

Matthew Reynolds
Transport Planning and Infrastructure Manager
City Growth
Sheffield City Council

17 November 2022

Dear Matt,

Following discussion at the SYMCA Enhanced Partnership Operations Group meeting where you outlined Sheffield City Council's proposal to apply for the necessary powers enforce moving traffic offences, we write to fully support this.

Such action would be very welcome as it will assist the punctuality and reliability of our services, which we know from customer research is absolutely key in attracting and retaining bus users. Measures that speed up buses and reduce journey time variability are vital as traffic levels post-COVID have increased. This is an area where direct action can help mitigate the negative impacts of worsening congestion and encourage modal shift, thereby improving air quality and reducing congestion for the benefit of all in the local communities.

Yours sincerely,

John Young
Commercial Director
