## Appendix 2 – Address list for the wider consultation area

This is a list of the properties in the wider consultation area (bordering the Selective Licensing area); it does not include the addresses for the proposed Selective Licensing area itself, they are listed separately. The consultation area includes all the properties within the ranges shown, both odds & evens unless stated otherwise, and including any properties geographically within the range which may not have numbers.

Where streets are marked 'All' in a few cases some of the corner properties are within the proposed Selective Licensing area itself and will be fully consulted on this basis, rather than receiving the shorter questionnaire which is for the wider consultation area.
