ADVICE TO MEMBERS ON DECLARING INTERESTS AT MEETINGS

If you are present at a meeting of the Council, of its executive or any committee of the executive, or of any committee, sub-committee, joint committee, or joint sub-committee of the authority, and you have a **Disclosable Pecuniary Interest (DPI)** relating to any business that will be considered at the meeting, you must not:

- participate in any discussion of the business at the meeting, or if you become aware of your Disclosable Pecuniary Interest during the meeting, participate further in any discussion of the business, or
- participate in any vote or further vote taken on the matter at the meeting.

These prohibitions apply to any form of participation, including speaking as a member of the public.

You **must**:

- leave the room (in accordance with the Members' Code of Conduct)
- make a verbal declaration of the existence and nature of any DPI at any meeting at which you are present at which an item of business which affects or relates to the subject matter of that interest is under consideration, at or before the consideration of the item of business or as soon as the interest becomes apparent.
- declare it to the meeting and notify the Council's Monitoring Officer within 28 days, if the DPI is not already registered.

If you have any of the following pecuniary interests, they are your **disclosable pecuniary interests** under the new national rules. You have a pecuniary interest if you, or your spouse or civil partner, have a pecuniary interest.

- Any employment, office, trade, profession or vocation carried on for profit or gain, which you, or your spouse or civil partner undertakes.
- Any payment or provision of any other financial benefit (other than from your council or authority) made or provided within the relevant period* in respect of any expenses incurred by you in carrying out duties as a member, or towards your election expenses. This includes any payment or financial benefit from a trade union within the meaning of the Trade Union and Labour Relations (Consolidation) Act 1992.

*The relevant period is the 12 months ending on the day when you tell the Monitoring Officer about your disclosable pecuniary interests.

- Any contract which is made between you, or your spouse or your civil partner (or a body in which you, or your spouse or your civil partner, has a beneficial interest) and your council or authority –
 - under which goods or services are to be provided or works are to be executed; and
 - which has not been fully discharged.

- Any beneficial interest in land which you, or your spouse or your civil partner, have and which is within the area of your council or authority.
- Any licence (alone or jointly with others) which you, or your spouse or your civil partner, holds to occupy land in the area of your council or authority for a month or longer.
- Any tenancy where (to your knowledge) –
 - the landlord is your council or authority; and
 - the tenant is a body in which you, or your spouse or your civil partner, has a beneficial interest.
- Any beneficial interest which you, or your spouse or your civil partner has in securities of a body where -
 - (a) that body (to your knowledge) has a place of business or land in the area of your council or authority; and
 - (b) either -
 - the total nominal value of the securities exceeds £25,000 or one hundredth of the total issued share capital of that body; or
 - if the share capital of that body is of more than one class, the total nominal value of the shares of any one class in which you, or your spouse or your civil partner, has a beneficial interest exceeds one hundredth of the total issued share capital of that class.

If you attend a meeting at which any item of business is to be considered and you are aware that you have a **personal interest** in the matter which does not amount to a DPI, you must make verbal declaration of the existence and nature of that interest at or before the consideration of the item of business or as soon as the interest becomes apparent. You should leave the room if your continued presence is incompatible with the 7 Principles of Public Life (selflessness; integrity; objectivity; accountability; openness; honesty; and leadership).

You have a personal interest where –

- a decision in relation to that business might reasonably be regarded as affecting the well-being or financial standing (including interests in land and easements over land) of you or a member of your family or a person or an organisation with whom you have a close association to a greater extent than it would affect the majority of the Council Tax payers, ratepayers or inhabitants of the ward or electoral area for which you have been elected or otherwise of the Authority's administrative area, or
- it relates to or is likely to affect any of the interests that are defined as DPIs but are in respect of a member of your family (other than a partner) or a person with whom you have a close association.

Guidance on declarations of interest, incorporating regulations published by the Government in relation to Disclosable Pecuniary Interests, has been circulated to you previously.

You should identify any potential interest you may have relating to business to be considered at the meeting. This will help you and anyone that you ask for advice to fully consider all the circumstances before deciding what action you should take.

In certain circumstances the Council may grant a **dispensation** to permit a Member to take part in the business of the Authority even if the member has a Disclosable Pecuniary Interest relating to that business.

To obtain a dispensation, you must write to the Monitoring Officer at least 48 hours before the meeting in question, explaining why a dispensation is sought and desirable, and specifying the period of time for which it is sought. The Monitoring Officer may consult with the Independent Person or the Council's Audit and Standards Committee in relation to a request for dispensation.

Further advice can be obtained from Gillian Duckworth, Director of Legal and Governance on 0114 2734018 or email gillian.duckworth@sheffield.gov.uk.

Part 3 - Variation

Please tick as appropriate

Do you want the proposed variation to have effect as soon as possible?

Yes

No

If not, from what date do you want the variation to take effect?

DD	MM	YYYY

Do you want the proposed variation to have effect in relation to the introduction of the late night levy? (Please see guidance note 1) Yes No

Please describe briefly the nature of the proposed variation (Please see guidance note 2)

Under 'ANNEX 3' of our granted licence it states 'The premises must operate as a takeaway only, and no consumption at the premises.' We would like to change this to be a seated restaurant with up to 24 guests. Our Fire Risk Assessment states that based upon our seating arrangement and distance to fire exits, we are permitted to have up to 30 guests with 7 members of staff inside the restaurant. So we feel we can safely serve 24 guests, which should meet all H&S regulations.

Under 'ANNEXES continued...' (.2, Page 7), it states 'All windows and doors will be kept closed at all times to prevent noise nuisance'. We would like this changed to allow us to open our front door and bi-fold doors, so that especially in the summer months we can do so to extend our service to the tables on our front area. Please see the next point for an explanation of our plans to reduce any noise nuisance.

Under 'ANNEXES continued...' (.3, Page 8), it states that 'No loudspeakers shall be fixed externally nor directed to broadcast sound outside the building at any time.' We would also like to change this to allow us to play recorded sounds through our speakers both internally and externally. Because of the bi-fold doors we have at the front of the building, even without an external speaker, the sound may travel on the street immediately outside. So we have installed a system that allows us to control each speaker individually, meaning the external speaker can independently switched off. We are intending to play relaxing styles of music such as lounge Jazz to create an ambience for our guests, at a background level. We can also stipulate that the bi-fold doors shall be closed, with the outdoor speaker switched off by 10pm, so we do not cause any late night nuisance on Ecclesall Road.

We are planning on functioning as a peaceful, fine dining restaurant with seated guests only. (we will not be using our bar area for standing guests). We have created a purely non-alcoholic drinks menu, boasting a large range of non-alcoholic cocktails, wines and beers, that will offer something unique to Sheffield. However, even though we will not be serving alcoholic drinks, we can confirm that we will still adhere to the four main licensing objectives, which we will continue on during section 'M'. We are also working with Shield Safety to ensure all of our guests, staff and contractors are safe – For any more questions about our policies, please feel free to ask.

If your proposed variation would mean that 5,000 or more people are expected to attend the premises at any one time, please state the number expected to attend:

Please tick as appropriate

- I have enclosed the premises licence
- I have enclosed the relevant part of the premises licence

If you have not ticked one of these boxes, please fill in reasons for not including the licence or part of it below

Reasons why I have not enclosed the premises licence or relevant part of premises licence.

M Describe any additional steps you intend to take to promote the four licensing objectives as a result of the proposed variation:

a) General – all four licensing objectives (b, c, d and e) (please read guidance note 11)

Our general manager Rob Collins, has a personal licence, and has worked in and ran hospitality venues for a number of years. He will be overseeing the business and ensuring we are fully compliant and safe for all members of the public, staff and contractors.

b) The prevention of crime and disorder

As we have created a non-alcoholic drinks menu, many of the issues associated with the prevention crime and disorder section should be manageable. However, we will take a strong stance against drunkness, drugs and anti-social behaviour, as well as implying a Challenge-21 ID policy to prevent any underage drinking for our products containing non-alcoholic beverages.

We have a CCTV system in place that will store images for up to 30 days. Staff will be trained on conflict management. We will install/provide a litter bin, as well as maintain tidiness of our premises. We will contact the local Pub-Watch scheme to ensure we are up to date with any issues surrounding the Ecclesall Road area.

c) Public safety

As stated previously, our Fire Risk assessment states that we can hold up to 30 guests with 7 members of staff, which we shall never exceed. The venue has been laid out in a manner that allows free flowing traffic towards fire exits, and we will ensure good housekeeping is maintained to reduce the risk and any accidents. All guests shall leave the premises by the times stated in section 'L'.

We are working with Shield Safety for compliance, with the addition of CPL to train our staff on everything from manual handling to food safety and allergens. Using this system we have created a plethora of risk assessments, as well as obtaining all relevant testing and certification of the appliances and installed systems on site. This system prompts us when any repeated certification, or procedures are required (e.g. Gas Safety Certificate every 12 months etc).

d) The prevention of public nuisance

As stated, the recorded music we intend on play will be kept a low level intended for background ambience. Sound will not be projected from the building at all after 10pm, and our doors will be closed. Our operational times will be adhered to and notices will be put up on exits to ask the guests to leave in an orderly and quiet manner for local residents.

We would like to think the probability of violence or issues will be extremely low due to the nature of the business – calm seated restaurant with a non-alcoholic menu. An emergency lighting system is installed should there be any issues with power to building.

There is an adequate public transport system with many buses operation on Ecclesall Road, otherwise a taxi company will be recommended to our guests.

Staff will be trained on how to prevent public nuisance.

e) The protection of children from harm

Children will not be able to purchase or consume alcohol at the venue, and should not be exposed to drugs, gambling or adult activities or anything regarding a sexual nature.

A sufficient level of staff will be maintained to ensure the protection of children.

Appropriate training will be provided to staff to determine the age of our guests, and only the approved forms of ID such as 'Proof of Age' cards, Driving licences or Passports will be accepted.

As previously mentioned, we will imply a 'Challenge-21' policy for any of our beverages that include non-alcoholic products. F.A.O. Rob,

Further to our conversation. I understand the initial noise report has been completed by NoiseAssess and a further validation report will be produced in the coming weeks and forwarded for comment before the premises open.

With respect to my previous representation. I have no objection to the removal of the condition restricting the use of the premises as a takeaway:

- The premises must operate as a takeaway only, and no consumption at the premises

I am happy for the removal of the below condition about the windows and doors if my proposed conditions (with the amended noise limiter condition) are imposed on the new licence when granted.

- All windows and doors will be kept closed at all times to prevent noise nuisance'

The conditions to be accepted that I had previously proposed with an amended the noise limiter condition:

1. No amplified sound shall be played within the building except through an in-house amplified sound system fitted with a sound limiter, the design and settings of which shall have received the prior written approval of the Environmental Protection Service.

2. The bi-fold doors to the front shall be closed from 21:00hrs on any day of the week, and at any time when amplified sound is present in the building.

3. The outside area to the front of the premises shall only be used between 11:00-21:00hrs on any day of the week.

To remain in the Premises Licence:

- No loudspeakers shall be fixed externally nor directed to broadcast sound outside the building at any time.

If you are happy for the above 3 conditions to appear on your premises licence when granted then reply back with your agreement and reply to all.

Licensing officer,

I trust the above makes sense, but if need any further clarification please reply to this email

Subject: Application to Variation the Premises Licence at - 7 Seas Restaurant, 285 Ecclesall Road

This emailed representation is made in accordance with the agreement with the Licensing Authority on the 18th October 2006 to accept representations by email.

I have the following representation to make with regards to Public Nuisance for the application to vary the premises licence for the above premises.

The premises are located in close proximity to residential accommodation. I am therefore concerned that nearby residents could potentially be affected by excessive noise disturbance from the use of the premises, noise breaking out of the premises and noise from people outside the venue.

I note the premises has of a change of use planning application (20/00868/FUL | Use of retail unit (Use Class A1) as a restaurant and take-away (Use Classes A3 and A5) with alterations to front elevation - including erection of single-storey extension to shopfront, ramp and outdoor seating space- and flue to rear (Amended Description). The consent for this change of use replicates some of the conditions which are seeking to be removed under this licence variation. The planning consent also includes conditions relating to the need for a noise survey to be produced and a validation of the works recommended in the noise survey to protect nearby residents from potential noise issues once the change of use takes place. It is unclear if this permission has been implemented, but I cannot see any submission of the required noise surveys.

I will have to object to the removal of some of the conditions proposed in the application:

The first condition proposed to be removed - requiring the premises to operate as a takeaway. I will accept this condition being removed if appropriate safeguards are put in place to protect nearby residents from noise. I note that there is already a requirement for a noise survey and validation report on the current premises licence, but neither of these reports have been submitted for approval.

The second condition seeking to be removed from the licence relating to the opening of windows and doors I would comment that having amplified sound within the building and opening doors or windows will allow the sound to escape I would therefore be reluctant to remove this condition without alternative safeguards being put in place. I would therefore propose that the below conditions are added if the existing is to be removed:

- No amplified sound shall be played within the building except through an in-house amplified sound system fitted with a sound limiting facility capable of limiting the sound level output of the system to a pre-set level which may then be secured in a tamper-resistant manner, the design and settings of which shall have received the prior written approval of the EPS.
- The bi-fold doors to the front shall be closed from 21:00hrs on any day of the week, and at any time when amplified sound is present in the building.
- The outside area to the front of the premises shall only be used between 11:00-21:00hrs on any day of the week.

The third condition seeking the removal of the condition to prevent speakers outside the premises is not something I would consider and the condition should remain in place.

If the applicant would like to consider the replacement of the conditions currently on the licence with those proposed above or have alternative suggestions which would achieve the same I'm happy to discuss the matter further. If you need further clarification, or you are happy to accept the proposed conditions or any alternatives then please reply to this email.

Jon.

20/5/22

FAO Robert Collins (manager) & Mr Ata Izadi (licence applicant)

Dear Mr Collins and Mr Izadi

SRU 704934: Variation of Premises Licence: 285 Ecclesall Road, Sheffield, S11 8NX

Thank you for sending the asbestos management plan and electrical certificate.

I refer to my meeting on 20 May 2022 at 12:30hrs with Mr Collins and owners Jwan Butimar and Hadi Butimar regarding the application concerning the above premises. I regret to inform you that as the responsible authority in respect of Public Safety at the present time I have no alternative than to make a formal representation due to the proposed layout and arrangements shown on the plan which are unsatisfactory.

As we discussed I am concerned that the premises design is not in accordance with the plan submitted.

These are the matters of concern:

1. Access Ramp

The access ramp to the premises has not been built in accordance with the submitted plan and does not meet current building regulation standards agreed as part of your planning permission.

- *There is no landing between the top of the ramp and the entrance door.*
- *The ramp is 1100mm wide compared to the minimum surface width of 1500mm needed to meet current standards*
- *The gradient appears to be significantly in excess of a 1:12 gradient. (approx. 1:50)*

The design of the ramp was brought to the attention of your architect Mike Leigh, Time Architects (letter/email ref: 13th July 2020 20/00868/FUL by Mathew Ridge, Principle Planning Officer and amended drawings were submitted by your architect incorporating 'a corrected entrance ramp of 1500mm wide with compliant handrails, and 1:12 rake' (letter/email ref: 14th July 2020 20/00868/FUL.). The ramp is shown on the plan parallel to the front of the building with a level access landing in front of the door.

The ramp is dangerous in its current form and is not acceptable.

Please provide me with the contact details of your building control officer, James Bosworth. As discussed I will be raising this issue with planning.

2. Sanitary provision

The internal ambulant accessible toilet does not meet the requirement of BS8300-2 as submitted to planning by your architect. It is 900mm wide instead of 1200mm and the distance between the door swing and the toilet seat is 600 mm instead of 750mm. The width of the access space is narrowed further to 530mm by a large fitted mirror and deep sink.

- For small premises with less than 25 seats the sanitary appliance standard is one unisex wheelchair accessible toilet (as was brought to the attention of Ata Izadi at his previous application dated 3/11/2019) – I note that a compromise of an ambulant accessible toilet to BS8300-2 was submitted to planning so it is **disappointing** that you have chosen to compromised this **standard** further. The Councils Licensing **Policy** 2021 - 2025 on Venue Safety requires reasonable provision to be made under the Equality Act 2010 for people to access and use the building and its facilities. BS8300-2 and Building Regulations Approved Document **M** are particularly mentioned as **relevant** in that policy. I recommend that you consult your architect to discuss what improvement can be made.
- The internal fitments of the toilet will require grab rails as per the BS8300-2 and a call for assistance device.

(I note that you have an external toilet in the rear yard shared with an office building. I understand you expect your staff to use this external toilet – I refer to my previous comments regarding cleaning, maintenance and legal agreement with the landowner). The shared yard also includes a fire escape staircase from residential flats above the premises and would **not** be suitable for access by the public.

3. Restaurant and bar flooring

I understand the tiled floor fitted in the restaurant and bar has a slip resistance of R9 which is the most slippery of the R scale. I understand you have fitted the most slip resistant, R11 tiles in the kitchen of the premises.

- For licensed restaurants, cafes and any other similar premises, slip resistant flooring must be incorporated into the design for public areas and thoroughfares.

I understand you have treated the restaurant and bar tiles with a product to reduce its slipperiness. Slips trips and falls are the most significant causal factor in accidents in the catering and hospitality industries. I recommend you seek further advice to ensure this floor meets the equivalent of the pendulum wet test 36+ as determined by BS7976 for public areas and thoroughfares.

Further information on flooring is available at www.hse.gov.uk/slips/architects.htm

4. Kitchen fire exit

You have marked a fire escape route from the restaurant through the bar and kitchen which terminates at a fire door opening outwards directly over a step into the exit corridor from the yard. Whilst this exit may be suitable for staff I am of the opinion that this route is not suitable for members of the public and I will seek further advice from the fire officer.

5. Premises basement

I note that this area is being boarded out for use as a food storage area and contains a walk-in chiller. There is also a room for staff storage lockers and changing facility. This area is low ceilinged and accessed by a steep staircase. As such it is not suitable as a work area and I will seek further advice from the fire officer and building control. I understand a handrail to the staircase is to be refitted.

6. License conditions

I propose conditions to be attached to Annex 2 of the Licence with respect to public safety these would include:

- A Building Regulation Completion Certificate shall be submitted to the responsible authority for public safety prior to opening for business.
- A satisfactory Electrical Installation Certificate shall be submitted to the responsible authority for public safety prior to opening for business. (If an electrical condition report is provided it should cover 100% of the premises).

Please confirm you agree to these conditions.

Please advise me how you propose to address these issues so that we can hopefully resolve these matters.

Yours sincerely,

Elaine Cresswell

Hi Elaine,

- 1) We have located the asbestos survey completed DEC 2019, (Please find attached) - Which says we have no asbestos - Any issues, please let me know!
- 2) The ramp is 1800mm long, but is 1100mm wide, not 1500mm. As stated, James Bosworth has signed this off, and was in contact with our builder regarding the ramp at the time. Once we have the **Building Regulation Completion Certificate**, will this be ok?
- 3) In regards ambulant toilet inside, The toilet built does not meet the required measurements that you sent. Moving the wall over would have a detrimental affect of the workflow and layout of the restaurant, meaning there would not be enough space between tables for our staff and customers to safely walk through, should there ever be an emergency.
Inside Toilet Measurements - 100CM (W) - Distance of toilet to open door is 60CM
Therefore, we are going to use our outside toilet as the Accessible & Staff Toilet.
- 5) Please see attached a copy of the amended plan, stating the basement has 'No Access To Public).
- 6) The plan attached also has the amended 'Concrete Yard' showing where the staff/disabled toilet is situated.

Please let me know if there is any more issues. Feel free to call me on [REDACTED] any time :)

Thanks Rob

Hello Rob,

Thank you for your quick response and sorry this is a hasty reply.

Hopefully they will find a copy of the asbestos survey.

2) see attachment from the planning website – sorry I forgot to mention to put the address in the search bar to bring up the planning history.

- The screen shot document is the pre commencement agreement – I have screen shot the info on the ramp so should be this specification.

Great to hear Building regs are happy with it and nearly there for certificate.

3) re the ambulant accessible toilet – what dimensions do you have? Please send a photo of what you have in put in place. You could also ask the architect who specified this – see screen shot.

5) Basement – write clearly on your plan in black and send me a photo as you have done - I will forward to planning with agreed conditions.

6) If the staff outside bathroom is in your yard please mark it on the plan – you can hand draw its location and annotate as above.

I hope to hear about the asbestos management plan early next week then I can arrange to visit.

Hi Elaine,

1) We are waiting on a Solicitors to call us back regarding the Asbestos Survey. I've been assured one was completed Jan 2020. However the company Keebles that did it has been taken over by Knights, so this may take a bit of time for them to locate the file. We have also contacted the landlord, who is also looking for a copy of the Asbestos for the property.

2) It's taken me some time to work how what file I was supposed to be looking at for the ramp & handrail on the plan. Please see Image0 attached to confirm we are looking at the same thing? On this, I can see the handrail needs to be at a height of 900mm, which has been added parallel which the ramp. In terms of the ramp, I can't see any information on the details of it. Can you please clarify what you have seen, and what is required. James Bosworth from Building Regulations has accepted the ramp, he just needs the ventilation certificate from us before signing off the Building Regulation Completion Certificate.

3) Thank you for all the information you have provided regarding the ambulant accessible toilet, we are exploring our options with this, on what is the best solution moving forward.

4) I can confirm that our bins, the shop next door's bins, and the bins belonging to the occupants of the flat above the restaurant, will all be stored away from the rear fire exit in the 'Concrete Area', out back.

5) For the basement on the plan, Please see Image0 (1) attached. Are you asking for this section to show as 'no access for customers'? And if so, how would we go about adding a new plan to our application? The link you have sent me is dated 2020, I cannot see the variation application online that we submitted? To confirm, the door to our basement is located within a staff area, so should never be accessible for our guests - and we can put a notice on the door saying 'staff only' if required?

6) Good news in regards to the staff using the outside bathroom, On the plan submitted on the link you provided, the outside 'Concrete Yard' is shown as part of this property, so we would not need permission from the shop next door to use it. (Please see image0 (2) attached. We will ensure it remains clean and tidy, and we already have an account with PHS, so adding any additional sanitary bins etc will not be a problem. In regards to the additional toilet for staff (over 5), If we manage to extend one of the existing bathrooms to become the accessible bathroom. Then we can provide an additional toilet downstairs in the staff area of the basement. However, if we have to build an additional accessible toilet in the concrete yard, then we would give us a total of three toilets.

7) Yes we have already uploaded our Gas Safe Certificate to the Shield Safety system, If you would like me to send you a copy, please ask. All relevant testing such as PAT testing on equipment will be carried out before we open.

8) As mentioned earlier, we just need the ventilation to receive the Building Regulation Completion Certificate. I've been assured the electrical certificate has been completed, but the company hasn't sent it. We have contacted the engineer today, who is on holiday. So will receive this soon.

I will be on site from 9am tomorrow. Please feel to give me another call on [REDACTED] if you feel this would be easier to converse over the phone.

Thanks Rob

Dear Mr Collins

Further to my earlier email below, the access officer has said the ambulant standard will be acceptable.

The standard referred to by your employers architect is BS8300-2 **Design** of an accessible and inclusive built environment Part 2

These are the minimum dimensions:

- width of the WC cubicle - 1200mm
- length - there should be more than 750mm between the front of the WC pan and the door swing

For more information on the size/layout I suggest you contact your architect for advice.

Kind regards.

FAO Robert Collins & Mr Ata Izadi

Dear Mr Collins

SRU 704934: Variation of Premises Licence: 285 Ecclesall Road, Sheffield, S11 8NX

I refer to my telephone conversation with you on 11 May 2022 and thank you for your time.

To confirm:-

1. You are to locate and provide a copy of the asbestos management plan for the premise in place prior to refurbishment work.
2. The link to the planning permission Ref. No: 20/00868/FUL is here with details of the ramp and handrails
- <https://www.sheffield.gov.uk/home/planning-development/search-view-comment>
3. I have sent a request to our access officer for advice on the ambulant disabled WC.
4. I understand there is no access to the first floor flat direct from the restaurant although a fire escape staircase exits in the rear yard. Bins must not obstruct the fire escape route or be stored beneath it.

5. The basement is not **accessible** to customers and is to be used for staff changing and food **storage** only - no food preparation work.

The **basement** must be shown as no public **access** on your plan.

6. The office in the yard is rented to a third party but does not have a WC. I understand the staff use an outside toilet in the adjacent premise and it is proposed that staff from the restaurant will also use the outside yard facilities in the adjacent premises. This is not ideal. If this arrangement is to continue then you will need to arrange a legal agreement with the adjoining premises to the effect that the yard toilet facilities are to remain open throughout the **opening** hours of your premises and that they shall be maintained in a clean, decorated and tidy condition with hot and cold running water connected to the main drainage system, toilet paper, hand washing and drying facilities and sanitary **disposal** provision if they are used by female staff. If more than 5 staff share this toilet you will need to provide an additional toilet. This may be something that we may need to consider as a condition on the licence. You may wish to consider providing a WC in the office suite.
7. I understand that cooking facilities are gas and you have gas safe certification and provision for maintenance of gas appliances and extract ventilation.
8. I propose conditions to be attached to Annex 2 of the Licence with respect to public safety these would include:
 - A Building Regulation Completion Certificate shall be submitted to the responsible authority for public safety prior to opening for business.
 - A satisfactory Electrical Installation Certificate shall be submitted to the responsible authority for public safety prior to opening for business. (If an electrical condition report is provided it should cover 100% of the premises).

Once I have received your asbestos management plan, I would like to arrange a visit.

I look forward to hearing from you soon.

Yours sincerely,

Dear Mr Izadi

SRU 704934: Variation of Premises Licence: 285 Ecclesall Road, Sheffield, S11 8NX

I represent Sheffield City Council's Health and Safety Enforcement Team in the Health Protection Service as Responsible Authority for Public Safety for this application. I have reviewed your application and would appreciate further information from you. Please could you give me a call to discuss the following:-

General

- Do you have an asbestos management plan and identified if there is any asbestos in the building prior to carrying out alterations?
- Establishments with up to 25 seats should provide one wheelchair accessible unisex toilet, which may be used by both staff and customers. The toilet shown does not appear to be wheelchair accessible – what are the dimensions of the room?
- A ramp is shown to the front of the premise and the text refers to access steps. What are the dimensions of the steps forming the access to the premises and where are they situated?
- Your plan shows a staircase to the first floor and a basement floor from the servery. Who has access to these areas and what are the functions of the rooms above and below? What are the dimensions of the stairs?
- Who has access to the office in the yard?

Kitchen

- Do you have gas appliances?
- Where is the inlet for the fresh air? Is there an openable window or louvre in the front of the premises and kitchen for example?
- Have you had any electrical works done in the premises – for example a full rewire, or have you had the electrics checked throughout and have an electrical condition report covering 100% of the premises?

We will need to discuss possible conditions to be attached to Annex 2 of the Licence with respect to public safety these would include:

1. A Building Regulation Completion Certificate shall be submitted to the responsible authority for public safety prior to opening for business.
2. A satisfactory Electrical Installation Certificate shall be submitted to the responsible authority for public safety prior to opening for business. (If an electrical condition report is provided it should cover 100% of the premises).

I attach our guidelines for Health and Safety in Licensed Premises. I would like to draw your attention to flooring (pg. 2), disabled access, accessible WC, capacity and structural matters.

My phone number is 0114 474 1449

Yours sincerely
