

Initial Assessment

Category	Impact	Description of Project Impact	Score
Buildings and Infrastructure	Construction	Associated with the Innovative Housing Project is the increase in affordable housing supply by The Royal Foundation with City-Wide Coalition Support. These are likely to be retro-fit than new build, however some of this is yet to be determined. When identifying and mobilising new stock consideration will be provided for low carbon living.	5
	Use	Associated with the Innovative Housing Project is the increase in affordable housing supply by The Royal Foundation with City-Wide Coalition Support. These are likely to be retro-fit than new build, however some of this is yet to be determined. When identifying and mobilising new stock consideration will be provided for low carbon living.	5
	Land use in development	Associated with the Innovative Housing Project is the increase in affordable housing supply by The Royal Foundation with City-Wide Coalition Support. These are likely to be retro-fit than new build, however some of this is yet to be determined. When identifying and mobilising new stock consideration will be provided for low carbon living.	5
Transport	Demand Reduction		NA
	Decarbonisation of Transport		NA
	Public Transport		NA
	Increasing Active Travel		NA
Energy	Decarbonisation of Fuel		NA
	Demand Reduction/Efficiency Improvements		NA
	Increasing infrastructure for renewables generation		NA
Economy	Development of low carbon businesses		NA
	Increase in low carbon skills/training		NA
	Improved business sustainability		NA
Influence	Awareness Raising		NA
	Climate Leadership		NA
	Working with Stakeholders	Homewards is not led by Sheffield City Council, but by a City-Wide Coalition of partners. Community Engagement on Climate Change will be led by The Royal Foundation with the City-Wide Coalition support.	6
Resource Use	Water Use		NA
	Food and Drink		NA
	Products		NA
	Services		NA

10	The project will significantly increase the amount of CO2e released compared to before.
9	The project will increase the amount of CO2e released compared to before.
8	The project will maintain similar levels of CO2e emissions compared to before.
7	
6	
5	The project will achieve a moderate decrease in CO2e emissions compared to before.
4	
3	The project will achieve a significant decrease in CO2e emissions compared to before.
2	
1	The project can be considered to achieve net zero CO2e emissions.
0	
Carbon Negative	The project is actively removing CO2e from the atmosphere.

Waste	Waste Reduction		NA
	Waste Hierarchy		NA
	Circular Economy		NA
Nature/Land Use	Biodiversity		NA
	Carbon Storage		NA
	Flood Management		NA
Adaptation	Exposure to climate change impacts		NA
	Vulnerable Groups	Homewards mission to end homelessness - making it rare, brief and unrepeated. Homewards Coalition to identify needs and support resources for those impacted in severe weather conditions.	6
	Just Transition	Homewards mission to end homelessness - making it rare, brief and unrepeated. Homewards Coalition to identify needs and support resources for carbon mitigation measures e.g. active travel.	6
