# Pathway 1

Update on Discharge Programme Delivery  
May 2024

**Sheffield**  
City Council  
Plan 2024-28

**Together we get  
things done**

# System Discharge Data and System Visibility

- Discharge Planning Tool – a single IT System that presents relevant discharge planning information to a multi-discipline, multi-partner team to effectively have a live view of information needed to manage patient discharges.
  - Agreement for tool as a priority taken to Executive leads for sign-off and sponsorship.
  - High Level Technical proposal created and shared with partners
  - ICB agreement that they will create the tool and be responsible for federation of the data
  - Agreement with STH on the data object required from them.
  - Data governance diligence started and agreed in principle (STH, SCC, ICB). DPIA and Data Processing Agreement to be created.
