Cross-Portfolio

• Yes O No

Portfolio

CEX, Resources

Is the EIA joint with another organisation (eg NHS)?

○ Yes ● No

Brief aim(s) of the proposal and the outcome(s) you want to achieve

To authorise officers to request a review of the local authority boundary at the Oughtibridge Mill housing development, and to agree interim arrangements for service delivery to affected properties.

Impact

Under the <u>Public Sector Equality Duty</u> we have to pay due regard to the need to:

- eliminate discrimination, harassment and victimisation
- advance equality of opportunity
- foster good relations

More information is available on the <u>Council website</u> including the <u>Community Knowledge</u> <u>Profiles</u>.

Note the EIA should describe impact before any action/mitigation. If there are both negatives and positives, please outline these – positives will be part of any mitigation. The action plan should detail any mitigation.

Overview

Briefly describe how the proposal helps to meet the Public Sector Duty outlined above

By aligning service delivery responsibilities and democratic arrangements with natural communities, this proposal will potentially encourage people from protected groups to participate in public life.

Otherwise this project is an administrative change, aiming to ensure that all households in Oughtibridge receive the same services, have the same level of representation and access to democratic processes affecting their area, and make contributions to local services on the same basis. As a result, our judgement is that there are no significant disproportionate equality impacts arising from this work.

Action Plan and Supporting Evidence

Action Plan

This project is an administrative changed, aiming to ensure that all households in Oughtibridge receive the same services, have the same level of representation and access to democratic processes affecting their area, and make contributions to local services on the same basis. As a result our judgement is that there are no significant equality impacts arising from this work, and no need for an action plan.

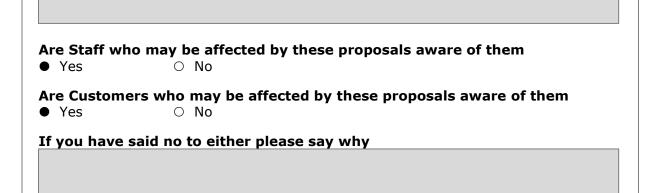

Supporting Evidence (Please detail all your evidence used to support the EIA)

N/A

Consultation

Consultation required ● Yes ○ No

If consultation is not required please state why

Summary of overall impact

Summary of overall impact

There are no expected impacts from this project.

Summary of evidence

N/A

Changes made as a result of the EIA

None.

Escalation plan

Is there a high impact in any area? ○ Yes ● No

Overall risk rating after any mitigations have been put in place \bigcirc High \bigcirc Medium \bigcirc Low \blacklozenge None
