renovate and refurbish the Council's housing stock. The Decent Homes Programme will complete in 2013-14 (£27m) having invested over £700m into improving homes. Going forward, £198.8m of funding has been identified within the Housing Revenue Account to maintain the standards reached today. On top of this over £42m will be invested in heating and insulation schemes improving the energy efficiency of homes reducing fuel costs and meeting the Council's environmental objectives. More money is also being invested in roofing including the fitting of solar panels.
52. **Helping Younger, Older and Vulnerable people live independently (£23.1m)** through the provision of grants to help adapt private sector houses to their needs as well as adapting the Council's own stock.

Other Projects and Programmes

53. **Regeneration (£91.7m)** is a key programme and objective within the Place portfolio. These works are seen as essential to promote economic growth and jobs which will increase footfall and spending in the city. More businesses, less vacant office and shop space should also increase the Council's business rate income which will help offset the loss of central government funding. Most of the money is allocated to the New Development District in the city centre which will incorporate the New Retail Quarter. A further £8m is being invested in the West Bar to Castlegate axis through the demolition of the former Castle Market and removal of 500m of redundant highway along West Bar replacing it with landscaped verge (the Grey-to-Green project).
54. Over £36m has been included in the programme to implement the **Council's leisure facilities strategy**. This will deliver new centres in the North and South of the city complementing those at Ponds Forge in the city centre. The plans include £7m to build a new centre in the north of the city of which £2.5m will come from the Council and the remainder from external funders. The Council has assumed responsibility for the delivery of a £15m development replacing the existing facilities at Graves to serve the south of the city. The new sports centres will also include medical evaluation facilities to test the impact of exercise on health. A further £1.2m will be invested in a new venture with the Football Association to transform the quality of both adult and junior pitches across the city with Sheffield being the pilot for the national scheme.
55. £8.6m investment in **Office Accommodation** to implement modern IT systems and working practices which will reduce the overall floor space requirement and generate Revenue Budget savings. A further £4.8m is to be spent to make the long term building estate fit for purpose and compliant with the latest Health & Safety and accessibility legislation. The rolling repairs and refurbishment budget for the estate is another £2.3m.
56. £18m is included for the feasibility, design and construction of **flood defences** to protect the Lower Don Valley which should raise business confidence and assist the regeneration of the area. This has increased by £11m from last year following the successful bid for additional funds from the Environment Agency.
57. **Asset Enhancement Programme**. £3.2m will be invested in surplus council land to prepare it for development increasing its attractiveness so that it can be sold to generate a future stream of capital receipts to fund the Capital Programme. This programme will also assist other Council priorities such as developing new homes.
58. £2.8m investment in **Parks projects** including £750k to convert some areas of parks to natural meadow or woodland reducing revenue budget maintenance

costs, and, £0.8m on building two cycle paths to link Norfolk Park with Park Square.

Strategic Outcomes

59. Over the past two years the Council has adopted an alternative Revenue Budget compilation strategy considering the total investment across all service delivery portfolios in a particular area of performance (called a strategic outcome) which is linked to the medium-term plan priorities. As stated in the Executive Summary, the current disposition of central government and external funding opportunities result in the Capital programme principally supports the Great place to Live and Competitive City outcomes.

60. The graph below shows the allocation of investment by Strategic Outcome. Individual projects are listed under each strategic outcome at Appendix 10.

61. **Successful Young People** primarily reflects the investment in schools to give children the opportunity of a good start in life. The School Places Expansion and Maintenance Programmes are the main components of this outcome.

62. **Great Place to Live** includes not just the Housing Programme but also investment in sports and leisure facilities, parks, fit for purpose transport systems and road safety measures. These works are predominantly undertaken by the housing and Place Portfolio programmes. Explained in greater detail in Appendices 6 to 8.
63. **Competitive City** – Schemes contributing to this outcome include the City centre regeneration schemes (New development district and public realm improvements) plus some energy efficiency schemes such as the insulation of homes which contributes to the Council’s environmental objectives.
64. **Health and Well Being** outcome will see investment in information systems and ICT to improve customer service and reduce operating costs, plus Housing programme schemes that help people to live independent lives in their own homes.
65. **Infrastructure** comprises mainly schemes associated with the life extension of, improving or rationalising the Council’s building estate e.g. the Office Accommodation Efficiency Strategy, Asset Enhancement and Community Investment Plan.
66. **Tackling Poverty and Increasing Social Justice** – a £5.8m scheme to improve the local district heating system including the installation of meters in individual dwellings to give people the opportunity to control their energy usage and cost.
67. **Safe and Secure Communities** investment will provide local facilities like resource centres to develop more sustainable and cohesive communities.

The Programme in 2015-16

68. The year on year change in CYPF, from £38.0m in 2013-14 to £20.8m in 2014-15 shows a reducing level of BSF investment as that programme comes to an end. The schools programme is now focussed on the creation of new school places and primary school refurbishment using the Government’s Basic Need and Capital Maintenance grants. A new school for Tinsley is planned plus completions of expansions at Rowan and Oughtibridge and the new Through school at Don Valley. In total £18.1m will be spent on school expansions. £9.2m is budgeted to be spent on school refurbishments. Aside from schools, the portfolio plans to spend £0.8m to complete accommodation improvements at Thornbridge Outdoor centre and £0.5m of grants to assist early learning for children.

69. Housing programme increases by £40.7m from £51.5 to £92.2m. There will be significant investment of £20m in increasing the Council's housing stock through new build and acquiring suitable properties on the market. The existing stock will also receive substantial investment funded from the Housing Revenue Account with £23.7m going into replacing roofs and a further £3.7m fitting photo-voltaic cells, £10.9m for replacement heating systems, £7.2m to be spent on the refurbishment of doors, windows, kitchens, bathroom and electrical wiring, £4.8m into Communal areas and £2.9 for Fire and other safety compliance work.
70. The Place portfolio programme increases from £49.8m to £72.3m with the majority of the money being invested in regeneration projects including £37m acquiring land and developing the vision for the NDD/NRQ plus £6.3m demolishing the former Castle Market building and removing redundant highway in preparation for the redevelopment of the West Bar to Castlegate area. £19.4m is to be invested in sports, culture and leisure facilities using significant contributions from the Football Association, Sport England and the Arts Council. Finally, just under £9m is to be spent upgrading flood defences in the Lower Don Valley.
71. Highways programme decrease from £29.3m to £4.7m as the Bus Rapid Transit North scheme moves towards completion and the 2015-16 Local transport Programme is yet to be agreed and added to the budget.
72. The Resources portfolio programme will fall from £6m in 2014-15 to £4.6m in 2015-16 as the Office Accommodation Efficiency and Fire Safety projects are largely complete.
73. The Communities portfolio programme is forecast to be £1m in 2014-15 as the significant investment in the ICT Infrastructure scheme is completed.

SOURCES OF PROGRAMME FUNDING

74. The programme details at scheme level, both the proposed expenditure and expected funding on an annual basis. The funding of the programme comes from a diverse range of resources and Appendix 2 gives a breakdown of how the overall Capital Programme is currently funded.
75. The majority of the programme is funded via revenue contributions to capital mainly from the Housing Revenue Account, which amount to £381.7m (43%). Grants fund 15% of the programme, prudential borrowing funds 28% and capital receipts represent a further 8% and it is this element of funding that is the most uncertain. Any projects in the Capital Programme funded by capital receipts can only be undertaken if the receipts are realised.

Scheme	Funding £m	Percentage %
Grants	135.9	15%
Capital Receipts	71.8	8%
Prudential Borrowing	245.9	28%
Revenue Contributions	381.9	43%
Other	44.1	5%
Total	879.7	100%

76. Grants funding is mainly used for the schools capital programmes and highways.

77. Prudential borrowing is used where no external funding is available and to fund schemes which will generate a Revenue Budget saving which then repays the principal and interest. The council can often borrow funds cheaper than its commercial sector partners because of its perceived higher credit rating. It makes sense therefore to inject such capital where there is a potential economic benefit.

Capital Receipts Funding

78. The receipts from the sale of surplus assets are used to fund a Corporate Resource Pool (CRP) which allows Members at their discretion to undertake projects for which there is no external funding. It is also used by the authority as a

strategic reserve to cover to emergencies such as the total loss of a key piece of infrastructure e.g. as occurred in the 2007 Floods. As external funding sources are reduced because of austerity cut backs, the CRP assumes an even greater significance in funding the Capital Programme.

79. Appendix 4 gives a detailed review of the potential receipts and demands on the CRP over the next five years in order to form a view on the level of commitment which can be prudently made.
80. Whilst the Asset Enhancement and Community Investment programmes should deliver a steady stream of surplus properties, the uncertainty in the market suggests that the receipts may not be realised within five years. Moreover, the receipts from the CIP will be re-invested in the programme so that it does not require specific support from the Council.
81. Given the need to maintain a prudent level of reserve to mitigate infrastructure failures, grant claw back, or project overspends, the conclusion is that there is insufficient confidence to be able to recommend to Members that any CRP funded projects are approved beyond 2015-16.

Other forms of Funding

Prudential Borrowing

82. Under the rules of the Prudential Code, the Council has the power to finance Capital schemes using Prudential Borrowing (borrowing that does not attract financial support from the Government, which is also known as unsupported borrowing). The principles for entering into such borrowing were approved by Cabinet on 22 September 2004, and generally relates to 'Invest to Save' schemes, including Land Assembly and funding for major capital projects.
83. It remains the Council's view that its best overall financial interest is served by substituting Prudential Borrowing for Leasing. It is considered that borrowing in lieu of leasing can be undertaken as an element of 'Invest to Save' (where it is considered to be more cost effective over the whole life of the asset when compared to Leasing), and can be contained within an overall annual limit established for such borrowing.
84. Included within the 2015/16 Capital Programme are the following amounts of prudential borrowing for projects funded in whole or part from prudential borrowing:

Project	Total Project Value £000s
Street Ahead Capital Contribution	125,982
New Retail Quarter	62,509
Housing Schemes	38,461
Office Accommodation Strategy	9,370
Graves Leisure	4,922
Asset Rationalisation	1,789
Thornccliffe Leisure	1,200
Fosters Carers Housing Enhancement	1,200
Vehicle & Plant Efficiency	451
New Sheffield Indoor Market	23
Total	245,908

85. Any amendments to these limits will be approved by Full Council and undertaken in line with the Prudential Code. There are other commitments outside of the capital programme and these are described in the Revenue Budget report.

86. Prudential Borrowing does not receive any government support and therefore if the Council enters into any prudential borrowing then it will incur additional Capital financing costs. Prudential Borrowing will only be entered into where it can be demonstrated that funding is available within the overall Council budget to meet the ongoing borrowing costs.

New Homes Bonus Fund (formerly known as the Local Growth Fund)

87. This fund which has been created out of two government incentive payments for building new homes (the New Homes Bonus) and reducing the number of long term empty properties. It is available for projects which improve the local housing or neighbourhood environment. Approval of such projects is given by local elected members following recommendations from Council officers.

88. The fund is being used to provide infrastructure or clear derelict buildings to kick start developments at sites which have been unattractive to developers. Often this improves the neighbourhood through removing opportunities for anti-social behaviour as well providing new homes.

Tax Increment Financing (TIF)

89. This initiative was announced in September 2010. The principle is to allow the authority to borrow funds to undertake capital improvements in an area. The money would be repaid from increased tax revenues (i.e. business rates) in the area as land values rise as a result of the capital investment. This scheme has

been used successfully in the United States over the last fifty years, often for major transport, infrastructure or regeneration projects.

90. A scheme to develop infrastructure required for the New Development District (also known as the New Retail Quarter) has been approved by H.M. Treasury. The borrowing will be repaid out of the anticipated additional rates revenue generated by the redevelopment of the city centre. The Council had previously been developing the NDD using a preferred developer but has agreed, by mutual consent, to dissolve the partnership. The Council is currently reviewing options for taking forward this important scheme.

Community Infrastructure Levy

91. This will supplement the current Section 106 (Town & Country Planning Act 1990) arrangements which fund many of the local neighbourhood facility improvements especially in Parks & Countryside as well as City Development Division. CIL allows local authorities in England and Wales to raise funds from developers undertaking new building projects in their area. The money can be used to fund a wide range of infrastructure that is needed as a result of development. This includes new or safer road schemes, flood defences, schools, hospitals and other health and social care facilities, park improvements, green spaces and leisure centres.
92. The Council intends to use CIL to develop strategic infrastructure projects such as roads and schools e.g. £2.2m will be used in the development of the BRT link.
93. The Council has developed its rating tariff and intends to introduce the scheme from July 2015.

RECOMMENDATIONS

94. It is recommended that Members note the specific projects included in the years 2014-15 to 2019-20 programmes at Appendix 9. Block allocations are included within the programme for noting at this stage and detailed proposals will be brought back for separate Member approval as part of the monthly monitoring procedures.
95. Note the proposed Capital Programme for the 5 years to 2019/20 as per Appendix 9.
96. Approve the Corporate Resource Pool policy outlined in Appendix 4 such that the commitment from the CRP is limited to one year and no CRP supported schemes

are approved beyond 2015-16 unless explicitly stated. (If substantial capital receipts are realised within 2014-15 or 2015-16 a further report will be brought to Members as part of the monthly approval process).

CAPITAL PROGRAMME MONITORING AS AT 30th NOVEMBER 2014

1. Summary

At the end of November 2014, the end of year position forecasts a variance of £15.7m (8%) below the approved Capital Programme. Project managers are forecasting to deliver a capital programme of £189.4m. This has been reduced by £12.5m from the previous forecast of £201.9m. The main reductions are in the Housing Programme (£7.0m), Resources (£2.6m) and CYPF (£2.4m). The reasons for these changes are discussed below.

The current forecast is predicated on an increase in the rate of spend - £109m to be spent in the last four months of the year compared to £80m in the first eight – and is dependent on key projects such as NRQ, Grey-to-Green, Leisure and sport facilities, Don Valley School and site remediation delivering to budget.

The Year to Date position shows spending to be £18.8m below the approved programme profile. The programme has fallen less than £200k further behind the budget in the month – the smallest variance seen to date. The level of spend was in line with previous months and this may indicate that project managers have at last forecast a robust monthly budget which mirrors the planned physical delivery .

The year to date position and the forecast position are beginning to converge (year to date spend at the end of November is £18.8m below budget and the year-end forecast has increased to £15.7m below budget a difference of £3.1m – the smallest to date.

The Finance report last month predicted an Outturn of around £175m and the November results reinforce that view and that future forecasts will reflect the actual physical delivery position.

Much of the change this month reflects work done by the Finance and Capital Delivery Services to challenge forecast and remove optimistic assessments of progress generally and on block allocations in particular.

Slippage in the programme is still present but this is less due to poor profiling and more due to proactive work to manage costs. For example:

(i) part of the underspend in the CYPF programme is due to challenging the tender prices from the contractor. This has been made before building work commences thus avoiding costly standing charges, re-works and variations payable once the contractor starts on site; and

(ii) reductions in the Housing programme reflect a conscious review of potential projects awaiting development. This helps to inform the HRA of the likely timing and scope of the call on resources.

This reflects how there is an improved understanding of the programme which is starting to pay dividends.

The main changes in the Housing programme are £3.8 m re-profiling of schemes to increase the stock of Council Housing, £1.8m re-profiling of HRA funded block allocations and £0.7m lower applications for Housing Grants from authorities outside the Sheffield City Council boundary.

Resources forecast has decreased by £2.6m primarily as a result of re-evaluating the work that can be accomplished this year in the essential work to make the Council's buildings compliant with legislation and current building standards.

The £2.4m reduction in the CYPF programme reflects delays in delivering schemes at Norfolk Park School (£1.2m), additional pupil places at Tapton School (£0.6m) and Grace Owen nursery at Park Hill (£0.4m). These schemes will now slip into 2015-16.

Month 8 Approved Budget	<u>205.1</u>	<u>210.3</u>	<u>311.5</u>	<u>726.9</u>

The five year capital programme has decreased by a net £20.9m almost wholly due to a re-appraisal of management charges on the Housing programme.

The key issues being:

- The overspend on the BRT North due to the discovery of contaminated land and an unchartered sewer. Officers are working with South Yorkshire Passenger Transport Executive on a variety of alternative funding sources which will mitigate the overspend ;
- Despite being behind schedule at the end of November both Norfolk Park School rebuild and the Additional Secondary School Places will deliver the required capacity in time for the relevant academic years;
- The acquisition of additional council housing stock is behind schedule due to delays in identifying suitable properties, conveyancing process delays and cheaper purchases but is expected to recover and spend the full amount through buying more properties out of the underspend; and
- Letting of the contracts for the remediation of the site of the former Don Valley stadium as part of the plan to regenerate Attercliffe and Lower Don valley.

Finance

November 2014

CAPITAL PROGRAMME: CORPORATE RESOURCE POOL

Overview

1. The Council's Corporate Resource Pool (CRP) provides a flexible capital resource pool to address key Member and Corporate capital priorities. Funding comes mainly from capital receipts arising from the sale of Council land and buildings plus other unrestricted capital income. The national programme of expenditure reductions has increased the importance of this facility as central government support has decreased.
2. In recent years officers have recommended that Members approve capital expenditure commitments for no more than one year in advance because the weak property market, and consequent low levels of capital receipts, put considerable constraints on the CRP creating a net reduction in the level of the pool year-on-year. Prior year commitments exceed the current annual level of receipts leading to a year-on-year reduction of the value of the reserve. Previously, CRP allocations had been set for three years forward to enable services to plan capital investment on a medium term basis.
3. Capital Programme Group (CPG) has reviewed the current position and recommends retaining the current policy in the face of the:
 - declining level of the CRP;
 - irregular flow of receipts from the disposals programme;
 - need to maintain the Council's infrastructure and provide for other capital contingencies such as structural failures or uninsured losses caused by natural disasters such as the 2007 floods.
4. The CRP is used to address funding issues that are not covered by mainstream capital resources. There is still central government funding for some types of capital projects and there are sources of external funding through grants e.g.
 - Department of Education funding for educational buildings through Capital Maintenance or Basic Needs Provision;
 - Department of Health funding for social care;
 - Department of Transport funding for transport infrastructure through Local Transport Plan (LTP), Better Buses Funding initiative or The Local Sustainable Transport Fund; and

- The Housing Revenue Account (HRA) which funds a substantial part of the housing programme and already accounts for almost 60% of the current capital programme.

Investment Rules for use of the Capital Resource Pool

5. Capital Programme Group has developed a series of principles to test the eligibility for CRP support for projects and these are set out below:
 - The project has no other available funding sources i.e. not from central government, internal investment funds e.g. HRA, or other grant funding bodies; and
 - is in line with corporate priorities; and
 - the project is necessary to make an asset compliant with legislation; or
 - the project has a robust business case which delivers financial savings or significant improvements in performance; or
 - is a strategic project which requires cash flow support until a funding package can be arranged. Funding for this type of project will be on an **exceptional** basis taking into account the current level of unallocated cash within the CRP. The project must be viable and capable of repaying the CRP within a reasonable time, for example, by generating asset sales. If the project does not proceed, any abortive project costs would have to be financed from the sponsoring portfolio's Revenue Budget.

Key Issues for the CRP

6. In managing the CRP, the Council faces a number of key issues in respect of the demands placed upon the CRP and the likely level of future receipts:
 - Declining level of Central government support as the period of austerity continues which may require the authority to use its own resources to fund essential infrastructure
 - The need to maintain sufficient funds to match, at short notice, those available from external funders like the European Union, Heritage Lottery Fund, Sport England etc. in order to lever in funding to replace that lost from Central Government

The Strategy for Managing the CRP

7. The funding of the capital programme is managed by the Capital Programme Group (CPG) comprising senior officers from the Council's services. It makes recommendations to Members through the monthly Finance Budget Monitoring report.
8. Services are asked to propose projects which might use CRP funding. CPG then reviews those projects against criteria such as the economic social benefit

of the project, the opportunity to use the CRP as “match” investment to win additional external funding, and ease of delivering the project and its risk profile. for

9. Following this financial planning exercise, CPG will make recommendations to Members about those projects which offer best value and the extent and speed to which they can be funded. Those projects will then be developed and come forward for approval as part of the Council’s capital approval process.
10. The rate of approvals can be regulated so that funds are then released to projects as capital receipts come in.

Demands on the CRP

11. In the exercise referred to above at paragraph 8, the requests from services for CRP funding totalled just under £29m over the next five years. Given the existing level of CRP funded commitments and the outlook on receipts, CPG recommends allocating a further £6.6m to future projects.
12. This allocation is used for financial planning purposes only and members are not required to approve any of the projected schemes outside the Capital Approval process.

Receipts

13. The next three years should see a considerable inflow of capital receipts as the Council’s Asset Enhancement and Accommodation Efficiency programmes are completed. Many of these sales will deliver receipts worth over £2.5m per site. The precise timing of these receipts is difficult to predict being influenced by local market and national macro-economic conditions. This uncertainty is on top of the inherent risk in all property sales of buyers pulling out, procedural difficulties, ground contamination, searches etc. Further reports will be prepared for members as negotiations proceed.
14. The final value realised will also depend on the application of the Council’s Affordable Housing policy. Experience to date has shown that this can lead to a significant reduction in the forecast receipt.

Risks in the Programme

15. Most of the specific risks arise from former capital schemes including:
 - Uncompleted land transactions on the Inner Relief Road
 - Unrealised land receipts on transactions related to regenerating the Manor estate;
 - Uncertainty over realising the projected receipts from the asset enhancement and Accommodation Efficiency Strategy which are dependent on a sustained economic recovery in the property market; and

- Potential delayed development of Broad Street development which will fund a small part of the new Indoor Market cost.
16. Moreover there is a general risk of any approved project within the programme overspending. Given the pressures on the Revenue Budget, the CRP will be the last resort for covering overspends.
 17. There are also a number of legacy issues relating to European funded projects where the Council has been adjudged to be non-compliant with grant conditions and suffered clawback.

Conclusion on the Funding of the CRP

18. Recognising the uncertainty over the future stream of capital receipts, officers believe there is no argument to recommend to Members that the current policy of approving CRP funds for the capital programme only 12 months ahead is changed.
19. There is some improvement in the property market which should start to move sites but the rate and scope of asset realisation is likely to be determined more by the Council's own policies and performance.

GLOSSARY OF TERMS and ABBREVIATIONS

Term	Name	Description
BBAF	Better Buses Area Fund	A fund to support the development of an improved bus service network.
BID	Business Improvement District	A scheme in which Non Domestic ratepayers pay a levy on the rateable values of their properties to fund additional services.
BRT North	Bus Rapid Transit North	A major project to deliver dedicated road lanes for buses between Sheffield and Rotherham.
CIL	Community Infrastructure Levy	A levy on new development. The purpose of the CIL is to contribute to the cost of infrastructure (roads, schools etc.) needed to support commercial and residential development.
CPG	Capital Programme Group	The management group within the Council which develops and recommends to Cabinet the Capital Strategy for the Authority.
CPO	Compulsory Purchase Order	A statutory power to enable local authorities to purchase land in order to facilitate developments.
DfE	Department for Education	The central government department administering the national education policy.
DfT	Department for Transport	The central government department administering the national transport policy.
ERDF	European Regional Development Fund	European Community Funds available to finance key projects.
HRA	Housing Revenue Account	The specific Council fund where costs and income associated with the provision of council housing are collected. The fund provides a substantial contribution to the refurbishment of council owned properties.
LEP	Local Enterprise Partnership	A body comprising Local Authority and local business representatives which allocate capital funds to major economic and infrastructure projects.
LSTF	Local Sustainable	Introduced by Government to promote sustainable

	Transport Fund	transport interventions that support economic growth whilst reducing carbon emissions.
LTP	Local Transport Plan	The capital programme to develop and improve transport links across the county. Funded from central government grant.
SCR	Sheffield City Region	A combination of local authorities (Barnsley, Bassetlaw, Bolsover, Chesterfield, Derbyshire Dales, Doncaster, North East Derbyshire, Rotherham and Sheffield) which jointly develop strategic infrastructure projects and economic policy within their combined geographic boundaries.
SYITA	South Yorkshire Integrated Transport Authority	Established in 2009 to take the lead in developing transport policy across the county.
SYPTE	South Yorkshire Passenger Transport Executive	The organisation that takes the lead to develop the region's transport network and operates some transport facilities.
TIF	Tax Increment Financing	A scheme by which local authorities are given powers to borrow money to finance large scale infrastructure projects. The interest charge and borrowed sum are repaid using the additional local taxes created by the increased economic activity.
UTC	University Technical College	Academies for 14 – 19 year olds offering vocational training and education.

The Housing Investment Programme 2015/16 - 2019/2020

1 Background

This report sets out the Council's proposed investment in homes and neighbourhoods across the city. This investment plays an important role in contributing towards the delivery of the Council's Corporate Plan priorities.

The investment within this report represents Housing and Neighbourhoods activity within the city and is complemented by other investment and delivery activity, detailed below.

The Housing Investment Programme helps to underpin and deliver some specific elements contained within the Council's 10 year Housing Strategy and other related strategies. This establishes three key objectives for housing in the City over the period 2013 - 23. These are:

- Increase the supply of new homes in the city;
- Make best use of the city's existing stock;
- Help younger, older and vulnerable people to live independently.

The activities contained within the appendices follow this format in order to clearly set out how the Housing Investment Programme is contributing towards the achievement of these objectives. As noted above, there are other investment activities that are being delivered both by the Council and by other partners that will deliver additional outcomes. Some of these sit outside the scope of this report.

This year's proposed Housing Investment Programme totals £87.332m. The majority of this investment (£82.159m) will be invested in council housing, as part of the self-financing Housing Revenue Account (HRA) Business Plan 2015 – 16. This now

includes a commitment to deliver 1,000 new council homes through new build and acquisition by 2019/20.

Table 1 Split of Investment

The remaining £5.163m will be invested in non-HRA activity, as detailed within this report. The non-HRA activity remains at a level which is small by comparison to the overall programme and has not significantly reduced from 2014/15 it remains low compared with activity five years ago. (Table 2) A priority continues to be exploring alternative options for funding or service delivery within these areas.

Table 2: 2010 – 2016 HRA / Non Investment

Presently work is being done on the development of the Housing Delivery Investment Plan. This plan sets the strategic framework and approach to how the council can accelerate housing delivery across Sheffield on private and public owned sites. It is supported by a detailed Delivery Plan, which will identify a variety of sites and will inform the development of an Investment Prospectus aimed at the development sector. In tandem with an 'account management approach' it will present a clear offer to developers and investors and demonstrate that Sheffield is serious in its ambition to deliver more homes.

Investment contained within this report such as the new build council homes programme will assist in delivering new homes and contribute towards the delivery of this plan.

Other elements of the plan will be brought forward for approval in 2015 – 16, and will include New Homes Bonus revenue as well as capital approvals.

When the Housing Delivery Investment Plan has been developed individual projects will be subject to the relevant approvals.

2 Review of what has been achieved in 2014/15

Increase the supply of new homes in the city

Non HRA activity

- 26 properties completed at Park Hill by March 2015, a combination of 13 social rent, and 13 private rent
- Improvements at 4 district/local centres at Spital Hill, Darnall and Attercliffe and Manor Top.

At Spital Hill the works to the Ellesmere Green were completed and an opening event including a market was held to celebrate. The community are hoping to organise another market for December. Following the success of the shop front improvement scheme in Darnall, another scheme has been developed for Spital which includes 80 properties. Work started on site in November and aims to complete by May 2015.

In Darnall a pilot scheme was delivered for Shop front improvement which included 67 properties, and plans were scoped for some public realm improvements,

In Attercliffe, the Town Team which the Council helped set up, has gone from strength to strength and is starting to organise and deliver its own events including a Market as part of the Tour de France celebrations and a Christmas market.

Manor Top has not as yet had improvements as this District Centre will be subject to a far wider plan of which Centres work will be part. A programme mandate has been approved by Great Place to Live Programme Board to ensure a co-ordinated and joined up approach to deliver major transformation.

- Outline planning application approved for around 100 new homes at Abbeydale/Bannerdale site.
- Registered Providers delivered 550 new affordable homes in the city
- The Council has been named as the only authority in the region to have been awarded “Vanguard” status for the Right to Build pilot scheme .The Council

has identified 19 sites which are potentially suitable a number of sites that it will be marketing for custom build in early 2015.

- The Sheffield Housing Company passed the half way mark on the 305 homes to be built in Phase 1 with 155 completed by November 2014.
- The development at Norfolk Park will build 116 homes and the Parson Cross development 142 homes by 2016. Development of the third site, a series of infill plots in Shirecliffe, will see 47 homes built, which will be completed in 2015.
- The Sheffield Housing Company has designed a further 6 sites that constitute Phase 2 which will be submitted for planning approval early 2015. This work will result in a doubling of the development activity by 2015

HRA activity

- A contractor will be appointed and planning permission gained for the first 51 new build council houses.
- 225 long term empties were brought back into use between October 2013 and October 2014.
- Contract signed for the sale of the former King Ecgbert site, for new housing

HRA and Non HRA activity

- 8 households at Park Hill have been rehoused since January 2014.
- 150 residents have been rehoused from Arbourthorne Fields.
- 30 homes have been acquired as part of the Long Term Empty Purchase and Repair Scheme. 1 general acquisition has been completed and 24 viable acquisitions are being processed.

Making the best use of the city's existing housing stock

HRA Activity

- Over 2,300 council homes fitted with new efficient central heating systems. Procurement of 5 contracts to deliver the future heating programme.

- Carrying out essential Health & Safety improvements such as lift maintenance, electrical upgrades and asbestos management.
- Continuation of the programme of fire safety improvements to low rise flats & maisonettes to 3,962 homes.
- Start the programme to install fire sprinkler systems to “Ranch” type properties.
- Continued on the programme to install individually metered communal heating systems to a further 1,600 homes.
- Installed adaptations to over 400 homes to support people to continue to live independently in their home. A new contract has also been procured for this work.
- Completion of the refurbishment of Balfour House sheltered scheme.
- Procurement of work contracts to deliver the roofing programme. Flat roofing began in October 2014 and Pitched roofing will start in the January 2015.
- Communal Area Investment consultation and approval of scope of works and contract procurement
- Garage audit and strategy produced to inform the future decisions and investment.
- Scoping of the future priorities & programmes for kitchens, bathrooms, windows & doors and a start on the contract procurement.
- Acquisition and refurbishment of 30 long term empty properties to be transformed into council properties

Helping younger, older and vulnerable people live independently

Non HRA Activity

- 43 low income home owners assisted to improve their homes

HRA Activity

- Improved public access arrangements to meeting rooms to meet requirements under the Equalities Act 2010 (previously referred to as DDA Act)

HRA and Non HRA Activity

- 891 homes both the council and private sector received adaptations to enable people to remain in their homes, (388 Disabled Facility Grants and 503 Adaptations).

3 The key targets for 2015/16

Increase the supply of new homes in the city

£22.341m

Non HRA Activity

- Complete Shop Front Improvement Scheme at Spital Hill
- Assist Registered Provider, (RP), partners to deliver 225 new homes
- Work with RP partners in the city to agree further bids to the AHP2 programme 2015/18.
- Continuation of the Sheffield Housing Company developments at Norfolk Park, Parson Cross and Shirecliffe.
- Continue site preparation work on seven Sheffield Housing Company sites across the city. This work will continue throughout 2014/15 which will result in a doubling of the development activity by 2015.

HRA Activity

- Rehouse 50 residents at Arbourthorne Fields Redevelopment Scheme.
- Build 51 new council houses.
- Market the Manor 8 site.
- As the freeholder, work with developer to agree a new planning application at Fox Hill and acquire 23 new homes

HRA & Non HRA Activity

- Work is progressing on the development of the 10 year Housing Delivery Investment Plan
- Complete the rehousing of the remaining 6 residents at Park Hill

Making the best use of the city's existing housing stock £60.491m

HRA Activity

- Installation of over 3,100 new central heating systems in Council homes
- The delivery of over 8,000 new roofs.
- Continue the installation of new heat meters.
- Continue the programme of work to install fire safety improvements to low rise flats and maisonettes.
- Complete the final works included in the Environmental Programme including Door Entry work.
- Start the Low Rise Communal Area Programme.
- Start of the future kitchen, bathrooms, windows & doors programme.
- Complete adaptations work at homes that are identified as requiring work.
- Refurbishment of community heating plant rooms and pipework.
- Continuation of the demolition of houses on Arbourthorne & SWaN estates.
- Acquire 45 long term empty homes in the private sector over 3 years and bring them into use as council houses at an affordable rent

Helping younger, older and vulnerable people live independently

£4.490m

Non HRA Activity

- Implement improvement identified through the Right to Control pilot for the Disabled Facilities Grants programme.
- 125 low income homes owners assisted to improve their homes.
- Engage 10 GP practises in the case finding and referral of tenants who are living in poor quality private rented homes that are impacting on their health.
- Reduce the exposure to hazards in the homes of 50 health vulnerable (people with long term health conditions) living in private rented homes.
- Make private sector homes safer by taking action including carrying out works in default to deal with category 1 hazards or conditions prejudicial to health in 450 homes.
- Reduce the impact on neighbourhoods of empty homes by carrying out enforcement works to repair or improving the appearance of 30 empty homes.
- Bring 8 long term empty homes back in to use by taking enforcement action or using the threat of enforcement action

4 The 2015/16 Housing Investment Programme

In total the council expects to invest £91.165m, (including slippage), through this programme in 2015/16 as set out in Appendix 6b and 6c. The source of these funds is set out in Appendix 6a. This sum will increase as some projects will carry over both funds and work commitments from 2014/15 into 2015/16; the level of slippage is currently forecast to be in the region of £4.843m

Investment has been prioritised in line with the three key objectives outlined below (Table 3):

Increase the supply of new homes in the city	£22.341m
Making the best use of the city's existing housing stock	£60.491m
Helping younger, older and vulnerable people live independently	<u>£ 4.490m</u>
TOTAL	£87.322m

Table 3: Three Key Objectives

As set out in last year's Housing Investment Programme Cabinet

Report, there has been a significant reduction in the funding available for regeneration and private sector housing interventions.

This limits the scope of activities that the council can undertake and has required a change in the way the council operates, to see greater emphasis on working closely with our partners to influence their investment decisions and deliver change and investment. We are also utilising New Homes Bonus to deliver regeneration outcomes and to increase the delivery of new homes.

It is therefore still necessary to make difficult choices about which activities will continue to be funded with the reduced funds available, which activities will have to be scaled back, and which can no longer be afforded.

5 Increase the supply of new homes in the city £22.234m

Introduction setting out HDIP and provision of new Council Homes

Housing regeneration and housing supply

The New Homes Bonus Scheme is now entering its fifth year, by the end of March 2015 the council will have received £16.316m of income of both capital and revenue in the first four years, (the revenue element of New Homes Bonus is subject to separate approval process). The scale of the income expected from this scheme can only be estimated, as it depends on the numbers of new homes built, the number of empty homes in the city and the number of properties demolished. The current estimate, which is being reviewed and updated regularly, is a total of £33.335m income over next five year period of the New Homes Bonus scheme.

The schemes which are funded / part funded from New Homes Bonus are spanning various services and directorates and cover the following activities:-

- Chaucer Public Realm
- Successful Centres Programme
- Darnall Shop Frontages

- Spital Hill Shop Fronts
- Grace Owen Nursery
- Spital Hill Regeneration (Public Realm)
- Spital Hill Regeneration (Public Art)
- Spital Hill Ellesmere Green
- Clay Wood Green Links
- Park Hill Green Links
- Green Spaces & Links unapplied balance (Castle College)
- Castlegate SYPTE
- Norton Aerodrome Purchase
- Norfolk Park Land Acquisition
- Arbourthorne RAL's
- LTE Purchase and Repair

The council has approved the use of these resources for projects aimed at boosting housing and economic growth. A strategy with a schedule of projects aimed at delivering economic growth, bringing long-term vacant homes back into use, supporting wider regeneration to improve the quality of life for residents in our neighbourhoods and encourage private investment in building new homes is now in place. So far £28.718m has been identified to a range of projects.

It should be noted that this report only contains £0.540m of New Homes Bonus, as the remaining element is considered to be revenue and governed through a separate process, approved by Cabinet.

At some point in the future, funds set aside for the New Homes Bonus by the government will be fully committed. At this point the Government has said that it will finance future NHB payments by top slicing council's formula grant (General Fund). Close scrutiny will be maintained to establish when any impact might be felt and to prepare the council's response in terms of priorities for investment at that time.

Furthermore the New Homes Bonus income is not guaranteed long term, and it could be reviewed if there was to be a change of government in the next elections.

The Sheffield Housing Company

The Sheffield Housing Company's Phase 1 development which comprises 305 new homes spread across three neighbourhoods is over 50% complete. The new homes in Parson Cross, Shirecliffe and Norfolk Park are all selling well and the company has supported 22 apprentices to date in addition to working with many local businesses as part of their supply chain. Phase 1 is planned to be completed in 2016. By the end of 2014/15 the company will have submitted a further 5 planning applications for approximately 550 new homes on 5 more sites across the city. This will be Phase 2 and will see the company start to develop housing in Manor and Fir Vale during the year.

In 2015/16 the council will continue to support the Sheffield Housing Company to deliver homes and maximise its impact on the regeneration and economic growth of the areas of the city in which it operates.

Investment in new affordable homes

The Homes and Communities Agency (HCA) provides funding for new affordable housing through the Affordable Homes Programme (AHP) and the Affordable Homes Guarantees Programme (AHGP).

Following the completion of the 2011/15 AHP, which delivered 640 new affordable homes in the city, local Registered Providers (RPs) have secured approximately £5.5m HCA grant funding from the first tranche of the 2015/18 Programme. This should deliver 305 new homes and, together with RPs' private funding, represents approximately £37m of investment. Most of these schemes are expected to start on site in 2015/16 and include:

- Regeneration Schemes in Arbourthorne, Darnall, Manor and Manor Park
- Sheffield Housing Company sites
- Older persons' housing at Shiregreen
- Affordable housing in Beighton

The City Council has secured £0.9m from the 2015/18 AHP to continue the existing programme of purchase and repair of Long Term Empty Properties. The funding is for 45 acquisitions, with 15 expected in 2015/16.

Local RPs also secured £7m funding from the AHGP 2014/17, which together with RPs' private funding represents approximately £27m of investment. This should see 223 new affordable homes completed in 2015/16. The schemes include:

- Regeneration schemes at Burngreave, Darnall and Wybourn
- Housing for older people at Jordanthorpe and Wisewood

The remaining funding from the 2015/18 AHP (approximately 50% of the total) is now available to bid for through the HCA's Continuous Market Engagement process. Local RPs are formulating bids to take advantage of this funding including two for Extra Care schemes – at Manor and Parson Cross.

Capital for Housing Improvement and Regeneration

The projects below are in the approved capital investment programme:

HRA Regeneration

£1.257m

Park Hill

This enabled phase five, the final phase within Park Hill, to be declared. The remaining tenants will be re-housed and the phase will be made secure. Phase's two to four will also continue to be made secure until the units are redeveloped.

Sweeny House

The Sweeney House Sheltered scheme is also programmed for demolition during 2015/16

Arbourthorne Fields

The Arbourthorne Fields Project comprises a number of elements which include:

- The phased demolition of 246 non-traditional (“5M” type) properties
- The delivery of a cleared site to facilitate a more diverse housing tenure
- New build homes for affordable sale and rent through Sanctuary Housing Association.

Tenants affected by demolition proposals did have first access to the new build bungalow and flats and will have priority for the family homes, and all council and housing association properties within Norfolk Park and Arbourthorne.

Programme Management

£0.498m

The staffing and professional support services costs incurred in the planning, management and delivery of the programme and fees payable to KAPs.

Essential Health and Safety

£0.046m

This includes a budget for emergency demolition of houses and garages

Regeneration

£20.540m

Council Housing New Build

The council has set out its ambitions to deliver 1,000 new council houses over the next 6 years. There will be a mix of acquisitions and new build funded by 30% RTB 1 for 1 receipts and 70% match funding, (predominantly HRA resources). Initially this

will see the number of new build council homes rise from 90 to 120, but with the intention of adding to this as more sites are identified.

Of the 120, 30 new Council Houses have been secured through the Sheffield Housing Company with the remainder expected to be delivered in 2014 – 16. The programme will allow the council to retain any additional receipts generated as a result of the government's 'reinvigoration' of the Right to Buy policy to increase the stock in the city.

6 Making the best use of the city's

existing housing stock

£60.491m

The review of the Housing Revenue Account (HRA) Business Plan

The Housing Investment Programme contained within this report sets out the investment in council homes over the coming year, as part of the 30 year self-financing business plan. A separate report updating the HRA Business Plan for 2015/16 was agreed by Cabinet on 14th January 2015. The plan incorporates anticipated income and projected expenditure for 30 years and sets the long term direction for council housing investment and services in Sheffield.

It is anticipated that by this date 93% of the council housing stock will continue to meet the government decent homes standard. The future investment in the housing stock will be undertaken on an elemental basis.

Area Investment Environmentals Programme

£1.595m

This programme in 2015 /2016 will complete the environmental work agreed with local communities that started as part of the Decent Homes programme in 2007/08. The final work comprises the provision of door security systems to increase security on estates and also the provision of 2 parking schemes.

Heating & Insulation

£9.276m

There are around 4,000 boilers remaining across the city that are classified as obsolete and need replacing. The backlog of obsolete heating has been tackled systematically since 2009 and 2015/16 should see the completion of the original Obsolete Heating Programme. In 2015/16 £7.6m will be invested in renewing Obsolete Heating systems. This will reduce the cost of responsive repair breakdowns and benefit tenants by providing affordable warmth and tackling fuel poverty. During 15/16 2,300 homes will benefit from the planned boiler replacement. Following the completion of the Obsolete Programme the priority will be to ensure that all heating systems that are older than 15 years are renewed and that this cycle of replacement is maintained.

The breakdown element of the project includes renewal work to the social housing stock for which the landlord has an obligation. The project will provide a responsive service to customers who experience a boiler breakdown. This is more likely to be on boilers that are old and obsolete but as this is on a responsive basis address lists cannot be determined. The number of boiler breakdowns has reduced over the previous year as a result of the planned Obsolete Programme therefore the budget for 2015/16 has been reduced to £0.455m.

The metering element of this programme will provide approximately 6,000 homes in the city who receive their heating through either the Veolia District Heating network or through grouped heating / estate boiler plants with heat metering equipment. This will allow tenants, leaseholders and freeholders with the opportunity to only pay for the heat they use. This will be a big change for many households and a linked programme of support and advice is being planned.

This programme follows major investments in the efficiency of the boiler plant rooms and internal heating controls. As part of the future Green Deal/ ECO obligation there may be an opportunity to lever in additional funding that could reduce the cost of the meters to the Housing Investment programme.

Community Heating**£1.451m**

A review of the underground District Heating and Community Heating distribution system has taken place to assess its condition. This budget will be used to replace underground distribution pipe-work that has reached the end of its useful life and should avoid repeat breakdowns and revenue repairs costs whilst addressing inefficient plant in boiler rooms. This budget will complement the heat metering improvements mentioned above.

Essential Investment Work (Health & Safety)**£3.528m**

Minimising fire risk in blocks of flats, this has become a regular item of expenditure following the fire at Lakanal House, Camberwell in London in July 2009. Risk assessments for all archetypes in the city were carried out and a programme has been underway for a number of years on low rise flats to deal with all identified risks as part of an agreed plan with the South Yorkshire Fire and Rescue Service. All future improvements will be tackled based on level of risk. Other Health and Safety work includes lift maintenance and replacement, electrical rewires, asbestos management, and fire sprinkler systems, in a 5 year programme.

Elementals Programme

£35.296m

The following activity is included within the Elemental Programme:-

Kitchens, Bathrooms, Windows & Doors

This programme of work will start to address the backlog of homes that did not have all elements of decent homes works or only had partial works completed. These elemental programmes will be delivered separately and will be delivered in two stages. The first stage will complete work to approximately 1,600 homes that had no work carried out during the Decent Homes Programme. Stage 2 will complete elemental work those homes that only had partial work completed during the Decent Homes programme.

Communal Areas Investment

A programme of communal area refurbishment for low rise flats will commence on site in 2015/16. This work is intended to complement the decent homes work in the city and help improve the sustainability of blocks. We will do this by refurbishing all blocks in the city to a consistent standard. Each block will where practicable have a secure communal door or door entry system, double glazed windows in the communal area, provide a well-lit communal area and floor finishes that are safe and can be easily cleaned. The extent of work in each block will be determined through site surveys in conjunction with local priorities. The project will make a start in 2014/15 but take a number of years to complete.

Electrics

Work is underway to develop the future strategy and approach for electrical installations in the Council Housing stock. Many upgrades of systems were carried out as part of the Decent Homes programme particularly around the kitchen/bathrooms work however electrical installations to blocks and remaining parts of properties have not been invested in. A programme needs to be brought forward to deal with this backlog of work.

Roofs and Externals

This work includes replacement of flat and pitched roofs, rainwater goods and external fascia's/soffits in order to protect the substantial investment in the internal

fabric that the Council has made in the stock since 2004/2005; it will also enhance the appearance of neighbourhoods. Investment in the external fabric also provides an opportunity to generate savings to the revenue repairs budget by a planned programme of replacement rather than carrying out expensive individual responsive repairs and external painting which involves the use of scaffolding equipment and working at height. Work will begin in 2014/15 but the programme will be delivered over 5 years.

Waste/Waste Management Improvements

£1.023m

This project will include completing recycling facilities provision to blocks of flats in the city which require specific facilities. It is also anticipated that some bin chute closure work will be undertaken alongside this on some maisonette blocks and will provide a complete waste disposal solution.

Photovoltaics

£3.684m

Work will begin to install photovoltaic (PV) panels on around 4,000 council dwellings as part of the roofing contract from 2015/16. This will reduce energy bills for these homes by around £200 / year.

Garages

£1.144m

Investment work will begin on garages and garage sites from 2015/16. Investment of almost £4m is proposed over a 4 year period in 3402 garages. 1291 garages and garage sites are not sustainable and it is proposed that these garages are demolished. This will secure the viability of garages for the long term and may offer sites for new council house development.

Programme Management & Capital Management Fee

£3.373m

The staffing and professional support services costs incurred in the planning, management and delivery of the programme.

Empty Properties**£0.120m**

This project aims to get owners to bring their privately owned empty properties back into use. This work is separate from but will complement the works carried out under the New Homes Bonus outlined in section 6. The project aims to utilise all enforcement tools available in order to deal with the negative aspects of empty properties.

7 Helping younger, older and vulnerable people live independently.**£4.490m**

The projects below are in the approved capital investment programme

Disabled Facilities Grants for Owner Occupiers**£2.000m**

This will be funded by £1.950m capital grant from Government through the Better Care Fund. In previous years the council has contributed £0.500m of its own resources. Due to the low level of capital receipts and other calls on this resource the match funding the council has previously provided is no longer available at this level but £0.050m has been identified as match funding. However this lower level of match funding may result in households waiting longer for adaptations in their homes and a waiting list may develop towards the latter part of the year. It could also have knock on effect on increasing the financial pressure on local health services and adult social care budgets – it is predicted that 370 disabled facility grants will be approved in the 2014/15 period and that 60% (220) of these will be prioritised as urgent. Cases are deemed urgent to avoid hospital admission. A small proportion of the total will be approvals issued for people awaiting discharge from hospital. Failure to find additional funding may see increased pressure on hospital and care services, therefore the capital receipt position will be reviewed regularly to see if it becomes possible to increase this budget during 2015/16.

Minor Works Grants**£0.250m**

This project helps the vulnerable elderly owner occupiers to remain safe, secure and healthy in their homes by funding up to £2K of minor repairs per grant. Approximately 125 homes will benefit for each year of £0.250m investment, relieving pressure on home care services, hospitals and care homes

Category 1 Hazards**£0.050m**

Work has commenced to integrate private rented standards into the referral pathways of health and social care partners with the primary focus to address Category 1 and 2 hazards in privately rented housing which is having a negative impact on health. We are continuing to introduce a new level of risk stratification linked to occupiers/tenants health in determining level of intervention and will target action to address hazards impacting on health need and dependencies. Options for direct referrals from GP practices are being explored to improve early intervention from PHS where a patients' health condition can be attributable to poor house condition. This is an improved way of working and as such will not require a capital budget to support its initiation. However, enhanced level of case referrals together with statutory requirements for landlords to address Cat 1 and Cat 2 hazards may lead to increased enforcement activity. Budget will need to be allocated to support any default action required to address non-compliance. This budget is £0.050m.

Works In Default**£0.080m**

The Council is under a statutory duty to take action to deal with private rented properties where there is a Cat 1 hazard or a statutory nuisance. We work with landlords to seek compliance through cooperation however where necessary we do have to resort to the service of enforcement notice. Where such notices have not been complied with the Council needs to be in a position to enforce the terms of the notice to protect the health and welfare of the tenants. The powers available to the Council include the ability to carry out work in default or prosecute landlords or do both. A capital budget is required in order to enable the carrying out of work in default. The legislation provides for the cost to be recoverable from landlords and the debt is registered as a local land charge until recovered.

Homes and Loans**£0.247m**

This service was set up by Sheffield during 2004 to offer affordable loans instead of grants to financially vulnerable home owners living in non-decent accommodation. It continues to provide this service to all local authorities in Yorkshire and the Humber as well as Sheffield. Such loans require no monthly repayments and only become due when the property changes hands. In addition, the service administers Relocation and Empty Property loans using various funding sources, and also provides Foster Care loans (conditionally non repayable) specifically for Sheffield. The service continues to be funded entirely from non-council resources.

Adaptations**£1.863m**

Since the start of the Decent Homes programme significant investment in Council housing has taken place to address any household who are in need of adaptations to allow independent living. The demand for adaptations is expected to increase given the age profile of council tenancies across the city. The Decent Homes investment does mean that many of the new bathrooms and adaptations will be able to help suppress costs and a number of initiatives to recycle stair lifts and ramps have been implemented to reduce costs. The budget will meet the demand of new requests and also refurbishment of older adaptations in 2015/16.

Transport Capital Programme 2015/16

The National Context

1. The LTP is a statutory document that sets out how transport will help support the development of the Sheffield City Region (SCR) over the next 15 years. It comprises a 15 year strategy document covering the Sheffield City Region (2011-2026), together with a series of annual capital programmes for South Yorkshire.
2. The LSTF programme will complete on 31st March 2015 and has assisted economic growth by identifying the places where transport issues are causing concerns; to facilitate travel to work in these places, where currently connectivity is poor; and to increase the attractiveness and awareness of more sustainable modes. It has targeted people as they make key life choices (for example moving house, changing job, obtaining employment or training). Guidance required the bid to be developed in partnership in order to have a sustainable impact and to have partners from the public, private and voluntary sectors.
3. The Better Buses Area Fund (BBAF) programme sets out specifically how public transport will help support the economic development of South Yorkshire over the next two years. The programme has three core elements - Smart Ticketing; Smart Infrastructure; and Smart Management.
4. The BB2 capital programme is a five year national pilot initiative, and is at various stages of development and delivery. The core elements are similar to other LTP, LSTF and BBAF funded work, investing in improved infrastructure to increase efficiency and reduce the cost of bus operations on a number of key corridors (thereby reducing the need for Government direct grant assistance to operators).

The Local Agenda

5. The funding streams combine to form the Council's overall transport programme. This programme will help deliver our "Vision for Excellent Transport in Sheffield", enabling people to make informed choices about the

way they travel and helping transport contribute to the social, economic and environmental improvements we want to happen in the city.

6. The transport programme will reinforce the “Excellent Transport” vision by ensuring that transport contributes to achieving many of the outcomes in the Council’s Corporate Plan, and will help deliver the specific transport objectives in the Corporate Plan, namely:
 - Thriving neighbourhoods
 - Sustainable and Safe transport
 - Reducing carbon emissions

7. The transport programme also makes a significant contribution to the Council’s new Public Health role, and links to ongoing “Olympic Legacy” work via Sheffield’s National Centre for Sport and Exercise Medicine, by promoting “Active Travel” (walking and cycling). During 2014, this element was boosted by the successful staging of one of the stages of the Tour de France in Sheffield.

Overview of the Programme

8. Each year, the Council delivers a programme of transport projects, funded by external funds made available nationally. The Local Transport Plan (LTP) is the main process used historically by Government and the Department for Transport (DfT) for local authorities to set out their transport strategy and for the nationwide allocation of funds for projects. Sheffield is part of the South Yorkshire Local Transport Partnership, led by the South Yorkshire Integrated Transport Authority (SYITA). Sheffield’s share of the LTP in 2015/16 is expected to be around £2.6m

9. In recent years the Government has also provided other dedicated funding streams for transport initiatives for authorities to bid for according to specific guidelines. Local Sustainable Transport Fund (LSTF), Better Buses Area Fund (BBAF) and Better Bus Area (BB2) resources are now both available to the South Yorkshire Partnership following successful bids. “Pinch Point” funding has been awarded to Sheffield City Council for improvements to Penistone Road. Additional future funding opportunities include an extension to LSTF, “Green / Cleaner” Buses and Cycling initiatives.¹⁰.

10. The “Better Buses Area Fund” completed in March 2014. A second “Better Bus Area” fund (BB2) was awarded to the Sheffield Bus

Partnership in February 2013 in recognition of the ground-breaking Voluntary Agreement between the principal bus operators, SYPTE and the City Council that was launched in October 2012. This programme totals £18.3m spanning a five year period - £6.7m revenue activities (coordinated by SYPTE) and £11.6m capital investment. The Council is again responsible for leading on the delivery of these capital projects on behalf of the Sheffield Bus Partnership.

11. “Pinch Point” funds are another government initiative aimed at tackling congestion nationally. Sheffield submitted a bid for Pinch Point funding for improvements to Penistone Road, based on previous work aimed at improving access to employment sites along the Upper Don Valley. In May 2013, DfT awarded £3.013m for this scheme, to be used by 31st March 2015.
12. The Council's formal Capital Approval process requires full Cabinet sign-off for each funding stream programme as outlined above, and each scheme within these. The lower flexibility of some of these funding streams, and their mixed capital/revenue nature has created further complexity for delivery. This paper therefore sets out current priorities for funding allocations prior to the Council's overall budgets being agreed early in the New Year. Once developed the full programme will be taken through the Strategic Outcome Board for approval to ensure that the proposed work delivers benefits which are consistent with the Council's Corporate Plan.
13. As described above, the funding streams have different timescales of availability. This means there is a need to ensure complete spend of BBAF resources, followed by the great majority of LSTF funds, with the LTP programme forming a “balance” for other funding (because we have more local flexibility with this). The Pinch Point funds similarly must be expended by the end of March 2015, requiring good progress on design this year. Several schemes such as the Upper Don Valley cycle route involve a combination of (for example) LSTF and LTP funds, and in these cases it is important to fully use the LSTF funds first. The “use it or lose it” nature of other funds inevitably raises the risk of LTP underspend whilst prioritising other funds. This is currently the case with the 14/15 LTP programme.
14. The Council will work with the South Yorkshire Integrated Transport Authority to make best use of the available funds.
15. Another very significant influence on timing is the Streets Ahead programme. The Council's contractor Amey is progressing an initial five-year “core investment period” and most roads and footways in the city will be improved during this time, the works being spread across 108 “zones” to facilitate this. Maximising opportunities to dovetail funding (and therefore value for money) whilst minimising disruption is therefore now central to the priorities for the Council's overall transport capital

programme over the next five years.

Sheffield City region Investment Fund Programme (SCRIF)

16. The Council has agreed a deal with Central Government to devolve up to £500m of investment funds previously controlled by central government. Some of this will be available for transport schemes and can be used by the city region to create significant infrastructure projects to improve connectivity across South Yorkshire, North Derbyshire and North Nottinghamshire. The bidding process for these funds is via the City Region.

The “Better Bus Area” (BB2) Programme

17. This is a similar programme to BBAF, except that it is specific to the Sheffield District as “reward” for the launch of the ground-breaking Sheffield Bus Partnership. It comprises a new five year capital and revenue programme, the capital element of which increases year-on-year with revenue decreasing. The capital programme will be to focus on further infrastructure projects that improve the reliability, punctuality and cost-effectiveness of bus services, hence contributing to passenger growth. The programme is coordinated by the PTE but delivery of most of the infrastructure projects rests with SCC
18. The current proposals for next year would see £2.9m invested and indicative allocations are given below:
19. Infrastructure investment again needs to tie into the Streets Ahead programme to minimise disruption and maximise value-for money. Further refinement of the programme will need to be agreed through the Bus Agreement Partners initially and will then be reported to the Cabinet Member and to SYITA as appropriate.

Penistone Road Pinch Point project

20. This is a specific project designed to tackle congestion problems at four key junctions along Penistone Road, thereby improving access to key employment and regeneration sites along the Upper Don Valley. In response to the Council’s bid for funds, the DfT awarded £3.013m to be spent by March 2015. The project significantly overlaps the “BB2” Penistone Road proposals and both are being designed to closely align with Streets Ahead core maintenance work planned for 2015/16.

Proposed 2015/16 Local Transport Plan Programme

21. In the coming year, there will be a number of **commitments for continuing existing initiatives**. These include:
- Accident reduction schemes - additional funding for more schemes to improve road safety, from existing lists of known problem sites.
 - 20mph speed limits outside schools and in residential areas – implementing an agreed programme of 20mph areas where needed across the city, plus associated parking restrictions such as zig-zags outside school gates. The key priority remains on reducing child casualties.
 - The citywide programme of projects under the banner of “Enhancements to the Streets Ahead Programme”, including pedestrian crossings, refuge islands, school entrance schemes – focussed on the twenty zones where Amey are programmed to be working next year;
 - Another city-wide programme, again linked to Streets Ahead, of smaller scale opportunities such as provision of dropped crossings, guard rails, removal of old street clutter etc. – identified jointly with Amey for each zone and with input from ward Councillors;
 - Another city-wide programme, again linked to Streets Ahead, of small scale cycling opportunities;
 - Cycle Routes - continued progress on a programme of on-street facilities and off-road “Green Routes”, encouraging more people to try different ways of travelling to work and adopt healthier lifestyles whilst avoiding congestion. The LTP investment also enables development work for future bids for DfT funding such as “Cycle Ambition Grant”; “Cycling Cities” etc.
 - Sheffield Bus Agreement Work –the Council’s contribution to the Bus Partnership focuses on dealing with bus hotspots and developing Key Bus Routes to help prevent buses getting stuck in congestion and hence improve reliability and increase patronage.

- Traffic Management schemes – including small scale traffic signal enhancements and camera enforcement schemes
- Public Rights of Way improvements – a rolling annual programme to maintain local footpaths

Details of these schemes can be found in Appendices 9 and 10.

22. Arising from the above and recognising the overall imperative to align the Capital Programme as much possible with Amey’s “core” programme, the following Programme Blocks are proposed:

Draft 2015/16 LTP Programme by Block Allocation	£ million
Road Safety schemes	0.790
Action linked to “Streets Ahead” Programme	0.800
Action for Cyclists	0.450
Traffic management schemes	0.100
Public Transport measures	0.350
Public Rights of Way	0.120
Total (£2.6m provisionally available)	2.610

Detail project proposals will be brought forward for member approval via the Programme Boards as part of the Council’s capital approval process.

Regeneration Programme

The National Context

1. Over the last five years, central government policy on capital funding for economic stimulation projects has changed. There has been a move towards investments in projects which repay the original capital either through a direct repayment of the loan or grant from the profits of the project, or higher business rates for local authorities like the TIF schemes (see paragraph 89).
2. The government has sought to create regional funds (like the Local Growth Fund) where cash allocations are made through the Local Enterprise Partnerships (LEPs). The BRT North project has obtained a £2.3m loan to cash flow the project until local building developments generate CIL earnings to repay the loan.
3. In the future, government policy may further devolve funding for skills, transport and regeneration projects to the local level.

The Local Agenda

4. In practice this means that there is a substantial fund known as the Sheffield City Region Investment Fund (SCRIF) which is available to the leaders of the Sheffield City Region (SCR) to allocate and transform the infrastructure and economy of the SCR.
5. The Council has succeeded in securing [£2.3m] from SCRIF for the Grey-to-Green project to improve the public realm in the West Bar area. Further bids will be made for projects to develop a high quality campus around the University of Sheffield, Fitzallan Square, Moorfoot and Castlegate.
6. The biggest scheme under the development is the New Retail Quarter (also known as the new Development District). For the moment this is being wholly funded by the Council as it acquires the necessary parcels of land and develops the blue print for the scheme. This work will be completed to enable the process for selecting the development partner of land. The options for structuring the property deal are being finalised and will be presented to Cabinet. The potential for the Council to work up the project to create an investment grade opportunity and either seek a forward sale with interim funding or fund the scheme directly are also being considered.
7. These schemes support the Council's strategy to create a revitalised city centre which will drive footfall and business creating jobs and grow the economy of the city.

8. The regeneration of the city extends beyond the city centre. In the Lower Don Valley the Council has a number of initiatives aimed at regenerating the area. This strategy is based upon securing the future of the established businesses through better flood defences, creating new businesses by remediating the site of the former Don Valley Stadium for use as an Advanced Well-being and Research centre, and creating new homes and schools in the area to support the growth of the community.
9. Other joint initiatives with Rotherham Metropolitan Borough Council over Sheffield – Rotherham Economic Corridor and national investment like the Tram-Train project should further strengthen the development of the area.
10. Plans are also being drawn up to regenerate the Upper Don Valley and these will be brought forward in due course.

The Capital Programme 2015-16

11. The key components of the 2015/16 Capital Programme include NRQ (£66m), Grey to Green, demolition of Castle Market (£4m), DVS Remediation (£6.6m) and £18m for the construction of the Lower Don Valley Flood defences.
12. These schemes have a relatively long time frame for delivery. Some benefits will be seen immediately in 2015/16 but other schemes will continue to the end of the decade.

The Expected Benefits

13. Through these works the Council aims to promote more economic activity, create a better public realm and the lift overall national standing of the city.

SHEFFIELD CITY COUNCIL

Cabinet Report

Report of: Laraine Manley

Report to: Cabinet

Date: 11 February 2015

Subject: Voluntary Sector Grant Aid Budget 2015-16

Author of Report: Martin Hughes, Locality Team Manager, Communities

Key Decision: YES

Reason Key Decision: Expenditure/savings over £500,000
Affects 2 or more wards

Summary:

- 1.1 The purpose of this report is to seek approval for recommended investment in the voluntary and community sector for 2015/16 from the Voluntary Sector Grant Aid Budget. This budget is subject to approval of the Council budget for 2015/16 to be adopted at Council on 6th March 2015.
- 1.2 Following the decision made by cabinet in February 2014 a review of the Voluntary Sector Grant Aid criteria and processes has been taking place along with a wider assessment of how the Council invests in the Voluntary, Community and Faith (VCF) Sector. This review is progressing but has taken longer than anticipated. It will result in -
 - a) New Grant Aid priorities and criteria for 2016/17 that will have greater alignment with the new Child and Household Poverty Strategy and new Corporate Plan, both due to be adopted in 2015, thus delivering against the Council's Tackling Poverty and Increasing Social Justice strategic outcome.

- b) Grant Aid for 2016/17 to be aligned effectively with other commissioning frameworks with the possibility of including other council budgets in the overall Grant Aid budget
- c) A Framework capturing how the communities portfolio currently works with and invests in the Voluntary Sector and identify areas for development
- d) A clear corporate definition of grant giving, when grants could be used in a wider commissioning framework and how they should then be recorded

In order to allow this work to progress throughout 2015 it is proposed that the majority of the existing Grant Aid funding arrangements will be extended for 12 months up to 31st March 2016.

- 1.3 The proposed Voluntary Sector Grant Aid budget for 2015/16 is **£1,756,730**. A further £56,900 will be transferred to the Sheffield Drug and Alcohol/Domestic Abuse Coordination Team as a permanent cash limit adjustment which will go towards the commissioning of services that tackle Domestic & Sexual Abuse (see 4.7d). These figures combined represent a 9% reduction from the 2014/15 budget.
- 1.4 The proposed approach to making savings is to focus the funding for voluntary sector organisations on those areas where the VCF sector is best placed to deliver around Tackling Poverty and Increasing Social Justice.
- 1.5 Voluntary Sector Grant Aid is split into two funds -
 - Lunch Clubs Small Grants Fund
 - Voluntary Sector Grants Fund (three themes)
 - Tackling Poverty and Financial Exclusion
 - Supporting the Voluntary Sector to thrive and deliver
 - Promoting Social Inclusion and Justice
- 1.6 For 2015/16, Grant Aid will prioritise activity that we know has a direct benefit and works. This will mean continuing to support the majority of the organisations funded in 2014/15 via extending existing grant funding agreements for 12 months, up 31st March 2016. This includes the provision of Lunch Clubs provided by older people for older people across the city, the delivery of Advice Services by Sheffield Citizen Advice and Law Centre, support for VCF infrastructure services and supporting activity by the VCF sector that helps the most vulnerable.
- 1.7 In order to inform recommendations on the grant extensions and award amounts to Cabinet, each of the 24 Voluntary Sector Grants Fund current grant recipients were invited to complete an Impact Form. This asked organisations to profile the impact of a 20% reduction in grant on their service and their service users, including an analysis of the impact on different COI within their service users. Detailed recommendations for awards are contained in Appendix 1.

- 1.8 In reaching the recommendations proposed in Appendix 1 attention has been given to ensuring that the organisations to be funded are fit for purpose in terms of governance, service delivery and financial viability and that the investment represents good value in terms of outcomes for service users.
- 1.9 The Council's Voluntary Sector Grant Aid budget is managed by the Voluntary Sector Liaison Team that forms part of the Locality Management Team within Housing & Neighbourhood Services, which is part of the Communities portfolio.
-

Reasons for Recommendations:

The allocation of this funding to preventative services will fundamentally contribute to the Values, Priorities and Strategic Outcomes of the Council's Corporate Plan 2015-18. In particular -

Values

- Prioritising those with greatest need
- Working with, and within, communities

Priorities

- Tackling inequalities
- In-touch organisation
- Strong neighbourhoods and communities

Outcomes

Specifically 'Tackling Poverty and Increasing Social Justice' but also –

- Health and wellbeing
- Successful children, young people and families
- Housing and neighbourhoods
- Safe and secure

In addition, the allocation of this funding will contribute to the Fairness Commission's recommendations around -

- Health & Wellbeing for All
 - Fair Access to High Quality Jobs and Pay
 - Fair Access to Benefits and Credit
 - Housing and a Better Environment
 - A Safe City
 - What Citizens and Communities can do
-

Recommendations:

1. Cabinet is asked, having had due regard to the provisions of Sections 149 and 158 of the Equality Act 2010 and Section 17 of the Crime and Disorder Act 1998, and to the issues raised by those provisions, to

approve the grant agreement extension recommendations listed in Section 4 of this report, and detailed further in Appendix 1.

2. Cabinet is asked to endorse the grant agreement extension process described in Appendix 2 and to approve the actions, arrangements and recommendations at Sections 4 and 11, and the following specific delegations:-
 - (a) The Executive Director of Communities is authorised:-
 - (i) to administer the Lunch Clubs Small Grants Fund as described in Appendix 1;
 - (ii) to agree the terms of and authorise the completion of all funding agreements, including amendments to the terms of any existing grant funding agreements, relating to grants made from the Lunch Clubs Small Grants Fund and the Voluntary Sector Grants Fund, together with any other associated agreements or arrangements that they may consider appropriate, provided that if the terms of a proposed funding agreement or amendments to the terms of an existing agreement involve the variation of any standard terms previously agreed by Internal Audit and / or Legal Services the agreement shall not be completed without the consent of the Chief Internal Auditor and the Director of Legal and Governance;
 - (iii) where (a) a change of circumstance affects the ability of an organisation to deliver the purpose of the grant awarded, (b) the Executive Director of Communities considers the performance of the organisation to be below an acceptable standard or (c) an organisation has breached any of the award conditions contained in their funding agreement, to review, adjust or suspend grant awards;
 - (b) The Executive Director of Communities, in consultation with Cabinet Member for Communities and Public Health, is authorised:-
 - (i) to agree the amounts, purposes and recipients of any individual grants awarded in year from the Grant Funds including any additional sums received or returned or unpaid funds
 - (ii) where (a) a change of circumstance affects the ability of an organisation to deliver the purpose of the grant awarded or (b) the Executive Director of Communities considers the performance of the organisation to be below an acceptable standard or (c) an organisation has breached any of the award conditions contained in their funding agreement, to withdraw grant awards.
 - (iii) to allocate any other additional sums that may be received in year from other parts of the Council or other partners as part

of the Voluntary Sector Grant Aid process to fund local
voluntary sector activity

REPORT TO CABINET

VOLUNTARY SECTOR GRANT AID BUDGET 2015/16

1.0 SUMMARY

1.1	The purpose of this report is to seek approval for recommended investment in the voluntary and community sector for 2015/16 from the Voluntary Sector Grant Aid Budget. This budget is subject to approval of the Council budget for 2015/16 to be adopted at Council on 6 th March 2015.
1.2	<p>Following the decision made by cabinet in February 2014 a review of the Voluntary Sector Grant Aid criteria and processes has been taking place along with a wider assessment of how the Council invests in the Voluntary, Community and Faith (VCF) Sector. This review is progressing but has taken longer than anticipated. It will result in -</p> <ul style="list-style-type: none"> a) New Grant Aid priorities and criteria for 2016/17 that will have greater alignment with the new Child and Household Poverty Strategy and new Corporate Plan, both due to be adopted in 2015, thus delivering against the Council's Tackling Poverty and Increasing Social Justice strategic outcome. b) Grant Aid for 2016/17 to be aligned effectively with other commissioning frameworks with the possibility of including other council budgets in the overall Grant Aid budget c) A Framework capturing how the communities portfolio currently works with and invests in the Voluntary Sector and identify areas for development d) A clear corporate definition of grant giving, when grants could be used in a wider commissioning framework and how they should then be recorded <p>In order to allow this work to progress throughout 2015 it is proposed that the majority of the existing Grant Aid funding arrangements will be extended for 12 months up to 31st March 2016.</p>
1.3	The proposed Voluntary Sector Grant Aid budget for 2015/16 is £1,756,730 . A further £56,900 will be transferred to the Sheffield Drug and Alcohol/Domestic Abuse Coordination Team as a permanent cash limit adjustment which will go towards the commissioning of services that tackle Domestic & Sexual Abuse (see 4.7d). These figures combined represent a 9% reduction from the 2014/15 budget.
1.4	The proposed approach to making savings is to focus the funding for voluntary sector organisations on those areas where the VCF sector is best placed to deliver around Tackling Poverty and Increasing Social Justice.
1.5	<p>Voluntary Sector Grant Aid is split into two funds -</p> <ul style="list-style-type: none"> • Lunch Clubs Small Grants Fund • Voluntary Sector Grants Fund (three themes)

	<ul style="list-style-type: none"> - Tackling Poverty and Financial Exclusion - Supporting the Voluntary Sector to thrive and deliver - Promoting Social Inclusion and Justice
1.6	For 2015/16, Grant Aid will prioritise activity that we know has a direct benefit and works. This will mean continuing to support the majority of the organisations funded in 2014/15 via extending existing grant funding agreements for 12 months, up 31 st March 2016. This includes the provision of Lunch Clubs provided by older people for older people across the city, the delivery of Advice Services by Sheffield Citizen Advice and Law Centre, support for VCF infrastructure services and supporting activity by the VCF sector that helps the most vulnerable.
1.7	In order to inform recommendations on the grant extensions and award amounts to Cabinet, each of the 24 Voluntary Sector Grants Fund current grant recipients were invited to complete an Impact Form. This asked organisations to profile the impact of a 20% reduction in grant on their service and their service users, including an analysis of the impact on different COI within their service users. Detailed recommendations for awards are contained in Appendix 1.
1.8	In reaching the recommendations proposed in Appendix 1 attention has been given to ensuring that the organisations to be funded are fit for purpose in terms of governance, service delivery and financial viability and that the investment represents good value in terms of outcomes for service users.
1.9	The Council's Voluntary Sector Grant Aid budget is managed by the Voluntary Sector Liaison Team that forms part of the Locality Management Team within Housing & Neighbourhood Services, which is part of the Communities portfolio.

2.0 WHAT DOES THIS MEAN FOR SHEFFIELD PEOPLE

2.1	<p>The grants recommended in Appendix 1 of this report will support activities and services that will directly benefit a wide range of vulnerable local citizens. Beneficiaries from the grant agreement extension recommendations in Appendix 1 will include the following groups of vulnerable local people –</p> <ul style="list-style-type: none"> • Those in need of advice and advocacy services • Households in financial need • Older people • Homeless people • Adults with limited mobility who are unable to get out and about to engage in activities and services • Ethnic minority women • Refugees, asylum seekers and new arrivals • Mental health service users
-----	--

	<ul style="list-style-type: none"> • Street drinkers • Young women <p>Organisations awarded an extension to their grant agreement will be asked to monitor service use, to provide a diversity profile of their service users and report how they manage their user consultation and involvement.</p>
2.2	The majority of the grant agreement extension recommendations in Appendix 1 will encourage significant opportunities for local people to contribute to the wellbeing of their communities by engaging in volunteering. They will support organisations providing quality training and the opportunity to gain experience that will enhance volunteers' skills and employability.
2.3	The grant agreement extension recommendations in Appendix 1 will enable local people to engage in active citizenship as trustees and management committee members shaping and guiding the development of these organisations and the services they provide.
2.4	The majority of the grant agreement extension recommendations in Appendix 1 will provide employment opportunities for local people by helping to sustain organisations that employ paid staff.
2.5	<p>Included within the Voluntary Sector Grant Aid Budget is an amount used to provide grants to a network of local lunch clubs. The majority of lunch clubs are small self-help groups run entirely by volunteers that encourage older people to participate in a range of activities that reduce social isolation and promote health and wellbeing in older age. Throughout 2015 a multi-agency review of lunch clubs has taken place. The final report has highlighted –</p> <ul style="list-style-type: none"> • Lunch clubs have a preventative role and can help delay the need for costly social care packages • Lunch clubs are a cost effective way of helping to tackle social isolation of older people • Almost 2,000 older people aged 65+ attend lunch clubs, of which 55% of members are aged over 80 years of age, receiving almost 70,000 hot meals • Almost 700 people are involved in volunteering at a lunch club and between them contribute over 70,000 hours a year • There is a social return of £3.35 for every £1 invested.

3.0 OUTCOME AND SUSTAINABILITY

3.1	<p>The allocation of this funding to preventative services will fundamentally contribute to the Values, Priorities and Strategic Outcomes of the Council's Corporate Plan 2015-18. In particular -</p> <p><u>Values</u></p> <ul style="list-style-type: none"> • Prioritising those with greatest need
-----	---

	<ul style="list-style-type: none"> Working with, and within, communities <p><u>Priorities</u></p> <ul style="list-style-type: none"> Tackling inequalities In-touch organisation Strong neighbourhoods and communities <p><u>Outcomes</u></p> <p>Specifically ‘Tackling Poverty and Increasing Social Justice’ but also –</p> <ul style="list-style-type: none"> Health and wellbeing Successful children, young people and families Housing and neighbourhoods Safe and secure
3.2	<p>In addition, the allocation of this funding will contribute to the Fairness Commission’s recommendations around -</p> <ul style="list-style-type: none"> Health & Wellbeing for All Fair Access to High Quality Jobs and Pay Fair Access to Benefits and Credit Housing and a Better Environment A Safe City What Citizens and Communities can do
3.3	<p>The grant agreement extension recommendations in this report will fulfil a number of functions, including providing core funding to sustain VCF organisations where alternative income streams are not available and enabling organisations to lever in other funding.</p>
3.4	<p>Based on previous monitoring returns it is estimated that the activity delivered by the organisations recommended for funding will be enhanced by over 4,500 hours of volunteer input each week</p>
3.5	<p>The process to allocate the Voluntary Sector Grant Aid Fund has included a challenge to the VCF sector in how they make efficiency savings and change their operations in order to remain sustainable.</p>
3.6	<p>Voluntary Sector Grant Aid complements the Council’s development of an Equality Hubs Network for individuals and groups, who belong to a community of identity (COI) specifically identified as protected characteristics within the Equality Act 2010 who are currently under-represented in existing voice and influence arrangements.</p>
3.7	<p>Communities are often defined by the place they live, often single or small sets of neighbourhoods. However many people also feel part of communities around common issues or circumstances, such as those protected characteristics in the Equality Act 2010 disability, age, race, sex, sexual orientation, gender reassignment and want to join together and organise over larger geographical areas, such as city wide. The Network is providing opportunities for individuals and groups to engage with and</p>

	work across communities and influence the Council. The Network is also saving costs through streamlining the range of meetings previously held and a simple and well-recognised mechanism for engagement is now in place.
3.8	The Equality Hub Network enables people from Sheffield's diverse communities to get access to and have regular engagement with decision makers and influence all areas of the Council's work. There is a small complimentary specific grant pot available to organisations working with COI which will focus on meeting the Councils Equality and Fairness Objectives 2014 -18 and to encourage joint working on shared issues

4.0 FULL PROPOSAL

4.1	The purpose of this report is to seek approval for recommended investment in the voluntary and community sector for 2015/16 from the Voluntary Sector Grant Aid Budget. This budget is subject to approval of the Council budget for 2015/16 to be adopted at Council on 6 th March 2015.
4.2	<p>Following the decision made by cabinet in February 2014 a review of the Voluntary Sector Grant Aid criteria and processes has been taking place along with a wider assessment of how the Council invests in the Voluntary, Community and Faith (VCF) Sector. This review is progressing but has taken longer than anticipated. It will result in -</p> <ul style="list-style-type: none"> a) New Grant Aid priorities and criteria for 2016/17 that will have greater alignment with the new Child and Household Poverty Strategy and new Corporate Plan, both due to be adopted in 2015, thus delivering against the Council's Tackling Poverty and Increasing Social Justice strategic outcome. b) Grant Aid for 2016/17 to be aligned effectively with other commissioning frameworks with the possibility of including other council budgets in the overall Grant Aid budget c) A Framework capturing how the communities portfolio currently works with and invests in the Voluntary Sector and identify areas for development d) A clear corporate definition of grant giving, when grants could be used in a wider commissioning framework and how they should then be recorded <p>In order to allow this work to progress throughout 2015 it is proposed that the majority of the existing Grant Aid funding arrangements will be extended for 12 months up to 31st March 2016.</p>
4.3	The proposed Voluntary Sector Grant Aid budget for 2015/16 is £1,756,730 . A further £56,900 will be transferred to the Sheffield Drug and Alcohol/Domestic Abuse Coordination Team as a permanent cash limit adjustment which will go towards the commissioning of services that tackle Domestic & Sexual Abuse (see 4.7d). These figures combined represent a 9% reduction from the 2014/15 budget.

4.4	<p>Voluntary Sector Grant Aid is split into two funds -</p> <ul style="list-style-type: none"> • Lunch Clubs Small Grants Fund • Voluntary Sector Grants Fund (three themes) <ul style="list-style-type: none"> - Tackling Poverty and Financial Exclusion - Supporting the Voluntary Sector to thrive and deliver - Promoting Social Inclusion and Justice
4.5	<p>For 2015/16, Grant Aid will prioritise activity that we know has a direct benefit and works. This will mean continuing to support the majority of the organisations funded in 2014/15 via extending existing grant funding agreements for 12 months, up 31st March 2016. This includes the provision of Lunch Clubs provided by older people for older people across the city, the delivery of Advice Services by Sheffield Citizen Advice and Law Centre, support for VCF infrastructure services and supporting activity by the VCF sector that helps the most vulnerable.</p>
4.5	<p>The proposal and recommendations within this report have been submitted by the Grants Awards Recommendation Panel, which is made up of the Cabinet Member for Communities and Public Health, his advisors and the Head of Libraries & Community Services. Details of the whole process used to come to this proposal and recommendations can be seen in Appendix 2.</p>
4.6	<p>Lunch Clubs Small Grants Fund - The purpose of this fund is to promote the Council's strategy to support the independence, health and wellbeing of older people by making available a fund offering grants to lunch clubs. Further details on this fund can be seen in Appendix 1. The Grants Awards Recommendation Panel proposes that £147,000 is allocated to a Lunch Clubs small grants fund.</p>
4.7	<p>Voluntary Sector Grants Fund – this fund has three themes</p> <p>a) <u>Tackling Poverty and Financial Exclusion</u>– this theme focuses on providing city-wide Advice. The Grants Awards Recommendation Panel proposes that £969,000 is allocated to Sheffield Citizens Advice and Law Centre</p>
	<p>b) <u>Supporting the Voluntary Sector to thrive and deliver</u> - This theme supports city-wide VCF infrastructure activity that ensures -</p> <ul style="list-style-type: none"> i) Local voluntary and community sector groups and organisations are able to access advice and support to develop their skills and capacity and are able to improve their prospects of developing and maintaining a diverse funding base so that they function effectively in line with best practice. ii) Local voluntary and community sector groups and organisations are able to recruit the volunteers they need and to develop their skills and knowledge to manage volunteers to best practice standards. iii) The actions from the recent Lunch Club Review are taken forward so that the groups operate safely and effectively, provide high quality

	<p>activities for their members and are part of a thriving network that is well informed, responsive to changing needs and sustainable for future generations, as well as ensure that any future investment is targeted at the areas of most need.</p> <p>In 2014-15 three organisations came together to make a single joint application to address points (i) and (ii). The Grants Award Recommendation Panel proposes that funding for 2015-16 is awarded to these organisations to continue this work. The Panel recommends allocating £140,800. This will be split as follows -</p> <ul style="list-style-type: none"> • Voluntary Action Sheffield - £76,000 • South Yorkshire Community Foundation (inc. South Yorkshire Funding Advice Bureau) - £37,800 • Creative Pathways - £27,000 <p>In order to address point (iii) the Grants Award Recommendation Panel further recommends that £42,186 is allocated to the Voluntary Action Sheffield Lunch Club Support and Development Service.</p> <p>Therefore a total of £182,986 is allocated to this theme</p>
c)	<p><u>Promoting Social Inclusion and Justice</u> – provision of city-wide support for our most vulnerable adults that helps prevent them having to access statutory services, such as social services or health services.</p> <p>The organisations funded in 2014/15 supported the following groups of vulnerable people –</p> <ul style="list-style-type: none"> • Households in financial need • Homeless people • Adults with limited mobility who are unable to get out and about to engage in activities and services • Ethnic minority women • Refugees, asylum seekers and new arrivals • Mental health service users • Street drinkers • Young women <p>The Grants Award Recommendation Panel recommends the following grants -</p> <ul style="list-style-type: none"> • Ben’s Centre – £53,650 • City of Sanctuary - £24,245 • Emmaus Sheffield – 18,400 • Heeley City Farm - £25,313 • Mental Health Action Group – £10,500 • Pakistan Advice and Community Association - £31,500 • Roshni Asian Women’s Resource Centre – £43,601 • Sheffield Chinese Community Centre - £24,300 • Sheffield Community Transport - £20,400

	<ul style="list-style-type: none"> • Shopmobility Sheffield - £14,000 • Sheffield Association for the Voluntary Teaching of English– £34,140 • Voluntary Action Sheffield (New Beginnings) - £17,400 • St. Vincent de Paul – £64,020 • St. Wilfrid’s - £48,275 • Young Women’s Housing Project - £28,000 <p>Therefore a total of £457,744 is allocated to this theme</p>
d)	<p>In 2014/15 the Sheffield Rape and Sexual Abuse Centre received a grant from the Voluntary Sector Grant Fund to support counselling services for female victims of sexual abuse. Following the adoption of the Domestic & Sexual Abuse Strategy in July 2014 the Sheffield Drug and Alcohol/Domestic Abuse Coordination Team (DACT), who lead on this strategy, are carrying out a needs analysis for sexual abuse counselling services in the city, identifying gaps and re-commissioning services where necessary. To enable them to direct how funding in this area is spent in future, from 2015/16 there will be a permanent cash limit adjustment from the Grant Aid budget to the DACT budget of £56,900 which the DACT will use to contribute to the commissioning of services that tackle Domestic and Sexual Abuse. A permanent cash limit adjustment means that, in future, the budget for providing this type of service will be with the DACT and will no longer be funded from any future Grant Aid budget.</p>
e)	<p>In 2014/15 NOMAD, Sheffield Credit Union and Sheffield & District African Caribbean Community Association received grants from the Voluntary Sector Grant Fund. NOMAD chose not to return an impact form and was therefore not considered for a grant extension in 2015-16. The Grants Award Recommendation Panel recommends that neither Sheffield Credit Union or Sheffield & District African Caribbean Community Association have their funding agreements extended by a further 12 months.</p> <ul style="list-style-type: none"> • <u>Sheffield Credit Union</u> - 2014/15 was part of a 3 year tapering grant agreement to develop SCU Budget Accounts in preparation for the introduction of Universal Credit. The Panel believe the development of Sheffield Money and the Credit Union’s involvement should provide enough scope to continue this service until it becomes self-financing. • <u>Sheffield & District African Caribbean Community Association</u> – previous monitoring and the impact exercise have indicated that the organisation, in it’s current form, is not viable and is not able to demonstrate a contribution to the desired outcomes of the Fund. Any further award from the Voluntary Sector Grant Fund would have little impact on the sustainability of the organisation.
4.8	<p>Further details of the recommended extended grant arrangements from the Voluntary Sector Grants Fund are attached to this report as Appendix 1, which provides brief details of the amount and purpose of the award being recommended. Each grant included in Appendix 1 is subject to a Funding Agreement that sets out the outputs, outcomes, milestones and conditions on which the funding is granted together with a budget of how the grant will be spent. Every grant is subject to a set of standard grant</p>

	conditions approved by Legal Services. It is proposed that authority to attach additional conditions to a grant be delegated to the Executive Director of Communities where s/he considers these appropriate following the assessment process.
--	--

5.0 FINANCIAL IMPLICATIONS

5.1	The proposed Voluntary Sector Grant Aid budget for 2015/16 is £1,756,730 . A further £56,900 will be transferred to the Sheffield Drug and Alcohol/Domestic Abuse Coordination Team as a permanent cash limit adjustment which will go towards the commissioning of services that tackle Domestic & Sexual Abuse (see 4.7d). These figures combined represent a 9% reduction from the 2014/15 budget.															
5.2	As part of the Council's budget setting process an Equality Impact Assessment was completed in November 2014. The completion of the EIA was informed by information provided by organisations currently in receipt of funding on the impact on different Communities Of Identity (COI) as a result of any budget reduction. The action plan associated with this Equality Impact Assessment identifies that a robust and transparent assessment process would be used to ensure that the organisations funded offer value for money and fit with the Council's current priorities.															
5.3	The recommendations presented take into account other funding that the organisations may be in receipt of from elsewhere in the Council, and the level of any reductions being applied to that funding															
5.4	Wherever relevant, support will be provided to local VCF organisations in their applications to other external funders. The proposed allocation to infrastructure support services will help to enable local VCF organisations to identify and apply for external funding.															
5.5	The financial implications arising from the proposals contained within this report can be summarised as follows: <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="padding-left: 20px;">Lunch Clubs Fund</td> <td style="text-align: right; padding-right: 10px;">-</td> <td style="text-align: right;">£147,000</td> </tr> <tr> <td style="padding-left: 20px;">Tackling Poverty and Financial Inclusion</td> <td style="text-align: right; padding-right: 10px;">-</td> <td style="text-align: right;">£969,000</td> </tr> <tr> <td style="padding-left: 20px;">Supporting the Voluntary Sector to thrive and deliver</td> <td style="text-align: right; padding-right: 10px;">-</td> <td style="text-align: right;">£182,986</td> </tr> <tr> <td style="padding-left: 20px;">Promoting Social Inclusion and Justice</td> <td style="text-align: right; padding-right: 10px;">-</td> <td style="text-align: right;">£457,744</td> </tr> <tr> <td style="padding-left: 20px;">Total</td> <td style="text-align: right; padding-right: 10px;">-</td> <td style="text-align: right;">£1,756,730</td> </tr> </table>	Lunch Clubs Fund	-	£147,000	Tackling Poverty and Financial Inclusion	-	£969,000	Supporting the Voluntary Sector to thrive and deliver	-	£182,986	Promoting Social Inclusion and Justice	-	£457,744	Total	-	£1,756,730
Lunch Clubs Fund	-	£147,000														
Tackling Poverty and Financial Inclusion	-	£969,000														
Supporting the Voluntary Sector to thrive and deliver	-	£182,986														
Promoting Social Inclusion and Justice	-	£457,744														
Total	-	£1,756,730														
5.6	Other sums may be received in year from other parts of the Council or other partners to be managed as part of the Voluntary Sector Grant Aid process to fund local voluntary sector activity. It is recommended that decisions to award grants in year from the Voluntary Sector Grant Aid budget, including any additional sums, returned or unpaid funds, be delegated to the Executive Director of Communities in consultation with the Cabinet Member for Communities and Public Health.															
5.7	As with all public funding we need to ensure that we achieve good value															

	for money from this investment and that our spending in the voluntary sector helps to achieve wider efficiencies that are crucial at this time of reducing budgets. Each recommended extended grant arrangement will be the subject of a funding agreement that will stipulate the specific outputs and outcomes to be achieved by the organisation in return for the grant extension. Performance will be monitored against this agreement during the grant period.
--	--

6.0 LEGAL IMPLICATIONS

6.1	The legal power for the Council to establish, administer and make awards from the various grant funds as described in this report is provided by the general power of competence contained in Section 1 of the Localism Act 2011. Subject to certain statutory restrictions, none of which apply in this case, Section 1 gives the Council “power to do anything that individuals generally may do”.
6.2	In considering this report Cabinet must be mindful of the requirements imposed by the public sector equality duty enacted in Section 149 of the Equality Act 2010. Some of the proposals in this report involve the taking of action to assist persons sharing ‘protected characteristics’ within the meaning of the 2010 Act to overcome or minimise disadvantage or otherwise meet their needs. This is permitted by Section 158 of the Act 2010. More details are set out below in section 7 of this report.
6.3	Cabinet must also have due regard to the likely effect of the proposals on, and the need to do all that it reasonably can to prevent, crime and disorder, the misuse of drugs, alcohol and other substances and re-offending in its area (Section 17 of the Crime and Disorder Act 1998). More details are set out below in section 8 of this report

7.0 EQUALITY IMPLICATIONS

7.1	Section 149(1), Equality Act 2010 (the ‘public sector equality duty’) places a statutory duty on the Council to ‘have due regard’ when exercising its functions to the need to:- (a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under the Act; (b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it; (c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.
7.2	Section 149(3) goes on to provide that having due regard to the need to advance such equality of opportunity involves having due regard, in particular, to the need to:- (a) remove or minimise disadvantages suffered by persons who share a

	<p>relevant protected characteristic that are connected to that characteristic;</p> <p>(b) take steps to meet the needs of persons who share a relevant protected characteristic that are different from the needs of persons who do not share it; and</p> <p>(c) encourage persons who share a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.</p>
7.3	For the purposes of Section 149 the relevant protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.
7.4	Section 149(6) recognises that compliance with the Section 149 duties may involve treating some persons more favourably than others. However, this does not permit conduct that would otherwise be prohibited by or under the Act.
7.5	<p>Section 158 provides that if the Council reasonably thinks that:-</p> <p>(a) persons who share a protected characteristic suffer a disadvantage connected to the characteristic,</p> <p>(b) persons who share a protected characteristic have needs that are different from the needs of persons who do not share it, or</p> <p>(c) participation in an activity by persons who share a protected characteristic is disproportionately low, then the Act does not prohibit the Council from taking any action which is a proportionate means of achieving the aim of:-</p> <p>(i) enabling or encouraging persons who share the protected characteristic to overcome or minimise that disadvantage,</p> <p>(ii) meeting those needs, or</p> <p>(iii) enabling or encouraging persons who share the protected characteristic to participate in that activity.</p>
7.6	In considering the application assessments the Grants Award Recommendation Panel was mindful of the equalities impact of the decisions they were making. The organisations to be funded have identified potential users with protected characteristics and described how they ensure open and equal access to their services. In formulating their recommendations to Cabinet and deciding whether or not to recommend an award, the Panel took into account this information.
7.7	Some of the proposed extended grant arrangements are to groups serving members of ethnic minority communities where the activity or service to be funded will enable ethnic minorities to overcome a disadvantage connected to their ethnicity or will encourage participation in an activity where engagement by black and ethnic minority people is disproportionately low. Some of the proposed extended grant arrangements are to organisations that provide single gender services, where the needs of women in relation to men are different. The Executive Director of Communities is satisfied that all the proposed extended grant

	arrangements fall within the ambit of the positive action provisions of Section 158, and would be not only in line with the public sector equality duty, but examples of the Council's active compliance with this duty.
7.8	An Equality Impact Assessment has been completed for this report and a copy of this document is attached as Appendix 3. The Voluntary Sector Grant Aid budget is specifically aimed at supporting the local voluntary sector and as such has a positive impact on the sector. However, the budget overall is continuing to reduce by comparison with previous years, which means that there is less funding available for investment in the sector through grant aid at a time when other funding sources are also reducing. The value of some of the grants recommended is less than might be the case if the budget was larger. This inevitably has a negative impact on the sector.
7.9	<p>Demand is managed by identifying a limited range of priorities for the funding. These priorities are chosen to align with current Council priorities and are aimed to ensure that groups with protected characteristics are not excluded. All the organisations funded in 2014/15 needed to demonstrate that they were providing city-wide support for our most vulnerable adults that helps prevent them having to access statutory services, such as social services or health services. Namely -</p> <ul style="list-style-type: none"> • Households in financial need • Homeless people • Adults with limited mobility • Ethnic minority women • Refugees, asylum seekers and new arrivals • Mental health service users • Street drinkers • Young Women
7.10	Organisations funded in 2014/15 have demonstrated how they have addressed the particular needs of groups with protected characteristics via quarterly monitoring forms. In recommending which grant funding agreements to extend and the amount awarded the Grant Awards Recommendation Panel took into account the overall funding position of the organisation and the likely impact of a reduced grant, including the impact on people with protected characteristics. Attention was paid to organisations that could demonstrate a positive approach to managing services within a reduced funding environment including collaborations and mergers and other management efficiency savings, thus ensuring front line services remain protected and deliver best value for the money available.
7.11	Despite a difficult financial climate this report is recommending a significant investment into the VCF sector, which is then targeted at Sheffield's most vulnerable people. However, the proposed reduction in the budget will inevitably impact on all vulnerable groups. Throughout the process, organisations working with vulnerable groups have been asked to provide evidence of efficiency savings they are making in running costs

	and management costs to minimise the effect on service delivery.
7.12	Despite the proposed reduced level of investment, positive impacts have been identified among the range of awards recommended for older people, black and ethnic minority people, women, the voluntary community faith sector, financial exclusion and cohesion in the city. (See Appendix 3)
7.13	A range of organisations working with a variety of vulnerable groups have identified potential negative impacts as a result of the reduction in funding. Some have identified ways they can mitigate impacts such as increasing other fundraising efforts, using reserves and joint working with other organisations. Some organisations have said that they may have to reduce staff hours, and consequently opening hours, to enable them to manage the reduced funding available and in some cases due to the need to prioritise funding towards core running costs. (See Appendix 3)
7.14	Organisations funded from this budget will be asked to provide information about the diversity of their beneficiaries in their monitoring returns. This information will be collated and reported in an annual report for each fund. These reports will be published on the Council website and notice of their publication is circulated to all elected members.

8.0 COMMUNITY SAFETY IMPLICATIONS

8.1	Section 17 of the Crime and Disorder Act 1998 imposes a duty on the Council to exercise its functions with due regard to the likely effect on, and the need to do all that it reasonably can to prevent, crime and disorder (including anti-social and other behaviour adversely affecting the local environment), the misuse of drugs, alcohol and other substances and re-offending in its area.
8.2	Among the awards recommended in Appendix 1 are awards to five organisations that deliver services that have a positive impact on community safety. These are Ben's Centre for Vulnerable People that works with and provides a place of safety for street drinkers; the Young Women's Housing Project that provides therapeutic work with young women; and VAS New Beginnings, City of Sanctuary and Pakistan Advice and Community Association that work to promote positive community relations between the host community and refugees and asylum seekers.
8.3	None of the proposed awards is considered likely to have a negative impact on community safety.

9.0 ALTERNATIVE OPTIONS CONSIDERED

9.1	The proposal and recommendations within this report have been submitted by the Grants Awards Recommendation Panel, which is made
-----	--

	up of the Cabinet Member for Communities and Public Health, his advisors and the Head of Libraries and Community Services. Details of the whole process used to come to this proposal and recommendations can be seen in Appendix 2.
9.2	In order to inform recommendations on the grant extensions and award amounts to Cabinet, each of the 24 Voluntary Sector Grants Fund current grant recipients were invited to complete an Impact Form. This asked organisations to profile the impact of a 20% reduction in grant on their service and their service users, including an analysis of the impact on different COI within their service users.
9.3	Officers made a recommendation on the amount to be awarded to each organisation during the extension period, having regard to the impact form and budget proposal considering the impact on the service and service users, including an assessment of equality impact, as reported in the Impact form, organisational performance, whether the budget was balanced or shows a shortfall, proposals for covering shortfall and the continued viability of the service/project funded in 2015-16 if a reduction was to be applied
9.4	The Grants Awards Recommendation Panel considered the option of reducing the total Grant Aid budget by 20%. As a result of the information provided by organisations (as described in section 9.3) and having consideration for the statutory Best Value Guidance the Panel are recommending that the budget is only reduced by 9%.

10.0 REASONS FOR RECOMMENDATIONS

10.1	<p>The allocation of this funding to preventative services will fundamentally contribute to the Values, Priorities and Strategic Outcomes of the Council's Corporate Plan 2015-18. In particular -</p> <p><u>Values</u></p> <ul style="list-style-type: none"> • Prioritising those with greatest need • Working with, and within, communities <p><u>Priorities</u></p> <ul style="list-style-type: none"> • Tackling inequalities • In-touch organisation • Strong neighbourhoods and communities <p><u>Outcomes</u></p> <p>Specifically 'Tackling Poverty and Increasing Social Justice' but also –</p> <ul style="list-style-type: none"> • Health and wellbeing • Successful children, young people and families • Housing and neighbourhoods • Safe and secure
------	--

10.2	<p>In addition, the allocation of this funding will contribute to the Fairness Commission's recommendations around -</p> <ul style="list-style-type: none"> • Health & Wellbeing for All • Fair Access to High Quality Jobs and Pay • Fair Access to Benefits and Credit • Housing and a Better Environment • A Safe City • What Citizens and Communities can do
------	--

11.0 RECOMMENDATIONS

11.1	<p>Cabinet is asked, having had due regard to the provisions of Sections 149 and 158 of the Equality Act 2010 and Section 17 of the Crime and Disorder Act 1998, and to the issues raised by those provisions, to approve the grant agreement extension recommendations listed in Section 4 of this report, and detailed further in Appendix 1.</p>
11.2	<p>Cabinet is asked to endorse the grant agreement extension process described in Appendix 2 and to approve the actions, arrangements and recommendations at Sections 4 and 11, and the following specific delegations:-</p> <p>(a) The Executive Director of Communities is authorised:-</p> <p>(i) to administer the Lunch Clubs Small Grants Fund as described in Appendix 1;</p> <p>(ii) to agree the terms of and authorise the completion of all funding agreements, including amendments to the terms of any existing grant funding agreements, relating to grants made from the Lunch Clubs Small Grants Fund and the Voluntary Sector Grants Fund, together with any other associated agreements or arrangements that they may consider appropriate, provided that if the terms of a proposed funding agreement or amendments to the terms of an existing agreement involve the variation of any standard terms previously agreed by Internal Audit and / or Legal Services the agreement shall not be completed without the consent of the Chief Internal Auditor and the Director of Legal and Governance;</p> <p>(iii) where (a) a change of circumstance affects the ability of an organisation to deliver the purpose of the grant awarded, (b) the Executive Director of Communities considers the performance of the organisation to be below an acceptable standard or (c) an organisation has breached any of the award conditions contained in their funding agreement, to review, adjust or suspend grant awards;</p> <p>(b) The Executive Director of Communities, in consultation with Cabinet Member for Communities and Public Health, is authorised:-</p> <p>(i) to agree the amounts, purposes and recipients of any individual grants awarded in year from the Grant Funds including any additional sums</p>

	received or returned or unpaid funds
(ii)	where (a) a change of circumstance affects the ability of an organisation to deliver the purpose of the grant awarded or (b) the Executive Director of Communities considers the performance of the organisation to be below an acceptable standard or (c) an organisation has breached any of the award conditions contained in their funding agreement, to withdraw grant awards.
(iii)	to allocate any other additional sums that may be received in year from other parts of the Council or other partners as part of the Voluntary Sector Grant Aid process to fund local voluntary sector activity

Martin Hughes
 Locality Team Manager, Housing & Neighbourhood Services, Communities
 February 2015

APPENDIX 1

Voluntary Sector Grant Aid Budget Proposed awards 1st April 2015 - 31st March 2016

Lunch Clubs Small Grants Fund

The purpose of this fund is to promote the Council's strategy to support the independence, health and wellbeing of older people by making available a fund offering grants to lunch clubs. Evidence shows that an active and positive old age reduces the likelihood of reliance on statutory services. The majority of lunch clubs are self-help groups run by and for older people and provide a forum to socialise, share a meal and undertake group activities. Membership comprises mainly people aged over 70 and increasing numbers of people in their 80s and 90s including a few aged over 100. The clubs take self-referrals and referrals from relatives and health and social care professionals. In 2014-15 almost 2,000 older people attended a lunch club and the clubs delivered nearly 70,000 hot meals.

Applications to the Lunch Clubs Fund are invited from clubs on a year on year basis in advance of each financial year. All awards are under £10,000 and decisions are delegated to the Executive Director of Communities on the recommendation of a Grant Awards Recommendation Panel convened for the purpose. Authority is delegated to the Executive Director of Communities:

- to determine how the grants are calculated and to vary awards from this Fund during the year because of a change in a lunch club's circumstances.
- to make additional awards to lunch clubs in year to run activities for members from any unallocated spend within the budget
- to make new awards from any unallocated spend within the budget to clubs setting up, prioritising areas of most need.

A full report of the awards made from this Fund is produced after the end of each financial year. This is circulated to elected members and published on the Council's website.

Recommendations

To allocate a Lunch Clubs Fund of £147,000 (plus any additional sums which may be received by the Council specifically for this purpose) for the period 1st April 2015 to 31st March 2016.

To confirm the delegated powers to administer the Fund set out above.

Voluntary Sector Grants Fund

Theme 1: Tackling Poverty and Financial Exclusion

Sheffield Citizens Advice and Law Centre

Charitable limited company founded in 2013 from the merger of 12 independent advice centres. Managed by a committee of 15. Provides a citywide advice service including drop-in services at outlets across the city, an appointment and home visiting service and an advice assessment phone line operating Monday – Friday 9-5pm. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015”.

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £969,000 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards the provision of a citywide advice service.

Theme 2: Supporting the local voluntary sector to thrive and deliver

Joint application from Creative Pathways, South Yorkshire Community Foundation (inc. South Yorkshire Funding Advice Bureau) and Voluntary Action Sheffield

Infrastructure organisations in the city are continuing to work together to provide services for voluntary, community and faith sector organisations that are streamlined, accessible, customer efficient, value for money and affordable. There are currently in place grant fund agreements with South Yorkshire Community Foundation (inc. South Yorkshire Funding Advice Bureau), Creative Pathways and Voluntary Action Sheffield in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreements currently in place to South Yorkshire Community Foundation (inc. South Yorkshire Funding Advice Bureau), Creative Pathways and Voluntary Action Sheffield be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amounts awarded from the Voluntary Sector Grants Fund under that agreement are as follows:

Voluntary Action Sheffield (VAS)

Charitable limited company founded in 1925 and based in its own premises at The Circle, Rockingham Lane. Managed by a committee of 10. Provides a range of infrastructure support services for voluntary, community and faith sector groups and organisations across the city, including payroll, accountancy, community development and volunteering opportunities. Also provides a training programme across a range of topics relevant to the voluntary sector. The Circle offers rented office space for organisations and meeting and training rooms for hire. VAS runs a Volunteer Centre that provides a brokerage service putting potential volunteers in touch with volunteering opportunities in the city and works with organisations to improve the quality of volunteer placements. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015”.

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £76,000 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards a volunteer centre and a small group development service.

South Yorkshire Community Foundation

Charitable limited company founded in 1986 and based on Leeds Road, Attercliffe. Managed by a Committee of 16. SYCF merged with South Yorkshire Funding Advice Bureau (SYFAB) in Jan 2014 and now provides funding information, advice and training to front-line voluntary and community groups in Sheffield, which will complement existing fund raising and grant making. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015”.

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £37,800 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards the provision of a funding advice service for the Sheffield voluntary, community and faith sector.

Creative Pathways

Charitable limited company founded in 2010 based in rented premises at Spartan House on Carlisle Street. Managed by a committee of 3. Provides infrastructure capacity building services to BME organisations and community development support for BME residents. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015”.

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £27,000 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards the provision of infrastructure support services including fundraising, financial management, governance and legal advice for Sheffield voluntary, community and faith sector organisations.

Voluntary Action Sheffield Lunch Club Development Project

Provides a support and development service for the network of older people's lunch clubs across the city including around 60 clubs that receive Council funding. The funding will ensure the actions from the recent Lunch Club Review are taken forward so that the groups operate safely and effectively, provide high quality activities for their members and are part of a thriving network that is well informed, responsive to changing needs and sustainable for future generations, as well as ensure that any future investment is targeted at the areas of most need. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £42,186 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards the development and support of older people's lunch clubs and activity groups.

Theme 3: Promoting Social Inclusion and Justice

The proposed awards are listed alphabetically by name of organisation

Ben`s Centre for Vulnerable People (Sheffield)

Charitable limited company founded in 1996. Managed by a Committee of 6. Provides a service for street drinkers offering a safe accessible environment where users can get food, clean clothes and information and advice about access to other services. Also provides activities and support to enable users to develop skills and become rehabilitated into the community. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £53,650 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards work with vulnerable street drinkers.

City of Sanctuary

Charitable limited company founded in 2005 and based in Victoria Hall on Norfolk Street. Managed by a Committee of 7. Co-ordinates a weekly city centre drop-in service, bringing together a comprehensive range of multi-agency services for asylum seekers and new arrivals. Also provides awareness raising and cross cultural activities with the help of refugee and asylum seeker volunteers to encourage a culture of welcome, hospitality and mutual understanding. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £24,245 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards work to support the delivery of reception duties at the Victoria Hall drop-in session and to promote cohesion.

Emmaus Sheffield

Charitable limited company and affiliate member of Emmaus UK founded in 2000 and based in Sipelia Works on Cadman Street. Managed by a Committee of 10. Runs a self-supporting community for homeless people in Sheffield. The community offers a home, employment and a sense of belonging to residents, who refurbish and sell donated goods through an on-site shop and the internet. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £18,400 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards the community companions project for homeless people.

Heeley City Farm

Charitable limited company founded in 1981 and based at Council owned site on Richards Road. Managed by a Committee of 6. Runs an urban farm with training and educational activities including vocational courses for unemployed adults, an environmental education service and specific programmes for volunteers, young people and adults with learning disabilities. Houses the South Yorkshire Energy Centre. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant

amount of £25,313 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards work with vulnerable adults and developing life skills to reduce and manage household expenditure.

Mental Health Action Group

Registered charity founded in 1992 and based in Council owned premises on Creswick Street. User-led organisation managed by a Committee of 12. Runs a drop-in centre offering group activities and support for people with severe mental health problems. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £10,500 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards running a self help organisation for mental health service users.

Pakistan Advice and Community Association

Registered charity founded in 1993 and based in privately rented accommodation on Pagehall Road. Managed by a Committee of 13. Provides citizenship classes and other cohesion activities. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £31,500 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards work to support community cohesion with a particular focus on new arrivals.

Roshni Asian Women`s Resource Centre

Registered charity founded in 1992 and based in own shop front premises on London Road. Managed by a committee of 7. Provides a resource centre for Asian women across the city where women of all ages can access a varied programme of services and activities, including a mentoring service, information, advice and support sessions, advocacy, training, youth provision, cultural events and health and well-being activities. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £43,601 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards work to develop opportunities and support services for ethnic minority women.

Sheffield Association for the Voluntary Teaching of English

Charitable limited company founded in 1999 and based at the Circle building on Rockingham Lane. Managed by a Committee of 6. Recruits and trains volunteers to teach English as a second language. Provides individual tuition for people unable to access mainstream provision and supports learners to progress from one-to-one tuition to group based learning. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £34,140 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards the delivery of one-to-one and group based pre-ESOL language tuition to vulnerable adults unable to access mainstream provision.

Sheffield Chinese Community Centre

Registered charity founded in 1995 and based in own shop front premises on London Road. Managed by a Committee of 7. Provides a point for access to services and a focus for social, cultural and educational activities for the Sheffield Chinese community. Runs projects concentrating on health and emotional wellbeing. Also houses an outreach advice service from Sheffield Citizens Advice and Law Centre and a legal information service for the Chinese and Vietnamese community. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £24,300 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards the delivery of services to the Chinese community.

Sheffield Community Transport

Industrial and provident society founded in 1988 and based in privately rented premises in Montgomery Terrace Road. Managed by a Committee of 6. Runs a Community Car Scheme that uses volunteer drivers to transport disabled people. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £20,400 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards the delivery of a volunteer car transport scheme.

Shopmobility Sheffield

Charitable limited company based at Westhill Lane Municipal Car Park off West Street. Managed by a Committee of 12. Runs a scooter and wheelchair loan scheme. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £14,000 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards the provision of a city centre scooter and wheelchair loan scheme.

St Vincent de Paul Furniture Store

Local branch of international charity founded in 1986 located in diocese owned premises on Queens Road. Managed by a Committee of 10. Provides free furniture to families in need across the city. Referrals are accepted from registered statutory and voluntary sector organisations, including the Council, advice centres and NHS. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £64,020 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards the delivery of a furniture recycling service for people in need.

St Wilfrid's Centre

Registered charity administered by the Diocese of Hallam Trust and based in its own premises on Queen's Road. Managed by a committee of 11. Provides welfare support and a wide range of activities for homeless and vulnerable people the majority of whom have mental health problems. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £48,275 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards welfare and development support for people with mental health problems.

Voluntary Action Sheffield (New Beginnings)

Charitable limited company founded in 1925 and based in its own premises at The Circle, Rockingham Lane. Managed by a committee of 10. Provides a range

of infrastructure support services for voluntary, community and faith sector groups and organisations across the city. New Beginnings is a project developed by the VAS Volunteer Centre to assist the integration of refugees and support them to contribute to the life of the city by engaging in volunteering opportunities with local community organisations. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £17,400 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards the delivery of a volunteer programme for refugees, asylum seekers and new arrivals.

Young Women`s Housing Project

Charitable limited company founded in 1983 and based in Council owned premises. Managed by a Committee of 6. Offers safe accommodation and support to vulnerable 16-25 year old women. Provides a support service including life skills training to enable residents to move towards independent living. Offers outreach and continuing support to former residents. There is currently in place a grant fund agreement in respect of the period 1st April 2014 to 31st March 2015

Recommendation

That the term of the grant fund agreement currently in place be extended to include the period 1st April 2015 to 31st March 2016 and that the additional grant amount of £28,000 be awarded under that agreement from the Voluntary Sector Grants Fund as a contribution towards therapeutic support for young women at the project.

Appendix 2 - Voluntary Sector Grants Fund Assessment Process

It is proposed that the process for allocating the Council's Grant Aid budget for 2015-16 deviates from arrangements in recent previous years (set out in last year's Cabinet Report on the Voluntary Sector Grant Aid Budget 2014-15.

<https://imgmeetings.sheffield.gov.uk/documents/s12244/documents/s12244/Voluntary%20Sector%20Grant%20Aid.pdf>

1. Voluntary Sector Grant Aid investment for 2014-15 was agreed by Cabinet on 19th February 2014 according to the grant assessment process described in the Cabinet Report <https://imgmeetings.sheffield.gov.uk/documents/s12244/documents/s12244/Voluntary%20Sector%20Grant%20Aid.pdf> . 24 organisations were awarded a Voluntary Sector Grants Fund award and an allocation of funding was made to the Lunch Club Fund.
2. As already stated in the main body of this Cabinet Report, following the decision made by cabinet in February 2014 a review of the Voluntary Sector Grant Aid criteria and processes has been taking place along with a wider assessment of how the Council invests in the VCF Sector. In order to allow this work to progress throughout 2015, it is proposed that the majority of grants awarded for 2014-15 are extended for 12 months to cover the period 1st April 2015 – 31st March 2016. The implication of this was that no fund for new applications was advertised in Summer 2014 as no new awards for 2015-16 will be made. Grant Aid in 2015-16 will therefore prioritise activity that we know has a direct benefit and works. This will mean continuing to support the majority of the organisations funded in 2014-15 via extending existing grant funding agreements for 12 months, up 31st March 2016. This includes the provision of Lunch Clubs provided by older people for older people across the city, the delivery of Advice Services by Sheffield Citizen Advice and Law Centre, support for VCF infrastructure services and supporting activity by the VCF sector that helps the most vulnerable.
3. Councillors indicated a 20% reduction to the Grant Aid budget may be necessary. This means that the level of grant award made to each organisation cannot be maintained.
4. In order to inform recommendations on the grant extensions and award amounts to Cabinet, each of the 24 Voluntary Sector Grants Fund grant recipients were invited to complete an Impact Form, which were sent to organisations at the beginning of October with a deadline for completion of 24th October 2014. This asked organisations to profile the impact of a 20% reduction in grant on their service and their service users, including an analysis of the impact on different COI within their service users.¹

¹ The Impact Form asked organisations to profile grant extensions for a 6 month period. The initial intention was to award extensions for the period 1st April – 30th September 2015 on the premise that a new grant fund would be available to apply to in Summer 2015, for awards to commence on 1st October 2015. It is now recommended, for reasons detailed in section 1.2 of this Cabinet report that the extension period is 12 months, from 1st April 2015 – 31st March 2016.

Organisations were also asked to provide an organisational budget profiling the 20% budget reduction. If organisations felt that a 20% reduction would risk the viability of the organisation or service, they were invited to profile an alternative reduction as well as the 20% reduction.

5. 23 organisations completed an Impact Form. One organisation decided not to complete an Impact Form, in the knowledge that therefore they would not be considered for an extension to the existing grant fund agreement.
6. Officers made a recommendation on the amount to be awarded to each organisation during the extension period, having regard to the Impact Form and budget proposal submitted by each organisation. When deciding the recommendations, officers considered the impact on the service and service users including an assessment of equality impact, as well as other factors such as organisational performance, and the continued financial viability of the service/project funded in 2015-16 if a reduction in grant was to be applied.
7. Officer recommendations were considered by the Grant Awards Recommendation Panel, made up of Head of Libraries & Community Services and Cabinet Member for Communities and Public Health and advisers (Cllrs Mazher Iqbal, Bob Johnson and Nikki Bond). The Panel met in November and December to formulate the recommendations to Cabinet (listed in Appendix 1). In formulating its recommendations the Panel took into account all relevant considerations including the equalities impact of the applications and statutory Best Value Guidance. The background papers for each proposal to extend the grant fund agreement are available for consultation by Cabinet members (contact Martin Hughes, Locality Team Manager).
8. Grant Awards Recommendation Panel recommendations will be presented to Cabinet, for approval, on 11th February 2015. Cabinet report refers to powers delegated to the Director to make decisions to award, withdraw or suspend grants in year in consultation with the cabinet member.
9. Recipients are notified of their awards. An extension of the funding agreement will be negotiated which states the amount of grant and agrees the budget and sets out the outputs, outcomes, milestones and conditions on which the funding is granted together with a budget of how the grant will be spent. Every grant is subject to a set of standard grant conditions approved by Legal Services. It is proposed that authority to attach additional conditions to a grant be delegated to the Executive Director of Communities where s/he considers these appropriate following the assessment process. The variation to the funding agreement will be signed by the Director and Management Committee of each organisation.
10. A report of the impact of these awards will be prepared after the end of the financial year 2015 and published on the Council website.

Appendix 3 - Sheffield City Council Equality Impact Assessment

Name of policy/proposal: Voluntary Sector Grant Aid Budget 2015-16

Status of policy/proposal: Existing **Portfolio:** Communities

Name of person(s) writing EIA: Martin Hughes **Date:** January 2015

Service: Libraries and Community Services **Q Tier Ref** 4GM4B3-1

EIA Reference number: 496

Briefly outline the aims of the policy/ proposal and outcomes you want to achieve?

To agree the awards from the Voluntary Sector Grant Aid Budget 2015-16. There are two funds within the budget to consider: Voluntary Sector Grants Fund and the Lunch Clubs Small Grants Fund.

Voluntary Sector Grants Fund

The Council has been carrying out a review of how we invest in the VCF sector. To ensure that any new grants process is aligned to the Council's ambition to tackle poverty and linked to the 'Child and Household Poverty Strategy', extensions to the existing grant arrangements have been considered for 12 months up to 31st March 2016. This is to allow time to introduce a changed grant scheme with refreshed priorities and criteria.

24 organisations were awarded funding in 2014-15. The proposed Voluntary Sector Grant Aid budget for 2015/16 is **£1,756,730**. A further £56,900 will be transferred to the Sheffield Drug and Alcohol/Domestic Abuse Coordination Team as a permanent cash limit adjustment which will go towards the commissioning of services that tackle Domestic & Sexual Abuse (see 4.7d).

These figures combined represent a 9% reduction from the 2014/15 budget. All organisations were informed that consideration would be given to extending existing grant arrangements, but that this would need to be done in the context of a reduced budget.

This 9% cut is not equally apportioned across all the organisations to be funded. The value of the recommended extended grant arrangements is based upon a case by case analysis of the evidence supplied in the impact forms completed by the organisations and on how the current activity funded contributes to the current Grant Aid priorities and the impact on communities of identity.

It should be noted that the decision to continue to provide Grant Aid and invest in the VCF Sector, despite the Council's difficult financial situation, will have a largely positive impact on local people with characteristics covered by equalities legislation. The current priorities positively promote the needs of older people, people with disability, ethnic minority women, refugees, asylum seekers and new

arrivals. Funding allocated to VCF infrastructure will enable support and advice to be provided to organisations across the sector in relation to identifying efficiencies, income generation and securing other sources of funding.

Is the service a specialist provision to a group covered under the Equality Act 2010 such as a women’s, BME, disability or LGBT specific service? No

Consultation	Yes / ongoing	Please note the consultation you have undertaken or will undertake with those impacted by the proposal such as local groups and others such as surveys, face to face meetings etc. and explain the results below
---------------------	---------------	--

VSGF funding
 All 24 organisations funded in 2014-15 were informed in writing (in October 2014) that the Council planned to consider extending existing grant arrangements but that there was no guarantee that all grants will be extended. Organisations were also informed of the Council’s ongoing need to find significant savings. To be considered for a grant extension, organisations were asked to complete a ‘grant request and impact form’. The purpose of the form was to gather information about the impact on each organisation if they were offered a grant extension at a reduced amount. Organisations were asked to describe the impact on their service delivery and on different communities of interest of a 20% reduction. We asked them to tell us how a 20% reduction would impact on their service and staffing arrangements, but specifically how it would impact on their service users, and if any protected group will be affected more than people in general. Where organisations have been able to provide evidence to support this information, this has been factored into this EIA. Officers also used the information provided by organisations to undertake an EIA on each organisation which were considered by the Grants Panel when making their recommendations.

Lunch Club Small Grant Fund – Ongoing consultation
 All older people’s lunch clubs that currently receive funding have been invited to apply for a grant for 2015-16. The report includes a recommendation to not reduce the amount allocated to the Lunch Club Fund. However, all lunch clubs have been informed that the Grant Aid budget has been reduced and that individual club circumstances will be taken into account when grant awards are made. This is to ensure that the budget is used as effectively as possible and that new clubs can be considered for funding.

What’s the Impact? – Detail the evidence you have used below, consider demographics, census, JSNA, complaints, customer information, national or local reports, feedback or consultations and include separate sheets if required)

Evidence has been gathered by way of:

- (1) Desktop analysis and individual EIA of impacts for those organisations that completed a ‘grant request and impact form’.
- (2) Officer assessment of organisation’s performance during 2014-15.

In carrying out (1) and (2) above we have referred to a range of information including monitoring information from the 24 organisations funded in 2014-15, Census and other associated data on the profile of the population of Sheffield.

Areas of impact	Impact	Impact level	Explanation of impact- what does the data tell you?
Workforce	None	None	Include reductions required and impact on staff diversity etc

There are no impacts on SCC staff as a result of this proposal. There will be impacts on the workforce of some of the voluntary sector organisations currently funded through the VSGF. This will be because funding will end or due to a reduction in funding in 2015-16. The impacts will be possible reductions in staff hours which potentially may result in redundancy situations. Where appropriate, these impacts

have been identified in the EIA.			
Action	N/A		
Generic	Positive	Medium	Relates to all or most groups
<p>Positive impacts have been identified for –</p> <ul style="list-style-type: none"> • Older People • Disabled people • VCF Sector • Financial Exclusion • Cohesion <p>Some negative impacts have been identified, in particular for BME women. However, other Council funds within the Communities Portfolio have been identified to help mitigate against this in 2015/16.</p> <p>Information relating to how organisations address issues of diversity and equality is taken into account when assessing applications and in monitoring returns. All of these organisations went through a thorough application process resulting in grant awards made for 2014-15. As detailed in this report, organisations have been through a further process to recommend whether their current grants are to be extended to 31 March 2016.</p> <p>The reduction in the Voluntary Sector Grant Aid Budget will mean the amounts awarded to organisations are lower than the amounts awarded in previous years and that there is no guarantee that all organisations will continue to be funded. This will impact on the number of service beneficiaries provided for by the VCF organisations, which include vulnerable people. The nature of the Grant Aid budget is such that services to vulnerable people are an inherent part of this funding and consequently the reduction in the budget will impact on all vulnerable groups.</p> <p>A range of organisations have identified potential negative impacts as a result of the reduction in funding. Some have also identified ways they can mitigate impacts such as increasing other fundraising efforts, using reserves and joint working with other organisations. Some organisations have said that they may have to reduce staff hours, and consequently opening hours to enable them to manage the reduced funding available and in some cases due to the need to prioritise funding towards core running costs.</p>			
Action Minor	<p>Organisations funded from this budget will be asked to provide information about the equality impact of the grant awarded in their monitoring returns. Monitoring information will be collected after the end of the award period (31st March 2016). This will be reviewed for each award in the light of outcomes and outputs identified in the individual Funding Agreements.</p> <p>The information will be collated across the organisations funded and reported in an annual report that will be published on the Council website and circulated to Elected Members.</p>		
Age	Positive	Medium	Be clear if your service relates to specific age groups, particularly younger or older people
<p>Sheffield has a higher proportion of its population aged 65 years or over (16.7% or 85,700 people) than the other English Core Cities. The proportion of Sheffield's population aged over 65 is also projected to increase, with the largest increases in the number of people aged over 85.</p> <p>Based on evidence collected from 23 organisations awarded a grant from the Voluntary Sector Grant Fund in 2013-14 delivering a similar wide range of different services 14% of beneficiaries were aged over 60 (13% in the previous year), and 2.5% of individuals were aged under 20 (4% in the previous</p>			

year). (Note: The Voluntary Sector Grants Fund is targeted at adult provision and projects providing activities for children and young people are excluded from applying to the fund. The Lunch club fund is also targeted at provision for adults 60 and over).

The report includes a recommendation to continue to provide a Lunch Clubs Small Grants Fund, which will support around 60 different lunch clubs across the city. The clubs are self-help groups run by and for older people. Approximately 2,000 older people will benefit from attending a lunch club during the year. This includes numbers of older people aged in their 80's and 90's for which attendance is sometimes their only regular outing. It is anticipated that half the membership will be aged 80 and over. Clubs take self-referrals and referrals from relatives and social and health care workers who refer older people recovering from illness, bereavement or are socially isolated. The amount allocated to the Lunch Clubs Small Grant Fund is recommended at no reduction on the current year. In addition there is also a recommendation to provide a grant extension for the Lunch Club Support Service at a reduced amount. This service will help lunch clubs to expand their activities and ensure that they are able to manage challenges such as succession planning, financial management and volunteer recruitment. This organisation has identified that a reduction in their funding will impact on staff time which may impact on development work with lunch clubs as the support element of the service will be prioritised.

The report includes a recommendation to fund 1 grant that will support therapeutic work for young women. This organisation has been recommended for a grant extension at no reduction on the current year. It is therefore not anticipated that there will be any negative impacts on the service being delivered.

The report also includes a recommendation to fund 2 grants to organisations that run schemes for disabled people with mobility problems, a large majority of whom are older people. Both of these organisations have been recommended for grant extensions at no reduction on the current year.

Action Minor	<p>Due to the reduction in the grant awarded for the Lunch Club Support Service, which will affect the number of staff hours available, requests for help and support from lunch clubs will have to be more carefully prioritised. Reduced outputs may need to be considered to reflect the reduction in funding.</p> <p>All organisations awarded a grant will be asked to collect diversity monitoring for their users, staff and management committee and report this in their grant monitoring returns. This information will be collated and reported annually on the Council website and used to evaluate the effectiveness of the grants in reaching people of different ages.</p>
-------------------------	---

Disability	Positive	Medium	Be clear if your service relates to a specific impairment
-------------------	----------	--------	---

In Sheffield around 20% of the population have a long term limiting illness and as at 2011 5.9% of the city population claimed Disability Living Allowance.

Based on evidence collected from 23 organisations awarded a grant from the Voluntary Sector Grant Fund in 2013-14 delivering a similar wide range of different services, 32% of beneficiaries reported a disability or long term health problem (30% in the previous year). This shows that the grants awarded under the Voluntary Sector Grants Fund are supporting a higher proportion of disabled people than the city % figure. This is to be expected due to the targeting of the funding.

Among the grants recommended are –

- 2 grants to organisations working with people with mental health problems

Both of these organisations have been recommended for grant extensions at no reduction on the current year.

- 2 grants to organisations that run schemes for disabled people with mobility difficulties.

Both of these organisations have been recommended for grant extensions at no reduction on the current year.

Action Minor	All organisations awarded a grant will be asked to collect diversity monitoring for their users, staff and management committee and report this in their grant monitoring returns. This information will be collated and reported annually on the Council website and used to evaluate the effectiveness of the grants in reaching local disabled people.		
Pregnancy/ maternity	Neutral	Neutral	Be clear if this impacts on these areas
None of the recommended grants will go to organisations that have identified pregnant women as their target beneficiaries, although pregnant women are likely to make use of the services provided.			
Action	None		
Race	Negative	Medium	Be clear if your service relates to specific BME communities
<p>Sheffield is a diverse city with around 19% of its population from black or minority ethnic groups.</p> <p>Based on evidence collected from 23 organisations awarded a grant from the Voluntary Sector Grant Fund in 2013-14 delivering a similar wide range of different services 43% of beneficiaries were of BME origin (47% in the previous year). This shows that the grants awarded under the Voluntary Sector Grants Fund are supporting a higher proportion of BME people than the city % figure. This is to be expected due to the targeting of the funding.</p> <p>Among the grants recommended are –</p> <ul style="list-style-type: none"> • 2 grants to organisations that run schemes for ethnic minority women. Funding to both of these organisations is recommended at a reduced amount compared to funding in 2014-15. For one of these organisations, the impact will be a reduction in staff hours (with one post potentially being made redundant) and a reduction in opening times of the centre. This will impact on the number of clients that will be able to access the services provided, and the support available for clients to take up formal volunteering/training opportunities. In mitigation, other Council funds within the Communities Portfolio have been identified to help the organisation cover some of the shortfall. It is anticipated therefore that some of the impacts identified above will be reduced in 2015/16. The organisation will also endeavour to fund raise. Reduced funding to the other organisation will also impact on staff hours which will result in fewer volunteering opportunities within the organisation and a reduced service for a smaller number of clients with low levels of English. In mitigation, other Council funds within the Communities Portfolio have been identified to help the organisation cover some of the shortfall. It is anticipated therefore that some of the impacts identified above will be reduced in 2015/16. • 3 grants to organisations working with refugees, asylum seekers and new arrivals Two of these organisations have been recommended for grant extensions at no reduction on the current year. It is therefore not anticipated that there will be any negative impacts on the services they are delivering. The other organisation has been recommended for a grant extension at a reduced amount. This may affect the opening hours of the service and staff hours. The organisation will endeavour to fund raise to compensate for the reduction towards their running costs. • 1 grant to an organisation working with a specific BME community This organisation is being recommended for reduced funding compared to 2014-15. The organisation has identified that it may be necessary to reduce opening hours of the centre, shorten periods that services are available, reduce services offered and/or reduce the hours of staff. In mitigation, they will try and recruit more volunteers to support service delivery and will look to charge/increase charges for some services such as training and learning. <p><u>Organisations currently funded, not recommended for funding</u> One organisation providing services to BME clients has not been recommended for funding. The impact of not funding them will mean a reduction in staff hours which could potentially hamper any development that might have taken place. In mitigation however, they also occupy and run a service to older people</p>			

from other premises which could be used as a base to offer services to other members of their community/provide a place for groups to continue to meet.			
Action Minor	Officers will work with the organisation not recommended for funding to identify a plan of action. All organisations awarded a grant will be asked to collect diversity monitoring for their users, staff and management committee and report this in their grant monitoring returns. This information will be collated and reported annually on the Council website and used to evaluate the effectiveness of the grants in reaching local BME people.		
Religion/ belief	Neutral	Neutral	Note: This also covers all faith groups and those with no belief
Support to faith based organisations will be provided via the grants recommended within the 'Supporting the Voluntary Sector to thrive and deliver'. The needs of faith groups are accommodated appropriately within the existing model of infrastructure support available to groups and organisations in Sheffield.			
Action Minor	All organisations awarded a grant will be encouraged to include questions about faith/religion/belief in their diversity monitoring for their users, staff and management committee and report this in their grant monitoring returns. This information will be collated and reported annually on the Council website and used to evaluate the effectiveness of the grants in reaching local people of different faiths.		
Sex	Negative	Medium	Note: this includes women and men
Based on evidence collected from 23 organisations awarded a grant from the Voluntary Sector Grant Fund in 2013-14 delivering a wide range of different services, 45% of beneficiaries were men and 55% were women. Among the grants recommended are – <ul style="list-style-type: none"> • 2 grants to organisations that run schemes for ethnic minority women. The impact of reduced funding to these two organisations has already been considered under BME. <ul style="list-style-type: none"> • 1 grant that will support therapeutic work with young women Funding to this organisation has not been reduced and therefore it is not anticipated that there will be any negative impact on service users. In making these recommendations to Cabinet the Grants Award Recommendation Panel has taken notice of the Equality Act 2010 and the positive action provisions of section 158 with regard to single gender services, where the needs of women in relation to men are different. The Grants Award Recommendation Panel is satisfied that grants to be awarded to single gender services fall within the exemption provisions of the legislation and are in line with the public sector equality duty. .			
Action Minor	All organisations awarded a grant will be asked to collect diversity monitoring for their users, staff and management committee and report this in their grant monitoring returns. This information will be collated and reported annually on the Council website and used to evaluate the effectiveness of the grants in reaching local men and women.		
Sexual orientation	Neutral	Neutral	For example lesbian, gay or bisexual groups
None of the recommended grants will go to organisations that have identified LGB people as their target beneficiaries, although LGB people are likely to make use of the services provided.			
Action Minor	All organisations awarded a grant will be encouraged to include questions about sexuality in their diversity monitoring for their users, staff and management committee and report this in their grant monitoring returns. This information will be collated and reported annually on the Council website and used to evaluate the effectiveness of the grants in reaching local LGB people. The Council also endeavours to support LGB people through a range of other initiatives.		

Transgender	Neutral	Neutral	Note: transgender both men and women
None of the recommended grants will go to organisations that have identified Transgender people as their target beneficiaries.			
Action Minor	All organisations awarded a grant will be encouraged to include questions about gender in their diversity monitoring for their users, staff and management committee and report this in their grant monitoring returns. Where appropriate, organisations will be advised to monitor in line with relevant legislation. This information will be collated and reported annually on the Council website and used to evaluate the effectiveness of the grants in reaching local Transgender people.		
Carers	Neutral	Neutral	Note: this refers to those who provide regular and substantial unpaid care to a disabled adult or child.
Services to carers were not a priority for this funding. None of the organisations recommended to receive a grant have identified carers as their target beneficiaries, although carers are likely to make use of some of the services that will be provided.			
Action	None		
Voluntary, community faith sector	Positive	Medium	For example: impact on VCF organisations e.g. access to match funding, viability, hours of opening, staffing levels, referrals etc
<p>All the grants recommended are to local Voluntary, Community and Faith Sector organisations. The availability of Voluntary Sector Grant Aid is an important and positive boost to the sector. However, the budget for 2015-16 will be 9% less than was available in 2014-15. As described above, grant extensions have been considered in the context of this reduced budget. This has resulted in a reduction of 1 fewer grant being recommended under the 'Promoting social inclusion and justice theme' and 1 fewer grant being recommended under the 'Tackling poverty and financial exclusion theme'. The amounts recommended to a number of organisations are also lower than in the previous year.</p> <p>The grants recommended will contribute towards core costs, supporting jobs and volunteering opportunities in the local VCF Sector. 4 grants will contribute to strengthening the infrastructure of the local VCF Sector. In 2014-15 an amount was recommended for a voucher scheme, enabling organisations which represent / serve disadvantaged communities to apply for and be awarded a voucher to purchase the specific support services they need from infrastructure support services. The recommendations for 2015-16 do not include an amount for a voucher scheme. The impact of this on VCF groups is that they will have to use/raise other funds to pay for additional specific support needed.</p>			
Action Minor	<p>All organisations awarded a grant will be asked to collect diversity monitoring for their users, staff and management committee and report this in their grant monitoring returns. This information will be collated and reported annually on the Council website.</p> <p>Organisations awarded a grant to deliver infrastructure support services will be asked to collect diversity monitoring information about the VCF groups they are supporting. This information will be collated and reported annually on the Council website.</p>		
Financial exclusion	Positive	High	Note the impact poverty and on those who are financially excluded
16 of the grant extensions recommended will contribute toward outcomes related to tackling poverty, promoting social justice and financial inclusion.			

<p>The grant extension to support the delivery of advice in the City will:</p> <ul style="list-style-type: none"> • Ensure that face to face advice is available to anyone who needs it, recognising that advice is concentrated in certain areas of the city • Ensure that advice is available through a range of channels (including on-line self-help, telephone and face to face) • Ensure that the advice needs of a range of vulnerable groups are met <p>The grant to support advice in the City is reduced compared to 2014-15. The impact of this reduction, although difficult to quantify exactly at this stage, will mean a reduction of frontline advisers which could affect the capacity to recruit, manage and train volunteers. It could also mean a reduction in drop-in opening times and reduced capacity on the telephone advice line and for appointments.</p> <p>One grant that funded work to support local people on low incomes manage some of the impacts of the government welfare reforms is not being recommended for a grant extension. The impact of this is likely to be a reduction in staff capacity that will mean Budgeting accounts are less well promoted and there is less support to Budgeting account holders to manage their accounts.</p> <p>The grant to another organisation will be used to directly fund work on food and fuel poverty, supporting local people to learn the skills to reduce their household expenditure has been recommended to be extended but at a reduced amount. This may impact on the number of beneficiaries.</p>			
Action Minor	Outcomes and outputs relating to financial inclusion will be monitored at the end of the grant period. This information will be collated and reported annually on the Council website.		
Cohesion:	Positive	High	Note particular impact on community tensions or getting on well together
15 of the grants recommended will be awarded to organisations that will deliver activity which contributes to outcomes related to building social inclusion and cohesion. Out of these, 5 of these organisations will provide activity that will have a positive impact on community safety.			
Action Minor	Outcomes and outputs relating to building social inclusion and cohesion will be monitored at the end of the grant period. This information will be collated and reported annually on the Council website.		
Armed Forces	Neutral	Neutral	Note implication on serving forces personnel, reservists, veterans or families of
Services to armed forces were not a priority for this funding. None of the organisations recommended to receive a grant have identified armed forces as their target beneficiaries.			
Action	None		
Other options considered	Please note any other options considered/ being considered		
N/A			
Financial implication	Neutral	Neutral	Please detail associated costs of equality implications
N/A			

Summary/ additional:	Positive	High	Please provide a basic summary cost benefits analysis below of the overall impact on service users and the organisation and link to evidence. This should be included in all reports e.g. to EMT, cabinet reports etc
<p>Despite continuing pressures on the budget, this report is recommending a significant investment into the VCF sector, which is then targeted at Sheffield's most vulnerable people. However, the proposed reduction in the budget will inevitably impact on all vulnerable groups. Groups in receipt of funding are asked to provide evidence of efficiency savings they are making in running costs and management costs to minimise the effect on service delivery</p> <p>Despite the proposed reduced level of investment, positive impacts have been identified among the range of awards recommended for older people, disabled people, the voluntary sector, financial inclusion and cohesion in the city. Some negative impacts have been identified, in particular for BME women. However, other Council funds within the Communities Portfolio have been identified to help mitigate against this in 2015/16.</p> <p>A range of organisations working with a variety of vulnerable groups have identified potential negative impacts as a result of the reduction in funding. Some have identified ways they can mitigate impacts such as increasing other fundraising efforts, using reserves and joint working with other organisations. Some organisations have said that they may have to reduce staff hours, and consequently opening hours to enable them to manage the reduced funding available and in some cases due to the need to prioritise funding towards core running costs.</p>			
Summary of actions Minor	<p>Include lead officer, timescales and how it will be monitored/reviewed</p> <p>All groups:</p> <ul style="list-style-type: none"> • To be reviewed quarterly, tied into quarterly monitoring returns to be carried out during the grant period 2015-16: Martin Hughes • Diversity information collected and collated after the end of the grant period (May 2016): Martin Hughes <p>Race</p> <ul style="list-style-type: none"> • To offer support to the organisation not recommended for funding to assist them in developing a plan of action (April 2015): Martin Hughes. <p>Sexual orientation and transgender:</p> <ul style="list-style-type: none"> • Organisations awarded funding to consider how they ensure they are inclusive of LGB people and Transgender people. Organisations that collect this information will be asked to report on it (May 2016): Martin Hughes 		
Outcome No change	<p>Briefly detail recommendations whether you need to make any changes to the policy or proposal based on the information above</p> <p>No changes recommended based on the above information.</p>		

Discussed with Lead Member: 18/12/14

Approved (Lead Manager): Martin Hughes **Date:** 16/01/15

Approved (EIA Lead person for Portfolio): Phil Reid **Date:** 16/01/15
