

## HEALTH AND WELLBEING BOARD PAPER FORMAL PUBLIC MEETING

---

**Report of:** Ruth Brown

---

**Date:** 14/06/22

---

**Subject:** Children and Young People – Overview from the Children’s Health and Wellbeing Transformation Board

---

**Author of Report:** Kate Gleave

---

### Summary:

This paper outlines the work that the Children’s Health and Wellbeing Transformation Board has focused on over the last couple of years and it provides the Board with an overview of key aspects of children and young people’s health, wellbeing and service provision.

It sets out some proposed arrangements for the governance of children and young people’s transformation work and it also proposes some questions and recommendations for the Board to consider.

---

### Questions for the Health and Wellbeing Board:

- How do we raise the profile of children and young people within the HWB?
- What support would the Board like from children and young people partners to ensure that it is sighted on the breadth of activities and issues?

### Recommendations for the Health and Wellbeing Board:

The Board are recommended to:

- Note the children and young people context and update

- Endorse the principle of shifting resources into the areas of greatest children and young people need

**Background Papers:**

N/A

---

**Which of the ambitions in the Health & Wellbeing Strategy does this help to deliver?**

This work helps to deliver most of the ambitions in the Health & Wellbeing Strategy directly or indirectly, but the greatest impact is on:

Ambition 1: Every Child achieves a level of development in their early years for the best start in life

Ambition 2: Every child is included in their education and can access their local school

Ambition 3: Every child and young person has a successful transition to adulthood

**Who has contributed to this paper?**

SCC colleagues
